EMPLOYABLE SKILLS CERTIFICATES

Various departments offer students the opportunity to gain fundamental skills in a career field by completing an intensive course or set of courses. Upon successful completion of one of these programs, the student will receive a department-issued certificate. These programs differ from the college's official certificates of achievement in that they are short-term, cover a more narrow area of study, and are not recorded on the student's transcript. These programs are coordinated by the individual departments. Interested students should contact the specific department for further information.

APPLIED ANTHROPOLOGY

The certificate in Applied Anthropology provides students with the methods, perspectives, and case studies necessary in understanding the applications of anthropology to contemporary settings. The specializations of Applied Anthropology include organizational anthropology (focused on understanding the methods of problem-solving and conflict resolution in complex organizations), medical anthropology (focused on developing insights on the cross-cultural contexts of healing and healthcare), development anthropology (focused on the legacy of economic and cultural systems and the contexts of policy and technological applications of anthropology in field settings), and cultural resource and land management (focused on making connections between archaeology, conservation and land use, and resource policy). For further information about this program, contact the Anthropology department at extension 316.

CERTIFIED BOOKKEEPER

The American Institute of Professional Bookkeepers (AIPB) has established a national professional certification, the Certified Bookkeeper (CB) credential, a professional standard for working bookkeepers. By successfully passing tests that cover six subjects, signing a code of ethics, and demonstrating two years' experience in bookkeeping, students earn the right to put "CB" after their name. The experience requirement may be completed before or after the national examination.

National certification distinguishes students from other bookkeepers because it proves that they have met high national standards and demonstrated the ability to handle all of the books for a small- to medium-sized business. Lake Tahoe Community College offers the following three courses which can be completed in one academic year to help students prepare for this national certification. For further information about this program, contact the Business department at extension 263.
