

The SLO/Assessment Committee looks for these questions to be answered in your narrative. Each course then is graded using the rubric below.

1) Was instructor satisfied with the results of each Student Learning Outcome? Or Not? If so, why not?

2) Did the assessment method that you chose work? Why or why not?

3) Will you change anything next time you teach this? Is there anything you need in order to make this effective change? Resource allocation?

4) If assessed before and expectations were not met or recommendations were made, how were they implemented this assessment cycle? How is this course showing continual improvement?

5) How have you dialogued with your department about these results? How and when? If not yet, what are your plans?

Course:	Term:
Was the assessment complete?	
If assessed previously, does it address the previous assessment?	
Dialogue with department?	
Resource need?	
Additional comments?
