ACCREDITATION

Lake Tahoe Community College is fully accredited by the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges, 10 Commercial Blvd., Suite 204, Novato, CA 94949, (415) 506-0234, an institutional accrediting body recognized by the Council for Higher Education Accreditation and the U.S. Department of Education.

The University of California, the California State Universities, and other accredited colleges and universities give full credit for equivalent and transferable courses satisfactorily completed at Lake Tahoe Community College.

The College has been approved by the Board of Governors of the California Community Colleges and the State Department of Education. The College is also approved by the California State Approving Agency for Veterans Education for veterans' training and benefits.

ACADEMIC FREEDOM

Academic freedom and academic responsibility are inseparable. Academic freedom is the right of instructors in their area of expertise to teach, conduct research and to communicate one's knowledge to the academic community openly, honestly and without interference. Academic responsibility is the acceptance on the part of the instructor while teaching, researching and communicating, to do so in such a manner as not to bring discredit to the College, profession or community.

MISSION STATEMENT

Our Mission

Lake Tahoe Community College promotes learning and enrichment for our students and community through exemplary educational experiences provided in a uniquely supportive environment.

Our Vision

Lake Tahoe Community College will provide outstanding educational opportunities for every student in a personal learning community.

Guided by our commitment to learning, we will be known for our innovative instructional programs delivered in a student-oriented environment.

Academic excellence and strong community partnerships will afford our students the experiences necessary for their future.

Our Beliefs

We at Lake Tahoe Community College believe:

- Students come first.
- An educated citizenry is fundamental.
- Learning enhances the quality of life.
- Innovation, integrity, high standards and the pursuit of excellence are essential.
- Diversity enriches.
- We make a difference.

Our Goals

Lake Tahoe Community College exists to meet the post-high school educational needs of the citizens of its district. The college places the student at the center of its four primary goals:

- To provide counseling, guidance and special assistance to individuals so that they may recognize and direct their special abilities, needs and interests.
- To offer courses designed to satisfy the lower division requirements of four-year institutions.
- To offer courses designed to provide direct employment in business, industry and public service agencies.
- To offer classes, programs, and special services through which all persons in the community may broaden their educational and vocational potential and enhance their personal and cultural development.

W elcome to LTCC...

Like the Mountain

Love the College

Join the Nation.

LT Nation

Set at 6,229 feet above sea level, Lake Tahoe Community College, located in the heart of South Lake Tahoe, is the highest altitude college in California. The staff and faculty are also dedicated to providing the highest quality education. Combine the surroundings with the LTCC campus and what you get is a world-class educational experience.

Start here, go anywhere

At LTCC you won't get lost in the crowd. We are small enough that our students get to know their instructors on a first name basis and leave prepared for the challenges ahead.

LTCC has transfer admission agreements with schools like UC-San Diego, UC-Santa Barbara, UC-Davis, UC-Santa Cruz, UC-Irvine, UC-Riverside, UC-Merced and Sonoma State University. These programs guarantee admission to students who fulfill the requirements. LTCC sends students to public and private universities across California and around the nation.

Tuition for a full-time student at LTCC is \$600 a year. For the CSU system, annual in-state tuition is \$3,600 a year, and for the UC system, it is \$7,446 a year. Students save thousands of dollars at LTCC on their four-year degree.

Top notch academic resources

The college offers state of the art "smart" technology in classrooms, approximately 200 computers are available to students, including two PC labs, one Mac lab, an Internet café, computer stations and wireless access in the library. A new 27,000 square foot library and art gallery opened

in September 2006. The campus offers a first class gymnasium and fitness center and a culinary facility and dining hall/student center both constructed in 2002.

It's the environment

Outdoor recreation is year-round at Lake Tahoe. Students are within minutes of three ski resorts, with 12 others to choose from around the lake. Summer brings water sports, fishing, camping and an extensive network of hiking and mountain biking trails. The sun shines an average 75 percent or 274 days a year giving students plenty of chances to get out and explore the Sierra Nevada.

LTCC's first classes were held in a converted motel.

Building a college

Lake Tahoe Community College's first classes were held in a converted motel on U.S. Highway 50 in the fall of 1975. A total of 119 classes were offered to 1,407 students. The graduating class of 1976 consisted of 11 students.

Today the campus is located on 164 acres in the midst of the beautiful Tahoe forest. Approximately 3,000 students come through the doors each quarter.

It took almost ten years after purchase of the land from Shell Oil Company in 1979 for the first phase of the college's master plan to be completed. Classes started at the college's permanent location in 1988. After successfully seeing through the construction, Dr. James W. Duke, the founding president of the college, retired in 1990. Dr. Guy Lease was selected as his successor. After 17 years of exemplary service and overseeing the construction of

several new building phases of the college, Dr. Lease retired in 2007. The college's board of trustees hired Dr. Paul T. Killpatrick in July 2008 as the college's third president.

Brick and mortar

The college grew through the 1990s with the completion of a Child Development Center, Technology Wing, College Theatre, additional classrooms, and Learning Support Complex. The 21st century brought a new era of building to LTCC. In 2002, the Physical Education building and Student Center opened. The 26,000 square foot Physical Education building includes a gymnasium, fitness education center, dance studio, and locker rooms. The culinary arts program moved into its own teaching kitchen in the 10,000 square foot Student Center. The center's café and fine dining area look out on a meadow through ceiling high windows. The café offers six Internet terminals.

In 2006, the campus opened its 27,000 square foot library and art gallery. Students can do research, study and connect from their own laptops to a wireless network throughout the building. Along with the increased book and periodical space the library offers a large reading area, computer and study stations, group study rooms, a new "smart" classroom and a large meeting room available for college needs and community use. The Haldan Art Gallery, which opened in January 2007, features student work and nationally recognized artists from outside the area.

The campus has grown and so have LTCC's educational opportunities. Today LTCC has 40 full-time and approximately 160 adjunct faculty members. In addition to the quality programs for traditional students, LTCC has expanded its vocational offerings and innovative summer programs. The Intensive Spanish Summer Institute (ISSI) draws more than 600 students from across the United States for a one-week immersion in Latino language and culture. LTCC's fire academy, an accredited regional training program, prepares students for Firefighter I certification. Through LTCC's study abroad department students can spend a quarter studying in locations like Italy, Spain, and Peru. Students can take shorter trips to countries like Ecuador, Mexico, Greece, Scotland, and other destinations.

Lake Tahoe Community College continues to adapt and change to meet the needs of the community and its students. Lake Tahoe provides the environment, LTCC provides the education. Join the Nation.

WELCOME FROM THE PRESIDENT

Welcome to the LT Nation.

You are joining a student body that is committed to making a difference, not only here at Lake Tahoe Community College but in the local and global community. Your college experience can be a banquet of opportunities and experiences. LTCC is a place where things happen and we are here to help you achieve your academic goals.

LTCC offers students the courses and skills to successfully transfer to a four-year university, train for a new career, or just continue a lifetime of learning. With our small class sizes and our faculty's commitment to student success your experience will be an individual one. At LTCC, students are encouraged to find their own voice. If you have an idea or a goal and can find a small number of like-minded individuals you can form a student club. This past year alone students have started a Rotaract Club, Future Business Leaders of Tahoe, and a sustainability club devoted to recycling.

LTCC provides a wide variety of services to help you get the most out of your time here. Student Services provides counseling, financial aid services, assessment testing, and career and transfer planning. The Tutoring and Learning Center offers learning support. We strive every day to provide outstanding educational opportunities for every student.

Congratulations on your choice and I encourage you to take full advantage of all the campus and community have to offer. Be a part of the Nation, get involved and make a difference. I'll see you around campus.

A WELCOME FROM THE BOARD OF TRUSTEES

On behalf of the Board of Trustees, welcome to Lake Tahoe Community College. Whether your interest is transferring to a four-year university, changing your career, updating your job skills, or just continuing on with a lifetime of learning, LTCC provides an incredible educational enrichment opportunity.

We believe that learning enhances quality of life and to support that belief the college provides an abundance of cultural and learning outlets for the citizens of Lake Tahoe. We are truly the community's college.

Our outstanding faculty and staff are most interested in your success and are ready to help you begin or renew your educational experience at LTCC. With our small class sizes averaging 15 students per class, the personal attention of our faculty contributes to the success of our students.

This catalog is one tool to help you start on your college career, but we encourage you to take advantage of the many student services the college offers. Make an appointment to meet with a counselor, fill out an application for financial aid, and once you are enrolled, take full advantage of the tutoring and learning center. This is your college and as our mission statement says "Students come first."

Welcome and best wishes for a wonderful college experience!

LAKE TAHOE COMMUNITY COLLEGE

F FOUNDATION

Foundation Board of Trustees, back row, L-R: Joe Tillson, Ryan Forvilly, Michael Ward, Jeff Tillman, Kerry David; Middle Row, L-R: Daunelle Wulstein, Diane Bisbee, Melonie Guttry - Executive Director, Nancy Specchio, Nancy Gardner; Front Row, L-R: Ron Alling - President, Adele Lucas, Paul T. Killpatrick, Ellen Dauscher

To work for educational excellence by assisting and encouraging investment in the development and growth of educational opportunities at Lake Tahoe Community College.

Lake Tahoe Community College Foundation was established in 1995 to encourage support and investment in educational opportunities at Lake Tahoe Community College. The Foundation's volunteer Board of Directors has worked diligently to raise more than \$2.7 million for the college since its creation. This support has increased cultural programs, provided equipment and technology, instructional support, staff development, and the Haldan Art Gallery. More than \$600,000 in scholarships has been awarded to support our students' endeavors and help bring the cost of higher education within reach. More than \$500,000 was set aside to establish an endowment fund to provide for the long-term benefit of our campus and students.

In the coming years the Foundation Board of Directors will focus on strengthening the financial future of Lake Tahoe Community College. We will create new programs to encourage support and connect with our community. We will honor our students by highlighting their accomplishments and celebrating their achievements.

In June of 2009, we will honor our first Distinguished Alumni, a person who has accomplished exemplary achievement in his or her particular endeavor in life, which encompasses academic, business, professional and civic activities. We hope that this recognition will serve as inspiration for future LTCC students and cultivate a tradition of excellence, honor, and success.

Although the fundraising challenges ahead are numerous, we move forward with proven success. With the help of our community we will invest in the College as a critical community resource, inspire hope for tomorrow, and foster optimism and direction for future generations to come.

If you would like to donate to Lake Tahoe Community College Foundation, please contact Melonie Guttry, Foundation executive director at (530) 541-4660 x245 or email: guttry@ltcc.edu. Nominations for the Distinguished Alumni award may be made now through March 1, 2010 and can be found on the Foundation's website: www.ltcc.edu.

"I find Lake Tahoe Community College to be like family. It's small enough that you really get to know everyone, the faculty, staff, and students."

Alexandra Aguila, 19

South Lake Tahoe native, is studying business with a concentration in marketing. She plans to transfer to San Francisco State University. Aguila, a member of the Associated Student Council, designed the logo for the college's new outreach campaign, LT Nation.

Admissions & Registration

Admission to Lake Tahoe Community College is governed by the laws of the State of California and such regulations as have been prescribed by the Board of Governors of the California Community Colleges and the Lake Tahoe Community College Board of Trustees.

Admission Information

ADMISSIONS

Room A102, Ext. 211

To gain admission to the College, an applicant:

1. Shall complete a college application which is available online at www.ltcc.edu;
2. Is invited to furnish transcripts of college work accomplished at institutions other than Lake Tahoe Community College;
3. Is invited to submit high school transcripts as an aid to counseling. Submission of these records is voluntary.

ELIGIBILITY

Lake Tahoe Community College welcomes all high school graduates, and persons 18 years of age or older who no longer attend high school nor are high school graduates, but can benefit from the community college experience.

Students Enrolled in Kindergarten Through Grade 12

Students enrolled in grades 9-12 may be considered for enrollment at LTCC for the purposes of advanced scholastic or vocational work. The recommendation is subject to approval by the college counselors, and requires parental or guardian consent, and meeting conditions of agreement with the school or school district. Some courses may have restrictions based on age, grade level, or assessment standards and as a general rule, students in grades K-8 are not eligible to enroll in Lake Tahoe Community College courses. Recognizing that some especially advanced students might benefit from access to college courses, exceptions may be considered for students in grades K-8. For further information about the process required to consider such exceptions, contact Student Services at studentservices@ltcc.edu.

RESIDENCE REQUIREMENT

Any student 18 or over who has had legal residence in California for one year or more immediately preceding the first day of the quarter or any student under 18 whose parents or guardians have had legal residence in California for one year or more immediately preceding the first day of the quarter may be admitted to the College.

NEVADA GOOD NEIGHBOR POLICY

This policy is a prescribed means by which "Nevada residents may attend Lake Tahoe Community College paying a reduced out-of-state rate per unit."
California Education Code 76140(i)(j)(k)

**Note: A limited number of students are approved for the special rate each quarter. For enrollment purposes, "Nevada resident" refers to students who have lived in Nevada for one year and one day prior to the first day of the quarter, or who have lived in Nevada for less than one year directly from California where they lived for at least one year. Eligibility to establish Nevada residency is determined by Admissions & Records based on a review of information submitted by the student.*

OUT-OF-STATE RESIDENTS

Out-of-state students may be admitted to the College.

NONRESIDENT TUITION EXEMPTION

California Education Code, Section 68130.5 created an exemption from payment of nonresident tuition for certain nonresident students who have attended high school in California for a minimum of three (3) years, and received a California high school diploma or its equivalent. Students exempted from paying tuition pursuant to section 68130.5 do not become residents for eligibility purposes for any state-funded program (e.g., EOP&S or for purposes of a BOG Fee Waiver). For more information regarding the specific regulations and provisions of this exemption please contact the Admissions and Records Office, Room A102.

INTERNATIONAL STUDENTS

International students may be admitted to Lake Tahoe Community College in accordance with Board of Trustees' policy. Applicants must:

1. Provide transcripts showing completion of the equivalent of an American high school education with satisfactory grades;
2. Have command of the English language as demonstrated by a TOEFL paper-based (Test of English as a Foreign Language) score at 500 (or equivalent), a computer-based score of 173, or an Internet-based score of 61;
3. Present evidence that they have the necessary funds to pay all living expenses while at the College and transportation to and from their native country—this evidence must include the source of support, relationship of source of financial support to student, and official verification from the bank or financial institution;
4. Provide evidence of a recent physical examination including a tuberculosis screening;
5. Intend to obtain a student visa (not a visitor's visa);
6. Provide evidence of medical coverage to cover the term of stay in this country;
7. Send a handwritten letter in English stating educational goals and objectives; and
8. Complete the International Student Admission Application and pay the application fee of \$100.

After a student has completed all of the above items and returned all of the required forms, the admission file will be reviewed and a notice sent indicating either acceptance or denial of admission. Upon arrival students must make an appointment with the international student advisor for academic advising. Additional information can be obtained from the International Education Office or at www.ltcc.edu.

OPEN ENROLLMENT & NON-DISCRIMINATION

Open Enrollment

It is the policy of the Lake Tahoe Community College District that, unless specifically exempted by statute, every course, course section or class, the enrollment of which is to be reported for state aid, whenever offered and maintained by the District, shall be fully open to enrollment and participation by any person who has been admitted to the College, and who meets such prerequisites as may be established pursuant to regulations contained in Article 2.5 (commencing with Section 55200) of Subchapter 1 of Chapter 1 of Division 6 of Title 5.

Non-Discrimination

It is the policy of the Lake Tahoe Community College District not to discriminate on the basis of race, sex, physical handicap, religion, color,

creed, national origin, language, or age in any of its educational and employment programs, activities, policies, practices and procedures. Any questions regarding this policy should be referred to the Vice President, Academic Affairs and Student Services.

Registration Information

SCHEDULE OF CLASSES

Lake Tahoe Community College publishes a *Schedule of Classes* four times a year: prior to the beginning of fall, winter, and spring quarters and summer session. Each *Schedule* contains a listing and description of the courses to be offered during the term and includes the class meeting days and times, room locations, and instructor. Other valuable information is provided in the *Schedule of Classes* such as registration instructions, explanation of enrollment fees, financial aid guidelines, important deadlines, and campus maps. These *Schedules* are available on campus in the offices of Admissions and Records, Student Services, and Instruction. Additionally, schedules are available online at www.ltcc.edu.

Courses listed in the quarterly *Schedule of Classes* are offered on a rotating schedule designed to optimize a student's opportunity to make progress toward his/her educational goal. The college offers a well-rounded choice of courses throughout the year for both day and evening students. Selected courses are also offered on weekends. For information regarding the frequency of a course offering, contact Student Services, the Instruction Office, or visit www.ltcc.edu.

REGISTRATION PROCEDURES

For new students with an academic goal, registration is a five-step process:

1. **Apply online at www.ltcc.edu.**
2. **Student Orientation** – all new students are expected to attend a one-hour orientation.
3. **Assessment** – students are required to take a math and English assessment before enrolling in their first quarter at LTCC, unless they have previously completed college math or English courses.
4. **Meet with a counselor** – after attending the orientation and completing the assessment, students are required to meet with a counselor to get their placement and prerequisites set for registration.
5. **Register for classes** – after students have completed the above four steps they should check the priority registration chart for the appropriate dates and times to register.

Registration

Students may register through the day of the first class meeting. For specific registration dates, go online to www.ltcc.edu, or refer to the academic calendar located on the back of each quarterly schedule (also see "Adding" procedures on page 16).

Late Registration

Students should always register prior to the first class meeting. From the day after the first class meeting through Friday of the second week of class, students may only add with written permission of the instructor. For more information, see "Adding" procedures on page 16.

MATH AND ENGLISH ASSESSMENT

All new students or those intending to enroll in mathematics or English for the first time must take diagnostic assessments before registering. The assessments are designed to determine skill levels in reading, writing and mathematics so that students may be placed in the appropriate level of course(s) and their chances for success enhanced.

The times, dates, and locations of the assessments are also published in the schedule each quarter. Certain students are exempt from the testing procedure. For specific exemption criteria, contact Student Services or see the SUCCESS Program information in the catalog.

SUCCESS PROGRAM

The college's SUCCESS program is a special program of activities and services designed to help students be successful in achieving their academic goals at LTCC. These services include the following:

- Orientation
- Assessment
- Counseling/advising
- Admissions and registration
- Student follow-up

Several components of the SUCCESS program are incorporated into the registration process. While all students are encouraged to participate in the SUCCESS program, all new or transferring students with less than 44.5 quarter units, unless otherwise exempted, who intend to either transfer or earn an AA degree or certificate are required to do the following prior to registration:

- Attend an orientation session designed to provide necessary information to insure a smooth transition into LTCC.
- Complete the assessment tests in math and English to determine a profile of those basic skills.
- Meet with a counselor to determine course selection.

All new students must attend orientation unless they:

- Hold an Associate Degree or higher,
- Are a returning Lake Tahoe Community College student,
- Have a goal of job skill improvement or general interest,
- Are concurrently enrolled in high school or another college, or
- Have completed more than 44.5 quarter units.

All new and returning students must take the assessment tests unless they:

- Have already taken the Lake Tahoe Community College assessment tests,
- Have completed prerequisite requirements,
- Have completed more than 44.5 quarter units,
- Hold an Associate Degree or higher,
- Will only enroll in activity (physical education) or performance (drawing, voice, photography, etc.) courses, or
- Possess usable placement scores from other colleges.

All students with less than 44.5 units must meet with a counselor/ advisor prior to registration unless they:

- Hold an Associate Degree or higher,
- Have completed more than 44.5 quarter units,
- Have a goal of job skill improvement or general interest.

Students wishing to challenge matriculation procedures should refer to the grievance procedures in this catalog.

TRANSFERRING CREDIT TO LAKE TAHOE COMMUNITY COLLEGE

In order to have credit from other colleges accepted at Lake Tahoe Community College, transcripts from other schools must be requested by the student to be sent to LTCC's Admissions and Records Office. (This could take up to four weeks.)

When all transcripts are on file, students should request an evaluation of transfer credit from Student Services, allowing a minimum of one month for completion of the evaluation. The evaluation process will determine which courses transfer to LTCC. To qualify for evaluation, transcripts must be from an institution accredited by an accrediting agency recognized by LTCC.

Students must be currently enrolled in or have completed at least 9 units at LTCC to be eligible for an evaluation.

LIMITATION OF STUDENT LOAD

A full-time student is one taking a minimum of 12 units per quarter. Fifteen units is considered an average load for a full-time student. A unit load of 19 units per quarter is considered maximum. In order to take more than 19 units per quarter, approval must be obtained from the student's counselor. A student may not enroll in more than 9 units during the 6-week summer session without prior approval from a counselor, the Vice President, Academic Affairs and Student Services, or a Dean.

TUITION AND FEES

All tuition and fees must be paid in full at the time of registration and before entering classes. Check online at www.ltcc.edu for WebReg payment instructions. **These fees are subject to change without prior notice pending Board of Trustees or California State Legislative action.**

1. All students shall pay a student representation fee of \$1.00 per quarter pursuant to Title 5, Section 54801, 54803 and 54805 of the Education Code.
2. All students shall pay a Health Fee of \$3.00 per quarter pursuant to Section 76355 of the Education Code. (This fee subject to change pending Board action). A summary of benefits covered by this fee is available in the College Business Office. Procedures are established to provide for exemption from the health fee as required by the Education Code and are published in the quarterly class schedule.

3. Currently legal residents of California (see "Residence Requirements") pay \$13.00 per unit. *(These fees are subject to change without prior notice pending California State Legislative action).* Students receiving financial aid may be exempt from paying this fee. See the Financial Aid Office for more information.
4. A limited number of Nevada residents may be eligible for an enrollment fee of \$28.00 per unit pursuant to Section 76140 of the Education Code.
5. In addition to the \$13.00 enrollment fee, nonresidents, both out-of-state (other than Nevada) and international, shall pay \$135 per unit. This fee is determined by the Board of Trustees.
6. Nonresident tuition fees will be refunded to students who withdraw from their enrollment in the College or reduce their program in accordance with the following schedule:
 - a. Before or during the calendar week in which instruction begins, 100%.
 - b. During the second calendar week: Fall, Winter, Spring, 66.7%; Summer, none.
 - c. During the third calendar week: Fall, Winter, Spring, 33.3%; Summer, none.
 - d. After the third week, none.
7. Students are required to provide certain instructional materials which have continuing value outside of the classroom. These are tangible materials that are essential to satisfaction of course objectives, have value to the student outside the classroom, belong to the student, and may be taken home. These materials include, but are not limited to, such items as textbooks, workbooks, syllabi, computer disks, tools, uniforms, and canvases. They also include materials, such as clay, that are transformed into materials of lasting value.

Some classes carry a fee for required instructional materials. These fees are for the types of materials described above. When such fees are indicated, the materials for which the fees are levied are supplied at District cost and are sold as a convenience to students. However, students may choose not to pay the fee indicated and provide the materials themselves. Students are warned that they will not be able to complete the requirements of a course if they do not purchase or provide required instructional materials.

8. Students are advised to provide certain instructional materials of an optional nature. These are materials that enhance a student's learning experience in the classroom, but are not essential to completion of course objectives.

REFUND POLICY

Enrollment Fees, Facilities Use Fees, Good Neighbor Policy Fees, and Health Fees: A student may receive a refund:

1. If the college cancels the class (refund should be requested before the end of the quarter in which the class was cancelled) or
2. If the student officially withdraws from:
 - a. Full quarter length classes no later than Friday of the second week of the quarter, or
 - b. Classes less than a full quarter in length no later than the first business day at the 10 percent point of the length of the class. If the business day occurs after the class ends, the refund must occur prior to the start of the class. **NO REFUNDS WILL BE MADE AFTER THE CLASS HAS ENDED.**

EXCEPTION: For special fees involving class field trips, see refund policy in the quarterly Schedule of Classes.

WITHHOLDING SERVICES FOR NONPAYMENT OF FEES

Grades, transcripts, diplomas and registration privileges, or any combination thereof, shall be withheld from any student or former student who has been provided with written notice that he or she has failed to pay a proper financial obligation due to the Lake Tahoe Community College District. Any item or items withheld shall be released when the student satisfactorily meets the financial obligation (Education Code Section 72237).

FINANCIAL AID

Room A100, Ext. 236

If you are having difficulty paying for college, financial aid may be able to assist you with educational expenses. There are a number of programs available including fee waivers, grants, work-study, loans and scholarships. See page 19 for further information on application procedures, or contact the Financial Aid Office.

STUDENT HEALTH AND ACCIDENT INSURANCE

Lake Tahoe Community College students enrolled in six or more units and actively attending classes are eligible for Domestic Student Health Insurance Plan. Information is available through Student Services (A100). There are also vision services and an optional dental plan.

Fee Examples

California Residents registered in 12 units:

Student Representation Fee	\$1.00
Health Fee	3.00
Enrollment Fees * (\$13.00 x 12 units)	<u>156.00</u>
	\$160.00

Nevada Residents approved for the Good Neighbor rate and registered in 12 units:

Student Representation Fee	\$1.00
Health Fee	3.00
Good Neighbor Fee* (\$28.00 x 12 units)	<u>336.00</u>
	\$340.00

Out-of-State or International Students registered in 12 units:

Student Representation Fee:	\$1.00
Health Fee	3.00
Enrollment Fee* (\$13.00 x 12 units)	156.00
Tuition (\$135.00 x 12 units)	<u>1620.00</u>
	\$1780.00

*** These fees are subject to change without prior notice pending California State Legislative action.**

AUDITING OF CLASSES

Under certain circumstances, auditing of classes may be allowed. The audit policy is available in the Admissions and Records Office.

CHALLENGING A COURSE (Credit by Examination)

Students must petition to challenge a certain designated course in order to receive credit by examination. Challenge courses are listed at the beginning of each subject area in the Course Description section of the catalog. Students are strongly urged to meet with a counselor before beginning the challenge exam process. For more specific information regarding credit by examination, refer to the *Policies and Procedures* section in the catalog.

ATTENDANCE POLICY

Regular attendance in class and laboratory sessions is an obligation assumed by every student at the time of registration. Students who stop attending and are not dropped by the instructor risk receiving an "F" grade for the course. For full quarter classes students may drop with a "W" grade through the 7th week of instruction. **IT IS THE STUDENT'S RESPONSIBILITY TO DROP A CLASS(ES).** The complete District Wide Attendance policy can be found in the *Policies and Procedures* section in the catalog.

ADDING AND DROPPING

All adding and dropping/withdrawing is done at the Admissions & Records office or online within the specified timelines. Withdrawing (dropping with a "W" grade) must be done in person at the Admissions & Records office. The deadlines for adding and dropping classes are printed in the quarterly Schedule of Classes.

Adding

Students may add classes through the day of the first class meeting. From the day after the first class meeting through Friday of the second week of class, students may only add with written permission of the instructor. Registration is not allowed after the course has ended. Students are strongly encouraged to register early to secure a space in the course they wish to attend.

Dropping/Withdrawing

Students may drop or withdraw from regular full quarter-length classes through Friday of the 7th week of the term. The deadlines to drop with no record and withdraw from full-quarter and six-week session courses are listed on the back cover of the Schedule of Classes. For all other classes, please contact the Admissions & Records office for deadlines. All requests for withdrawal (drop with a "W" grade) must be submitted in writing to the Admissions & Records office. Please see the refund policy for information on deadlines to drop with a refund.

It is always the student's responsibility to drop or withdraw from classes. While instructors may drop students for non-attendance, students should never assume that this was done by the instructor. Please see the Attendance Policy for further information.

TOTAL WITHDRAWAL FROM COLLEGE

A student who intends to withdraw from all courses at the College must complete the necessary procedures established by the Admissions and Records Office. Failure to do so may negatively effect the student's transcript.

Student Support Services

Recognizing that student success and achievement will be enhanced through assisting students with the challenges presented in pursuit of their academic goals, Lake Tahoe Community College provides a broad range of academic and student support services.

Counseling and Advising

ACADEMIC PLANNING

Room A100, ext. 231

Students in the following categories should see a counselor before enrolling. If you:

- Are enrolling in college for the first time;
- Plan to earn an A.A. degree or certificate at Lake Tahoe Community College;
- Plan to transfer to a four-year college or university;
- Are returning to college after a lengthy absence;
- Are on probation at LTCC or previous colleges;
- Are still attending high school;
- Are not a high school graduate.

***ALL STUDENTS** are encouraged to talk with one of the counselors. Please bring records of previous course work to discuss course planning.*

CAREER PLANNING

Room A100, ext. 231

Students unclear about their career goal or major are encouraged to take advantage of career exploration and planning services. These services are designed to help students make career choices consistent with their interests, abilities, personality traits, and values. Career planning increases the likelihood of job satisfaction and success. Available services include the following:

- Individual counseling
- Career interests, values, abilities inventories
- Personality type indicators
- Career planning course (transferable and degree applicable)
- DISCOVER Career and Educational Planning software system
- Career Planning Workshops
- Career information resources and referrals
- Free handouts on a variety of career topics

To start the career exploration process, please make an appointment with the Career Counselor or visit the Career Center.

TRANSFER PLANNING

Room A100, ext. 231

If transferring to another institution is part of a student's educational goal, counselors can help students keep up to date with the complex array of transfer requirements. To ensure transfer admission, particularly into competitive majors, students should see a counselor to develop an educational plan that includes transfer prerequisites. See page 46 for more information.

The Transfer Center, located in the Student Services Center, has many helpful resources for students, including:

- Library of California and Nevada college catalogs, books and brochures with general college information, and access to over 18,000 college catalogs online
- Articulation agreements with California universities and University of Nevada, Reno
- CSU, UC and UNR application assistance

"This college has great teachers, a great environment, and great resources, from the library and tutoring learning center to student services and financial aid."

Luis Gomez, 20,
was born in Ameca, Mexico and raised in South Lake Tahoe. Luis is finishing his associate's degree in liberal arts. He plans to transfer to UC Santa Barbara, and study communications with an emphasis in advertising.

FYI...

Begin your studies at LTCC and finish with an undergraduate degree from a UC or CSU. LTCC has Transfer Admission Guarantees with:

**UC Davis
UC Irvine
UC Merced
UC Riverside
UC San Diego
UC Santa Barbara
UC Santa Cruz
Sonoma State University**

Need money for college?

Financial Aid

GENERAL INFORMATION

Room A100, ext. 236
Email: financialaid@ltcc.edu

Meeting college expenses is a cooperative effort between the student, the student's family, the federal and state governments, and the college. Most financial aid is awarded based on your calculated financial need, which is determined by the government. Your financial need is the difference between what it will cost you to attend a particular college, known as your cost of attendance, and what you and your family can pay toward those costs, known as your expected family contribution, or EFC. Your financial need depends on your family's income, assets, cost of attendance, and other factors.

The Financial Aid Office offers a variety of aid programs, including federal and state grants, fee waivers, loans, and work study opportunities for students. Anticipated costs and detailed program information are listed on the LTCC Web site at www.ltcc.edu and in the Financial Aid Handbook, which is available in the Financial Aid Office.

Any student who is having financial difficulties is urged to contact the Financial Aid Office for application information. Students applying for financial aid should complete the Free Application for Federal Student Aid (FAFSA) each year. The information you provide on the FAFSA is used to determine your EFC. Assistance in completing the application is available in the Financial Aid Office. The application may also be filed electronically at www.fafsa.ed.gov. The LTCC code number is 012907. Applications are accepted throughout the award year.

QUALIFICATIONS

In order to qualify for most financial aid, a student must be regularly enrolled in an eligible program leading to a degree or certificate, be in good academic standing, demonstrate financial need, be a U.S. citizen or eligible non citizen, certify compliance with selective service registration requirements, not be in default on any loan or owe a refund on any grant made under any Title IV program, have a social security number, and have a high school diploma or recognized equivalent. Students without a high school diploma or equivalent must meet special criteria to receive federal financial aid. Contact the Financial Aid Office for more information.

PROGRAMS

Fee Waiver: Board of Governor's Fee Waiver program (waives enrollment fees for eligible California residents) - qualifications listed above do not apply to this program.

Grants: Federal Pell Grant, Federal Supplemental Educational Opportunity Grant, Cal Grant. Grants do not need to be repaid.

Work-Study: Federal work-study (allows you to work on campus and earn income to meet educational expenses)

Loans: Federal Stafford Loan, Federal Parent Loan for Undergraduate Students, Emergency Short-term loans (loans must be repaid, with interest)

SCHOLARSHIPS

LTCC offers a variety of scholarships to continuing and transferring students through the generous donations of the LTCC Foundation and local organizations. Most scholarships are awarded during the Spring Quarter, and information on these is posted on the Scholarship Board in Student Services beginning in April. For information on other scholarships that may become available throughout the school year, contact Student Services staff.

STUDY ABROAD

Students enrolling in a program of study abroad approved for credit at LTCC may be eligible for financial aid.

SATISFACTORY ACADEMIC PROGRESS FOR FINANCIAL AID RECIPIENTS

Students receiving financial aid must maintain satisfactory academic progress. They may be disqualified from financial aid after two quarters of not maintaining satisfactory progress. There are also limits on the number of units and quarters for which a student may receive financial aid. Refer to the LTCC Web site or Financial Aid Handbook for this policy.

GRANT REPAYMENT

Students receiving financial aid who then withdraw from all classes, or receive all F's due to non-attendance, may be required to repay grant funds to the federal government.

Students planning to withdraw should see a counselor and Financial Aid Office staff member to discuss the consequences of withdrawing. If a student does not pay back money owed, a national hold will be placed on their financial aid records. This hold will adversely affect the student's future eligibility for financial aid at any college.

Student Programs and Services

CalWORKs

Room A100, ext. 318

Students that are receiving CalWORKs benefits are eligible for supportive services through the college including child care vouchers, paid work-study positions, and free employment preparedness workshops. In addition, the CalWORKs Program Assistant is available to attend meetings with your county case worker, and provide you with valuable community connections and resources to support educational and employment related goals. For more information please contact the CalWORKs program assistant in Student Services, room A100.

CHILD DEVELOPMENT CENTER

CDC Building, ext. 288

The Child Development Center (CDC) is a fully-licensed childcare facility located on the Lake Tahoe Community College campus. Licensed for 46 kids ages 6 weeks through pre-kindergarten, the CDC is a model facility for Early Childhood Education students. With a staff/child ratio of 1/4 for infants and toddlers and 1/8 for preschool students, the CDC provides personal attention to its children in an environment where they are free to explore and develop at their own rates.

Open year-round, the CDC serves the childcare needs of South Lake Tahoe's students, staff, faculty and community members. Childcare is available in full or half-day blocks, and meals are provided. Children must be enrolled for a minimum of two half-days per week.

Although the CDC operates at full capacity, students have top priority and every attempt is made to accommodate their needs. Some subsidy money is available through federal grant funds. Inquiry into space availability should be made at least one month prior to anticipated need. For more information, please contact the CDC.

COLLEGE BOOKSTORE

Room A101, ext. 227

The College Bookstore, located on the first floor of the main campus near the front entrance, is provided as a service to the college community.

In addition to new and used textbooks, the Bookstore carries general reference, career, and computer books, academically priced computer software, a variety of school, culinary arts and art supplies, clothing, gifts and greeting cards. The Bookstore offers a book rental program for select courses. The store staff is available for assistance all day Monday-Thursday and limited hours on Friday.

DISABILITY RESOURCE CENTER (DRC)

Room A205, ext. 249

Lake Tahoe Community College is committed to accommodating students with disabilities as defined in the Americans with Disabilities Act and Section 504 of the Rehabilitation Act of 1973. The Disability Resource Center facilitates accommodations in regular college programs for learning, psychological, hearing, visual and communication disabilities as well as health disorders and mobility limitations. Students with other verifiable and documented disabilities may also be eligible for academic accommodations. The Disability Resource Center (DRC) offers a formal assessment for students who suspect that they may have a learning disability.

The DRC is required to have disability verification on file for students utilizing services; assistance with obtaining this documentation is available within the department. Students requesting any special services should contact the DRC.

The following is a partial list of services available:

- Academic counseling
- Instructional aide support
- Test accommodations
- Physical accessibility
- Special equipment
- Tape recorders
- Braille and magnifiers
- Instructional materials and texts in an appropriate alternate media format
- Interpreters, note-taking services
- Use of sound amplification equipment as needed

A fully equipped High Tech Center (HTC) is available to students who may benefit from using adapted computer technology. Screen enlargement, voice activation, voice output and word prediction are just a few of the technologies students may avail themselves of at the college.

EOP&S AND CARE

Room A100, ext. 231

EOP&S (Extended Opportunity Programs & Services) is a student support program funded by the State of California and LTCC, and is designed to assist students who show academic and financial need. A student may be EOP&S eligible if they are *low-income, a California resident, attending college full-time, and are considered educationally disadvantaged*. EOP&S can offer eligible students the following "above and beyond" services to promote academic success:

- Book vouchers awarded each quarter
- Priority registration
- Quarter-by-quarter educational planning
- Extended tutoring
- Additional counseling
- Referral to other services
- Workshops
- School supplies
- UC and CSU application fee waivers
- Transportation vouchers

CARE (Cooperative Agencies Resources for Education) is designed for EOP&S students who are single heads of household, CalWORKS/TANF recipients, and have a child under the age of 14 years. This program can assist students with child care expenses, transportation, books and supplies, and additional grants.

Students who are interested in either EOP&S or CARE should visit Student Services in Room A100.

FOOD SERVICE

The Kokanee Café is located in the Student Center in the southwest wing of the main campus. Cafeteria-style lunch service is offered Monday - Thursday when classes are in session and often features food prepared by the Culinary Arts students. The Coffee Cart serves coffee and tea beverages, fresh-baked pastries, homemade pizza, soup, chili, pre-made sandwiches, wraps, and "grab & go" foods throughout the day. The Creekside Room is available for more formal dining and catered events. For specific hours, contact the Food Service Manager at extension 597.

HOUSING

No student housing is provided by Lake Tahoe Community College. A housing bulletin board with a list of available rentals is posted outside the Student Services office and information is available on the LTCC web site.

JOB TRAINING SKILLS, INTERNSHIPS & WORKFORCE PREPARATION

Room A100, ext. 294

The Lake Tahoe Community College Workforce Preparation Program is committed to providing students with opportunities for work-based learning, professional growth, and applying academic knowledge to the workplace. The program is dedicated to advancing students' personal competencies in the workplace and promoting career awareness through linking education with employment and careers.

Individuals can explore career opportunities in their desired occupations, earn college credit, and improve their employability through the following programs:

- The **Occupational Internship Program** offers students an opportunity to earn credits and obtain on-the-job experience in positions directly related to their career goals. Internships can be customized for specific goals. Internship opportunities are posted online at www.ltcc.edu and on the bulletin board across from Room A108. Applications are available in Student Services.
- **Occupational Work Experience** is for students who are currently employed in jobs relating to an educational or occupational goal. This program extends knowledge gained in the classroom to the workplace, helps students identify new and challenging objectives at work, and encourages professional growth and advancement.
- **General Work Experience** is for students who are currently employed in jobs not related to their educational goal. This program encourages participants to identify new and challenging objectives on the job and can result in improved relationships at work, increased visibility and better work habits. Both Occupational and General Work Experience classes allow students to earn elective credits.

LIBRARY & MEDIA SERVICES

Library ext. 232; Media Services ext. 234

<http://library.ltcc.edu>

In September 2006 Lake Tahoe Community College opened its new 27,000 square foot library. This beautiful facility includes an art gallery, cutting edge wireless technology, twenty-five computer Internet stations, a cozy fireside reading area, and several study rooms for groups or individuals

The library's collection has over 60,000 volumes as well as subscriptions to 10,000 print and online journals and newspapers, music on CD and LP records, plus a DVD/video collection which supports the college curriculum. Additionally, the library features a Spanish language aisle, an adaptive technology station for persons with disabilities, a children's aisle, plus popular movies for home checkout. Lastly, the library offers a unique rare book collection comprised of out-of-print books about Tahoe.

Information services are offered at the reference desk, or teaching station, where online research skills are taught one on one. The library's online resources, such as its catalog and online databases, can be accessed 24 hours a day via its Web site: <http://library.ltcc.edu>

Media services are provided to enhance the college's instructional environment, bringing a rich array of audiovisual technology into the classroom. The library houses an audiovisual viewing room with state of the art media equipment and a video conferencing room, available to the public.

Library services and borrowing privileges are extended to all members of the Lake Tahoe community. Students, especially newcomers, are warmly encouraged to make good use of this resource. Library staff welcome the entire community to enjoy their new library.

TAHOE PARENTS NURSERY SCHOOL

(530) 541-8767

Tahoe Parents Nursery School (TPNS), affiliated with LTCC, is a parent participation preschool that has been a part of the Lake Tahoe community for 48 years. TPNS is a fully licensed preschool serving children two years nine months, to five years of age. The program operates Monday through Thursday from 9:00 a.m. till 12:00 noon, September to June. TPNS enriches the lives of children and their families through a developmentally appropriate preschool, which is enhanced by a quality parent education program. TPNS offers a wide variety of experiences designed to enhance physical, social, emotional and cognitive development.

TUTORING & LEARNING CENTER (TLC)

Room A201, ext. 740

Through individualized and group tutoring, assessment testing, computer-assisted learning, Internet access, and other learning support services, the Tutoring & Learning Center enhances a student's education. At no cost, additional assistance is provided to help students successfully complete their college coursework. The Tutoring & Learning Center is comprised of the Learning Assistance Center, the Math Success Center and the Writing Center.

LEARNING ASSISTANCE CENTER (LAC)

- Tutoring across the curriculum
- Assessment
- Computer Assisted Learning
- Test Proctoring

MATH SUCCESS CENTER (MSC)

- Math tutoring (all levels)
- Computer Assisted Learning

WRITING CENTER (WC)

- Tutoring
- Assistance with grammar and the writing process
- Reference materials

VETERANS AND VETERANS' DEPENDENTS

Room A102, ext. 211

Veterans and dependents of disabled veterans are encouraged to take advantage of the educational opportunities and benefits available at Lake Tahoe Community College. Eligibility information and applications for benefits are available at the Admissions and Records Office, and the El Dorado County Veterans Services Office, 1360 Johnson Blvd., Suite 103A, (530) 573-3134.

All veterans must have official transcripts of all previous college work on file. Transcripts requested from previous schools should be sent directly to the Admissions and Records Office. Transcripts are then evaluated and appropriate credit granted toward college requirements. To comply with the Veterans Administration regulations, all veterans must meet with the veterans' counselor in Student Services during their second quarter of attendance to declare a major, develop an education plan and review their evaluation of prior credit.

Veterans will receive quarter unit equivalent credit in the following areas:

- Veterans who have an honorable discharge (as certified on their DD214) will be granted two quarter units of Physical Education credit. These two units may be counted in Area 6 of the LTCC Associate in Arts general education pattern.
- Veterans with a minimum of one year active duty (who have an honorable discharge) will be granted an additional two quarter units of elective credit that will count towards the 90 units needed to graduate at Lake Tahoe Community College.

Veterans collecting benefits while attending Lake Tahoe Community College are responsible for informing the Admissions and Records Office of all changes in enrollment status. Withdrawing from or not completing all enrolled subjects will affect eligibility for benefits. Students must also maintain a cumulative grade point average (GPA) of 2.0 or better. Failure to maintain a cumulative GPA of 2.0 or better for two consecutive quarters will cause a student to be reported to the U.S. Department of Veterans Affairs as maintaining Unsatisfactory Progress, and their education benefits will be interrupted. Students who are reported as making Unsatisfactory Progress to the U.S. Department of Veterans Affairs must receive counselor approval before recertification is possible. Please see www.ltcc.edu/veterans for more information.

Student Life

Student Organizations.....	24
Organizing Clubs and Activities.....	24
Alpha Gamma Sigma	25
Associated Student Council.....	25

“My experience at Lake Tahoe Community College was awesome -- being able to have a one-on-one relationship with all my teachers and the friendships I've made -- and being able to ski every day. What more could you want?”

Nathan Garofalos, 20
is studying anthropology and liberal arts. He plans to transfer to San Francisco State and major in cinema. Nathan skied 22 days last winter.

FYI...

Student clubs at LTCC range from the SnowRiders club, where you'll find someone ready to head out and hit the mountain, to the Performing Arts League. Participating in student clubs and organizations is enjoyable, educational and a great way to get involved and meet people with similar interests.

Student Council ext. 229
Student Services ext. 231

Student Life

Lake Tahoe Community College offers students the chance to study in one of the most beautiful spots in the world. With 30,000 year-round residents and an economic base built on first-class recreation and resorts, South Lake Tahoe, home of the LTCC campus, is small enough to be friendly, yet worldly enough to offer choices. At Lake Tahoe Community College, students will find the perfect place to study, work, and pursue a wide range of personal interests.

Student Organizations

STUDENT ACTIVITY PROGRAM PHILOSOPHY

The student activity program at Lake Tahoe Community College is intended to achieve the following objectives:

1. To provide opportunities for the development of student-based social and cultural interests;
2. To provide opportunities to take on leadership roles and responsibility;
3. To enhance student life, individually and collectively.

Student activities are an integral part of college life, and all students are urged to take an active part in some aspect of the student activity program, depending upon their personal interests and abilities.

STUDENTS TAKE AN ACTIVE ROLE AT LTCC

There are many ways students can make a difference at LTCC. Elected members of the Associated Student Council have an influence in all aspects of campus life and a member from the Council serves as Student Trustee on the Board of Trustees. Student representation is requested on many of the college's standing committees and all academic hiring committees include students.

ADVOCACY

Advocacy groups seeking to influence college procedure or services do not need administrative sanction to exist. However, if a group plans long-term presence, wants to raise funds or otherwise affiliate themselves formally with LTCC, the organization will be governed by the same Education Code as all other recognized student associations.

ORGANIZING CLUBS AND ACTIVITIES

The different student clubs at LTCC allow students to pursue their own personal interests and get involved in a variety of activities. There are two ways students can organize:

1. A group of ten (10) or more students having a concern or project that will involve no longer than three months needs to have a statement of purpose and an advisor. Groups are subject to approval to ensure they meet federal, state, and local policies. Approval can be extended for up to an additional six months. Examples of this type of organization might be groups sponsoring a speaker, special activities, or intramural sports.
2. Permanent or long-term organizations or clubs must have a minimum of five (5) students, a constitution indicating purposes consistent with being a college organization, by-laws, an advisor, elected officers, and administrative approval. Students interested in forming such organizations should contact the Dean of Student Services for procedures and copies of regulations that organizations need to follow.

All LTCC students are invited to join existing campus clubs which are listed in the quarterly Schedule of Classes. Students interested in joining one of these clubs should stop by or call Student Services at extension 231.

ALPHA GAMMA SIGMA

Alpha Gamma Sigma is the official Lake Tahoe Community College honor society. Founded in 1922, this distinguished “California Community College Honor Society” now has 105 chapters. Its purpose is “to foster . . . and recognize scholarship,” and it is widely recognized in government, business, and institutions of higher learning.

Students with 18 or more college credits who are currently enrolled at LTCC with at least a 3.00 grade point average are eligible for initial membership. Alpha Gamma Sigma membership will be noted on students’ transcripts.

To obtain further data or apply for membership, please see the Alpha Gamma Sigma advisor in the Student Services Office.

ASSOCIATED STUDENTS OF LAKE TAHOE COMMUNITY COLLEGE

Student Center, ext. 229

The goal of the Associated Student Council (ASC) is to provide effective student representation, and to direct student activities that stimulate the intellectual, physical, and social life of students at LTCC. All students currently registered for credit course(s) are considered members of the Associated Students.

The Associated Student Council is the governing body of the Associated Students and is empowered to conduct the business of the Associated Students of LTCC. All candidates and members of the ASC must maintain at least a 2.0 grade point average, and must maintain a minimum of eight units during the period of his/her office. For more information, contact the Associated Student Council Office in the Student Center or visit their Web site link on the LTCC home page.

SECRET ORGANIZATIONS

Membership in secret fraternities, sororities, and organizations, as described in California Educational Code (Section 76035), is prohibited. LTCC students who participate in such groups shall be subject to the penalties outlined in the Education Code.

HAZING

Section 32050-51 of the Education Code makes participation in any kind of hazing a misdemeanor. Hazing is defined as “any method of initiation into a student organization or such an organization which degrades or disgraces or which causes bodily harm to any student attending any college or school in California.”

PARKING

Parking is provided for students on the campus in clearly designated areas. Certain parking places are reserved for handicapped students. Students are advised to comply with regulations posted in the parking lot. **Violators of posted regulations will be issued citations.**

SMOKING

Smoking is prohibited inside all College buildings. Smoking is permitted 50 feet from College buildings and in the designated smoking shelter.

CRIME AWARENESS AND CAMPUS SECURITY ACT OF 1990

Lake Tahoe Community College has had no incidents of major crime. Students are encouraged to report any criminal activity on campus to college officials and local police as necessary. All colleges are required by law to provide crime statistics for their campuses. A Lake Tahoe Community College Incident Report form (available in the administrative offices) should be completed by the person reporting the crime. All students and employees should call 911 in the event of an emergency.

A Typical Day in the Life of a Student

Krissy Harman, 20, is a graduate of South Tahoe High School, but is a native of Hawaii. She moved to the mountains during her freshman year of high school. Krissy is in her second year at LTCC. She will graduate this year with associate degrees in liberal arts and the natural sciences. Krissy has already been accepted at the University of California, Davis and is waiting to hear from University of California, Berkeley, before making her final decision. She is planning to pursue a degree in wildlife conservation. Her dream job would be working to protect tigers for a non-profit organization like the World Wildlife Fund.

Campus activities: vice president of the Associated Student Council, vice president of the yoga club, and geology club.

Major: Natural Science, Liberal Arts

Winter quarter: 14 units, organic chemistry, geology, and Spanish

Work: Krissy works on campus in the college bookstore and in student services as a student ambassador. She is also a mentor in biology.

Schedule: *"I usually get on campus around 9 a.m. and I don't leave until 8 p.m."*

9-10 a.m. Arrive on campus and get in some study time before class.

1-6 p.m. Mondays: Organic Chemistry, lecture and lab

2-6 p.m. Tuesdays and Thursdays: Geology

1-3 p.m. Wednesdays: Organic Chemistry, lecture

"I'm taking my Spanish class online this quarter."

Grab some lunch in the student center or Jalisco's

"It's cheap and good which is always good on my list."

Thursdays are Associated Student Council Meetings.

"It is really easy to make friends here at LTCC. There are no cliques."

And it's small enough that you really get to know your instructors. All my teachers know me by name and are always willing to meet with me and help if I have questions."

Favorite activity away from school: *"My favorite things to do in Tahoe are hiking and going to the beach."*

Favorite beach: *"Kiva, so I can take my dogs and the tourists don't go there."*

*P*rograms and *E*vents

Special Programs

"I love it here. At first I didn't want to come here. I wanted to leave Tahoe, but now I realize this was the best thing. I needed a few more years to figure out what I really wanted to study. When I graduated I was sure I was going to be a business major. Now I know I really don't like business and I love biology. LTCC has allowed me to take so many classes and explore so many subject areas. The counselors, the instructors, everyone has been great. It's such a small school that you get to know everyone."

Janell Contaxis, 19
*a graduate of South Tahoe High School,
 is studying psychology and biology.
 She plans to transfer to UC Davis.*

FYI...

What is the college mascot?

The Kokanee (a type of fresh water salmon found in the streams running into Lake Tahoe).

In addition to traditional academic and vocational course offerings, Lake Tahoe Community College provides a variety of nontraditional learning opportunities across the spectrum of disciplines. These programs are unique because of the format in which they are offered. Many emphasize hands-on, experiential learning experiences or are designed as short-term, intensive learning opportunities. Also, some of these programs target particular learners for enriching educational experiences. Details of these special programs are provided in this section.

EDUCACIÓN PARA LOS PADRES TEMPORALES O FAMILIARES

ext. 575

LTCC ofrece clases sin crédito a los Padres y Tutores Legales. El curso es enseñado en español en el Centro de Recursos Familiares los martes y miércoles por la tarde de 4 a 7 p.m. El curso es para los familiares que proveen cuidado o para aquellos padres que se preocupan por los niños de sus familiares. Las sesiones consisten en lectura, segmentos de video, procesos en dinámica de grupo. Los temas son enfocados en: 1) Recursos de la comunidad, 2) Las edades y etapas del desarrollo, 3) Construyendo unión entre los padres y niños, 4) Decisiones y consecuencias, 5) El poder del ánimo, y 6) Lo positivo de la disciplina. Se les entregará un certificado a los estudiantes al completar todas las clases "Padres Activos de Hoy." Se pueden matricular directamente en el Centro de Recursos Familiares.

FOSTER AND KINSHIP CARE EDUCATION

ext. 575

LTCC offers non-credit coursework in Foster and Kinship Care Education. Courses are taught in both English and Spanish. Both programs are designed to support foster parents, relative caregivers, and non-relative caregivers. Sessions consist of lectures, video segments, and dynamic group processes. Topics focus on 1) parenting skills; 2) ages and stages of child development; 3) accessing community resources; 4) positive discipline; 5) diversity training; and 6) other specialized topics regarding local issues. A certificate of completion is awarded at the end of each class. Registration is conducted on a walk-in basis only. All community members are welcome.

INTENSIVE SPANISH SUMMER INSTITUTE

ext. 363

Each August, Lake Tahoe Community College is transformed into a Mexican pueblo offering students an immersion in Spanish language and culture during the Intensive Spanish Summer Institute (ISSI). Now in its 16th year, this exciting and interactive program has been recognized as an *Outstanding Community College Program* by the California Community College Board of Governors.

ISSI is for anyone – from beginning to superior level students – interested in learning the language and cultures of Spanish-speaking countries. During the weeklong Institute students can earn up to 4.5-quarter units of credit in courses designed to promote the development of fluency in Spanish. Registration begins during the spring quarter, so make your plans early to avoid missing out.

INTERNATIONAL EDUCATION

International Education Office, Room A108, ext. 370

Study abroad with Lake Tahoe Community College and let the world be your classroom. LTCC offers a wide array of exciting programs for students wishing to study abroad at locations around the world. In the past, our students have explored and traveled to Spain, Mexico, France, London, and Peru, just to mention a few locations. Future study abroad programs may include a Culinary Arts program in Chile, Spanish language and culture in Spain, and an Arts program in France.

Our quarter-length study abroad programs are typically offered in the fall and/or spring, providing students the opportunity to take a full schedule of courses at an overseas locale (minimum of 12 units). In addition, short term programs are offered in the summer and occasionally during quarter breaks. These programs offer students an enriching experience abroad while studying a particular discipline (for example, art, anthropology, theatre, and conservation of natural resources). Most programs are for academic credit; students must be 18 years or older (or a high school graduate) and enroll in the required courses to participate.

INTERNATIONAL STUDENTS AT LTCC

International Education Office, Room A108, ext. 370

email: spinaj@ltcc.edu; skype: jen.spina

Students from around the globe are encouraged to attend LTCC and enjoy the beauty of Lake Tahoe, small class sizes, affordable tuition, and the opportunity to transfer to a 4-year university.

Any international student who is interested in studying full-time at LTCC should contact the International Education office to begin the student visa and application process.

KIDS' COLLEGE

ext. 230

Kids' College provides an exciting program for youth ages 8 and up. Classes are designed with hands-on learning in mind, and are offered in many subject areas including science, art, drama, foreign languages, sports, computers, and more. Classes vary in length and run from the end of June through the middle of August.

SUMMER BRIDGE

ext. 231

This one-week summer course is designed to introduce recent high school graduates to college and provide them with an opportunity to increase their understanding of college life and develop the necessary skills to be successful. The course includes topics such as understanding the college environment; various services and programs to assist students; academic expectations and requirements; educational planning; career exploration; transfer planning; and study skills.

"Y AHORA QUE? PASOS HACIA TU FUTURO" SPECIAL SUMMER WORKSHOP

ext. 319

The phrase "y ahora que?" is the Spanish equivalent for "now what?" It is a question that many high school students ask themselves upon graduation. "Y Ahora Que: Pasos Hacia Tu Futuro" (Now What? Steps Toward Your Future) is a project that is designed to help potential LTCC students learn more about themselves, and about college classes and services. For more information, please contact the Outreach Services at ext. 319.

Special Events

Throughout the year, Lake Tahoe Community College hosts a variety of events for the educational and cultural benefit of our students and community. For information on any of these activities, please contact Student Services at ext. 231 or go to the college website www.ltcc.edu and click on calendar at the top of the page.

ART SHOWS

LTCC opened the new Haldan Art Gallery in January 2007. Visitors can learn more about the artist and exhibit through audio tours, docents, and other interactive experiences. LTCC's two other art galleries provide student, faculty and local artists a venue. Theme and competitive shows are on display during the fall, winter and spring quarters. The galleries are open to the public whenever the college is open.

AT THE MOVIES

Sponsored by the Performing Arts League, At the Movies brings award winning independent, foreign, documentaries, student and classic films to the LTCC Duke Theatre. Hits such as Oscar nominated films "Motorcycle Diaries," "The Story of the Weeping Camel," and Michael Moore's "Fahrenheit 911," and award winning foreign films like "Take My Eyes (Te doy mis ojos)" are a few examples of the films chosen for the series.

CAREER & JOB FAIR

In the spring, the Career & Job Fair is a way for students and community members to explore career opportunities with more than 40 local employers.

COLLEGE & TRANSFER DAY

Each fall, LTCC hosts College & Transfer Day, giving students and parents a chance to visit with representatives from more than 25 different colleges and universities.

CULTURAL EVENTS

Student theatre, dance, classical concerts, writers' workshops, and independent and foreign films are just a few of the offerings at LTCC.

- *LTCC's Speaker Series* brings professionals from a variety of fields to share their insight and experience with students and the community.
- *LTCC's Writers' Series* includes nationally known published authors talking about their work and the writing process.
- *The Perry Foundation* is a non-profit organization designed to enhance and encourage the study of history and humanities at LTCC. It provides artifacts, art, and other resources beyond those usually available from the college. All items exhibited have been provided with private funds. For information or appointments to view the collection call (530) 541-4660 ext. 252.

MULTICULTURAL CELEBRATION DAY

In May cultural awareness comes alive on campus through cultural exhibits, guest speakers, ethnic foods, dancing, music, and more. LTCC's Extended Opportunity Programs and Services (EOP&S) department sponsors the event.

PERFORMING ARTS LEAGUE (PAL)

The Performing Arts League was formed to provide additional performance outlets for music, drama and dance students. PAL also provides scholarships for students pursuing degrees in theatre arts. The group stages two variety shows each year and provides the "At the Movies" series.

THEATRE PERFORMANCES

LTCC's theatre arts and music departments stage two play productions and one musical every year. From drama and comedy to original productions, the theatre offers a diverse range of experiences for the community and students alike.

“The best thing about LTCC is the one-on-one. It’s so approachable, and the convenience is such a big thing over other community colleges. Down in LA you have to pay for parking and there are 200 kids in your class, even at the community college. You never get to know your instructor.”

Michelle McNicol, 23

a native of West Hollywood, Calif., plans to transfer to UC, Santa Cruz and major in environmental economics. Michelle, an avid snowboarder moved to Tahoe, “to be able to snowboard and live flexibly.” She is the vice president of the sustainable club, a member of Rotaract, Associated Student Council, and the honor society.

FAQ's...

Students need to register online by their first class meeting.

“What if I can’t make it to class the first day?”

You need to notify the instructor before the first class meeting or you may be dropped from the class in order to accommodate other students.

Policies & Procedures

This section of the catalog contains important information regarding course enrollment conditions, attendance, final grades, probation and dismissal, student rights and responsibilities, and related policies and procedures.

The counselors, faculty, staff, and administrators are committed to providing support to students in understanding the College’s policies and procedures and in navigating the College catalog. At the same time, all students must assume responsibility for adhering to the College’s policies and procedures and for making the final decisions regarding their individual educational objectives.

Any questions concerning catalog material should be referred to the Vice President, Academic Affairs and Student Services. The College assumes no responsibility for misinterpretation by students of policies and procedures as presented in this catalog.

Prerequisites, Corequisites and Advisories

ENROLLMENT CONDITIONS

Many courses and educational programs of study have enrollment conditions such as prerequisites, corequisites, or advisories on recommended preparation. These faculty-approved conditions are considered necessary and appropriate to ensure that students are adequately prepared to succeed in the course or educational program.

WHAT IS A PREREQUISITE?

A prerequisite is a condition of enrollment that a student is required to meet in order to demonstrate current readiness for a course or educational program. Prerequisites completed at LTCC with a “C” or better will be automatically approved when students register for the course. Students who have completed prerequisites at another college must meet with a counselor to show proof in order to register for the course.

WHAT IS A COREQUISITE?

A corequisite is a condition of enrollment consisting of a course that students are required to complete simultaneously (or prior to) in order to enroll in another course. Students must register for the stated corequisite in order to register for the course.

WHAT IS AN ADVISORY ON RECOMMENDED PREPARATION?

An advisory is a recommended course or skill level students are advised, but not required, to possess prior to enrollment in a specific course.

ARE THERE OTHER LIMITATIONS ON ENROLLMENT?

Yes. Enrollment in certain courses or educational programs of study may require try-outs, auditions, or may be limited by health and safety considerations, and space limitations or legal requirements imposed by statutes, regulations or contracts. All such limitations are in conformity with the provisions of Title 5, Section 58106, California Community College Board of Governors.

WHAT IF I DON’T HAVE THE NECESSARY PREREQUISITES OR COREQUISITES?

Students will not be permitted to enroll in a class for which they cannot demonstrate they have met the prerequisite, or are enrolled in the corequisite. If it is determined after a course begins that a student has not met the prerequisite, he/she will be dropped from the course.

PREREQUISITE APPEAL PROCEDURE

A student may appeal a prerequisite or corequisite by filing a Prerequisite or Corequisite Appeal Petition. This form can be obtained from Student Services.

1. Students must meet with a counselor to submit a petition.
2. The appeal petition will be processed within five working days of its receipt, and the student notified accordingly.
3. If the appeal is upheld, the student will remain in the course.
4. In the event the petition is denied the student will be disenrolled; however, the student may appeal the decision within five days in writing directly to the Vice President, Academic Affairs and Student Services. A rationale for the appeal must be included, along with any new documentation. Students will be notified of the appeal decision within three working days.

GROUNDINGS FOR APPEAL

- The student has the knowledge or ability to succeed in the course or program despite not meeting the prerequisite or corequisite.
- The student possesses the skills/knowledge necessary to protect the health or safety of him/herself and others despite not meeting the stated health and safety prerequisite.
- The prerequisite or corequisite course is either unlawfully discriminatory or is being applied in an unlawfully discriminatory manner. (Student has the right to file a formal complaint of unlawful discrimination; if the student elects to proceed with the prerequisite appeal, completion of the appeal procedure shall be deemed to constitute an informal complaint pursuant to Title 5: section 59327.)
- The student will be subject to undue delay in attaining the goal of his or her educational plan because the prerequisite or corequisite has not been made reasonably available.
- The prerequisite or corequisite has not been established in accordance with the District's process for establishing prerequisites or corequisites.
- The prerequisite or corequisite is in violation of Title 5.

CREDIT FOR PREREQUISITES

Granting a student request to appeal a prerequisite on the basis of equivalent knowledge does not give the student academic credit for that course. For example, a student may be allowed to enroll in Spanish 102 by demonstrating knowledge equivalent to Spanish 101, but no credit for Spanish 101 will be granted. If the student needs credit for Spanish 101 to meet degree or transfer requirements for example, it might be more appropriate for the student to pursue the college's credit by examination process. If successful, Spanish 101 would appear on the student's transcript with the appropriate units and the student would also meet the prerequisite for Spanish 102.

College Policies & Procedures

ATTENDANCE POLICY

Regular attendance in class and laboratory sessions is an obligation assumed by every student at the time of registration. By being absent from class, the student misses both the content of the particular session and continuity of the course as developed in a single period of work. Students who stop attending and are not dropped by the instructor risk receiving an "F" grade for the course.

IT IS THE STUDENT'S RESPONSIBILITY TO DROP A CLASS(ES). The following District-Wide Attendance Policy has been adopted:

1. Students should *always* attend the first class meeting unless they have made special arrangements with the instructor. Many classes are impacted. The instructor may drop a student if they miss the first meeting so that another student can be admitted. After the first meeting, a student may be dropped from class whenever total absences are two more than the number of times a class meets per week; however, it is ultimately the student's responsibility to drop the class, and the assumption should not be made that this was done automatically by the instructor.
2. In the case of excessive absences where special circumstances exist, and where no previous arrangements have been made, a petition for continuance may be filed by the student with the instructor and a counselor. A student may remain in the class until the petition is acted upon.

MATRICULATION

Matriculation is a process which brings a college and a student who enrolls for credit into an agreement for the purpose of realizing the student's educational objective. The agreement acknowledges responsibilities of both parties to attain those objectives through the college's established programs, policies, and requirements.

On the college's part, the agreement includes providing an admission process; an orientation to college programs, services and procedures; pre-enrollment assessment and a suitable curriculum or program of courses; follow-up on student progress with referral to support services when needed; and a program of institutional research and evaluation.

On the student's part, the agreement includes expression of at least a broad educational intent at entrance and willingness to declare a specific educational objective within a reasonable period of enrollment. This would require diligence in class attendance, completion of assigned course work, completion of courses and maintenance of progress toward an educational goal according to standards established by the college and the State of California. Failure on the student's part to fulfill such responsibilities may result in suspension or termination of matriculation services.

Students wishing to challenge matriculation requirements, or file a complaint regarding the application of matriculation regulations, may do so in writing to the Dean of Student Services. The rationale and any relevant documentation to justify an exception to the requirements must be included with the student's request.

GRADING POLICY - ACADEMIC RECORD SYMBOLS AND GRADE POINT AVERAGE

Grades from the following grading scale shall be averaged on the basis of the point equivalencies to determine a student's grade point average. The highest grade shall receive four points, and the lowest grade shall receive 0 points, using only the following evaluative symbols:

SYMBOL DEFINITIONS		GRADE POINT
A	Excellent	4
B	Good	3
C	Satisfactory	2
D	Passing, less than satisfactory	1
F	Failing	0

P **Pass** (at least satisfactory - units awarded not counted in GPA)

NP **No Pass** (less than satisfactory, or failing - units not counted in GPA)

I Incomplete:

The "I" symbol shall not be used in calculating units attempted nor for grade points.

If a student has incomplete academic work because of unforeseeable, emergency and justifiable reasons at the end of the term, he/she may consult with the instructor and request the instructor issue an "I" (Incomplete) on the student's record. The condition for removal of the "I" shall be stated by the instructor in a written record. (The form is available in the Admissions and Records Office). This record shall specify the conditions for removal of the "I" and the grade assigned in lieu of its removal. This record must be signed by both the student and instructor, with each keeping a copy. The original will be kept on file with the Director of Admissions and Records until the "I" is made up or the time limit has passed. A final grade shall be assigned when the work stipulated has been completed and evaluated, or when the time limit for completing the work has passed.

The "I" must be made up no later than one academic year following the end of the term in which it was assigned. A student may petition the appropriate Dean for a time extension due to circumstances which are unusual or beyond the student's control.

IP In Progress:

The "IP" shall not be used in calculating grade point average.

The "IP" symbol shall be used to denote that the class extends beyond the normal end of an academic term. It indicates that work is "in progress," but that assignment of a substantive grade must await its completion. The "IP" symbol shall remain on the student's permanent record in order to satisfy enrollment documentation. The appropriate evaluative grade and unit credit shall be assigned and appear on the student's record for the term in which the course is completed.

RD Report Delayed:

The "RD" shall not be used in calculating grade point average.

The "RD" symbol may be assigned by the Director of Admissions and Records only. It is to be used when there is a delay in reporting the grade of the student due to circumstances beyond the control of a student. It is a temporary notation to be replaced by a permanent symbol as soon as possible.

W Withdrawal:

The grade of "W" is authorized for students who withdraw from a class prior to the last day to withdraw. Withdrawal requests must be submitted to the Admissions & Records office. Students may not withdraw via WebReg. Students are limited to two withdrawals per course. Under certain circumstances, a student may petition for one additional withdrawal. Please see a counselor for more information.

- For quarter-length (12 week) courses, students may withdraw between the end of the fourth calendar week and the last business day of the seventh calendar week of classes.
- For six-week session courses, students may withdraw between the end of the second calendar week of classes and the first business day of the fourth calendar week of classes.
- For all other courses, the last day to withdraw is generally prior to the 58% point of the course. Please contact Admissions & Records for the last day to withdraw from specific courses.

No notation shall be made on the academic record of the student who withdraws from a class or classes prior to the beginning of the period of time for which a grade of "W" is authorized. The academic record of a student who remains in a class or classes beyond the time authorized to give a grade of "W" must reflect a grade other than "W."

In extenuating circumstances clearly beyond the control of the student, such as verified accidents or extended illnesses, a student may petition the Vice President, Academic Affairs and Student Services for a grade of "W" beyond the authorized time for such a grade.

The "W" shall not be used in calculating grade point average, but excessive "W's" shall be used as factors in probation and dismissal procedures. Withdrawals may be counted as a repeat for the course.

Lake Tahoe Community College grade point average (GPA) is computed using only grade points and units for courses completed graded "A-F." The grade of "P" and the units earned in such a course will not be counted in calculating grade point average, but will count in determining probation status. An overall GPA of 2.0 is required for graduation from Lake Tahoe Community College.

MW Military Withdrawal:

The grade of "MW" shall be authorized upon verification that a student who is a member of an active or reserve United States military service receives orders compelling a withdrawal from courses. This grade may be issued at any time following the end of the drop with no record period.

Military withdrawals shall not be counted in progress probation nor dismissal calculations.

GRADE CHANGES

The determination of the student's grade by the instructor shall be final in the absence of mistake, fraud, bad faith, or incompetency (Title 5, §55760). A student who feels that an instructor has given an evaluative grade based on one or more of these conditions, and has evidence to substantiate the claim, may pursue an appeal by following the procedures delineated in Board Regulation 3.11 which is available in Student Services, Admissions and Records, or the Instruction Office. Students requesting a change of grade on the basis of mistake, fraud, bad faith, or incompetency must begin the appeal process within one year from the end of the quarter in which the course was taken. The process for grade changes resulting from student dishonesty or fraud are delineated in Board Regulation 3.11.

POLICY FOR ACADEMIC RENEWAL

A student may petition the Director of Admissions and Records to have disregarded a portion of previous sub-standard college work (grades of "D," "F" or No Pass) which is not reflective of the student's demonstrated ability. To petition, the following conditions must be met:

1. Petition for Academic Renewal at Lake Tahoe Community College is limited to a one-time only request. In the petition, the student must select the terms to be disregarded. The number of terms that may be considered is a maximum of three quarters. Satisfactory work (grade of "C" or better) completed during the terms for which work is to be disregarded may be counted for both subject and unit credit in meeting certificate and A.A. degree requirements.
2. The student must have completed 24 units of course work at Lake Tahoe Community College with a GPA of 2.50 since the sub-standard work was recorded. Not more than six of these units completed subsequent to the disregarded work may be earned in courses where a grade of "P" (Pass) may be issued.
3. Two years must have lapsed since the sub-standard work to be disregarded.
4. The permanent academic record at Lake Tahoe Community College shall be annotated in such a manner that all course work and grades remain legible.

A form is available in Admissions and Records or Student Services.

PASS/NO PASS COURSES

The College offers certain courses for a Pass (P)/No Pass (NP) grade option. For those courses that have this option, the student is held responsible for all coursework, assignments, and examinations and will earn a "P" if his/her final grade is a "C" or better. A "NP" is issued when the final grade earned is a "D" or "F." The Admissions and Records Office maintains a list of courses that have the P/NP grading option available. Should a student seek this grading option for a course, he/she must inform the Admissions and Records Office by the end of the fourth week of quarter-length classes, or the 30% point for short classes.

A maximum of 12 units earned in courses where a grade of "P" is received may be used toward the course requirements for the A.A. degree. A maximum of 4 units earned in courses where a grade of "P" is received may be used toward the course requirements for certificates. Note that courses taken for P/NP may not transfer as major preparation courses. Students are encouraged to work with a counselor for all transfer planning.

REPEAT POLICY

All courses require a grade of "D" or better to earn credit. Courses completed with a grade of "C" or higher may not be repeated unless otherwise noted in the course description of the catalog. Courses completed with a grade of "W," "D," "F," or "NP" may be repeated once, but not for duplicate credit. The higher of the two grades will be used in computing grade point average. One additional repeat may be allowed by petition. Students must meet with a counselor prior to submitting a petition to repeat. For additional information on repeating courses, see Audit Policy. Note: Extra repeats for substandard grade are NOT allowed for repeatable courses.

Students on financial aid should check with the Financial Aid Office before repeating courses because of the effect it may have on their award.

CREDIT BY EXAMINATION (CHALLENGE EXAM)

Courses available to be challenged through the credit by examination process are listed at the beginning of each subject area in the *Course Description* section of the catalog. In order to receive credit by examination, students must petition to challenge a particular course with the Admissions and Records Office and follow the procedures outlined below. Students are strongly urged to meet with a counselor before pursuing the credit by examination process.

The policy for credit by examination is as follows:

1. Students must submit a Challenge Exam petition at least five business days prior to the assigned test date when the challenge exam will be administered. The challenge exam petition deadline and test dates are published each quarter in the schedule of classes.
2. Only courses designated in the current catalog as "Challenge Courses" may be challenged.
3. Only one challenge per quarter is allowed and the course to be challenged must be selected from the current quarter's schedule.
4. An individual course may only be challenged once by the same student.
5. Students may not challenge a course they have previously taken in which they received a D, or F, or NP grade.
6. Credit for courses which have been challenged may apply toward graduation requirements as area, major or elective courses as indicated by course number code, but may not be counted in determining hours of credit in residence or catalog rights.
7. Instructors have two instructional days after the examination date in which to grade the exam and file the grades in the Admissions and Records Office. Grading shall be according to the college's regular grading scale (that is, A, B, C, D, or F); students shall be offered a pass/no pass option if that option is ordinarily available for the course (Title 5§55753).
8. Students may elect to receive the grade on the challenge exam or to enroll in the course as a regular student if space is available. If a student elects to enroll in the course instead of receiving the challenge grade, the student must notify the Admissions and Records office within two weeks of the exam date. Students enrolling in the course must pay applicable registration fees and/or tuition in addition to the challenge exam fee.
9. The service fee of \$13 per unit for a challenge examination is NON-REFUNDABLE.
10. Students may enroll in the course prior to taking the challenge exam. However, if the student elects to receive the grade on the challenge exam, the student must drop the course that was challenged.
11. If a student has previously received a grade in a course, the student may not challenge the course.

TRANSCRIPTS

Transcript copies are provided to students from the Admissions and Records Office. Requests for official transcripts must be presented IN WRITING. Forms and fee information are located in the Admissions and Records Office. Transcript request fees are as follows:

Two transcripts will be sent free of charge. Each additional transcript (after the two free of charge) will be sent at a cost of \$3.00. Normal processing time (depending on the time of year) will be 7-10 working days. Rush transcripts (which will be sent within 1-3 working days, depending on the time of the year) will be processed at a cost of \$10 per transcript. This rush fee is in addition to whatever fee the student

owes for the transcript itself. Most rush transcripts will be processed the same day. Unofficial transcripts are available online. Go to www.ltcc.edu and click on Online Services.

WITHHOLDING SERVICES FOR NONPAYMENT OF FEES

Grades, transcripts, diplomas and registration privileges, or any combination thereof, shall be withheld from any student or former student who has been provided with written notice that he or she has failed to pay a proper financial obligation due to the Lake Tahoe Community College District. Any item or items withheld shall be released when the student satisfactorily meets the financial obligation (Education Code Section 72237).

REQUESTING EXCEPTIONS TO ACADEMIC POLICIES AND PROCEDURES

A student may petition exceptions to some academic policies and procedures by completing an "Academic Policies and Procedures Petition" form. This form is available in Student Services (room A100) or in the Admissions and Records Office (room A102). The form, together with any supporting documentation, must be submitted to the Vice President, Academic Affairs and Student Services (room A104). The Vice President, prior to making a determination regarding the exception request, may direct the petition to the Student Petitions Committee. The purpose of this committee is to render advice to the Vice President on petitions from students requesting exceptions to academic policies and procedures. The final decision to grant exceptions is made by the Vice President. Students have the right to appeal the decision of the Vice President by either petition back to the Vice President or by utilizing the grievance procedures described in the catalog.

Students considering petitioning for exceptions to academic policies and/or procedures are encouraged to meet with a counselor to discuss their options.

Academic & Progress Probation

ACADEMIC PROBATION AND DISMISSAL

A student who has attempted at least 12 quarter units as shown by the official academic record shall be placed on academic probation if the student has earned a cumulative grade point average below 2.0. Students on academic probation intending to take more than 3 units are required to meet with a counselor prior to registering for the next quarter. Students will be limited to 13 (or fewer) units.

A student on academic probation for a grade point deficiency shall be removed from probation when the student's cumulative grade point average is 2.0 or higher.

A student who is on academic probation shall be subject to dismissal if the student has completed 30 units with a cumulative grade point average of less than 2.0 in each of three consecutively enrolled quarters (e.g., a fall quarter followed by a spring quarter if the student was not enrolled during the winter quarter of that academic year).

PROGRESS PROBATION AND DISMISSAL

A student who has enrolled in a total of at least 18 quarter units as shown by the official academic record shall be placed on progress probation when the percentage of all units in which a student has enrolled and for which entries "W," "I," and "NP" are recorded reaches or exceeds 50% of the total units. Students on progress probation are required to meet with a counselor prior to registering for the next quarter. Students will be limited to 13 (or fewer) units.

A student on progress probation because of an excess of units for which entries of "W," "I," and "NP" are recorded shall be removed from probation when the percentage of units in this category drops below 50% of the total units.

A student who has been placed on progress probation shall be subject to dismissal if the percentage of units in which the student has been enrolled, and for which entries of "W," "I," and "NP" are recorded in at least 5 consecutive quarters, reaches or exceeds 50% of the total units.

DISMISSAL APPEAL PROCEDURES

Exceptions to the standards for dismissal may be warranted in the case of unusual circumstances such as extended illness, error, unforeseen personal situations, or other unexpected hardship. A dismissed student may submit a Dismissal Appeal form and appropriate documentation to the Dean of Student Services. Dismissal Appeal forms are available in Student Services, room A100. Dismissed students are encouraged to meet with a counselor to discuss the appeal process.

REINSTATEMENT

A dismissed student may be readmitted following an absence of one quarter. Students must file a Petition for Reinstatement with the Dean of Student Services and meet with a counselor to develop a Student Success Contract. Students will be notified within five working days of the outcome of their petition for reinstatement. A student admitted after dismissal will remain on probation and may be dismissed after the reinstatement quarter if he/she does not meet the terms of the Student Success Contract. Petition for Reinstatement forms are available in Student Services, room A100.

NOTE FOR STUDENTS RECEIVING VETERANS' BENEFITS

In addition to the standing Lake Tahoe Community College policy on probation/dismissal, students receiving V.A. education benefits (Chapters 30, 31, 32, 35 of Title 38 USC, and Chapter 1606 of Title 10 USC) must maintain a cumulative grade point average of 2.0 or better. Students who fail to maintain a cumulative GPA of 2.0 or better after 2 consecutive terms and/or quarters will be reported to the U.S. Department of Veterans' Affairs as maintaining Unsatisfactory Progress, and their V.A. education benefits will be discontinued. V.A. benefits could also be affected for students who stop attending a class without dropping and receive a substandard grade.

Students who are reported as making Unsatisfactory Progress to the U.S. Department of Veterans Affairs must receive counselor approval before recertification is possible. Contact the Admissions and Records Office for more information.

Student Rights & Responsibilities

STUDENT CONDUCT STANDARDS

All members of the College community have a responsibility to contribute to the collegiate atmosphere of study, inquiry, and learning. Students, non-students, and guests on campus assume an obligation to conduct themselves in a manner compatible with the College's function as an educational institution and in accordance with the College's policies and regulations.

The principle of personal honor is the basis for student conduct on campus. The honor system rests on the sincere belief that the college student is a mature and self-respecting adult, and can be relied upon to act as a responsible and ethical member of society. The College has adopted student conduct standards and students, non-students, and guests on campus are required to abide by these standards of conduct.

Misconduct for which disciplinary action will be imposed falls into the following categories:

1. Violation of College policies or of campus regulations including, but not limited to, campus regulations concerning student organizations; the use of College facilities; library procedures; College bills and debts; parking.
2. Obstruction or disruption of teaching, research, administration, disciplinary procedures, or other College activities, including its community service activity, or of other authorized activities on College-controlled premises.
3. Physical abuse, or threat of physical abuse, of any person on College-owned or controlled property or at College-sponsored or supervised functions, or conduct which threatens or endangers the health or safety of any such person.
4. Theft of, or damage to, or threat of damage to, property of the College community or campus visitor. Students who willfully damage College property, including materials and equipment, are liable for replacement or repair as prescribed in Education Code Section 76039.
5. Unauthorized entry to or use of College facilities, equipment and supplies or unauthorized use of public address systems.
6. Dishonesty, such as cheating, plagiarism or furnishing false information to the College; forgery, alteration or misuses of College documents or records of identification.
7. Use, possession, distribution, or being under the influence of narcotics or dangerous drugs, including, but not limited to, marijuana and alcohol, except as expressly permitted by law.
8. Disorderly conduct or lewd, indecent or obscene conduct or expression on College owned or controlled property or at College sponsored or supervised functions.
9. Failure to comply with directions of College officials acting in the performance of their duties.
10. For all causes as set forth in the Education Code, Section 76030 and following including but not limited to the following offenses:
 - (a) Continued disruptive behavior, continued willful disobedience, habitual profanity or vulgarity, or the open and persistent defiance of the authority of, or persistent abuse of, college personnel.
 - (b) Assault, battery, or any threat of force or violence upon a student or college personnel.
 - (c) Willful misconduct which results in injury or death to a student or college personnel or which results in cutting, defacing, or other injury to any real or personal property owned by the district.
 - (d) The use, sale, or possession on campus of, or presence on campus under the influence of, any controlled substance, or any poison classified as such by Schedule D in Section 4160 of the Business and Professions Code.
 - (e) Willful or persistent smoking in any area where smoking has been prohibited by law or by regulation of the governing board.
 - (f) Persistent, serious misconduct where other means of correction have failed to bring about proper conduct.
11. Falsification by a student of any information on an application for admission to the College.

ACADEMIC DISHONESTY AND PLAGIARISM POLICY

Academic dishonesty and plagiarism are major concerns in higher education. Lake Tahoe Community College is committed to promoting honesty, integrity and originality in all aspects of the classroom.

Lake Tahoe Community College defines academic dishonesty as:

1. Cheating on examinations, quizzes, or other forms of classroom assessment. Cheating includes copying off of another student's work in class or verbally getting answers or assistance from another student in class.
2. Having another person complete work for a class and submitting that as one's own.
3. Using data storage or transmission devices, including cell phones, audio devices (iPods), Blackberrys, PDAs, cheat sheets to cheat or to complete work in the class.
4. Any other act that constitutes cheating or dishonesty in the classroom.

Lake Tahoe Community College defines plagiarism as:

1. Using another's language, work, ideas or other original material without giving proper credit to the original source, whether done accidentally or on purpose. It includes written work, ideas, graphs, artwork, music, maps, statistics, diagrams, scientific data, software, films, videos and the like. It includes work from published or unpublished sources, including the Internet.
2. Attempting to blur the line between one's own ideas or words and those taken from another source. Even if only bits and pieces of outside sources are used or if published work is rewritten, it still constitutes plagiarism unless the source is adequately cited and all quoted materials are enclosed in quotation marks.
3. Carelessly or inadequately citing ideas or words from another source.

4. Having another person complete a written or other classroom assignment and submitting that work as one's own, such as through the use of "paper mill" Web sites or having another person ghostwrite the assignment. It does not matter if ideas are stolen, bought, or downloaded from the Internet or written by someone else, it still constitutes plagiarism.
5. Using a paper, work, or assignment from a previous class, whether at Lake Tahoe Community College or not, and submitting that work as a new assignment, unless otherwise authorized by the faculty member.

Responsibility

There are few offenses more serious in an educational environment than academic dishonesty and plagiarism. Students have the ultimate responsibility for avoiding plagiarism in all of their class work. Violations of the Lake Tahoe Community College Academic Dishonesty and Plagiarism Policy may result in any number of disciplinary actions below. This policy applies to all classes, including online and hybrid classes and all instruction that may occur outside the classroom, including field trips, off-campus facilities, and testing centers.

Enforcement

Classroom: It is the responsibility of the instructor to enforce the Lake Tahoe Community College Academic Dishonesty and Plagiarism Policy and to determine any consequences for violations of the policy. Consequences could include:

- The student may receive a 0 or F on that assignment.
- The student may receive an F for the class (in accordance with the college's grading policies).
- The student may be referred for disciplinary action which may include disciplinary suspension from the class or the college.

College: Students found to be in violation of the Lake Tahoe Community College Academic Dishonesty and Plagiarism Policy will be subject to the following:

1. Any student violating the Lake Tahoe Community College Academic Dishonesty and Plagiarism Policy is subject to the disciplinary procedures outlined in the "Student Rights & Responsibilities" section of the LTCC Catalog. Repeated violations of this policy may result in expulsion from Lake Tahoe Community College.
2. Any student violating the Lake Tahoe Community College Academic Dishonesty and Plagiarism Policy who serves on Associated Student Council or is the student representative on the Lake Tahoe Community College Board of Trustees will be removed.
3. Any student violating the Lake Tahoe Community College Academic Dishonesty and Plagiarism Policy will be subject to having this violation recorded and retained in the Vice-President of Academic Affairs and Student Services' office.

DRUG-FREE SCHOOL POLICY

Lake Tahoe Community College District is committed to providing a healthy and safe environment and a drug-free learning environment.

Lake Tahoe Community College District (hereafter the "College District") prohibits the unlawful possession, use or distribution of illicit drugs and alcohol by students or employees on any property owned by the College District. This standard of conduct also applies to students and employees attending any activity of the College District.

Pursuant to California Education Section 76030, the College District Board or president of a community college shall suspend or expel a

student, depending on the circumstances, for good cause. Under Education Code Section 76033(d), the term "good cause" includes, but is not limited to, the use, sale or possession on campus of, or presence on campus under the influence of, any controlled substance.

DISCIPLINARY ACTIONS AND PROCEDURES

The following forms of disciplinary action may be initiated at any time when a student is found to be in violation of any of the foregoing student conduct standards. These disciplinary actions are listed in order of severity but not as sequential steps which must be followed in the discipline process. College authorities will determine which type of action is appropriate. Any member of the college community (i.e., faculty, staff, student) may file a written complaint with a college administrator against any student for misconduct.

Prior to initiation of these formal disciplinary actions, the parties involved are encouraged to seek resolution through informal efforts. Should either party wish to pursue an informal resolution, the Vice President, Academic Affairs and Student Services, Dean of Student Services, and the Deans of Instruction are available to meet with the parties and mediate and assist with such informal efforts.

DISCIPLINARY ACTIONS

Warning

Warning is defined as a verbal or written notice to the student that continuation or repetition of specified misconduct may be cause for disciplinary action. A faculty member or administrator shall issue such a warning. (Education Code §76031)

Removal by Instructor

An instructor may remove a student from his/her class when the student's conduct interferes with the instructional process. The duration will be for the day of the removal and may extend through the next class meeting. The faculty member shall immediately report the removal in writing to the Vice President, Academic Affairs and Student Services. Records of removal shall be retained in the Vice President, Academic Affairs and Student Services office. (Education Code §76032)

Official Reprimand

An official reprimand serves to place on record that a student's conduct is in violation of the College's student conduct standards. A person receiving a reprimand is notified in writing that continued conduct of the type described in the reprimand may result in additional disciplinary action against the student. A faculty member or administrator shall issue an official reprimand utilizing the Student Conduct Reprimand form. Records of official reprimands shall be retained in the Vice President, Academic Affairs and Students Services office. (Education Code §76031)

Disciplinary Probation

Disciplinary probation may consist of removal from all college clubs and organizations, denial of privileges of participating in all college or student-sponsored activities including public performances, or both and may be imposed upon an individual student or groups of students. Disciplinary probation may be imposed for a period not to exceed one year and can be rendered by an administrator. Additional violations of the college's student conduct standards while on disciplinary probation status may be cause for suspension or other, more stringent, disciplinary action. Notification of disciplinary probation actions shall be immediately reported in writing to the Vice President, Academic Affairs and Student Services. Students placed on

disciplinary probation may appeal this disciplinary action to the Vice President, Academic Affairs and Student Service. Records of disciplinary probation actions shall be retained in the Vice President, Academic Affairs and Student Services office. (Education Code §76031)

Interim Suspension

In those cases where an immediate suspension is required in order to protect lives or property or to ensure the maintenance of order, the Vice President, Academic Affairs and Student Services may summarily suspend a student for a period not to exceed ten (10) instructional days provided that, within that ten-day period, a reasonable opportunity for a disciplinary hearing is provided to that student (Education Code §66017). Interim suspension is subject to the Due Process Hearing and Appeal Procedures outlined in the college catalog. Records of the interim suspension shall be retained in the Vice President, Academic Affairs and Student Services office.

Should the due process hearing procedures find in favor of the student under interim suspension, the student will be allowed to make-up any coursework missed during the interim suspension.

Disciplinary Suspension

Disciplinary suspension serves as a penalty against a student for repeated, continued, or serious violations of the college's student conduct standards. A student may be suspended from one or more classes for a period of up to ten (10) days of instruction; from one or more classes for the remainder of the term; or from all classes and activities of the college for one or more terms. A suspended student may be prohibited from occupying any portion of the campus and be denied participation in any or all college activities. Disciplinary suspensions shall be initiated by the Vice President, Academic Affairs and Student Services and are subject to the Due Process Hearing and Appeal Procedures outlined in the college catalog. Records of disciplinary suspensions shall be retained in the Vice President, Academic Affairs and Student Services office. (Education Code §66017, §76030, and §76031)

Expulsion

Expulsion is the permanent and unconditional removal of a student from the College. As distinguished from suspension, which is handled at the College level, expulsion from the College can only be executed by action of the Board of Trustees upon recommendation of the Superintendent/President (Education Code §76030). Expulsion is initiated through the Due Process Hearing and Appeal Procedures outlined in the college catalog.

The Superintendent/President may forward to the Board of Trustees a written notice recommending expulsion which shall include a brief statement of charges. The Superintendent/President as Secretary for the Board of Trustees will forward a letter to the student by certified mail (accompanied by a return receipt), advising the student of the intention of the Board to call and hold a closed session to consider an expulsion. This written notification from the Superintendent/President to the student will include the following information:

1. Statement of the charge(s), detailing the specific violation(s) of the College's student conduct standards.
2. Date, time, and place of the meeting of the Board of Trustees at which the matter of expulsion shall be considered. This hearing

date shall not be less than ten (10) days from the date the student received the written notification from the Superintendent/President.

3. Notice that the student may be accompanied at the hearing by legal counsel, if so desired. If the student is to be represented by legal counsel, he/she must so notify the Superintendent/President of that fact at least seven (7) days prior to the date of the scheduled hearing.
4. Notice that the student may submit a written request, within 48 hours after receipt of this written notification, that the hearing of the Board be held as a public meeting rather than in closed session.

Unless the student requests that the hearing of the Board be held as a public meeting, then the hearing to consider the matter shall be conducted by the Board in closed session. If a written request by the student is submitted, the meeting shall be public except that any discussion at the meeting that might be in conflict with the right to privacy of any student other than the student requesting the public meeting, shall be in closed session. Whether the hearing is conducted before the public or in closed session, the Board shall confer in private with its designated legal counsel as necessary to consider the evidence presented and reach its determination in the matter. When these deliberations are completed, the final action of the Board shall be taken at a public meeting and the result of that action shall be made a part of the public record of the College and forwarded to the student by certified mail (accompanied by a return receipt). (Education Code §72122)

If the student fails to appear at the hearing before the Board of Trustees, the Board may declare the student in default and proceed as if the student were present at the hearing.

DUE PROCESS HEARING AND APPEAL PROCEDURES

Consistent with Education Code §66017 and §76030, the student disciplinary actions of suspension and expulsion are subject to the due process hearing and appeal procedures described herein. In the procedures that follow, the terms "day/days" refer to days that the College is open.

In cases where lesser disciplinary actions have been ineffectual in halting student misconduct or the magnitude of the misconduct warrants more severe disciplinary action, the College will initiate the process for a suspension or expulsion. When the decision is made to initiate such a process, the representative of the College or other person having knowledge of the violation of the student conduct standards will submit a written account to the Vice President, Academic Affairs and Student Services detailing the violation. The Vice President, Academic Affairs and Student Services will deliver in person or provide via certified mail (accompanied by a return receipt) to the student a copy of the charges against the student and by whom made, the specific violation(s) of the College's student conduct standards, other relevant information, and notice of the due process hearing and appeal procedures. If the student is a minor, the parent or guardian shall also be provided notice of the due process hearing and appeal procedures.

The Vice President, Academic Affairs and Student Services shall convene the Student Disciplinary Committee to hear the charges and recommend disciplinary action. The Student Disciplinary Committee shall be comprised of two full-time faculty members, two students, and one administrator. Persons who are direct parties to the case may not sit on the committee nor shall the Vice President, Academic Affairs and Student Services or the Superintendent/President.

The hearing meeting of the Student Disciplinary Committee shall be held within ten (10) days of the time the student received the written charges from the Vice President, Academic Affairs and Student Services. Persons who are direct parties to the case shall have the right to be present during the hearing proceedings. All hearing proceedings will be tape recorded. The student may be accompanied by another person at the hearing provided that person does not participate in any way except to offer counsel to the student. The College and the student shall have the right to call, examine, and cross-examine witnesses at the hearing. If the student against whom the charges have been filed fails to appear at the time and place designated, the hearing may proceed without the student and the committee shall reach a decision based on all evidence presented.

Upon consideration of the charges, the Student Disciplinary Committee has the following four options:

1. Recommend expulsion;
2. Impose suspension;
3. Impose lesser disciplinary action; or
4. Drop the charges of violation of the student conduct standards.

Within two (2) days of the meeting to hear the case, a representative of the Student Disciplinary Committee will deliver in person or mail by certified mail (accompanied by a return receipt) their findings to the student and the Vice President, Academic Affairs and Student Services. With the exception of a recommendation of expulsion, the Vice President, Academic Affairs and Student Services will implement the decision of the committee. Should the findings result in a recommendation of expulsion, the Vice President, Academic Affairs and Student Services will forward such to the Superintendent/President for further action (see Expulsion section under Disciplinary Actions).

APPEALS

With the exception of recommendations of expulsions which are subject to appeal to the Board of Trustees, students may appeal the findings of the Student Disciplinary Committee to the Superintendent/President. Such appeal may be based only on the following grounds:

1. Required procedures were not properly followed;
2. New evidence, not reasonably available at the time of the Student Disciplinary Committee hearing, is presented and is of sufficient importance to warrant reconsideration;
3. The findings were unsupported by evidence in the record made before the Student Disciplinary Committee; or
4. The sanction imposed for the violation was unreasonably harsh or inappropriate when viewed within the context of the nature of the violation.

The timelines for this appeal process are delineated below:

1. The student has five (5) days from receipt of the findings of the Student Disciplinary Committee to file a written appeal with the Superintendent/President.
2. Upon receipt of the written appeal, the Superintendent/President has ten (10) days to conduct an appeal hearing and five (5) days from that appeal hearing to hand deliver or mail (by certified mail, accompanied by a return receipt) to the student the appeal ruling.
3. The appeal hearing shall consist of a review of the record of the hearing before the Student Disciplinary Committee plus such additional argument as either side wishes to provide. New or additional evidence will only be received in the event that a showing can be made that such evidence was not available at the time of the Student Disciplinary Committee hearing.

All time limits may be extended by mutual agreement between the student and the Superintendent/President.

SEXUAL HARASSMENT POLICY

The Lake Tahoe Community College District is committed to an environment in which all employees and students are treated with respect and dignity. Each employee has the right to work in a professional atmosphere that promotes equal employment opportunity and is free from discriminatory practices. Each student has the right to learn in an environment that promotes equal educational opportunity and is free from discriminatory practices.

Sexual harassment is a violation of Title VII of the Civil Rights Act of 1964, California Education Code Sections 210 through 214, inclusive, and Government Code Sections 12900-1296 (Fair Employment and Housing Act) and Title IX of the Education Amendments of 1972.

Therefore, the District strongly condemns, opposes, and prohibits sexual harassment of employees, applicants, and students whether verbal, physical, or environmental, by anyone in or from the District.

Any employee who violates this policy may be subject to discipline, up to and including termination. Any student who engages in sexual harassment of anyone in or from the District may be subject to discipline, up to and including expulsion.

As used in this policy and regulation, "sexual harassment" means unwelcome sexual advances, requests for sexual favors, and other verbal, visual, or physical conduct of a sexual nature, made by someone from or in the work or educational setting, under any of the following conditions:

- (a) Submission to the conduct is explicitly or implicitly made a term of a condition of an individual's employment, academic status, or progress.
- (b) Submission to, or rejection of, the conduct by the individual is used as the basis of employment or academic decisions affecting the individual.
- (c) The conduct has the purpose or effect of having a negative impact upon the individual's work or academic performance, or of creating an intimidating, hostile, or offensive work or educational environment.

- (d) Submission to, or rejection of, the conduct by the individual is used as the basis for any decision affecting the individual regarding benefits and services, honors, programs, or activities available at or through the educational institution.

COMPLAINT PROCEDURE

Every effort will be made to protect the privacy of the parties involved in a complaint. Files which pertain to complaints handled under the informal process shall be kept confidential. No retaliation of any kind will occur because an employee or student has made a sexual harassment complaint.

- a. Informal Resolution Process - To accommodate the unique nature of sexual harassment complaints, an informal process is provided for the primary resolution of a complaint at the earliest possible date. This process shall include, at a minimum, the following elements:

- (1) The Deans will be available to receive sexual harassment complaints from students. If a Dean is the alleged harasser, the student may present his or her complaint to the Director of Human Resources. Upon receiving a sexual harassment complaint the appropriate party shall:
 - (a) Counsel the alleged victim as to the complaint process, rights of the parties involved, and outline the options available. The student may elect to go directly to the formal complaint process at any time.
 - (b) Document the complaint in writing.
 - (c) Conduct an interview with the accused and document this in a written statement.
 - (d) Consult with the Director of Human Resources to reach a preliminary determination as to whether the alleged conduct constitutes sexual harassment.
 - (e) Present the results of this informal process to the Director of Human Resources for final disposition of the complaint.
- (2) The Director of Human Resources or designee will review the factual information collected and, if determined to be necessary, will conduct a follow-up investigation, interviewing the accused, witnesses, and supervisor, as appropriate. The Director of Human Resources will then make a determination whether the alleged conduct constitutes sexual harassment, giving consideration to the record as a whole and the totality of the circumstances, including the nature of the sexual advances and the context in which the alleged incidents occurred, and will take and/or authorize appropriate action.

- b. Formal Resolution Process

- (1) If the complaint is not resolved through the informal process to the satisfaction of the alleged victim, a formal complaint may be filed pursuant to the procedure outlined in the district's *Unlawful Discrimination Complaint Resolution Procedures and Sexual Harassment Policy*.

- (2) Students may also contact the State of California Department of Fair Employment and Housing, Oakland District Office, 1515 Clay Street, Suite 701, Oakland, CA 94612-2512, (800) 884-1684; and/or the Office for Civil Rights, San Francisco Office, U.S. Department of Education, Old Federal Building, 50 United Nations Plaza, Room 239, San Francisco, CA 94102-4102, (415) 437-7786.

TITLE IX REGULATIONS

Lake Tahoe Community College does not discriminate on the basis of sex in its education programs or activities. Further, LTCC does not discriminate on the basis of sex in admission or employment in its education programs or activities. Inquiries to recipients concerning the application of Title IX and its implementing regulations may be referred to our Title IX Coordinator or to the Office of Civil Rights. The College's Title IX Coordinator is Susan Walter, Director of Human Resources, LTCC, One College Drive, South Lake Tahoe, CA (530) 541-4660, ext. 221.

STUDENT GRIEVANCE PROCEDURES

Grievance procedures are initiated by the student. "Grievance" shall mean a statement by a student(s) that one has been treated inequitably by reason of any condition which is contrary to College policy. This grievance procedure is applicable both to matriculation and to all other instances except those covered by the District's Unlawful Discrimination and/or Harassment Plan. Copies of these plans are available in Human Resources and the Library. Further definition can be obtained in the procedures outlined below.

In the following, "day(s)" shall refer to instructional days only.

INFORMAL GRIEVANCE PROCEDURES

In an effort to satisfactorily resolve grievances without formal hearings, the College has established informal procedures.

The aggrieved student is urged to meet with a counselor in Student Services. Alternatives, implications of various courses of action, and definition of terms can be explored, as well as any other relevant concern.

An informal meeting of the aggrieved student and the object of the grievance can be arranged. No limit is placed on the number of such informal meetings nor upon the time spent in pursuing an informal resolution, so long as both parties feel that satisfactory progress is being made. The parties may schedule an informal meeting with the Vice President, Academic Affairs and Student Services, or, if the Vice President, Academic Affairs and Student Services is a party to the charges, with the Superintendent/President.

At any time in the informal attempts at resolution, either party to the grievance or the Vice President, Academic Affairs and Student Services may conclude that satisfactory progress is not being made, and formal proceedings are then initiated.

A resolution of a grievance in the informal procedures that is acceptable to each party shall be written and signed by the parties to the case, and each shall receive a copy. As well, an institutional copy will be filed in the appropriate College office.

Nothing contained within the informal procedure shall be construed as limiting on the student or the College in the formal procedure.

FORMAL GRIEVANCE PROCEDURES

At such time that a decision is made to use formal procedures, the student shall file a written statement of the charges and an appropriate remedy, and request a formal hearing by a grievance committee. The written statement of charges and the request for a formal hearing shall be filed with the Vice President, Academic Affairs and Student Services, or, if the Vice President, Academic Affairs and Student Services is a party to the charges, with the Superintendent/President of the College. The hearing by a grievance committee shall be held within fifteen (15) days of the filing of the grievance.

A request for a formal grievance must be filed within ninety (90) days of the alleged offense, or within ten (10) days of the failure of the informal procedure to resolve the grievance.

The person(s) being charged in the grievance statement shall have their rights protected, including their right to receive a copy of the written statement of grievance, the right to counsel and other rights outlined elsewhere in these due process statements. Ample notice will be given of the place, date and time of the grievance hearing.

The grievance committee shall be comprised of full-time academic personnel and student representation. Persons who are a direct party to a grievance may not sit on the committee for that hearing. The student party to the proceedings may request that students not sit on the grievance committee hearing his/her case.

A representative of the grievance committee shall either deliver to the student in person or by certified mail a written report of the ruling and accomplish this within two (2) days of the committee's meeting to hear the grievance. A copy of the written ruling shall be filed with the appropriate College office.

APPEALS

Appeals may be taken by either party to the grievance in the following manner: a written appeal shall be directed to the Vice President, Academic Affairs and Student Services and post-marked not later than five (5) days from the time of receipt of the ruling of the grievance committee. Appeals may be taken from the Vice President, Academic Affairs and Student Services' office to the President and then to the Board of Trustees, if necessary.

At each level of appeal, except Board level, the same limitations of time prevail: two (2) days from meeting to hand delivery or certified mailing of ruling to the parties, five (5) days from receipt of ruling to request for appeal, an appeal hearing within fifteen (15) days, and two (2) days to delivery of that ruling. All time limits can be extended by mutual agreement of both parties. Cases filed late in a spring quarter will be handled by a committee constituted in the normal manner from available summer staff and students. In any case, the parties to the case are entitled to be present and to have counsel during the hearing. The Board will meet privately in closed session during their actual deliberations leading to their ruling.

The Board will make a report of final action but will not release detailed information unless the student requests and is granted a public hearing.

A student's status at the College shall not be jeopardized in any way because of his or her initiating grievance procedures. No record of the fact shall be entered into the student's permanent academic record or transcript. If formal proceedings result in a ruling that is adverse to

the student, a record may be entered in the student's record according to appropriate College policies.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT

The Family Educational Rights and Privacy Act requires educational institutions to provide students (or their parents, if the students are under 18 and have provided written consent) access to education records directly related to the student.

An opportunity is provided for a hearing to challenge the contents of the records.

The College is required to obtain the written consent of the student before releasing personally identifiable information about them from records to other than a specified list of persons and agencies (see last paragraph). These rights extend to present students and to former students of the College as of September 1975.

Education records generally include material related to admissions, enrollment in classes, grades and related academic information. These records are available to school officials who have legitimate educational interest.

Such records will be made available for inspection and review by presently and formerly enrolled students following completion and filing of a request form with the Records Officer. All attempts to provide records will be made immediately, but in no instance will the waiting period be more than five (5) working days.

In case of a dispute concerning contents of the records, procedures have been established (Student Grievance Procedure) for a hearing, and the President of the College, or his designee, will make the final decision as to action to be taken.

The act provides that the College may release certain types of information (directory information). To withhold disclosure, written notification must be received in the Office of Admissions and Records prior to the first day of the quarter the student is attending. Forms requesting the withholding of directory information are available in Admissions and Records. Lake Tahoe Community College assumes that failure on the part of any student to specifically request the withholding of categories of "Directory Information" indicates individual approval for disclosure.

Directory Information could include student name, city of residence, mailing address, e-mail address, date and place of birth, major field of study, participation in recognized activities and sports, dates of attendance, degrees and awards received, the most recent previous educational institution attended, height and weight of members of athletic teams, and likenesses (such as photographs or video).

A copy of the Guidelines of the Regulations will be available for inspection in the Admissions and Records Office during normal working hours.

CONFIDENTIALITY OF SOCIAL SECURITY NUMBERS

Student social security numbers are highly confidential and only used for internal administrative purposes. They are not printed on any distributed documents except those required by state or federal law for financial aid, the Internal Revenue Service and/or other state and federally mandated programs.

 IGETC for Transfer to CSU & UC 52
 UNR Transfer Core Curriculum 53

"The best part of our college is all the help they give you, especially with the hard classes. The small class sizes also help. I use the Tutoring and Learning Center. I meet with a counselor each quarter to make sure I'm taking the right classes and I work with the Financial Aid department to get the money I need to go to school."

Enrique Sandoval, 20

is completing his general education requirements. He is transferring to Sacramento State where he plans to study civil engineering.

FYI...

Earn your bachelor's degree without leaving Tahoe.

Students can complete their first two years of course work at LTCC and then finish their degree through: Chico State University, CSU-Dominguez Hills, or National University.

See a counselor in Student Services and take advantage of our Career Center services.

Associate in Arts Degree Requirements

Degrees Available

- | | |
|---|-------------------------------|
| Addiction Studies | Liberal Arts |
| Anthropology | - Arts and Humanities |
| Art | - Social Sciences |
| Business | - Mathematics and Science |
| - Accounting | Mathematics |
| - Finance | Medical Office Assistant |
| - Management | - Administrative |
| - Marketing | - Clinical |
| - Small Business Ownership | Natural Science |
| - General Business | Physical Education and Health |
| - Global Business | - Exercise Science |
| Computer Applications/Office Technology | - Health |
| - Administrative Assistant | Psychology |
| - Office Technology | Social Science |
| Computer and Information Sciences | Sociology |
| - Web Development | Spanish |
| Criminal Justice | Visual and Performing Arts |
| - Criminal Justice Foundations | - General |
| - Law Enforcement | - Music |
| - Corrections and Community Supervision | - Theatre Arts |
| Culinary Arts | - Art |
| Early Childhood Education | Wilderness Education |
| English | - Climbing |
| Fire Science | - Snow Skills |
| Humanities | - Water Skills |

GRADUATION REQUIREMENTS

The Associate in Arts Degree shall be granted under conditions which are adopted and published by the Board of Trustees and are, therefore, District Policies.

The following information applies to students who begin LTCC during the 09-10 academic year. If you began before that time, check the catalog in effect at the time of enrollment for degree requirements. Meeting the General Education requirements for an A.A. degree does NOT satisfy requirements for a bachelor's degree. See *Transfer Information* in the catalog for more details. *Waivers, substitutions, or exceptions must be approved by the Vice President, Academic Affairs and Student Services of the College.*

Students may elect to meet the graduation requirements in any catalog in effect when they enrolled at Lake Tahoe Community College.

EXCEPTIONS: (1) Students may not use a catalog that is older than 5 years and (2) Students who have a full year break in enrollment may not use a catalog in effect during or before the break in enrollment. The choice of catalog year must be indicated in the Request for Credit Evaluation.

A student is eligible for graduation with the Associate in Arts Degree (A.A.) upon satisfactory completion of ninety (90) quarter units with a minimum "C" (2.0) grade point average and completion of the following conditions listed below.

Waivers, variations or other exceptions from the graduation requirements listed below require approval by the Vice President, Academic Affairs and Student Services.

1. **Students must earn a minimum of 90 units, to include general education, a major, and electives (numbers 3-5 below).** Unless otherwise stated, courses required for the major may be used to meet general education requirements; however, the units are only counted once towards the 90-unit total.
2. **A cumulative grade point average of 2.0 (C)** is required to earn an Associate in Arts Degree.
3. **General Education Patterns (choose 1):**
 - LTCC GE (see page 50)
 - CSU GE (see page 51)
 - IGETC (see page 52)
 - UNR Transfer Core (see page 53)
4. **Major Requirements:** Students must have a major. See specific requirements for each major beginning on page 57. Major requirements must be completed with a "C" or better or "P" if taken on a "pass/no pass" basis.
5. **Elective units** must be taken to bring the total to 90 units. Transferable Special Topics (designated as 131) and Special Projects (designated as 231) may be applied to elective units. Non-transferable Special Topics (designated as 191) may only be applied to elective units if the class is designated as degree applicable. Non-transferable Special Projects (designated as 291) may not be applied to elective units.
6. A minimum of 18 units applied toward the Associate in Arts Degree must be taken at LTCC.
7. A maximum of 12 units earned in courses where a grade of "P" is received may be used toward the course requirements for the A.A. Degree.
8. Special Topics (131) courses may be applied to General Education or major requirements upon petition to and approval by the Vice President, Academic Affairs and Student Services.
9. Meeting A.A. requirements does not necessarily fulfill transfer requirements.
10. Students may apply only one degree-applicable English course below ENG 101 toward the associate degree.
11. **Non-degree applicable courses** (These courses do not count towards the 90-unit requirement for an A.A. degree):
 CAO 157B, 192A, 192B, 192C, 192D, 192E, 192F, 192G, 192H, 192J, 192K
 CHM 151
 ECE 160A, 160B
 ENG 151R, 151W, 156A, 156B, 160
 ESL 191, 291
 GES 180, 182A, 182B, 184, 185, 186, 188, 193, 196, 199A
 HEC 181A, 181B, 181C, 183
 MAT 157, 183, 184, 185, 187A, 187AA, 187B, 188
 and applicable special topic courses.
12. **Basic Skills Courses** (these courses do not count toward the 90-unit requirement for Associate in Arts Degree):
 ENG 151R, 151W, 156A, 156B, 160
 ESL 191, 291
 GES 180, 184, 185, 186, 196
 MAT 187A, 187AA, 187B
 and applicable special topic courses.
 - a. There is a 45-unit enrollment limit for these courses. A student who shows significant measurable progress toward the development of skills appropriate to enrollment in college-level courses may petition the Vice President,

Academic Affairs and Student Services for a waiver to enroll in a maximum of eight (8) additional units of Basic Skills courses beyond the 45-unit limit.

- b. The following students are exempted from the 45-unit enrollment limitation:
 - Students enrolled in one or more courses of English as a Second Language (ESL).
 - Students identified by the district as having a disability.

13. **Upper Division Coursework:** Students may petition to use upper division coursework completed at other institutions to waive specific subject area requirements. The petition should include a letter of faculty support and is subject to approval by the Vice President, Academic Affairs and Student Services. Upper division coursework will not be counted towards the 90-unit requirement for an A.A. degree.

COMPETENCY STATEMENT

Lake Tahoe Community College will only confer the degree of Associate in Arts upon students who demonstrate competence in reading and written expression by achieving a "C" grade or higher in the course listed under *Area 1, Section (a) - Composition* of the LTCC General Education pattern. Additionally, students seeking the A.A. degree will be required to demonstrate competency in mathematics by completing one of the options listed under *Area 2, Mathematical Concepts and Quantitative Reasoning - Options 1, 2, or 3* of the LTCC General Education pattern. For students completing Options 2 or 3, a "C" grade or higher in the course(s) must be achieved in order to meet the mathematical competency requirement.

MULTIPLE MAJORS

Students may earn more than one major. Each major completed at Lake Tahoe Community College shall be listed on the student's transcript record.

APPLICATION FOR GRADUATION

Application for graduation must be made in Student Services, Room A100, by January 31 of each year. To ensure timely completion, requests for credit evaluations should be made at least two full quarters before expected graduation. If the work to be evaluated includes courses from other schools, all official transcripts must be on file in the Admissions and Records Office prior to requesting the evaluation. Students should allow four (4) weeks for transcripts from other schools to arrive at LTCC. Students must be currently enrolled to request a credit evaluation. (If graduation requirements were completed at LTCC during the summer session or fall quarter, the student may request a credit evaluation prior to the application deadline of the following year. To qualify for evaluation, transcripts must be from an institution accredited by an accrediting agency recognized by LTCC.

HONORS AT GRADUATION

Honors at graduation will be bestowed on students for all course work accomplished at Lake Tahoe Community College based on the cumulative grade point average attained through the winter quarter prior to graduation in the following manner:

Graduation with Highest Honors - Students achieving a 4.0 cumulative average. **Graduation with Honors** - Students achieving a cumulative average of not less than 3.65 and not more than 3.99.

FAQ's about Transferring

Which LTCC courses transfer?

Courses with a middle digit of 0-4 will transfer to the California State University system. Course transferability to the University of California and University of Nevada, Reno is indicated next to each course in the LTCC catalog and schedule.

How many units do I need to transfer?

For UC and CSU systems, students are advised to complete 90 transferable quarter units. Many private universities and out-of-state colleges will accept transfer students with fewer units. For example, students with 36 quarter units and 2.5 GPA are eligible for UNR transfer.

What is the minimum GPA for transfer?

The minimum GPA needed to transfer to a California State University (CSU) is 2.0 for California residents and 2.4 for out of state residents. The minimum GPA needed to transfer to the University of California (UC) is 2.4 for California residents and 2.8 for out of state residents. The GPA needed for transfer to private colleges varies. Some majors and some colleges are impacted and will require higher GPAs for admission. Please see a counselor for further assistance.

What is a competitive GPA for transfer?

To be accepted to an impacted program or a very popular campus, the GPA for admission will need to be considerably higher than the minimum required. A GPA of 3.0 and higher may be required to be competitive for transfer admission. The GPA will vary each year according to that year's applicant pool.

What General Education pattern should I complete for transfer?

For students transferring to UC, the IGETC should be followed. For students who are undecided between a UC or CSU, they should follow the IGETC pattern, which is accepted by both systems. For students who are sure they will attend a CSU, they can follow the CSU-GE Breadth pattern. Likewise, for students planning on attending UNR, they should follow the UNR Transfer Core Curriculum. For some majors, such as engineering and science, these GE patterns may not be recommended. In some instances, the GE patterns will not be accepted. Counselors will help you decide whether you should follow one of the GE patterns.

Where can I find out what classes to take for my transfer major?

Preparation for a major is an important step in transfer planning. Information as to which classes are required for a specific major can be obtained from the transfer institution's college catalog and from articulation agreements. For public institutions in California, articulation agreements between schools are stored on the web at www.assist.org. Please see a counselor for further information.

Transfer Planning

Students planning to transfer to a four-year university have a wide variety of options. The California State University with 23 campuses, the University of California with 9 campuses, University of Nevada-Reno and over 70 private, independent colleges in California provides a wide range of academic programs, physical and academic environments, and social climates. Lake Tahoe Community College offers the equivalent of the first 2 years of these four-year college and university programs. Students wishing to pursue any of these educational alternatives should meet with a counselor as early as possible to discuss their educational study plan. Successful transfer planning requires the following steps:

- Selecting an educational/career goal
- Selecting an appropriate major to meet your goal
- Selecting an appropriate college or university
- Developing and completing an appropriate course of study in preparation for transfer
- Completing the application process

All colleges and universities have specific admission requirements and may have special course and unit requirements, as well as minimum grade point averages that must be met prior to transfer.

Four-year colleges and universities require students to complete specific general education requirements as well as major requirements for the baccalaureate degree. Students should work toward completing both general education and lower division major requirements prior to transfer. The Transfer Center maintains articulation agreements with many colleges that list general education requirements and lower-division major preparation for transfer. All articulation agreements with the CSU and UC schools are stored on the web at www.assist.org.

University applications are available in the Student Services Office. Details on admission requirements and procedures are outlined in the applications.

GENERAL EDUCATION CERTIFICATION

All California State Universities accept a common pattern of General Education (CSU-GE pattern). All UC's and CSU's accept the Intersegmental General Education Transfer Curriculum (IGETC). LTCC counselors can help you decide which pattern is most appropriate for you to follow. You must request that the Transfer Center certify this completion. All UC's and CSU's will honor this certification; that is, they will not require additional courses in lower division GE after transferring.

Note: Completion of the IGETC or CSU-GE may not be your best option depending on your major. See a counselor for further details.

The University of California

The University of California has nine campuses offering undergraduate degrees: Berkeley, Davis, Irvine, Los Angeles, Merced, Riverside, San Diego, Santa Barbara, and Santa Cruz.

ADMISSION REQUIREMENTS

The following admission requirements are for minimum eligibility only; the various campuses and majors often have additional and different subject matter, test, and grade requirements for admissions purposes. Students planning to transfer to a University of California campus must meet one of the following four sets of requirements:

1. If you were eligible for admission to the University when you graduated from high school—meaning you satisfied the Subject, Scholarship, and Examination Requirements—you are eligible to transfer if you have a “C” (2.0) average in all transferable coursework.
2. If you met the Scholarship Requirement but did not satisfy the Subject Requirement, you must take transferable college courses in the subjects you are missing, earn a grade of “C” or better in each of these required courses, and earn an overall “C” (2.0) in all transferable college coursework to be eligible to transfer.
3. If you met the Scholarship Requirement but did not meet the Examination Requirement, you must complete a minimum of 18 quarter units of transferable work and earn an overall “C” (2.0) average in all transferable college coursework completed.
4. If you were not eligible for admission to the University when you graduated from high school because you did not meet the Scholarship requirement, you must:
 - A. Complete 90 quarter units of transferable college credit with a grade point average of at least 2.4, and;
 - B. Complete the following course pattern, earning a grade of “C” in each course:
 - Two transferable college courses (4-5 quarter units each) in English Composition
 - One transferable college course (4-5 quarter units) in mathematical concepts and quantitative reasoning; and
 - Four transferable college courses (4-5 quarter units) chosen from at least two of the following subject areas: the arts and humanities, the social and behavioral sciences, and the physical and biological sciences.

Note: Courses on the IGETC pattern (page 52) will meet these subject requirements for the University of California.

GENERAL EDUCATION/BREADTH REQUIREMENTS

Students may fulfill the lower division breadth/general education requirements at a UC campus by completing one of the following two options:

1. The IGETC (Intersegmental General Education Transfer Curriculum) which will fulfill the lower division breadth/general education requirements for all UC and CSU campuses. Use of the IGETC to satisfy lower-division requirements is either not allowed under some circumstances or not recommended for some majors. Consult a counselor regarding these restrictions.
2. The specific lower division breadth/general education requirements of the campus they intend to transfer to.

See individual course descriptions in catalog to determine if a course transfers to UC.

TRANSFER ADMISSION GUARANTEES (TAG)

Lake Tahoe Community College participates in a transfer admission agreement program with eight schools: UC-Davis, UC-Santa Barbara, UC-Santa Cruz, UC-Riverside, UC-San Diego, UC-Irvine, UC-Merced and Sonoma State University. These programs guarantee admission to the respective schools upon fulfilling the specific requirements of each program. While there are specific conditions that must be met for each of these schools' TAG programs, the following conditions apply to all eight:

- TAGs are written for community college students who will complete at least 90 quarter units before enrolling.
- TAGs are written after students have completed at least 45 transferable quarter units.
- To qualify for a TAG, all specific courses required for minimum UC or CSU eligibility must be completed by the end of the spring prior to enrolling.
- The minimum grade point average required for a TAG in transferable work varies by school and major. Please see a counselor for more information.
- TAGs will be prepared and signed at least one year before a student enrolls at the UC.

Complete information on Transfer Admission Guarantees is available in Student Services.

The California State University

The California State University system consists of 23 campuses in the state: Bakersfield, California Maritime Academy, Channel Islands, Chico, Dominguez Hills, East Bay, Fresno, Fullerton, Humboldt, Long Beach, Los Angeles, Monterey Bay, Northridge, Pomona, Sacramento, San Bernardino, San Diego, San Francisco, San Jose, San Luis Obispo, San Marcos, Sonoma, and Stanislaus.

ADMISSION REQUIREMENTS

If you have completed college units after graduation from high school, you are considered a transfer student.

1. Students who have completed 59 or fewer transferable semester college units (89 quarter units) are considered lower division transfer students.
2. Students who have completed 60 or more transferable semester college units (90 quarter units) are considered upper division transfer students. Note: Some CSUs require 90 quarter units for upper division transfer.
3. Students who completed college units before they graduated from high school or during the summer between high school graduation and CSU enrollment are considered first-time freshmen and must meet those admission requirements.

LOWER DIVISION TRANSFER

You are eligible for admission if you:

1. Have a college grade point average of 2.00 or better in all transferable college units completed.
2. Are in good standing at the last college or university attended, i.e., you are eligible to re-enroll.
3. Meet the admission requirements for a first-time freshman or have successfully completed necessary courses to make up the deficiencies you had in high school if you do not complete the 15-unit pattern of college preparatory subjects.
4. Meet the eligibility index required of a freshman.
5. Some campuses may require completion of English composition and general education math.
6. Contact your campus of choice to determine whether there are limits on admission as a lower division transfer.

UPPER DIVISION TRANSFER

You are eligible for admission if you:

1. Have a college grade point average of 2.00 or better (2.40 for non-California residents) in all transferable college units completed.
2. Are in good standing at the last college or university attended, i.e., you are eligible to re-enroll.

3. Have completed or will complete prior to transfer at least 45 quarter units of courses equivalent to general education requirements with a grade of "C" or better. The 45 units must include all of the general education requirements in communication in the English language (English composition, oral communication, and critical thinking) and at least one course of at least 3 semester units (4 quarter units) required in college level mathematics. Note: Courses on the IGETC or CSU-GE patterns will meet these requirements for the California State University system.

University of Nevada, Reno

Transfer applicants with at least 36 quarter credits in transferable courses with a cumulative GPA of at least a 2.5 may be accepted for admission. Information regarding major preparation requirements at University of Nevada, Reno is available on the web at: <http://www.unr.edu/stsv/trcenter/how/ltccmajortomajor.asp>, and in the Student Services Office, Room A100.

Private, Independent, and Out-of-State Universities

California's fully-accredited independent colleges and universities provide many options at undergraduate, graduate, and professional levels for students planning to continue their education beyond the community college.

Although admission requirements vary, and are listed in the catalogs of the various universities and colleges, students who transfer to independent colleges and universities are given credit for most, if not all, of their community college work. Virtually all colleges and universities give full credit for general education courses and for most other courses designed by the community college for transfer.

The Transfer Center maintains catalogs and related materials to assist students in their planning for transfer to these universities.

CREDIT FOR ADVANCED PLACEMENT EXAMINATIONS

Lake Tahoe Community College (LTCC) grants credit toward its associate degrees and IGETC/CSU certification for a score of 3, 4, or 5 on the Advanced Placement Examination. Credit will be awarded as shown in the chart below. Students must complete a minimum of 12 units at LTCC before Advanced Placement credit will be applied. Contact the Counseling Office for more information. **Note: the following grid is only applicable for general education requirements. AP policies for major preparation are decided by each college/university. Students who have earned credit for an AP exam should not take a comparable course because transfer credit will not be granted for both.**

AP SUBJECT	LTCC	CSU GE	IGETC*
Art: History of Art	4 units in Area 3/Fine Arts	4 units in Area C1 or C2	4 units in Area 3A or 3B
Biology	5 units in Area 5/Bio Sci (lab)	6 units in Area B2 (lab)	5 units in Area 5B (lab)
Chemistry	5 units in Area 5/Phy Sci (lab)	6 units in Area B1 (lab)	5 units in Area 5A (lab)
Chinese Language and Culture		4 units in Area C2	4 units in Area 3B and 6
Economics: Macroeconomics	4 units in Area 4/Soc Science	4 units in Area D	4 units in Area 4
Economics: Microeconomics	4 units in Area 4/Soc Science	4 units in Area D	4 units in Area 4
English: English Language	4 units in Area 1/Composition	4 units in Area A2	4 units in Area 1A
English: English Literature	4 units in Area 1/Composition or 4 units in Area 3/Humanities	9 units in Area A2 and C2	4 units in Area 1A or 3B
Environmental Science	5 units in Area 5/Phy Sci (lab)	6 units in Area B1 (lab)	4 units in Area 5A (lab but would still need 5 units 5B)
French: French Language	4 units in Area 3/Humanities	4 units in Area C2	4 units in Area 3B and 6
French: French Literature	4 units in Area 3/Humanities	4 units in Area C2	4 units in Area 3B and 6
German Language	4 units in Area 3/Humanities	4 units in Area C2	4 units in Area 3B and 6
Government and Politics: U.S.	4 units in Area 4/U.S. Studies	4 units in Area D and/or U.S. History and Constitution	4 units in Area 4
Government and Politics: Comparative	4 units in Area 4/U.S. Studies	4 units in Area C2 or D	4 units in Area 4
History: European History	4 units in Area 4/Soc Science	4 units in Area C2 or D	4 units in Area 3B or 4
History: U.S. History	4 units in Area 4/U.S. Studies	4 units in Area C2 or D and U.S. History and Constitution	4 units in Area 3B or 4
History: World History	4 units in Area 4/Soc. Science	4 units in Area C2 or D	4 units in Area 3B or 4
Human Geography	4 units in Area 4/Soc. Science	4 units in Area D	4 units in Area 4
Italian Language and Culture	4 units in Area 3/Humanities	4 units in Area C2	4 units in Area 3B and 6
Japanese Language and Culture	4 units in Area 3/Humanities	4 units in Area C2	4 units in Area 3B and 6
Latin: Vergil	4 units in Area 3/Humanities	4 units in Area C2	4 units in Area 3B and 6
Latin: Latin Literature	4 units in Area 3/Humanities	4 units in Area C2	4 units in Area 3B and 6
Mathematics: Calculus AB	4 units in Area 2	4 units in Area B4	4 units in Area 2
Mathematics: Calculus BC	4 units in Area 2	4 units in Area B4	4 units in Area 2
Music Theory	4 units in Area 3/Fine Arts	4 units in Area C1 if taken prior to Fall 09	
Physics B	5 units in Area 5/Phy Sci (lab)	6 units in Area B1 (lab)	5 units in Area 5A (lab)
Physics C (mechanics)	5 units in Area 5/Phy Sci (lab)	6 units in Area B1 (lab)	4 units in Area 5A (lab but would still need 5 units 5B)
Physics C (electricity and magnetism)	5 units in Area 5/Phy Sci (lab)	4 units in Area B1 (lab)	4 units in Area 5A (lab but would still need 5 units 5B)
Psychology	4 units in Area 4/Soc Science	4 units in Area D	4 units in Area 4
Spanish: Spanish Language	4 units in Area 3/Humanities	4 units in Area C2	4 units in Area 3B and 6
Spanish: Spanish Literature	4 units in Area 3/Humanities	4 units in Area C2	4 units in Area 3B and 6
Statistics	4 units in Area 2	4 units in Area B4	4 units in Area 2

*Please Note: UC unit limits may apply; see a counselor for more information.

ASSOCIATE IN ARTS GENERAL EDUCATION CURRICULUM

Lake Tahoe Community College 2009-2010

The following requirements are for the General Education of the Associate in Arts degree. **Information on this sheet applies to students who began at LTCC during the 09-10 academic year.** If you began before that time, check the catalog in effect at the time of enrollment for degree requirements. Meeting the General Education requirements for an A.A. degree does NOT satisfy requirements for a bachelor's degree. See *Transfer Information* in the catalog for more details. *Waivers, substitutions, or exceptions must be approved by the Vice President, Academic Affairs and Student Services of the College.* **Students must earn a minimum of 90 units, to include general education, a major or concentration, and electives.**

GENERAL EDUCATION PHILOSOPHY

The general education requirements for the A.A. degree at Lake Tahoe Community College are intended to provide a broad yet integrated introduction to the skills, knowledge, and insights that are the foundation of a college education. By exposing students to different areas of study we, as a College, seek through our general education offerings to foster a critical awareness of the variety of means through which people comprehend the past, present, and future. These requirements reflect the conviction of the College that those who receive their degree must possess certain basic principles, concepts, and methodologies both unique to and shared by the various disciplines. The general education experience enables students to use this knowledge when evaluating and appreciating the physical environment, the arts, the culture, and the pluralistic society in which they live. Through this broad spectrum of study, students discover the interdisciplinary nature of knowledge. Further, since learning is a lifelong process, general education should lead to better self-understanding and the capacity to adapt, respond, and grow in a changing world. Finally, general education instills in students the skills of logical thought and reasoning, clear and precise expression, intellectual inquiry, and critical analysis.

AREA 1: English Communication

- a. **Composition** (1 course, minimum 4 units, grade of "C" or higher) ENG 101
- b. **Communication** (1 course, minimum 4 units) ANT **108**, COM 122, ENG 102, 103; PHI 104; SPE 101, **102**, 104

COURSE	UNITS	GRADE

AREA 2: Mathematical Concepts and Quantitative Reasoning (courses must be completed with a grade of "C" or higher) (choose 1 option)

- Option 1: Assessment score above MAT 154A or MAT 154AA
- Option 2: MAT 152B or MAT 152BB (can be satisfied through the assessment process), *and* MAT 153
- Option 3: (1 course) MAT 154A, 154AA, 102, 103A, 103B, 104, 105, 106, 107, 109, 118, 201

COURSE	UNITS	GRADE

AREA 3: Fine Arts and Humanities

- (minimum 8 units; 1 course from Fine Arts, 1 from Humanities)
- a. **Fine Arts** - ANT106; ART 101, 102, 103, 104, 105, 106, **107**, 111, 112, 113, 114, 115, 116, 117, 118, 141, 142, 143, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 223, 225, 233, 234, 242; MUS 101, 102, 103, 104A, 104B, 104C, 104D, 104E, 104F; THE 101, 104A, 105, 106A, 106B, 106C, 108, 112A, 112B, 112C, 114, 126
- b. **Humanities** - ENG 102, **107**, 108, 113, 200, 201, 202, 205, 206, 207, 208A, 209, 212, 213, 214, 215, 216, 217, 218, 221; ETH **201**; FRE 101, 102, 103; GER 101, 102, 103; HUM 101, 102, 103, 105; ITA 101, 102, 103; JPN 101, 102, 103, 201, 202, 203; LAT 101, 102, 103; PHI 101, 103A, 103B, 205, 210, 218; REL 101, 102, **103**, 104, **105**, 107; SNL 101, 102, 103, 201, 202, 203; SPA 101,102, 103, **110**, 201, 202, 203, 210, 211, 212

COURSE	UNITS	GRADE

AREA 4: Social Sciences

- (minimum 8 units; 1 course from Social Science, 1 from US Studies)
- a. **Social Science** - ANT 101, **102**, 104, 106, **107**, **108**, 110, 111A; BSN 100, **215**; COM 122; CRJ 101; ECE 102, 103; ECO 101, 102; ETH **201**, **202A**, **202B**, **202C**, **203A**, **203B**, **203C**; GEG **102**, **103**, 105, 106, 114; HIS 101, 102, 103; POL 107; PSY 101, 102, 103, 104, 107, 108, **114**, 202, 210, 211; SNL 108; SOC 101, 102, 103,104, 106, **107**, 109, **114**
- b. **U.S. Studies** - ETH **202B**, **202C**; HIS 104, 105, **109**, **110**, 111, 112, 113; POL 101

COURSE	UNITS	GRADE

AREA 5: Physical and Biological Sciences (at least 2 courses; 1 from Physical Science, 1 from Biological Science; 1 course must be a lab--labs are underlined)

- a. **Physical Science:** CHM 101, 102, 103, 114, 201, 202 ; GEG 101, 105, 108, 113, 115; GEL 101, 102, 103, 108, 110; PHS 111, 116; PHY 104, 105, 106, 107, 108, 207, 208
- b. **Biological Science:** ANT 103; BIO 101, 102, 103, 110, 111, 115, 116, 149, 201, 203, 204, 205, 210, 212; EVS 101; PSY 210

COURSE	UNITS	GRADE

AREA 6: Lifelong Understanding and Self-Development (minimum 4 units)

- COU 123; CUL 205; ECE 102; PEH 100, 101, 102, 104, PET 100; HEC 105; PHI 205; PSY 101, 102, 103, 106, 107, 108, 111, 113, **114**; SOC 102, **107**, **109**, **114**
- (Note: COU 101 or PET 101 can be combined with any DAN, PED, PEF, PEH 143A or approved WLD courses to meet 4 unit requirement - please see a counselor for list of WLD courses approved for Area 6.)

COURSE	UNITS	GRADE

AREA 7: Cultural Pluralism (1 course, minimum 4 units)

- ANT 102, 107, 108; ART 107; BSN 215; CUL 202; ENG 107; ETH 100, 201, 202A, 202B, 202C, 203A, 203B, 203C; GEG 102, 103; HIS 109, 110; PSY/SOC 114; REL 103, 105; SNL 108; SOC 107, 109; SPA 110; SPE 102
- (**bolded** courses from above may be double counted in this area)

COURSE	UNITS	GRADE

**CALIFORNIA STATE UNIVERSITY
GENERAL EDUCATION CURRICULUM
2009-2010**

The CSU system allows students to complete lower-division general education requirements by following the pattern below. At least 45 units in Areas A-D must be completed with minimum grade of "C." In addition, students must have a minimum grade of "C" in Areas A1,2,3 and B4. Students must request **general education certification** from the Transfer Center prior to transferring.

AREA A - Communication in the English Language and Critical Thinking

- 1. **Oral Communication** (minimum 4 units) SPE 101, 104
- 2. **Written Communication** (minimum 4 units) ENG 101
- 3. **Critical Thinking** (minimum 4 units) ENG 102, 103; PHI 104

COURSE	UNITS	GRADE

AREA B - Physical Universe and Its Life Forms (minimum 13 units)

One lab course must be selected. **Note: Lab courses are underlined in this section.**

- 1. **Physical Universe** (minimum 4 units)
CHM 101, 102, 103, 114, 201, 202; GEG 101, 108, 113, 115; GEL 101, 102, 103, 108, 110;
PHS 111, 116; PHY 104, 105, 106, 107, 108, 149, 207, 208
- 2. **Life Forms** (minimum 4 units)
ANT 103; BIO 101, 102, 103, 110, 111, 115, 149, 201, 203, 204, 205, 210, 212; PSY 210
- 4. **Mathematical Concepts** (minimum 4 units)
MAT 102, 103A, 103B, 104, 105, 106, 107, 109, 118, 201, 202, 203, 204

COURSE	UNITS	GRADE

AREA C - Arts, Literature, Philosophy and Foreign Languages

3 courses; with at least 1 from Arts and 1 from Humanities (minimum 12 units)

- 1. **Arts** (minimum 4 units) - **NOTE: underlined courses are 3 units.**
ART 101, 102, 103, 104, 105, 106, 107, 111, 112, 113, 114, 115, 116, 117, 118, 119, 141, 210, 211, 212, 213, 214, 217, 218, 219, 220, 221; ENG 218; MUS101, 102, 103, 104A, 104B; 104C, THE 101, 104A, 105, 106A, 106B, 106C, 108, 112A, 112B, 112C, 126, 128ABCD
- 2. **Humanities** (minimum 4 units)
ANT 107; ENG 102, 107, 108, 113, 200, 201, 202, 205, 206, 207, 208A, 212, 213, 214, 215, 216, 217, 221; ETH 201, 202A, 202B, 202C, 203A, 203B, 203C; FRE 101, 102, 103; GER 101, 102, 103; HIS 101, 102, 103, 109, 110, **111, 112, 113**; HUM 101, 102, 103, 105; ITA 101, 102, 103; JPN 101, 102, 103, 201, 202, 203; LAT 101, 102, 103; PHI 101, 102, 103A, 103B, 205, 210, 218; REL 101, 102, 103, 104, 105, 107; SNL 101, 102, 103, 108, 201, 202, 203; SPA 101, 102, 103, 110, 201, 202, 203, 210, 211, 212

COURSE	UNITS	GRADE

AREA D - Social, Political, and Economic Institutions and Behavior; Historical Background Courses must be selected from at least 2 subjects. (minimum 12 units)

- ANT 101, 102, 104, 107, 108, 111A
- BSN 100
- COM 122

<input type="checkbox"/> AREA 6 - Language other than English (UC requirement only). This requirement may be fulfilled by completion of two years of foreign language in high school with a grade of C or better, or equivalent proficiency demonstrated by college courses or performance on tests, such as earning a minimum score of 550 on an appropriate College Board Achievement Test in a foreign language or a score of 3 or higher on the Foreign Language Advanced Placement Test. (<i>Note: Course must be completed through the 102 level or higher in order to satisfy UC language requirement</i>) FRE 102; GER 102; ITA 102; JPN 102; LAT 102; SNL 102; SPA 102 (or more advanced level course)	COURSE	UNITS	GRADE

<input type="checkbox"/> CSU Requirement in U.S. History, Constitution and American Ideals (<i>Not part of IGETC, may be completed prior to transfer</i>) (minimum 8 units) NOTE - Bolded courses in Areas C and D double count in this area only. POL 101 and one course from HIS 111, 112, 113	COURSE	UNITS	GRADE

* Courses marked with an asterisk indicate that transfer credit may be limited. Please consult with a counselor for additional information.

**UNIVERSITY OF NEVADA, RENO
TRANSFER CORE CURRICULUM
2009-2010**

UNR requires students to complete 36 quarter units with at least a 2.5 GPA prior to transfer. If you have a declared major, please refer to the UNR Catalog and advising sheet (in the transfer center) for specific college requirements in the core curriculum.

AREA 1 - 1st year writing courses (minimum 8-12 quarter units)

ENG 101, 103

COURSE	UNITS	GRADE

AREA 2 - Mathematics (minimum 4 quarter units)

MAT 102, 103A+104, 103B+104, 103A+201, 103B+201, 105, 118

COURSE	UNITS	GRADE

AREA 3 - Natural Science (minimum 8 quarter units)
2 courses with a lab. At least one **must** be from Group A.

Group A:
BIO 101, 102, 103, 110, 111, 201, 212
CHM 101, 102, 103, 114
GEL 102
PHY 104, 105, 106, 107, 108, 207, 208
Group B:
BIO 115, 116
GEG 101

COURSE	UNITS	GRADE

AREA 4 - Social Science (minimum 4 quarter units)

ANT 101, 102, 104
ECO 101, 102
GEG 102, 103
PSY 101
SOC 101

COURSE	UNITS	GRADE

AREA 5 - Fine Arts (minimum 4 quarter units)

ART 101, 102, 103, 106
MUS 101, 102, 103, 104A, 104B, 104C, 104D, 104E, 104F
THE 101, 104A, 105, 112A, 112B, 112C

COURSE	UNITS	GRADE

AREA 6 - Diversity (minimum 4 quarter units)

ENG 108
ETH 201, 202A, 202B, 202C, 203A, 203B, 203C
PHI 205
REL 103

COURSE	UNITS	GRADE

AREA 7 - Core Humanities UNR's CH201, CH202, CH203 (minimum 16 quarter units) To satisfy CH201 and CH202, students must complete 1 course from each column:

	<u>Column A</u>	<u>Column B</u>	<u>Column C</u>
ENG	200	201	202
HIS	101	102	103
HUM	101	102	103

COURSE	UNITS	GRADE

To satisfy CH203, students must complete HIS 111 or POL 101 plus HIST 217 or PSC100 to be completed **at UNR** (1 course) for full CH203 credit. Please note that after Matriculation at UNR, students cannot take substitute courses for Core Humanities. Students must satisfy any remaining CH requirements by completing the actual CH courses.

NOTE: If you have a declared major, please refer to the UNR major worksheets in LTCC Student Services office for specific College requirements since the core curriculum may be different.

Be sure to pick up your Student Handbook/Planner

The Student Handbook/Planner features monthly and daily calendar pages with room to write your homework assignments, pages with college information as well as pages to personalize with notes, addresses, project planning, and more!

All students who attend the New Student Orientation will receive a planner, or they can be purchased at the Bookstore.

“I wasn’t sure what I wanted to study when I started, but then I took my first physics class and I was done. That was it. Our math department is amazing and my instructor gave me the confidence to excel in physics.”

Rachel Green, 28

a native of Richmond, Va., is planning to transfer and double major in astrophysics and aeronautical engineering. Rachel worked as a firefighter medic for five years before returning to school to change careers.

Addiction Studies

The Addiction Studies program is designed to prepare students for entry-level employment in alcohol and drug treatment programs and to provide continuing education for health care and human services professionals. The curriculum provides a broad base of knowledge regarding approaches to drug education and prevention, treatment issues, counseling skills, ethical issues, and practical knowledge about drugs and their effects. Students will gain basic competencies in counseling, case management, record keeping, and treatment planning. The Addiction Studies program includes core courses in psychology, sociology, and counseling in order to provide students with a broad understanding of the roots of addiction. When combined with nine units of field experience, the Addiction Studies program meets the education requirements established by the California Association of Alcoholism and Drug Abuse Counselors (CAADAC) and the California Association of Alcohol and Drug Educators (CAADE).

Student Learning Outcomes for this major are:

- Correctly define and explain abuse, addiction and dependency as key concepts in the discipline;
- Demonstrate understanding of the interaction between genetic, biological, psychological, and environmental factors in the causes of substance misuse problems;
- Describe the role of family dynamics in addiction and recovery and identify the characteristics of codependency within a family system;
- Describe the legal and ethical issues of chemical dependency counseling;
- Demonstrate effective counseling and group leadership skills;
- Appreciate multiculturalism as it relates to the field of addiction counseling; and
- Apply principles of effective oral and written communication skills with clients, their families, and colleagues.

A. GENERAL EDUCATION REQUIREMENTS

(See page 45 for details).

B. REQUIRED COURSES

40 units distributed as follows:

1. 8 units from:

COU 109	Introduction to Counseling
PSY 101	General Psychology
PSY 202	Abnormal Psychology
SOC 101	Introduction to Sociology

2. All courses from the following:

COU 120	Introduction to Alcohol and Drug Studies
COU 121	The Physical, Chemical, and Behavioral Effects of Alcohol and Drugs
COU 122	Rehabilitation and Recovery from Alcohol and Drug Abuse
COU 123	Alcohol and Drug Prevention and Education
COU 124	Group Leadership and Process
COU 125	Counseling the Family of Addicted Persons
COU 126	Intervention and Referral Techniques
COU 127	Dual Disorders and Mental Health Issues

C. ELECTIVE UNITS to bring the total to 90.

NOTE: Students wishing to meet CAADAC certification must complete 9 units of field experience in Addiction Studies (COU 134). Prerequisites for COU 134 include COU 109, COU 120 or COU 121, COU 122, COU 124 and COU 126.

Anthropology

The Anthropology degree provides students with an introduction to the four fields of anthropology - cultural, physical/biological, archaeology and anthropological linguistics - with emphasis on the applications of the discipline to contexts of everyday life. Anthropology is a very relevant degree as it offers students a perspective of understanding humans from the past and the present. Many employers are interested in the critical thinking and analytical research skills offered by Anthropology. The Anthropology degree offers students major preparation for transfer to a four-year institution.

Student Learning Outcomes for this major are:

- Have an understanding of the four fields of anthropology;
- Understand, appreciate and apply scientific methods of anthropological research and analysis;
- Recognize the significance of the comparative, evolutionary and relativistic approaches in anthropology;
- Develop an appreciation of the diversity of the human species;
- Understand and appreciate cultural diversity and human variation; and
- Apply anthropological methods of critical thinking, reflexivity and cultural awareness in everyday life.

A. GENERAL EDUCATION REQUIREMENTS

(See page 45 for details).

B. REQUIRED COURSES

36 units distributed as follows:

1. All courses from the following:

ANT 101	Introduction to Archaeology
ANT 102	Cultural Anthropology
ANT 103	Physical/Biological Anthropology
ANT 108	Introduction to Language and Culture

2. 20 units from the following:

(8 units of which must be from ANT)

ANT 104	Area Studies in Cultural Anthropology
ANT 105	Beginning Field Archaeology
ANT 106	Visual Anthropology
ANT 107	Magic, Witchcraft, and Religion
ANT 110	Applied Anthropology

ANT 111A	Anthropology of Pop Culture: Star Trek
ANT 131	Special Topics
BIO 101	Principles of Biology
BIO 149	Ecology
CUL 202	Global Cuisine
ENG 107	Cross-Cultural Literature
ENG 108	Women in Literature
GEG 102	Human Geography
GEG 103	World Regional Geography
GEG 134	Introduction to Geographic Information Systems
GEG 135	Intermediate Geographic Information Systems
PHI 101	Introduction to Philosophy
SNL 108	American Deaf Culture I
SOC 101	Introduction to Sociology
SOC 103	Social Problems
SOC 104	Deviance
SOC 107	Race and Ethnic Relations
SOC 109	Women, Our Voiced Journeys
SOC/PSY 114	Gender
SPE 102	Intercultural Communication

Any of the following courses (maximum 5 units):

CHN 141, 142
FRE 101, 102, 103, 141, 142, 143, 251, 252, 253
GER 101, 102, 103, 141, 142, 143, 251, 252, 253
ITA 101, 102, 103, 141, 142, 143, 251, 252, 253
JPN 101, 102, 103, 141, 142, 143, 201, 202, 203
LAT 101, 102, 103
PLS 151, 152, 153
POR 141, 142, 143
RUS 141, 142, 143
SNL 101, 102, 103, 106, 120A, 120B, 201, 202, 203
SPA 101, 102, 103, 105, 110, 120A, 141, 142, 143, 155, 201, 202, 203, 210, 211, 212
SPA-ISSI 121A, 121B, 121D, 122A, 122B, 122D, 123A, 123B, 123D, 124, 124A, 125A

C. ELECTIVE UNITS to bring the total to 90.

Art

The Visual Arts program is designed to provide a balanced foundation in both studio art and art history. Its curriculum is focused to meet the needs of art students who are initially developing skill and concepts as well as those experienced students who seek further development. The art department is committed to a structured environment in which faculty and students work closely together in an atmosphere which is responsive, supportive, and facilitates experimentation.

Student Learning Outcomes for this major are:

- Demonstrate an understanding of the history of Western art and its cultural significance and the role that art has had in shaping our lives and aesthetics;
- Demonstrate practical knowledge of how to develop an artist's portfolio and conduct business as a professional artist;
- Understand and apply the basic principles of observational drawing and how to develop illusionary spatial constructions;
- Understand and apply knowledge of human anatomy in the construction of figurative works of art;
- Understand and apply the principles and concepts of design;
- Demonstrate knowledge of the science of color perception and how it can be utilized in the creation of works of art; and
- Have a knowledge of art materials and an applied experience in the technical means used to formulate and construct visual images.

A. GENERAL EDUCATION REQUIREMENTS

(See page 45 for details).

B. REQUIRED COURSES

41.5 units distributed as follows:

1. All courses from the following:

ART 101	Art History: Prehistoric - Islamic
ART 102	Art History: Medieval Europe - Renaissance
ART 103	Art History: Baroque - Contemporary
ART 118	Color
ART 122	Art Exhibit Production
ART 228	Developing a Portfolio

2. 6 units from:

ART 114	Beginning Drawing from Observation
ART 115	Drawing: Wet Media
ART 116	Drawing: Concept and Image
ART 117	Landscape Drawing
ART 214	Advanced Drawing from Observation
ART 215	Advanced Drawing: Wet Media
ART 216	Advanced Drawing: Concept and Image
ART 224	Portraiture

3. 3 units from:

ART 111	Two-Dimensional Design
ART 112	Two- and Three-Dimensional Design
ART 113	Three-Dimensional Design

4. 3 units from:

ART 213	Beginning Life Drawing
ART 223	Intermediate Life Drawing
ART 233	Advanced Life Drawing

5. Minimum of 12 total units from any four of the six areas:

a.	ART 210	Watercolor Painting
	ART 211	Painting I
	ART 212	Painting II
	ART 234	Figure Painting
	ART 240	Painting: Narrative and Symbolism
b.	ART 221	Printmaking
c.	ART 217	Sculpture: Modeling and Casting
	ART 218	Sculpture: Modeling and Carving
	ART 219	Sculpture: Metals
	ART 220	Figure Sculpture
	ART 236	Beginning Bronze Casting
	ART 237	Intermediate Bronze Casting
	ART 238	Advanced Bronze Casting
d.	ART 146	Digital Photography
	ART 244	Color Photography
	ART 247	Portrait Photography
	ART 248	Commercial Photography
	ART 249	Art Concepts for Graphic Design
e.	ART 229	Airbrush Techniques
f.	ART 120	Intermediate Ceramics
	ART 239	Advanced Ceramics

C. ELECTIVE UNITS to bring the total to 90.

Business

The Business degree provides students with an introduction of the major components of a business organization in our global environment. The areas of concentration covered by the degree are accounting, finance, management, marketing, small business ownership, general business, and global business. Students pursuing this degree will also have the option of exploring such diverse fields as economics, business law, ethics, entrepreneurship, human resources, E-business, professional communication, and technology.

Student Learning Outcomes for this major are:

- Recognize and apply critical and analytical thought in diverse business situations;
- Identify and apply the basic principles of the disciplines which comprise the major;
- Identify and apply basic financial analysis tools and critical business skills needed to plan and manage strategic activities; and
- Recognize the complexity of the global business environment and its relationship with various political, social, cultural, and technological factors.

♦♦♦

A. GENERAL EDUCATION REQUIREMENTS

(See page 45 for details).

B. CORE COURSES FOR THE A.A. DEGREE IN BUSINESS:

The following core courses are required of all Business degree students.

35 units distributed as follows:

BSN 100	Introduction to Business
BSN 101A	Business Law
BSN 104	Business Communications
BSN 110A	Principles of Accounting I
BSN 110B	Principles of Accounting II
BSN 110C	Principles of Accounting III
CAO 121	Spreadsheet Applications in Business
CAO 156	Introduction to Presentation Software

NOTE: Student must choose to take either:

ECO 101	Principles of Economics (Macro) <i>or</i>
ECO 102	Principles of Economics (Micro)

AREAS OF CONCENTRATION:

In addition to the required core courses listed above, students seeking a Business degree should select an area of concentration from the following 7 areas:

1. AREA OF CONCENTRATION - ACCOUNTING

8 units distributed as follows:

BSN 111	Computerized Accounting
BSN 115	Business Finance

TOTAL UNITS IN MAJOR (INCLUDING CORE) = 43

2. AREA OF CONCENTRATION - FINANCE

12 units distributed as follows:

BSN 115	Business Finance
BSN 117	Personal Finance
BSN 118	Principles of Investments

TOTAL UNITS IN MAJOR (INCLUDING CORE) = 47

3. AREA OF CONCENTRATION - MANAGEMENT

12 units distributed as follows:

BSN 105	Professional Communication
BSN 120	Human Resource Management
BSN 125	Business Management

TOTAL UNITS IN MAJOR (INCLUDING CORE) = 47

4. AREA OF CONCENTRATION - MARKETING

12 units distributed as follows:

BSN 125	Business Management
BSN 135	Principles of Marketing
BSN 271	Advertising

TOTAL UNITS IN MAJOR (INCLUDING CORE) = 47

5. AREA OF CONCENTRATION - SMALL BUSINESS OWNERSHIP

12 units distributed as follows:

BSN128/ECE 128	Principles of Supervision
BSN 135	Principles of Marketing
BSN 210	Entrepreneurship

TOTAL UNITS IN MAJOR (INCLUDING CORE) = 47

6. AREA OF CONCENTRATION - GENERAL BUSINESS

12-13 units selected from the following:

BSN 101B	Business Law
BSN 111	Computerized Accounting
BSN 115	Business Finance
BSN 190	Business Math
MAT 201	Elementary Statistics

NOTE: Student may choose to take either:

ECO 101	Principles of Economics (Macro) <i>or</i>
ECO 102	Principles of Economics (Micro)

(cannot duplicate core course)

TOTAL UNITS IN MAJOR (INCLUDING CORE) = 47-48

7. AREA OF CONCENTRATION - GLOBAL BUSINESS

8 units distributed as follows:

BSN 215	International Business: Competing in the Global Marketplace
BSN 251	Electronic Marketing: Success on the Internet

TOTAL UNITS IN MAJOR (INCLUDING CORE) = 43

C. ELECTIVE UNITS to bring the total to 90.

Computer Applications/ Office Technology

The Computer Applications/Office Technology degree is designed to prepare students for responsible positions in business offices. The core requirements give students a firm foundation in the areas of office procedures, business machines, word processing, business communication, file and records management, and fundamental bookkeeping. Students can specialize in one of two concentrations - administrative assistant or office technology. The Administrative Assistant concentration prepares students for general administrative support employment in all types of business and industry. The Office Technology concentration prepares students for employment in business offices that use a high degree of computer applications.

Student Learning Outcomes for this major are:

- Evaluate and apply appropriate computer software tools to efficiently solve business problems in an office environment;
- Analyze and produce documents arranged according to accepted business formats;
- Understand and apply correct principles and techniques of files and records management; and
- Recognize and understand the duties and responsibilities of office support personnel and the key role the position fulfills in business and industry.

A. GENERAL EDUCATION REQUIREMENTS

(See page 45 for details.)

B. CORE OFFICE TECHNOLOGY COURSE REQUIREMENTS

20 units distributed as follows:

BSN 104	Business Communications
BSN 152A	Fundamentals of Bookkeeping I
CAO 174ABCD	Intermediate Keyboarding and Document Production
CAO 184	Filing and Records Management
CAO 185	Office Procedures

AREAS OF CONCENTRATION:

In addition to the required core courses listed above, the Computer Applications/Office Technology Associate of Arts Degree students must select an area of concentration from the following two areas:

1. AREA OF CONCENTRATION - ADMINISTRATIVE ASSISTANT

REQUIRED COURSES: 19 units distributed as follows:

CAO 154	Introduction to Spreadsheets
CAO 156	Introduction to Presentation Software
CAO 157A	Introduction to Calendaring and E-Mail Software
CAO 175ABCD	Document Production Using Integrated Applications
CAO 178ABC	Electronic Calculator
CAO 181ABC	Beginning Machine Transcription
CIS 150	Introduction to the Internet

TOTAL UNITS IN MAJOR (INCLUDING CORE) = 39

2. AREA OF CONCENTRATION - OFFICE TECHNOLOGY

REQUIRED COURSES: 17-19 units distributed as follows:

CAO 152A	Introduction to Windows for the PC
CAO 154	Introduction to Spreadsheets
CAO 155	Introduction to Database Management
CAO 156	Introduction to Presentation Software
CAO 157A	Introduction to Calendaring and E-Mail Software
CAO 164A	Desktop Publishing Using Microsoft Publisher
	or
CAO 164B	Desktop Publishing Using Adobe InDesign
CIS 150	Introduction to the Internet
CIS 151	Introduction to Web Publishing

TOTAL UNITS IN MAJOR (INCLUDING CORE) = 37-39

C. ELECTIVE UNITS to bring the total to 90.

Computer and Information Sciences - Web Development

The Web Development program is designed to prepare students to begin developing web sites as a professional. The curriculum provides a balanced foundation of all aspects of web development. Students will gain basic competencies in web authoring software, web graphics, web animation, HTML, client-side scripting, server-side scripting, and database connectivity. There is emphasis on understanding and practicing the entire web development process, from start to finish.

Student Learning Outcomes for this major are:

- Demonstrate the use of authoring software to develop and manage a web site;
- Demonstrate the use of graphics software to design web page layout and to produce and optimize graphics for the web;
- Demonstrate the use of software to produce animation/video for the web;
- Write and interpret HTML code;
- Write, interpret, and apply client-side scripting;
- Write, interpret, and apply server-side scripting; and
- Develop data-driven web pages.

A. GENERAL EDUCATION REQUIREMENTS

(See page 45 for details.)

B. REQUIRED COURSES

30 units distributed as follows:

1. All courses from the following:

CIS 100	Web Publishing Using Authoring Software
CIS 101	Graphics for the Web
CIS 102	Animation for the Web
CIS 112	Web Publishing
CIS 113	Client-Side Scripting
CIS 114	Data-Driven Web Sites
CIS 115	Current Technologies in Web Development

2. 3 units from the following:

ART 111	Two-Dimensional Design
ART 112	Two- & Three-Dimensional Design

C. ELECTIVE UNITS to bring the total to 90.

Criminal Justice

The Criminal Justice program is designed to provide students with a foundational understanding of the key components of the criminal justice system (i.e., law/courts, law enforcement, and corrections/community supervision) and to prepare students for entry level careers in these systems. Students will complete coursework emphasizing the roots of the American justice system; the constitutional provisions of law; legal processes including pre-arrest, arrest through trial, sentencing, appeal and correctional procedures; the role of the community; the social-psychological bases of crime; professional ethics; and the implications of a diverse society on the administration of justice. The Criminal Justice program emphasizes critical thinking skills in the examination and analysis of criminal justice policy and the strengthening of effective written and oral communication skills.

Student Learning Outcomes for this major are:

- Demonstrate a broad understanding of the historical perspective, cultural evolution and the origin of criminal law;
- Be able to describe the steps of the legal process, including pre-arrest, arrest through trial, sentencing, appeal and correctional procedures;
- Describe the influences and consequences of crime, including social and psychological factors;
- Appreciate multiculturalism as it relates to the criminal justice system;
- Describe the importance of professional ethics in the major areas of the criminal justice system (i.e., law/courts, law enforcement, and corrections/community supervision); and
- Acquire the skills and knowledge to assist them in obtaining entry level employment in a variety of areas, including the court system, law enforcement, and corrections/probation.

A. GENERAL EDUCATION REQUIREMENT

(See page 45 for details.)

B. REQUIRED COURSES

24 units distributed as follows:

CRJ 101	Introduction to Criminal Justice
CRJ 102	Criminal Law
CRJ 104	Criminal Procedures
CRJ 105	Community and Human Relations
CRJ 110	Introduction to Corrections
SOC 106	Crime and Society

AREAS OF CONCENTRATION:

1. AREA OF CONCENTRATION - CRIMINAL JUSTICE FOUNDATIONS

3 courses selected from the following:

CRJ 103	Introduction to Evidence
CRJ 108	Juvenile Law and Procedures
CRJ 112	Introduction to Investigation
CRJ 113	Introduction to Probation and Parole

TOTAL UNITS IN MAJOR (INCLUDING CORE) = 36

2. AREA OF CONCENTRATION - LAW ENFORCEMENT

11 units distributed as follows:

CRJ 107	Police Field Operations
CRJ 109	Traffic Law, Enforcement and Investigation
CRJ 112	Introduction to Investigation

TOTAL UNITS IN MAJOR (INCLUDING CORE) = 35

3. AREA OF CONCENTRATION - CORRECTIONS AND COMMUNITY SUPERVISION

12 units distributed as follows:

CRJ 108	Juvenile Law and Procedures
CRJ 112	Introduction to Investigation
CRJ 113	Introduction to Probation and Parole

TOTAL UNITS IN MAJOR (INCLUDING CORE) = 36

C. ELECTIVE UNITS to bring the total to 90.

Culinary Arts

- STATE APPROVAL PENDING -

The Associate in Arts degree in Culinary Arts can be accomplished through the completion of both the Foundations of Cooking and the Foundations of Baking and Pastry certificates of achievement and general education requirements plus the requisite number of electives.

Student Learning Outcomes for this major are:

- Utilize a knife to fabricate a variety of food products for the purpose of preparing the foods for cooking and consumption.
- Prepare soups, salads, meats, grains, vegetables, and potatoes.
- Practice the principles of sanitation and food safety to prevent the spread of food-borne illness.
- Identify and apply the various stages of bread-baking.

A. GENERAL EDUCATION REQUIREMENTS

(See page 45 for details.)

B. REQUIRED COURSES

1. 23.75 units distributed as follows:

CUL 101	Introduction to the Culinary Arts Profession
CUL 102	Principles and Practices of Basic Food Preparation
CUL 103	Food Sanitation and Safety
CUL 104	Principles and Practices of Baking and Pastry Arts
CUL 106	Principles and Practices of Intermediate Food Preparation
CUL 114	Principles and Practices of Intermediate Baking and Pastry Arts
CUL 164A	Vegetarian Cuisine
CUL 165	A Passion for Chocolate
CUL 168	Cake Decorating
CUL 172D	French Regional Cuisine

2. 3.25 units of specified electives distributed as follows:

a. 1.25 units from the following:

CUL 162A	Simply Appetizers
CUL 162B	Cooking of the Fall: Soups, Stews, and Chilies
CUL 162C	Soups for All Seasons
CUL 169A	The Fine Art of Sushi Making I
CUL 169B	The Fine Art of Sushi Making II
CUL 169C	Exploring the World of Pizza
CUL 171	The Art and Science of Sauces and Saucemaking
CUL 172A	Middle Eastern Cuisine
CUL 172B	The Cuisine of India
CUL 172C	Mexican Regional Cuisine
CUL 226	Food and Wine

b. 2 units from the following:

CUL 163A	Home Comfort Desserts
CUL 163B	High Altitude and Experimental Baking
CUL 163C	Restaurant-Style Desserts
CUL 163D	The Art of Baking Bread
CUL 163E	Making a Gingerbread House
CUL 163F	Cookie Mastery
CUL 163G	Breakfast Breads and Pastries
CUL 166	Summer Foods: Salads, Cold Soups, Grilling, and Fruit Desserts

TOTAL UNITS IN MAJOR (including required courses) = 27

C. ELECTIVE UNITS to bring the total to 90.

Early Childhood Education

The Early Childhood Education program is designed to provide students with the knowledge and instruction that will promote their understanding of the child's development from birth through age eight. Classes will prepare students to understand and successfully interact with children, and to enter a variety of professions serving children and their families. Many of the instructors in this program currently manage their own schools, therefore providing practical information and experience as well as teaching an excellent theoretical basis. Experience in the field is required through coursework to provide a solid and thorough educational experience.

The ECE program offers coursework required by the State of California Department of Social Services and for licensing by the Commission on Teacher Credentialing for the Child Development Permit. See box to the right for the specific coursework and requirements.

Student Learning Outcomes for this major are:

- Integrate understandings of the needs, the characteristics, and the multiple influences on development of children birth to age eight as related to high quality care and education of young children.
- Design, implement, and evaluate environments and activities that support positive, developmental play and learning outcomes for all children.
- Apply effective guidance and interaction strategies that support all children's social learning, identity, and self-confidence.
- Develop strategies that promote partnerships between programs, teachers, families, and their communities.
- Demonstrate ethical standards and professional behaviors that deepen understanding, knowledge, and commitment to the early childhood profession.

A. GENERAL EDUCATION REQUIREMENTS

(See page 45 for details.)

B. REQUIRED COURSES

36 units distributed as follows:

1. All courses from the following:

- ECE 100 Health, Safety and Nutrition for Young Children
- ECE 101 Introduction to Early Childhood Education
- ECE 102/PSY 102 Child and Adolescent Development
- ECE 103 Child, Family and Community
- ECE 110 Curriculum Development in Early Childhood Education Programs
- ECE 202 Practicum in Early Childhood Programs - Field Experience
- ECE 203 Administration and Supervision of Early Childhood Programs

2. Two courses from the following:

- ECE 109 Children's Literature
- ECE 120 Creative Experiences for Young Children
- ECE 121 Math and Science Experiences for Young Children
- ECE 125 Positive Child Guidance
- ECE 127 Infants and Toddlers: Development and Care
- ECE128/BSN 128 Principles of Supervision
- ECE 129 The Exceptional Child
- ECE 204 Childhood Administration II: Staff/Parent/Child Relationships

C. ELECTIVE UNITS to bring the total to 90.

Early Childhood Education

Classes offered at LTCC meeting California State Licensing and Child Development Permit requirements:

California State Licensing:

Aide - requires any 9 units of ECE

Teacher - requires 18 core ECE units:

ECE/PSY 102

ECE 103

ECE 110

And two of the following curriculum courses:

ECE 109, ECE 120, ECE 121

Child Development Permit (Educational requirements):

Assistant - 9 units of ECE

Associate Teacher - 18 core ECE units:

ECE/PSY 102

ECE 103

ECE 110

And any two of the following curriculum courses:

ECE 109, 120, or 121

Teacher - Core ECE units:

ECE/PSY 102

ECE 103

ECE 110

And any combination of the following to equal 36 units:

ECE 100, 101, 109, 120, 121, 125, 127, 128, 129, 202, 203, and 204, as well as 24 general education units.

Site Supervisor - A.A. (or 60 units) with 24 units of ECE including:

Core courses (ECE/PSY 102; ECE 103, and

any curriculum course ECE 109, 110, 120 or 121)

ECE 203 and 204

ECE/BSN 128

English

The English program is dedicated to helping students become life-long learners and to fostering the values of rigorous investigation, open-mindedness, collaboration, self-understanding, and respect for knowledge. The A.A. in English develops critical thinking skills through the study of persuasive argumentation, creative writing, and critical analysis of literature. Courses offer a varied perspective on the world, guiding students in literary and rhetorical investigation from a number of critical approaches, including sociological, historical, and psychological, among others. In addition to building a passion for literature, the degree will provide students with higher skills in written communication. By mastering the methods of written responses to literature, students will enter a wide variety of careers (including teaching, writing, editing, public relations, marketing, and law) better able to communicate and persuade.

Student Learning Outcomes for this major are:

- Recognize, understand, and apply the rhetorical strategies of argumentation;
- Identify and implement the artistic principles of fiction, poetry, and creative non-fiction;
- Interpret literature in its historical and cultural context;
- Recognize the basic principles, varied approaches, and history of literary criticism; and
- Analyze and evaluate creative and argumentative writing through the application of the principles of complex critical analysis.

C. ELECTIVE UNITS to bring the total to 90.

Fire Science

- This is an Accredited Regional Training Program through the California State Fire Marshal and the State Board of Fire Services -

The Fire Science program is designed to give students the required knowledge to pursue entry-level municipal or wildland fire service careers. Students will gain a broad working knowledge of the many aspects of fire service organization and operations, proper use of fire equipment, tactics and strategies of fire fighting, specialized job skills, and management techniques. The Fire Science program emphasizes critical thinking skills in the examination and analysis of modern fire service issues and the strengthening of effective written and oral communication skills.

Student Learning Outcomes for this major are:

- Identify minimum qualifications and entry-level skills for firefighter hiring.
- Analyze, appraise and evaluate fire and emergency incidents and identify components of emergency management and firefighter safety.
- Comprehend laws, regulations, codes and standards that influence fire department operations, and identify regulatory and advisory organizations that create and mandate them, especially in the areas of fire prevention, building codes and ordinances, and firefighter health and safety.
- Analyze the causes of fire, determine extinguishing agents and methods, differentiate the stages of the fire and fire development, and compare methods of heat transfer.
- Identify and describe common types of building construction and conditions associated with structural collapse and firefighter safety.
- Differentiate between fire detection and fire suppression systems.

A. GENERAL EDUCATION REQUIREMENTS

(See page 45 for details.)

B. REQUIRED COURSES

31.5 – 32.5 units distributed as follows:

1. All courses from the following:

FIR101	Fire Protection Organization (<i>formerly FIR 151</i>)
FIR102	Fundamentals of Fire Prevention (<i>formerly FIR 152</i>)
FIR103	Fire Protection Equipment and Systems (<i>formerly FIR 159</i>)
FIR104	Building Construction for Fire Protection
FIR105	Fire Behavior and Combustion (<i>formerly FIR 160</i>)
FIR106	Principles of Fire and Emergency Services Safety & Survival

2. Choose a minimum of 7.5 units from:

FIR153	Fire Hydraulics
FIR167	Wildland Fire Safety & Hand Crew Operations
HEA141	Emergency Medical Technician I

C. ELECTIVE UNITS to bring the total to 90.

Humanities

The Humanities program is designed to provide an opportunity for study in several areas of Western civilization. The Humanities major is broad-based, allowing students to take courses in several fields - including literature and philosophy; the history of art, music, or theatre; languages; and the all-inclusive humanities courses. The relationship of Western ideas and thought between the various fields of study is encouraged. Courses will also strengthen oral and written communication skills.

Student Learning Outcomes for this major are:

- Acquire a broadly-based view of Western cultural achievements;
- Recognize the historical importance of and relationships between various cultural areas;
- Recognize and understand individual works of art, music, drama, and literature in terms of the appropriate style or time;
- Be able to place contributions by writers, composers, and artists within a historical time period;
- Be able to recognize influences and create connections between the various arts, literature, and philosophy;
- Understand major developments in Western history and its influence on the arts, philosophy, and literature; and
- Be able to apply acquired foreign language skills to other areas of learning, as necessary and appropriate.

A. GENERAL EDUCATION REQUIREMENTS

(See page 45 for details.)

B. REQUIRED COURSES

32-34 units distributed as follows:

1. **History and Humanities, two courses from (a) or (b); both courses must be in the same sequence.**
 - a. HIS 101, 102, 103
 - b. HUM 101, 102, 103

Select 6 courses with a maximum of 2 from any one area:

2. **Philosophy and Religion:**
PHI 101, 103A, 103B, 205, 210
REL 101, 102, 103, 104, 105, 107
3. **Literature:**
ENG 102, 107, 108, 113, 200, 201, 202, 205, 206, 212, 213, 214, 215, 216, 217
HUM 105
4. **Music and Theatre:**
MUS 101, 102, 103
THE 112A, 112B, 112C
5. **Art:**
ART 101, 102, 103, 106, 107, 141
6. **World Languages, two courses from any one language:**
FRE 102, 103
GER 102, 103
ITA 102, 103
JPN 102, 103, 201, 202, 203
LAT 102, 103
SNL 102, 103, 201, 202, 203
SPA 102, 103, 201, 202, 203, 212

C. ELECTIVE UNITS to bring the total to 90.

Liberal Arts

- STATE APPROVAL PENDING -

The Liberal Arts degree is designed for students who desire the benefits of fulfilling the general education requirements for transfer and the opportunity to pursue a specific area of emphasis.

Student Learning Outcomes for this major are:

- Demonstrate a solid foundation in oral and written communication and mathematics;
- Develop a broad understanding and awareness of the nature of living things and the physical environment;
- Recognize the broad spectrum of achievement and theory in the arts, the culture, and society;
- Enhance the ability to adapt, respond, and grow in a changing world; and
- Gain in-depth knowledge in one of the following areas of emphasis: Arts and Humanities, Social Sciences, or Mathematics and Science

A. GENERAL EDUCATION REQUIREMENTS

Complete one of the following general education patterns:

1. The Intersegmental General Education Transfer Curriculum (IGETC) with a grade of "C" or better in all courses.
2. The California State University General Education Breadth pattern. NOTE: at least 45 units must be completed with a minimum grade of "C". In addition, students must have a minimum of "C" in areas A1, A2, A3 & B4.
3. Completion of the University of Nevada Reno Transfer Core Curriculum with grades of "C" or better in areas 1 & 2.

B. AREA OF EMPHASIS:

Students must complete 27 transferable units in one of the following areas of emphasis: Arts and Humanities, Social Sciences, or Mathematics and Science.

1. ARTS AND HUMANITIES EMPHASIS

The Arts and Humanities area of emphasis is an interdisciplinary option for students who desire a broad study in disciplines that include Art, English, Humanities, Music, Languages, Philosophy, and Theatre. The Arts and Humanities area of emphasis will help students prepare for transfer to a university. Courses completed to satisfy the area of emphasis requirements below may also count toward satisfying university transfer general education requirements. Students are advised to consult with a counselor to develop an education plan that is appropriate to accomplish their academic goals.

Select a minimum of 27 units, with at least one course from the Arts and one course from the Humanities:

Arts:

Art	
ART 101	Art History: Prehistoric - Islamic
ART 102	Art History: Medieval Europe - Renaissance
ART 103	Art History: Baroque - Contemporary
ART 104	Discovering and Developing Creative Imagination I
ART 105	Discovering and Developing Creative Imagination II
ART 106	Artists' Lives

ART 107	Art of the Americas
ART 111	Two-Dimensional Design
ART 112	Two- and Three-Dimensional Design
ART 113	Three-Dimensional Design
ART 114	Beginning Drawing from Observation
ART 115	Drawing: Wet Media
ART 116	Drawing: Concept and Image
ART 117	Landscape Drawing
ART 118	Color
ART 141	The History of Photography
ART 210	Watercolor Painting
ART 211	Painting I
ART 212	Painting II
ART 213	Beginning Life Drawing
ART 214	Advanced Drawing from Observation
ART 217	Sculpture: Modeling and Casting
ART 218	Sculpture: Modeling and Carving
ART 219	Sculpture: Metals
ART 220	Figure Sculpture
ART 221	Printmaking

English

ENG 218	Literature Into Film

C. ELECTIVE UNITS to bring the total to 90.

Mathematics

A math major is considered to be an excellent background for a variety of careers. Some are related directly to math, while others utilize the analytical reasoning and problem solving skills typically developed by those majoring in math. Directly related careers include the following: Math Teacher or Professor, Actuary, Mathematician, Statistician, and Operations Research Analyst. Careers which utilize math skills as an auxiliary skill include Accounting Analyst, Systems Analyst/Programmer, Software Engineer, Financial Analyst, Quality Assurance Analyst, Risk Management Analyst, Economist, Physical Scientist, Social Scientist and many others. Some math majors choose to continue their education by going on to graduate school for a master's or doctoral degree, which can lead to even more career opportunities.

Student Learning Outcomes for this major are:

- Engage in logical and critical thinking;
- Read technical information; and
- Demonstrate the solution to problems by translating written language into mathematical statements, interpreting information, sketching relevant diagrams, analyzing given information, formulating appropriate math statements, and checking and verifying results.

◆◆◆

A. GENERAL EDUCATION REQUIREMENTS

(See page 45 for details.)

B. REQUIRED COURSES

34 units distributed as follows:

1. All courses from the following:

MAT 105	Calculus and Analytic Geometry (Part I)
MAT 106	Calculus and Analytic Geometry (Part II)
MAT 107	Calculus and Analytic Geometry (Part III)
MAT 202	Calculus and Analytic Geometry (Part IV)

2. Two courses from the following:

MAT 201	Elementary Statistics
MAT 203	Linear Algebra
MAT 204	Differential Equations

3. One course from the following:

CIS 120A	Computer Programming I
CIS 120B	Computer Programming II
CIS 120C	Computer Programming III

C. ELECTIVE UNITS to bring the total to 90.

Medical Office Assistant:

Administrative

The Medical Office Assistant: Administrative program is designed to provide students with essential knowledge and skills to assume responsible administrative positions in medical offices. The core curriculum in the Medical Office Assistant: Administrative program focuses on the effective use of medical terminology and the mechanics of medical coding and billing procedures. Additional courses emphasize contemporary medical office technology skills such as effective computer files management, data entry, and word processing. Students will develop solid skills in bookkeeping/accounting, math, and oral communication as well as an in depth understanding and appreciation of ethical issues related to employment in a medical office.

Student Learning Outcomes for this major are:

- Demonstrate understanding and effective use of advanced medical terminology (to include correct spelling and pronunciation);
- Identify, evaluate and appropriately apply principles of medical office administration and demonstrate competency in performing administrative clerical duties;
- Demonstrate accuracy in common medical insurance billing and coding procedures to ensure proper reimbursement;
- Demonstrate proficiency in computer operations and applications relative to patient care and the administration of a medical office;
- Demonstrate professional behaviors and attitudes consistent with the delivery of safe, ethical, legal, and compassionate patient care;
- Appreciate multiculturalism as it relates to the health care field; and
- Demonstrate competency in communication, critical thinking, and technology applications as required for entry-level medical office positions.

◆◆◆

A. GENERAL EDUCATION REQUIREMENTS

(See page 45 for details.)

B. REQUIRED COURSES

40.25 units distributed as follows:

1. All courses from the following:

HEA 110B	Basic Life Support for Healthcare Providers
HEA 149	Introduction to Medical Ethics and Law
MOA 235	Introduction to Administrative Medical Assisting
MOA 236	Basic Principles of Medical Coding
MOA 237	Medical Insurance Billing
MOA 238	Beginning Medical Terminology
MOA 240	Advanced Medical Terminology

2. 21 units distributed as follows:

CAO 152A	Introduction to Windows for PC
CAO 153	Word Processing
CAO 174ABCD	Intermediate Keyboarding and Document Production
CAO 177ABC	Data Entry
SPE 104	Speech Communication

NOTE: Student must choose to take either:

BSN 110A	Principles of Accounting I <i>or</i>
BSN 152A	Fundamentals of Bookkeeping I

C. ELECTIVE UNITS to bring the total to 90.

Clinical

The Medical Office Assistant: Clinical program is designed to give students the required knowledge and skills to pursue entry-level, "back office" careers in medical offices. The core curriculum in the Medical Office Assistant: Clinical program focuses on the development of clinical competencies designed to effectively assist physicians in the diagnosis and treatment of patients. Students gain skills in patient assessment, taking and charting of medical history and vital signs, basic phlebotomy and injection procedures, administration of medication, assisting with minor office surgery, as well as a number of specialized patient care procedures. The program emphasizes the effective use of medical terminology and the basics of human anatomy and physiology. Additional courses highlight patient safety and the ethical issues related to employment in a medical office. Students will develop solid skills in bookkeeping/accounting, math, and oral communication.

Student Learning Outcomes for this major are:

- Demonstrate understanding and effective use of advanced medical terminology (to include correct spelling and pronunciation);
- Demonstrate the ability to competently perform all clinical duties associated with assisting a physician in the diagnosis and treatment of patients in a medical office setting;
- Demonstrate effective procedures for handling office emergencies and perform basic triage duties; become CPR-certified (health professional);
- Appreciate multiculturalism as it relates to the health care field;
- Apply principles of effective oral and written communication skills with patients, their families, and other health care providers; and
- Demonstrate professional behaviors and attitudes consistent with the delivery of safe, ethical, legal, and compassionate patient care.

◆◆◆

A. GENERAL EDUCATION REQUIREMENTS

(See page 45 for details.)

B. REQUIRED COURSES

37.5-38.5 units distributed as follows:

1. 25.5-26.5 units distributed as follows:

BIO 120	Introduction to Human Anatomy & Physiology
HEA 110B	Basic Life Support for Healthcare Providers
HEA 149	Introduction to Medical Ethics and Law
MOA 133	Work Experience-Internship (minimum 1 unit)
MOA 228	Clinical Techniques I
MOA 229	Clinical Techniques II
MOA 230	Clinical Techniques III
MOA 235	Introduction to Administrative Medical Assisting
MOA 238	Beginning Medical Terminology
MOA 240	Advanced Medical Terminology
SPA 180A	Spanish for the Medical/Dental Profession I
	<i>or</i>
SPA 141	Conversational Spanish I

2. 12 units distributed as follows:

CAO 150A	Beginning Keyboarding I
CAO 150B	Beginning Keyboarding II
CAO 152A	Introduction to Windows for PC
CAO 153	Word Processing
SPE 104	Speech Communication

C. ELECTIVE UNITS to bring the total to 90.

Natural Science

The Natural Science degree program provides students with an introduction to the nature of living things, our physical environment, matter, energy, and their interactions. The core areas covered by the degree are biology, chemistry, geology, geography, mathematics, and physics. Additionally, students pursuing this major have the option of exploring such diverse fields as environmental science, physical science, and psychology. Many of the courses emphasize exploration and study Lake Tahoe and the surrounding areas, a natural lab of outstanding beauty and richness.

Student Learning Outcomes for this major are:

- Apply the scientific method to analyze science-related organisms, structures, processes, and issues on a local, regional, national, and global level.
- Illustrate and convey how the particulate nature of matter corresponds to the microscopic and macroscopic properties of substances.
- Dissect, model, and communicate the complexity of the natural environment into its component interconnected systems.

A. GENERAL EDUCATION REQUIREMENTS

(See page 45 for details.)

B. REQUIRED COURSES

30.5-35 units distributed as follows:

1. Three courses (15 units) selected from:

(Courses under this section cannot be double-counted for Area B.3.)

BIO 101	Principles of Biology
BIO 102	Principles of Biology
BIO 103	Principles of Biology
CHM 101	General Chemistry I
CHM 102	General Chemistry II
CHM 103	General Chemistry III
GEG 101	Physical Geography
GEL 102	Physical Geology
GEL 103	History of the Earth and Its Life
PHY 104	General Physics I
PHY 105	General Physics II

BIO 205	Human Anatomy and Physiology III
BIO 210	Microbiology
BIO 212	Zoology
CHM 101	General Chemistry I
CHM 102	General Chemistry II
CHM 103	General Chemistry III
CHM 114	Principles of Inorganic Chemistry
CHM 201	Fundamentals of Organic Chemistry I
CHM 202	Fundamentals of Organic Chemistry II
EVS 101	Environmental Science
GEG 101	Physical Geography
GEG 105	Conservation of Natural Resources
GEG 108	Water Resources
GEG 113	Meteorology
GEG 115	Extreme Weather and Climate Change
GEG 134	Introduction to Geographic Information Systems
GEL 101	Geology of California
GEL 102	Physical Geology
GEL 103	History of the Earth and Its Life
GEL 108	Environmental Geology
GEL 110	Geology of the National Parks and Monuments
PHS 111	Astronomy
PHS 116	Oceanography
PHY 104	General Physics I
PHY 105	General Physics II
PHY 106	General Physics III
PHY 107	General Physics (Calculus) - Mechanics
PHY 108	General Physics (Calculus) - Waves, Thermodynamics, and Light
PHY 207	General Physics (Calculus) - Electricity and Magnetism
PHY 208	General Physics (Calculus) - Modern Physics
PSY 210	Introduction to Physiological Psychology

C. ELECTIVE UNITS to bring the total to 90.

Physical Education and Health

This major replaces the former Health, Physical Education and Dance major.

Student Learning Outcomes for this major are:

- Describe foundational physiological, nutritional, health, and wellness principles.
- Apply the principles and practices that promote lifelong physical fitness and wellness.
- Critically analyze exercise, health, or wellness literature.

◆◆◆

A. GENERAL EDUCATION REQUIREMENT

(See page 45 for details.)

B. CORE COURSES FOR THE A.A. DEGREE IN PHYSICAL EDUCATION AND HEALTH:

The following core courses are required of all Physical Education and Health students:

REQUIRED COURSES: 28 units distributed as follows:

BIO 101	Principles of Biology
	<i>or</i>
BIO 110	Introduction to Cell and Molecular Biology
BIO 203	Human Anatomy and Physiology I
BIO 204	Human Anatomy and Physiology II
BIO 205	Human Anatomy and Physiology III
PEH 100	Personal Health and Wellness
PET 100	Introduction to Exercise Science

AREAS OF CONCENTRATION

In addition to the required core courses listed above, students seeking a Physical Education and Health degree should select an area of concentration from the following two areas:

1. AREA OF CONCENTRATION - EXERCISE SCIENCE

REQUIRED COURSES: 11.75 units distributed as follows:

PEH 102	Nutrition for Fitness and Sport
PET 101	Exercise Program Design
PET 102	Care and Prevention of Athletic Injuries
PET 103	Fitness Assessment
HEA 110E	Basic Life Support for the Healthcare Provider/Heart Saver First Aid
WKX 102	General Work Experience-Internship (minimum 1 unit)

2. AREA OF CONCENTRATION - HEALTH

REQUIRED COURSES: 11 units distributed as follows:

PEH 101	Nutrition
PEH 104/PSY 106	Human Sexuality
PEH 143A	Stress Reduction and Meditation Techniques
HEA 110E	Basic Life Support for the Healthcare Provider/Heart Saver First Aid
WKX 102	General Work Experience-Internship (minimum 1 unit)

C. ELECTIVE UNITS to bring the total to 90.

Psychology

The Psychology program provides students with general background knowledge in the field of psychology. Students will gain a broader understanding of human behavior from various theoretical perspectives. Major requirements provide a breadth of experience for students, while electives allow them to focus on areas concerning their particular interests.

Student Learning Outcomes for this major are:

- Demonstrate familiarity with major concepts, theoretical perspectives, empirical findings, and historical trends.
- Explain different research methods used by psychologists and demonstrate knowledge of when to apply these methods and their strengths and limitations.
- Apply psychological principles to the analysis of personal, social, and organizational issues.
- Demonstrate awareness of the complexity of sociocultural diversity and its impact on psychological processes.

◆◆◆

A. GENERAL EDUCATION REQUIREMENTS

(See page 45 for details)

As much as possible, the student should choose the general education requirements to match the requirements of the specific psychology program of the college or university into which he/she wishes to transfer. If the student has not chosen his/her transfer college or university, then he/she should use the electives list below as recommendations for the courses most likely to meet both the general education requirements at LTCC and the psychology requirements at the selected college or university.

B. REQUIRED COURSES

31 units distributed as follows:

1. All courses from the following:

BIO 101	Principles of Biology
	<i>or</i>
BIO 110	Introduction to Cell and Molecular Biology
MAT 201	Elementary Statistics
PSY 101	General Psychology
PSY 211	Research Methods and Design

2. 12 units from the following:

ANT 102	Cultural Anthropology
ANT 103	Physical/Biological Anthropology
BIO 204	Human Anatomy and Physiology II
CAO 155	Introduction to Database Management
COU 120	Introduction to Alcohol and Drug Studies
COU 124	Group Leadership and Process
ECE 102/PSY 102	Child and Adolescent Development
ECE 129	The Exceptional Child
ENG 103	Critical Reasoning: Writing the Research Paper
HIS 110	Minority and Multicultural History of the United States
PEH104/PSY 106	Human Sexuality
PHI 104	Critical Thinking
PSY 102, 103, 104, 106, 107, 108, 111, 113, 114, 202, 210	
SOC 101	Introduction to Sociology
SOC/PSY 114	Gender

NOTE: The student should see a counselor before choosing his/her electives. Some colleges and universities require physiological electives; others require computer use or critical thinking. Careful selection of the electives is essential, if he/she wants to transfer from LTCC directly into a psychology program at the college or university of his/her choice.

C. ELECTIVE UNITS to bring the total to 90.

Social Science

The Social Science program provides students with an understanding of human behavior, mental processes, and social institutions that are important in contemporary society. The degree provides skills that are valuable in a wide range of careers including business, government, social services, and education. The degree offers students a foundational understanding of the social sciences.

Student Learning Outcomes for this major are:

- Apply critical thinking skills to major social, historical, political, and psychological issues;
- Develop an open-mindedness to various social, historical, political, and psychological perspectives and opinions, as well as a tolerance for ambiguity;
- Apply research methods and theories to major social science issues; and
- Develop an appreciation and understanding for human diversity.

A. GENERAL EDUCATION REQUIREMENTS

(See page 45 for details.)

B. REQUIRED COURSES

28 units distributed as follows:

1. 4 units from:

PSY 101	General Psychology
PSY 102/ECE 102	Child and Adolescent Development
PSY 103	Adult Development

2. 4 units from:

HIS 101	History of Western Civilization I
HIS 102	History of Western Civilization II
HIS 103	History of Western Civilization III
HIS 111	History of the United States from the Colonial Period through the 18th Century
HIS 112	History of the United States in the 19th Century
HIS 113	History of the United States in the 20th Century
POL 101	United States Government

3. 4 units from:

ANT 102	Cultural Anthropology
SOC 101	Introduction to Sociology

4. 16 units from the following:

(Courses under this section cannot be double-counted for Requirements B.1., B.2., and B.3.)

ANT 101, 102, 104, 106, 107, 108
 BSN 100, 101A, 101B, 120, 121, 125
 COU 120
 CRJ 101, 102, 105
 ECE 101, 102, 103
 ECO 101, 102
 GEG 102, 103, 106, 114
 HIS 101, 102, 103, 104, 105, 109, 110
 POL 101
 PSY 101, 102, 103, 104, 107, 113, 114
 SOC 101, 102, 103, 104, 106, 107, 114

C. ELECTIVE UNITS to bring the total to 90.

Sociology

The Sociology degree offers a comprehensive approach to studying the social aspects of the human world. The degree includes attention to the small-scale (micro) and global (macro) perspectives of understanding humanity. With applications to contemporary society, including business, criminal justice, healthcare, international relations and politics, a student majoring in Sociology will be prepared for further work and study in the contemporary and changing world. The Sociology degree offers students major preparation for transfer to a four-year institution.

Student Learning Outcomes for this major are:

- Understand, appreciate and apply scientific methods of sociological research and analysis;
- Comprehend the major theoretical approaches of sociology, including conflict, functionalist, symbolic interactionist and feminist versions;
- Develop knowledge of the interrelationships of individuals, social groups, institutions and society;
- Consider and apply methods of sociological critical thinking, including principles of the sociological imagination; and
- Appreciate the value of social diversity.

A. GENERAL EDUCATION REQUIREMENTS

(See page 45 for details.)

B. REQUIRED COURSES

36 units distributed as follows:

1. All courses from the following:

SOC 101	Introduction to Sociology
SOC 103	Social Problems
SOC 106	Crime and Society

2. 4 units from the following:

SOC 102	Marriage, Families, and Intimate Relationships
SOC 104	Deviance
SOC 107	Race and Ethnic Relations
SOC 114/PSY 114	Gender

3. 20 units from the following:

(8 units of which must be from SOC and cannot be double-counted for Requirements B.1. and B.2.)

ANT 102	Cultural Anthropology
ANT 106	Visual Anthropology
ANT 108	Introduction to Language and Culture
ANT 110	Applied Anthropology
ANT 111A	Anthropology of Pop Culture: Star Trek
ANT 131	Special Topics
COM 122	Mass Media and Society
COU 124	Group Leadership and Process
ECE 103	Child, Family, and Community
GEG 102	Human Geography
GEG 103	World Regional Geography
MAT 201	Elementary Statistics
PHI 101	Introduction to Philosophy
PHI 104	Critical Thinking
POL 107	Political Theory
PSY 104	Social Psychology
SOC 102	Marriage, Families, and Intimate Relationships
SOC 104	Deviance
SOC 107	Race and Ethnic Relations
SOC 109	Women, Our Voiced Journeys
SOC 114/PSY 114	Gender
SOC 131	Special Topics

C. ELECTIVE UNITS to bring the total to 90.

Spanish

The Spanish program is designed to give students a basic understanding of the Spanish language and to facilitate and promote placement of intermediate proficiency-level Spanish speakers into California's bilingual workplace. Students will gain a broad-based appreciation of the culture, history, literature, and art of Spanish-speaking countries. Students will complete course work leading to a proficiency in reading, writing, speaking, and listening skills at the intermediate level according to the American Council on Teaching of Foreign Languages (ACTFL) Proficiency Guidelines. The importance of study abroad will be shared with students.

Student Learning Outcomes for this major are:

- Communicate effectively in the four modalities of listening, reading, writing, and speaking in the indicative and subjunctive tenses with reference to the past, present, and future.
- Demonstrate appreciation, understanding, and awareness of different Spanish-speaking cultures, peoples, values, and traditions.
- Recognize and internalize the importance of being able to communicate with native Spanish speakers in social, educational, and business settings.

A. GENERAL EDUCATION REQUIREMENTS

(See page 45 for details.)

B. REQUIRED COURSES

39-41 units distributed as follows:

NOTE: Six courses from the following list, 30 units total. Any units over the 30 units required from this section may be applied towards the 9-11 units required in the Recommended and/or Suggested Courses section below.

1. SPA 101 Elementary Spanish I
 SPA 102 Elementary Spanish II
 SPA 103 Elementary Spanish III
 SPA 201 Intermediate Spanish
 SPA 202 Intermediate Spanish
 SPA 203 Intermediate Spanish
 SPA 210 Advanced Spanish Grammar and Composition I
 SPA 211 Advanced Spanish Grammar and Composition II
 SPA 212 Introduction to Spanish Literature

NOTE: Students should be advised that the above required courses, taken out of sequence or taken by challenge exam, **may not** be transferable. Students should contact the four-year schools to which they plan to transfer.

2. 9 - 11 units minimum from the following:

At least 3 units must be completed from the Recommended Courses: **Section a.** The remaining units may be completed from the Recommended and/or Suggested Courses: **Sections a, b, or c.**

a. Recommended courses:

- SPA 101 Elementary Spanish I
- SPA 102 Elementary Spanish II
- SPA 103 Elementary Spanish III
- SPA 105 Intermediate Spanish Oral Proficiency
- SPA 110 Hispanic Civilization and Culture
- SPA 120A A Cultural Overview of Mexico
- SPA 141 Conversational Spanish I
- SPA 142 Conversational Spanish II
- SPA 143 Conversational Spanish III
- SPA 155 Bi-Cultural Conversation
- SPA 157A Conversation Expanded Experience - Low Beginning

- SPA 157B Conversation Expanded Experience - Beginning
- SPA 157C Conversation Expanded Experience - High Beginning
- SPA 157D Conversation Expanded Experience - Low Intermediate
- SPA 157E Conversation Expanded Experience - Intermediate
- SPA 157F Conversation Expanded Experience - High Intermediate
- SPA 157G Conversation Expanded Experience - Low Advanced
- SPA 157H Conversation Expanded Experience - Advanced
- SPA 157J Conversation Expanded Experience - High Advanced
- SPA 170A Elementary Spanish for the Professions I**
- SPA 170B Elementary Spanish for the Professions II**
- SPA 170C Elementary Spanish for the Professions III**
- SPA 171A Intermediate Spanish for the Professions I**
- SPA 171B Intermediate Spanish for the Professions II**
- SPA 171C Intermediate Spanish for the Professions III**
- SPA 172A Advanced Spanish for the Professions I**
- SPA 172B Advanced Spanish for the Professions II**
- SPA 172C Advanced Spanish for the Professions III**
- ** A maximum of 3 units from the courses in the 170 series may be used toward the degree.
- SPA 180A Spanish for the Medical/Dental Profession I
- SPA 180B Spanish for the Medical/Dental Profession II
- SPA 193A Spanish for the Teaching Profession I
- SPA 193B Spanish for the Teaching Profession II
- SPA 201 Intermediate Spanish
- SPA 202 Intermediate Spanish
- SPA 203 Intermediate Spanish
- SPA 210 Advanced Spanish Grammar and Composition I
- SPA 211 Advanced Spanish Grammar and Composition II
- SPA 212 Introduction to Spanish Literature

NOTE: Students should be advised that the above required courses, taken out of sequence or taken by challenge exam, **may not** be transferable. Students should contact the four-year schools to which they plan to transfer.

Spanish cont.

b. Students may take Intensive Spanish Summer Institute (ISSI) courses up to 3.5 units. NOTE: The same ISSI courses may not be counted twice to meet the 3.5 unit total.

SPA 121A	ISSI: Low Beginning
SPA 121B	ISSI: Beginning
SPA 121D	ISSI: High Beginning
SPA 122A	ISSI: Low Intermediate

ETH 202C	Mexican-American History: 1960 to Present
ETH 203A	History of Mexico: Pre-Columbian to 1821
ETH 203B	History of Mexico: 1821 to 1910
ETH 203C	History of Mexico: 1910 to Present
HIS 104	Early California History
HIS 110	Minority and Multicultural History of the United States
SPE 102	Intercultural Communications

C. ELECTIVE UNITS to bring the total to 90.

Visual and Performing Arts

The Fine Arts program is designed to provide an introduction to Visual Art, Music and Theatre Arts and to allow for emphasis in any of those areas. All three programs are designed so students receive individual attention. The Art department provides studio facilities in most areas, as well as providing art history instruction. The Music department offers theory, history and appreciation courses and has instruction in voice and piano. The Theatre Arts department has many opportunities for student involvement in theater production and acting. All three departments actively encourage involvement in and are part of community art, music and drama activities.

A. GENERAL EDUCATION REQUIREMENTS

(See page 45 for details.)

B. REQUIRED COURSES

For the Fine Arts major, you may pick an emphasis of either General, Theatre Arts, Music or Art. If you wish to pursue Art as a major see page 59. Repeatable classes may only count once for major requirements. You may use repeated classes as electives.

1. AREA OF CONCENTRATION - GENERAL

Student Learning Outcomes for this major are:

- Demonstrate artistic expression through fundamental skills in Art, Music, Dance and Theatre;
- Define a selected Visual and Performing Arts vocabulary; and
- Analyze aspects of the Visual and Performing Arts and their significance in relation to a social and/or cultural context.

34-39.5 units distributed as follows:

a. 8 units from:

ART 101	Art History: Prehistoric - Islamic
ART 102	Art History: Medieval Europe - Renaissance
ART 103	Art History: Baroque - Contemporary
ART 106	Artists' Lives
ART 107	Art of the Americas
ART 141	The History of Photography

b. 4 units from:

MUS 104A/THE 104A*	History of Musical Theatre
MUS 104B	History of Rock Music
MUS 104C	Music of the World
MUS 104D	Music of Latin America
MUS 104E	The Beatles
MUS 104F	History of Jazz
THE 101	Introduction to Theatre
THE 112A	History of Film: Beginnings to 1945
THE 112B	History of Film: 1945 to 1965
THE 112C	History of Film: 1965 to Present

(* cannot be double counted for Music and Theatre Arts)

c. 4 units from:

THE 105	Introduction to Acting
THE 106A	Fundamentals of Acting: Voice/Dialects
THE 106B	Fundamentals of Acting: Movement
THE 106C	Fundamentals of Acting: Styles
THE 108	Improvisational Theatre
THE 109	Children's Theatre
THE 122	Collaborative Workshop
THE 126	Musical Theatre Techniques
THE 128ABCD	Production Techniques
THE 129	Stagecraft
THE 130	Stage Lighting
THE 208	Advanced Improvisation
THE 228ABCD	Advanced Production Techniques

d. 8-9.5 units from:

MUS 101	Music Listening and Appreciation
MUS 102	Survey of Music I
MUS 103	Survey of Music II
MUS 111	Basic Music Theory I
MUS 112	Basic Music Theory II
MUS 113	Basic Music Theory III

e. 4-6 units from:

DAN 101, 102A, 102B, 102D, 103A, 103B, 104A, 104B, 105A, 105B, 105D, 106, 107A, 107B, 108, 109A, 109B, 110A, 110B, 111, 112A, 112B, 113, 114A, 114B, 114C, 115, 116A, 116B, 118A, 118B, 119, 120A, 120B, 121, 122, 141, 142

f. 6-8 units from:

(Courses under this section cannot be double-counted for Area B.1.a, B.1.b, B.1.c, B.1.d, and B.1.e.)

ART 106, 111, 112, 113, 114A, 114B, 114C, 115, 116, 117, 118, 119, 120, 122, 128, 135A, 135B, 135C, 141, 142, 143, 145A, 145B, 146, 147, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 223, 224, 228, 229, 230A, 233, 234, 235, 236, 237, 238, 239, 240, 242, 244, 247, 248, 249

DAN 101, 102A, 102B, 103A, 103B, 104A, 104B, 105A, 105B, 105D, 106, 107A, 107B, 108, 109A, 109B, 110A, 110B, 111, 112A, 112B, 113, 114A, 114B, 115, 116A, 116B, 118A, 118B, 119, 120A, 120B, 121, 122, 141, 142

MUS 101, 102, 103, 104A, 104B, 104C, 104D, 104E, 104F, 111, 112, 113, 118A, 123, 124, 125A, 125B, 126A, 126B, 126C, 126D, 126E, 126F, 127A, 127B, 128A, 128B, 130A, 130B, 130C, 133A, 133B, 133C, 134A, 134B, 134D, 135, 136, 137, 141A, 141B, 141C, 147, 149, 201, 202, 203, 209, 210, 246, 247, 248, 248L

THE 101, 104A, 105, 106A, 106B, 106C, 107, 108, 109, 110, 111A, 111B, 111C, 111D, 111E, 111F, 111G, 111H, 111J, 111K, 111L, 111M, 111N, 111P, 111Q, 111R, 111S, 111T, 111U, 112A, 112B, 112C, 114, 118, 122, 126, 127, 128A, 128B, 128C, 128D, 129, 130, 208, 228A, 228B, 228C, 228D

2. AREA OF CONCENTRATION - MUSIC

Student Learning Outcomes for this major are:

- Define a selected musical vocabulary;
- Identify, analyze, and explain elements of a musical performance by applying critical criteria;
- Demonstrate an understanding of the basic fundamentals of music theory and music history; and
- Demonstrate appropriate technical and musical skills in their major instrument.

24-32 units distributed as follows:

a. 8-12 units from:

MUS 101	Music Listening and Appreciation
MUS 102	Survey of Music I
MUS 103	Survey of Music II

b. 8-12 units from:

MUS 111	Basic Music Theory I
MUS 112	Basic Music Theory II
MUS 113	Basic Music Theory III
MUS 123	Beginning Voice
MUS 124	Intermediate Voice

Visual and Performing Arts

MUS 128A	Beginning Electric Bass
MUS 128B	Intermediate Electric Bass
MUS 133C	Beginning Keyboard Skills III
MUS 134A	Intermediate Keyboard Skills I
MUS 134B	Intermediate Keyboard Skills II
MUS 134D	Intermediate Jazz Piano
MUS 137	Advanced Guitar
MUS 141A	College Chorus
MUS 141B	College Chorus
MUS 141C	College Chorus
MUS 201	Music Theatre Production I (Principals)
MUS 202	Music Theatre Production II (Chorus)
MUS 203	Music Theatre Production III (Instrumental)
MUS 246	Instrumental Chamber Ensemble

c. 4 units from:

ART 101	Art History: Prehistoric - Islamic
ART 102	Art History: Medieval Europe - Renaissance
ART 103	Art History: Baroque - Contemporary
ART 106	Artists' Lives
ART 107	Art of the Americas

d. 4 units from:

MUS 104A/THE 104A*	History of Musical Theatre
MUS 104B	History of Rock Music
MUS 104C	Music of the World
MUS 104D	Music of Latin America
MUS 104E	The Beatles
MUS 104F	History of Jazz
THE 101	Introduction to Theatre
THE 105	Introduction to Acting
THE 112A	History of Film: Beginnings to 1945
THE 112B	History of Film: 1945 to 1965
THE 112C	History of Film: 1965 to Present

(* cannot be double counted for Music and Theatre Arts)

3. AREA OF CONCENTRATION - THEATRE ARTS

The A.A. in Visual and Performing Arts with a Theatre Arts emphasis serves two main purposes; to form intelligent theatre goers as part of a liberal arts education, and to provide a lower division foundation for transfer students who wish to pursue theatre at a higher educational or professional level. Theatre department productions provide students with a variety of opportunities for performance work to improve skills as well as enhancing cultural awareness and sharing in the collaborative artistic experience. In the area of transfer, students have the opportunities for lower division curriculum with practicum, theory and academic courses in all areas of theatre.

Student Learning Outcomes for this major are:

- Define a selected theatre vocabulary;
- Identify and explain elements of a theatre production;
- Analyze theatre experiences by applying a critical criterion;
- Synthesize components of a dramatic script, i.e. plot, theme, and action;
- Become familiar with theatre as both entertainment and a vital art form;
- Understand how theatre serves as a vital means of communication and reflects the chronicle of society's universal concerns;

- Demonstrate a firm foundation in the fundamental skills of either acting or technical theatre;
- Analyze scripts with regard to dramatic structure, character, or technical elements;
- Interpret production and design concepts and apply their use to the stage; and
- Create characters or technical aspects for stage production.

♦♦♦

23-32.75 units distributed as follows:

a. 8-12 units from:

MUS 104A/THE 104A*	History of Musical Theatre
MUS 104B	History of Rock Music
MUS 104C	Music of the World
MUS 104D	Music of Latin America
MUS 104E	The Beatles
MUS 104F	History of Jazz
THE 101	Introduction to Theatre
THE 110	A Survey of Live Theatre
THE 112A	History of Film: Beginning to 1945
THE 112B	History of Film: 1945 to 1965
THE 112 C	History of Film: 1965 to Present

(* cannot be double counted for Music and Theatre Arts)

b. 8-12 units from:

THE 105	Introduction to Acting
THE 106A	Fundamentals of Acting: Voice/Dialects
THE 106B	Fundamentals of Acting: Movement
THE 106C	Fundamentals of Acting: Styles
THE 107	Actor's Workshop
THE 108	Improvisational Theatre
THE 109	Children's Theatre
THE 114	Introduction to Screenwriting
THE 118	Theatrical Design
THE 122	Collaborative Workshop
THE 126	Musical Theatre Techniques
THE 128ABCD	Production Techniques
THE 129	Stagecraft
THE 130	Stage Lighting
THE 208	Advanced Improvisation
THE 228ABCD	Advanced Production Techniques

c. 3-4 units from:

ART 101	Art History: Prehistoric - Islamic
ART 102	Art History: Medieval Europe - Renaissance
ART 103	Art History: Baroque - Contemporary
ART 106	Artists' Lives
ART 107	Art of the Americas
ART 216	Advanced Drawing: Concept and Image

d. 4-4.75 units from:

MUS 101	Music Listening and Appreciation
MUS 102	Survey of Music I
MUS 103	Survey of Music II
MUS 111	Basic Music Theory I
MUS 112	Basic Music Theory II
MUS 113	Basic Music Theory III

4. AREA OF CONCENTRATION - ART

Student Learning Outcomes for this major are:

- Demonstrate an understanding of the history of Western art and its cultural significance and the role that art has had in shaping our lives and aesthetics;
- Understand and apply the basic principles of observational drawing and how to develop illusionary spatial constructions; and
- Have a knowledge of art materials and an applied experience in the technical means used to formulate and construct visual images.

♦♦♦

31-38 units distributed as follows:

a. 8-12 units from:

ART 101	Art History: Prehistoric - Islamic
ART 102	Art History: Medieval Europe - Renaissance
ART 103	Art History: Baroque - Contemporary
ART 106	Artists' Lives
ART 107	Art of the Americas
ART 141	The History of Photography

b. 3 units from:

Drawing: ART 114, 115, 116, 117, 213, 214, 215, 216, 223, 224, 233

c. 3 units from:

Color and Design: ART 111, 112, 113, 118

d. 3-4 units from:

Painting and Printmaking: ART 210, 211, 212, 221, 234, 240

e. 3-4 units from:

Sculpture and Ceramics: ART 120, 217, 218, 219, 220

f. 3-4 units from:

Electives: ART 101, 102, 103, 107, 111, 112, 113, 114, 115, 116, 117, 118, 119, 135A, 141, 142, 145A, 145B, 146, 147, 210, 211, 213, 217, 218, 219, 220, 221, 224, 234, 240, 244, 247, 248

g. 4 units from:

THE 101, 105, 112A, 112B, 112C

h. 4 units from:

MUS 101, 102, 103

C. ELECTIVE UNITS to bring the total to 90.

Wilderness Education

- STATE APPROVAL PENDING -

The Wilderness Education program is designed to prepare students to become theoretically and technically competent wilderness specialists who can apply their skills as outdoor leaders to diverse groups and environments in a world with a growing population and finite wilderness resources. The curriculum provides a balanced foundation of all aspects of wilderness education/outdoor recreation. Students will gain basic competencies in outdoor-based activities, wilderness first aid skills, experiential educational theory, group dynamics, leadership theory and skills, and environmental awareness. There is emphasis on the integration of academic work and technical field skills. The completion of the major is appropriate for students who are outdoor-oriented and who seek individual enrichment and growth.

Student Learning Outcomes for this major are:

- Identify the many influences that have shaped wilderness education.
- Identify the management protocols for land use on the local, state, and national level.
- Employ a variety of experiential leadership styles to specific settings.
- Assess good judgment and safety in wilderness settings.
- Demonstrate a working vocabulary and a skills-based knowledge in field specific topics.

A. GENERAL EDUCATION REQUIREMENTS

B. REQUIRED COURSES

All courses from the following (26.25 units):

GSE 103	Lake Tahoe Issues and Agencies
WLD 100	Foundations of Recreation Land Management
WLD 101	Origins and Directions of Wilderness Education
WLD 104	Fundamentals of Outdoor Leadership
WLD 107B	Wilderness First Responder
WLD 112C	Map, Compass, and GPS
WLD 117A	Mountaineering
WLD 118A	Rock Climbing: Beginning
WLD 128B	AIARE Level 1 Avalanche
WLD 133	Occupational Work Experience
WLD 134	Facilitation of Experiential/Adventure Based Learning
WLD 140A	Whitewater Rafting: Beginning
WLD 146A	Sea Kayaking: Beginning

AREAS OF CONCENTRATION:

1. AREA OF CONCENTRATION - CLIMBING

A minimum of 4.75 units selected from the following:

WLD 117B	Intermediate Mountaineering
WLD 118B	Rock Climbing: Intermediate
WLD 118C	Introduction to Lead Climbing
WLD 118D	Self-Rescue for Climbers

TOTAL UNITS (including required courses): 31 units

2. AREA OF CONCENTRATION - SNOW SKILLS

A minimum of 6 units selected from the following:

WLD 125A	Backcountry Skiing
WLD 126A	Backcountry Snowboarding
WLD 126C	Multi-day Ski/Snowboard Touring
WLD 127A	Winter Survival
WLD 128C	AIARE Level 2 Avalanche

TOTAL UNITS (including required courses): 32.25 units

3. AREA OF CONCENTRATION - WATER SKILLS

All of the following:

WLD 140C	Whitewater Guide School
WLD 143A	Fly Fishing: Beginning
WLD 146B	Sea Kayaking: Camping

TOTAL UNITS (including required courses): 31.50 units

C. ELECTIVE UNITS to bring the total to 90

Certificates

A Certificate of Achievement is an acknowledgement by Lake Tahoe Community College that the student has completed a prescribed course of study principally in a vocational or technical field. Certificates are designed to enhance the employment opportunities of students. Specifically, the coursework associated with certificates of achievement is developed with a two-fold purpose.

1. To provide students with the skills and knowledge to gain initial employment in a field; and
2. To provide upgraded skills and knowledge to students currently employed in a field.

Similar courses completed at other accredited institutions, upon arrival, may be applied toward the certificate. However, a minimum of 12 units of coursework for a certificate must be taken at Lake Tahoe Community College. Variations from this requirement may be granted by petition to the Vice President, Academic Affairs and Student Services. Units earned in obtaining a Certificate of Achievement may be applied toward the 90 units required for an Associate in Arts degree.

Requests for evaluations for certificates should be made at the Student Services Office, Room A100, at least one full quarter before expected completion of course requirements. Students must have an overall minimum "C" (2.0) grade average to petition for an evaluation. If the work to be evaluated includes courses from other schools, all official transcripts must be on file in the Admissions and Records Office prior to requesting the evaluation. Required courses for certificates must be completed with a "C" or better of "P" if taken on a "Pass/No Pass" basis. Students should allow four (4) weeks for transcripts from other schools to arrive at LTCC. After all courses are completed, certificates may take up to four (4) additional weeks for printing, processing, and mailing. Students who receive a certificate will have their names printed in the following year's commencement program.

Students may elect to meet the certificate requirements in any catalog in effect when they enrolled at Lake Tahoe Community College.

EXCEPTIONS: (1) Students may not use a catalog that is older than 5 years and (2) Students who have a full year break in enrollment may not use a catalog in effect during or before the break in enrollment. The choice of catalog year must be indicated in the Request for Credit Evaluation.

A maximum of 4 units earned in courses where a grade of "P" is received may be used toward the course requirements for certificates.

Lake Tahoe Community College grants a Certificate of Achievement in the following subject areas:

ADDICTION STUDIES

The Addiction Studies program is designed to prepare students for entry-level employment in alcohol and drug treatment programs and to provide continuing education for health care and human services professionals. The curriculum provides a broad base of knowledge regarding approaches to drug education and prevention, treatment issues, counseling skills, ethical issues, and practical knowledge about drugs and their effects. Students will gain basic competencies in counseling, case management, record keeping, and treatment planning. The Addiction Studies program includes core courses in psychology, sociology, and counseling in order to provide students with a broad understanding of the roots of addiction. When combined with nine units of field experience, the Addiction Studies program meets the education requirements established by the California Association of Alcoholism and Drug Abuse Counselors (CAADAC) and the California Association of Alcohol and Drug Educators (CAADE).

Student Learning Outcomes for this certificate are:

- Correctly define and explain abuse, addiction and dependency as key concepts in the discipline;
- Demonstrate understanding of the interaction between genetic, biological, psychological, and environmental factors in the causes of substance misuse problems;
- Describe the role of family dynamics on addiction and recovery and identify the characteristics of codependency within a family system;
- Describe the legal and ethical issues of chemical dependency counseling;
- Demonstrate effective counseling and group leadership skills;
- Appreciate multiculturalism as it relates to the field of addiction counseling; and
- Apply principles of effective oral and written communication skills with clients, their families, and colleagues.

◆◆◆

A. REQUIRED COURSES

40 units distributed as follows:

1. 8 units from:

COU 109	Introduction to Counseling
PSY 101	General Psychology
PSY 202	Abnormal Psychology
SOC 101	Introduction to Sociology

2. All courses from the following:

COU 120	Introduction to Alcohol and Drug Studies
COU 121	The Physical, Chemical, and Behavioral Effects of Alcohol and Drugs
COU 122	Rehabilitation and Recovery from Alcohol and Drug Abuse
COU 123	Alcohol and Drug Prevention and Education
COU 124	Group Leadership and Process
COU 125	Counseling the Family of Addicted Persons
COU 126	Intervention and Referral Techniques
COU 127	Dual Disorders and Mental Health Issues

NOTE: Students wishing to meet CAADAC certification must complete 9 units of field experience in Addiction Studies (COU 134). Pre-requisites for COU 134 include COU 109, COU 120 or COU 121, COU 122, COU 124 and COU 126.

ART

A certificate in Art is designed to provide a body of historical, conceptual and technical experiences which will prepare a developing artist for career opportunities in the field of fine arts, commercial art, gallery and museum operations, and art media retail business. Technical positions in art sculpture foundry, medical illustration, and related areas are additional options.

Student Learning Outcomes for this certificate are:

- Demonstrate an understanding of the history of Western art and its cultural significance and the role that art has had in shaping our lives and aesthetics;
- Demonstrate practical knowledge of how to develop an artist's portfolio and conduct business as a professional artist;
- Understand and apply basic principles of observational drawing and how to develop illusionary spatial constructions;
- Understand and apply knowledge of human anatomy in the construction of figurative works of art;
- Understand and apply the principles and concepts of design;
- Demonstrate knowledge of the science of color perception and how it can be utilized in the creation of works of art; and
- Have a knowledge of art materials and an applied experience in the technical means used to formulate and construct visual images.

A. REQUIRED COURSES:

41.5 units distributed as follows:

1. All courses from the following:

ART 101	Art History: Prehistoric - Islamic
ART 102	Art History: Medieval Europe - Renaissance
ART 103	Art History: Baroque - Contemporary
ART 118	Color
ART 122	Art Exhibition Production
ART 228	Developing a Portfolio

2. 6 units from:

ART 114	Beginning Drawing from Observation
ART 115	Drawing: Wet Media
ART 116	Drawing: Concept and Image
ART 117	Landscape Drawing
ART 214	Advanced Drawing from Observation
ART 215	Advanced Drawing: Wet Media
ART 216	Advanced Drawing: Concept and Image
ART 224	Portraiture

3. 3 units from:

ART 111	Two-Dimensional Design
ART 112	Two- and Three-Dimensional Design
ART 113	Three-Dimensional Design

4. 3 units from:

ART 213	Beginning Life Drawing
ART 223	Intermediate Life Drawing
ART 233	Advanced Life Drawing

5. Minimum of 12 total units from any four of the six areas:

- a. ART 210 Watercolor Painting
- ART 211 Painting I
- ART 212 Painting II
- ART 234 Figure Painting
- ART 240 Painting: Narrative and Symbolism
- b. ART 221 Printmaking
- c. ART 217 Sculpture: Modeling and Casting
- ART 218 Sculpture: Modeling and Carving
- ART 219 Sculpture: Metals
- ART 220 Figure Sculpture
- ART 236 Beginning Bronze Casting
- ART 237 Intermediate Bronze Casting
- ART 238 Advanced Bronze Casting
- d. ART 146 Digital Photography
- ART 244 Color Photography
- ART 247 Portrait Photography
- ART 248 Commercial Photography
- ART 249 Art Concepts for Graphic Design
- e. ART 229 Airbrush Techniques
- f. ART 120 Intermediate Ceramics
- ART 239 Advanced Ceramics

BUSINESS

Certificates of Achievement in business are available in the following areas: accounting technician and small business ownership. These certificates provide students with short-term career training for entry-level employment in a variety of business fields.

Student Learning Outcomes for this certificate are:

- Recognize and apply critical and analytical thought in diverse business situations;
- Identify and apply the basic principles of the disciplines which comprise the certificate;
- Identify and apply basic financial analysis tools and critical business skills needed to plan and manage strategic activities; and
- Recognize the complexity of the global business environment and its relationship with various political, social, cultural, and technological factors.

A. REQUIRED COURSES

1. ACCOUNTING TECHNICIAN

31 units distributed as follows:

- BSN 100 Introduction to Business
- BSN 104 Business Communications

NOTE: Student must choose to take either:

- BSN 111 Computerized Accounting
- or*

- BSN 155A Quickbooks *and*
- BSN 155B Advanced Quickbooks
- BSN 190 Business Math
- CAO 121 Spreadsheet Applications in Business
- CAO 178ABC Electronic Calculator

NOTE: Student must choose to take either:

- BSN 110A Principles of Accounting I *and*
 - BSN 110B Principles of Accounting II
- or*

- BSN 152A Fundamentals of Bookkeeping I *and*
- BSN 152B Fundamentals of Bookkeeping II

2. SMALL BUSINESS OWNERSHIP

32 units distributed as follows:

- BSN 100 Introduction to Business
- BSN 104 Business Communications
- BSN 128/ECE128 Principles of Supervision
- BSN 135 Principles of Marketing
- BSN 190 Business Math
- BSN 210 Entrepreneurship
- CAO 121 Spreadsheet Applications in Business

NOTE: Student must choose to take either:

- BSN 110A Principles of Accounting I *or*
- BSN 152A Fundamentals of Bookkeeping I

COMPUTER APPLICATIONS/OFFICE TECHNOLOGY

COMPUTER APPLICATIONS CERTIFICATE

The Computer Applications Certificate provides students with knowledge of the most commonly used computer software in business, including word processing, spreadsheet, database management, graphics, and presentation software. The certificate prepares students for entry-level positions in a variety of areas involving computer applications software as a necessary tool, such as in administrative support, office management, and computer software support.

Student Learning Outcomes for this certificate are:

- Evaluate and use appropriate computer software tools in an office environment;
- Understand and apply problem-solving techniques using computer applications software; and
- Analyze, design, and produce documents, spreadsheets, databases, and presentation slides for business applications.

A. REQUIRED COURSES

37 units distributed as follows:

1. All courses from the following (25 units):

- CAO 110 Microcomputer Applications
- CAO 121 Spreadsheet Applications in Business
- CAO 122 Relational Database Management
- CAO 152A Introduction to Windows for the PC
- CAO 153 Word Processing
- CAO 156 Introduction to Presentation Software
- CIS 150 Introduction to the Internet
- CIS 151 Introduction to Web Publishing

2. 12 units from the following:

- CAO 131 Special Topics
- CAO 154 Introduction to Spreadsheets
- CAO 155 Introduction to Database Management
- CAO 157A Introduction to Calendaring and E-Mail Software
- CAO 164A Desktop Publishing Using Microsoft Publisher
- CAO 164B Desktop Publishing Using Adobe InDesign
- CAO 165A Introduction to Photo Editing Software
- CAO 166 Computer Illustration
- CAO 191 Special Topics (degree applicable courses only)
- CIS 100 Web Publishing Using Authoring Software
- CIS 160 Introduction to Computer Hardware

OFFICE TECHNOLOGY CERTIFICATE OF ACHIEVEMENT

The Office Technology certificate is designed to prepare students for responsible positions in business offices. The core requirements give students a firm foundation in the areas of office procedures, business machines, word processing, business communication, file and records management, and business math. Students can specialize in one of two concentrations--administrative assistant or office technology. The Administrative Assistant concentration prepares students for general administrative support employment in all types of business and industry. The Office Technology concentration prepares students for employment in business offices that use a high degree of computer applications.

Student Learning Outcomes for this certificate are:

- Evaluate and apply appropriate computer software tools to efficiently solve business problems in an office environment;
- Analyze and produce documents arranged according to accepted business formats;
- Understand and apply correct principles and techniques of files and records management; and
- Recognize and understand the duties and responsibilities of office support personnel and the key role the position fulfills in business and industry.

◆◆◆

A. REQUIRED COURSES

All courses from the following (19-20 units):

The following courses make up the core requirements:

BSN 190 Business Math
 CAO 173AB Beginning Document Production
 CAO 184 Filing and Records Management
 CAO 185 Office Procedures

NOTE: Student must choose to take either:

CAO 180 Business English
 or
 ENG 151W Writing Improvement

AREAS OF CONCENTRATION:

In addition to the required core courses listed above, students must select an area of concentration from the following two areas:

1. AREA OF CONCENTRATION - ADMINISTRATIVE ASSISTANT

The Administrative Assistant concentration prepares students for general administrative support employment in all types of businesses and industries.

REQUIRED COURSES:

19.5 units distributed as follows:

BSN 104 Business Communications
 BSN 152A Fundamentals of Bookkeeping I
 CAO 133 Occupational Work Experience - Internship
 (minimum 2 units)
 CAO 134 Office Technology Internship Seminar
 CAO 174ABCD Intermediate Keyboarding and Document
 Production
 CAO 181ABC Beginning Machine Transcription
 CIS 150 Introduction to the Internet

TOTAL UNITS (including core) = 38.5-39.5

2. AREA OF CONCENTRATION - OFFICE TECHNOLOGY

The Office Technology concentration prepares students for employment in business offices that use a high degree of computer applications.

REQUIRED COURSES:

19.5-21.5 units distributed as follows:

CAO 133 Occupational Work Experience - Internship
 (minimum 2 units)
 CAO 134 Office Technology Internship Seminar
 CAO 152A Introduction to Windows for the PC
 CAO 154 Introduction to Spreadsheets
 CAO 155 Introduction to Database Management
 CAO 156 Introduction to Presentation Software
 CAO 157 Introduction to E-mail and Calendaring Software
 CAO 164A Desktop Publishing Using Microsoft Publisher
 or
 CAO 164B Desktop Publishing Using Adobe InDesign
 CIS 150 Introduction to the Internet
 CIS 151 Introduction to Web Publishing

TOTAL UNITS (including core) = 38.5-41.5

COMPUTER AND INFORMATION SCIENCES - WEB DEVELOPMENT

The Web Development program is designed to prepare students to begin developing web sites as a professional. The curriculum provides a balanced foundation of all aspects of web development. Students will gain basic competencies in web authoring software, web graphics, web animation, HTML, client-side scripting, server-side scripting, and database connectivity. There is emphasis on understanding and practicing the entire web development process, from start to finish.

Student Learning Outcomes for this certificate are:

- Demonstrate the use of authoring software to develop and manage a web site;
- Demonstrate the use of graphics software to design web page layout and to produce and optimize graphics for the web;
- Demonstrate the use of software to produce animation/video for the web;
- Write and interpret HTML code;
- Write, interpret, and apply client-side scripting;
- Write, interpret, and apply server-side scripting; and
- Develop data-driven web pages.

A. REQUIRED COURSES

30 units distributed as follows:

1. All courses from the following:

CIS 100	Web Publishing Using Authoring Software
CIS 101	Graphics for the Web
CIS 102	Animation for the Web
CIS 112	Web Publishing
CIS 113	Client-Side Scripting using Javascript and Dynamic HTML
CIS 114	Data-Driven Web Sites
CIS 115	Current Technologies in Web Design

2. 3 units from the following:

ART 111	Two-Dimensional Design
ART 112	Two- & Three-Dimensional Design

CRIMINAL JUSTICE

The Criminal Justice program is designed to provide students with a foundational understanding of the key components of the criminal justice system (i.e., law/courts, law enforcement, and corrections/community supervision) and to prepare students for entry-level careers in these systems. Students will complete coursework emphasizing the roots of the American justice system; the constitutional provisions of law; legal processes including pre-arrest, arrest through trial, sentencing, appeal and correctional procedures; the role of the community; the social-psychological bases of crime; professional ethics; and the implications of a diverse society on the administration of justice. The Criminal Justice program emphasizes critical thinking skills in the examination and analysis of criminal justice policy and the strengthening of effective written and oral communication skills.

Student Learning Outcomes for this certificate are:

- Demonstrate a broad understanding of the historical perspective, cultural evolution and the origin of criminal law;
- Describe the steps of the legal process, including pre-arrest, arrest through trial, sentencing, appeal and correctional procedures;
- Describe the influences and consequences of crime, including social and psychological factors;
- Appreciate multiculturalism as it relates to the criminal justice system;
- Describe the importance of professional ethics in the major areas of the criminal justice system (i.e., law/courts, law enforcement, and corrections/community supervision); and
- Acquire the skills and knowledge to assist them in obtaining entry-level employment in a variety of areas, including the court system, law enforcement, and corrections/probation.

A. REQUIRED COURSES:

24 units distributed as follows:

CRJ 101	Introduction to Criminal Justice
CRJ 102	Criminal Law
CRJ 104	Criminal Procedures
CRJ 105	Community and Human Relations
CRJ 110	Introduction to Corrections
SOC 106	Crime and Society

AREAS OF CONCENTRATION: (Choose one option)

1. CRIMINAL JUSTICE FOUNDATIONS

3 courses selected from the following:

CRJ 103	Introduction to Evidence
CRJ 108	Juvenile Law and Procedures
CRJ 112	Introduction to Investigation
CRJ 113	Introduction to Probation and Parole

TOTAL UNITS IN MAJOR (INCLUDING CORE) = 36

2. LAW ENFORCEMENT

11 units distributed as follows:

CRJ 107	Police Field Operations
CRJ 109	Traffic Law, Enforcement, and Investigation
CRJ 112	Introduction to Investigation

TOTAL UNITS IN MAJOR (INCLUDING CORE) = 35

3. CORRECTIONS AND COMMUNITY SUPERVISION

12 units distributed as follows:

CRJ 108	Juvenile Law and Procedures
CRJ 112	Introduction to Investigation
CRJ 113	Introduction to Probation and Parole

TOTAL UNITS IN MAJOR (INCLUDING CORE) = 36

CULINARY ARTS CERTIFICATES OF ACHIEVEMENT

- STATE APPROVAL PENDING -

These certificates of achievement are designed for those employed or seeking employment in the Culinary Arts as well as for the food enthusiast. They are intended to advance the skills and knowledge acquired through the completion of the Short-Term Departmental Certificate. Each one is designed to provide the student with subject knowledge and skill-set that is focused within an important area of the Culinary Arts. The certificates are industry-related in that they can either lead to employment within the Culinary Arts industry or enhance opportunities and knowledge for those who are currently employed within the industry. They can also be part of a program of advanced study wherein a combination of the Foundations of Cooking and Foundations of Baking and Pastry can lead to a degree in Culinary Arts. For those who are not a part of the Culinary Arts industry, these certificates serve as areas of personal interest or study. In order to complete any of these certificates of achievement, it is necessary to also complete the short-term departmental certificate.

1. FOUNDATIONS OF COOKING

Student Learning Outcomes for this certificate are:

- Utilize a knife to fabricate a variety of food products for the purpose of preparing the foods for cooking and consumption.
- Prepare soups, salads, meats, grains, vegetables, and potatoes.
- Practice the principles of sanitation and food safety to prevent the spread of food-borne illness.
- Identify and apply the various stages of bread-baking.

A. REQUIRED COURSES:

20 units distributed as follows:

1. All courses from the following (18.75 units)

CUL 101	Introduction to the Culinary Arts Profession
CUL 102	Principles and Practices of Basic Food Preparation
CUL 103	Food Sanitation and Safety
CUL 104	Principles and Practices of Baking and Pastry Arts
CUL 106	Principles and Practices of Intermediate Food Preparation
CUL 164A	Vegetarian Cuisine
CUL 172D	French Regional Cuisine

2. Electives (1.25 units):

Specified Electives: A total of no less than 1.25 units selected from the following:

CUL 162A	Simply Appetizers
CUL 162B	Cooking of the Fall: Soups, Stews, and Chilies
CUL 162C	Soups for All Seasons
CUL 169A	The Fine Art of Sushi Making I
CUL 169B	The Fine Art of Sushi Making II
CUL 169C	Exploring the World of Pizza
CUL 171	The Art and Science of Sauces and Saucemaking
CUL 172A	Middle Eastern Cuisine
CUL 172B	The Cuisine of India
CUL 172C	Mexican Regional Cuisine
CUL 226	Food and Wine

2. FOUNDATIONS OF BAKING AND PASTRY

Student Learning Outcomes for this certificate are:

- Utilize a knife to fabricate a variety of food products for the purpose of preparing the foods for cooking and consumption.
- Prepare soups, salads, meats, grains, vegetables, and potatoes.
- Practice the principles of sanitation and food safety to prevent the spread of food-borne illness.
- Identify and apply the various stages of bread-baking.
- Produce and evaluate bakery and pastry products.

A. REQUIRED COURSES:

20 units distributed as follows:

1. All courses from the following (18 units)

CUL 101	Introduction to the Culinary Arts Profession
CUL 102	Principles and Practices of Basic Food Preparation
CUL 103	Food Sanitation and Safety
CUL 104	Principles and Practices of Baking and Pastry Arts
CUL 114	Principles and Practices of Intermediate Baking and Pastry Arts
CUL 165	A Passion for Chocolate
CUL 168	Cake Decorating

2. Electives (2 units):

Specified Electives: A total of no less than 2 units selected from the following:

CUL 163A	Home Comfort Desserts
CUL 163B	High Altitude and Experimental Baking
CUL 163C	Restaurant-Style Desserts
CUL 163D	The Art of Baking Bread
CUL 163E	Making a Gingerbread House
CUL 163F	Cookie Mastery
CUL 163G	Breakfast Breads and Pastries
CUL 166	Summer Foods: Salads, Cold Soups, Grilling, and Fruit Desserts

3. GLOBAL CUISINE

Student Learning Outcomes for this certificate are:

- Utilize a knife to fabricate a variety of food products for the purpose of preparing the foods for cooking and consumption.
- Cook and prepare foods that are representative of various world cultures.
- Prepare soups, salads, meats, grains, vegetables, and potatoes.
- Practice the principles of sanitation and food safety to prevent the spread of food-borne illness.
- Identify and apply the various stages of bread-baking.

A. REQUIRED COURSES

27 units distributed as follows:

1. All courses from the following (27 units)

CUL 101	Introduction to the Culinary Arts Profession
CUL 102	Principles and Practices of Basic Food Preparation
CUL 103	Food Sanitation and Safety
CUL 104	Principles and Practices of Baking and Pastry Arts
CUL 106	Principles and Practices of Intermediate Food Preparation
CUL 125	Wines of the World
CUL 172A	Middle Eastern Cuisine
CUL 172B	The Cuisine of India
CUL 172C	Mexican Regional Cuisine
CUL 172D	French Regional Cuisine
CUL 202	Global Cuisine

4. WINE STUDIES

Student Learning Outcomes for this certificate are:

- Utilize a knife to fabricate a variety of food products for the purpose of preparing the foods for cooking and consumption.
- Prepare soups, salads, meats, grains, vegetables, and potatoes.
- Practice the principles of sanitation and food safety to prevent the spread of food-borne illness.
- Experience and evaluate the sensory aspects of wine.

CUL 104	Principles and Practices of Baking and Pastry Arts
	- or -
CUL 106	Principles and Practices of Intermediate Food Preparation
CUL 125	Wines of the World
CUL 128	Wines of California
CUL 226	Food and Wine

EARLY CHILDHOOD EDUCATION

The Early Childhood Education certificate is designed to prepare students for employment as aides, teachers, directors, and entrepreneurs in preschools, child care centers (including infant/toddler facilities), and family child care programs. Courses are also appropriate for parents, nannies, camp counselors, recreation leaders, elementary teaching assistants, social service and health care practitioners, administrators and others working with young children.

Student Learning Outcomes for this certificate are:

- Understand major concepts and theoretical perspectives and apply this knowledge to the physical, intellectual, social and emotional development of young children in order to understand them as individuals, and plan responses to their unique needs and potentials;
- Provide developmentally appropriate learning experiences and environments for individual children and children in groups, in the areas of language and early literacy, the physical world, arts and crafts, music and movement, literature, dramatic play, science, math and social studies;
- Apply techniques for setting and maintaining limits, supporting children's self-esteem, self-discipline, intellectual curiosity, creativity, problem-solving abilities, and acceptance of self and others in their interactions with children; and
- Demonstrate skills in observing and recording behavior, assessing children's interests, needs and levels of skill development, and analyze this information to improve their work with children and families.

◆◆◆

A. REQUIRED COURSES:

36 units distributed as follows:

1. All courses from the following:

ECE 100	Health, Safety and Nutrition for Young Children
ECE 101	Introduction to Early Childhood Education
ECE 102/PSY 102	Child and Adolescent Development
ECE 103	Child, Family and Community
ECE 110	Curriculum Development in Early Childhood Education Programs
ECE 202	Practicum in Early Childhood Programs: Field Experience
ECE 203	Administration and Supervision of Early Childhood Programs

2. Two courses from the following:

ECE 109	Children's Literature
ECE 120	Creative Experiences for Young Children
ECE 121	Math and Science Experiences for Young Children
ECE 125	Positive Child Guidance
ECE 127	Infant and Toddlers: Development and Care
ECE128/BSN 128	Principles of Supervision
ECE 129	The Exceptional Child
ECE 204	Childhood Administration II: Staff/Parent/Child Relationships

FIRE SCIENCE

- This is an Accredited Regional Training Program through the California State Fire Marshal and the State Board of Fire Services -

The Fire Science program is designed to give students the required knowledge to pursue entry-level municipal or wildland fire service careers. Students will gain a broad working knowledge of the many aspects of fire service organization and operations, proper use of fire equipment, tactics and strategies of fire fighting, specialized job skills, and management techniques. The Fire Science program emphasizes critical thinking skills in the examination and analysis of modern fire service issues and the strengthening of effective written and oral communication skills.

Student Learning Outcomes for this certificate are:

- Identify minimum qualifications and entry-level skills for firefighter hiring.
- Analyze, appraise and evaluate fire and emergency incidents and identify components of emergency management and firefighter safety.
- Comprehend laws, regulations, codes and standards that influence fire department operations, and identify regulatory and advisory organizations that create and mandate them, especially in the areas of fire prevention, building codes and ordinances, and firefighter health and safety.
- Analyze the causes of fire, determine extinguishing agents and methods, differentiate the stages of the fire and fire development, and compare methods of heat transfer.
- Identify and describe common types of building construction and conditions associated with structural collapse and firefighter safety.
- Differentiate between fire detection and fire suppression systems.

♦♦♦

A. REQUIRED COURSES:

31.5 – 32.5 units distributed as follows:

1. All courses from the following:

- FIR101 Fire Protection Organization (*formerly FIR151*)
 FIR102 Fundamentals of Fire Prevention (*formerly FIR152*)
 FIR103 Fire Protection Equipment and Systems (*formerly FIR159*)
 FIR104 Building Construction for Fire Protection
 FIR105 Fire Behavior and Combustion (*formerly FIR160*)
 FIR106 Principles of Fire and Emergency Services Safety & Survival

2. Choose a minimum of 7.5 units from:

- FIR153 Fire Hydraulics
 FIR167 Wildland Fire Safety & Hand Crew Operations
 HEA141 Emergency Medical Technician I

FIREFIGHTER I

- STATE APPROVAL PENDING -

- This is an Accredited Regional Training Program through the California State Fire Marshal and the State Board of Fire Services -

The Firefighter I Certificate of Achievement program is designed to prepare students for careers as entry-level firefighters and emergency medical technicians. The program provides students with the knowledge and skills required to become certified as a Firefighter I by the California Board of Fire Services (CBFS). Students will be academically prepared for certification as a Firefighter I and in order to receive their official certification from CBFS students will need to document one year of volunteer service or six months of paid service as a firefighter in California.

In order to earn the Firefighter I Certificate of Achievement, students must successfully pass the Lake Tahoe Basin Fire Academy (FIR170A, FIR170B, FIR170C) and Emergency Medical Tech I (HEA141). The Lake Tahoe Basin Fire Academy is offered in partnership with Lake Valley Fire Protection District, South Lake Tahoe Fire Department, Tahoe-Douglas Fire Protection District, and Fallen Leaf Lake Fire Department. The Academy is accredited by the California State Fire Marshal and the State Board of Fire Services. Interested students are advised that the Fire Academy is a physically and academically demanding program.

Student Learning Outcomes for this certificate are:

- Define fire department organization and culture, and the expectations of entry-level fire department personnel.
- Demonstrate knowledge of fire department equipment through the selection and application of equipment for given firefighting tasks.
- Analyze and assess firefighter hazards inherent to the profession.
- Communicate effectively through multiple methods of communication including: written, electronic, face to face, and radio transmitted messages.
- Demonstrate knowledge of strategies, tactics and incident command through the selection and implementation of firefighting methods, and the application of the Emergency Command System.
- Demonstrate safe practices by using minimum standard safety procedures.
- Demonstrate the knowledge and skills necessary to become certified as an Emergency Medical Technician-I.

♦♦♦

A. REQUIRED COURSES:

43.5 units distributed as follows:

All courses from the following:

- FIR170A Lake Tahoe Basin Fire Academy, Part 1
 FIR170B Lake Tahoe Basin Fire Academy, Part 2
 FIR170C Lake Tahoe Basin Fire Academy, Part 3
 HEA141 Emergency Medical Tech I

MEDICAL OFFICE ASSISTANT: ADMINISTRATIVE

The Medical Office Assistant: Administrative program is designed to provide students with essential knowledge and skills to assume responsible administrative positions in medical offices. The core curriculum in the Medical Office Assistant: Administrative program focuses on the effective use of medical terminology and the mechanics of medical coding and billing procedures. Additional courses emphasize contemporary medical office technology skills such as effective computer files management, data entry, and word processing. Students will develop solid skills in bookkeeping/accounting, math, and oral communication as well as an in depth understanding and appreciation of ethical issues related to employment in a medical office.

Student Learning Outcomes for this certificate are:

- Demonstrate understanding and effective use of advanced medical terminology (to include correct spelling and pronunciation);
- Identify, evaluate and appropriately apply principles of medical office administration and demonstrate competency in performing administrative clerical duties;
- Demonstrate accuracy in common medical insurance billing and coding procedures to ensure proper reimbursement;
- Demonstrate proficiency in computer operations and applications relative to patient care and the administration of a medical office;
- Demonstrate professional behaviors and attitudes consistent with the delivery of safe, ethical, legal, and compassionate patient care;
- Appreciate multiculturalism as it relates to the health care field; and
- Demonstrate competency in communication, critical thinking, and technology applications as required for entry-level medical office positions.

A. REQUIRED COURSES:

44.25-45.25 units distributed as follows:

1. 19.25 units distributed as follows:

HEA 110B	Basic Life Support for Healthcare Providers
HEA 149	Introduction to Medical Ethics and Law
MOA 235	Introduction to Administrative Medical Assisting
MOA 236	Basic Principles of Medical Coding
MOA 237	Medical Insurance Billing
MOA 238	Beginning Medical Terminology
MOA 240	Advanced Medical Terminology

2. 25-26 units distributed as follows:

CAO 152A	Introduction to Windows for PC
CAO 153	Word Processing
CAO 174ABCD	Intermediate Keyboarding and Document Production
CAO 177 ABC	Data Entry
SPE 104	Speech Communication

NOTE: Students must choose to take either:

BSN 110A	Principles of Accounting I
	<i>or</i>
BSN 152A	Fundamentals of Bookkeeping I
	<i>and</i>

NOTE: Students must choose to take either:

BSN 190	Business Math
	<i>or</i>
MAT 152A	Basic Algebra (Part 1)
	<i>or</i>
MAT 152AA	Basic Algebra (Part I): Expanded

MEDICAL OFFICE ASSISTANT: CLINICAL

The Medical Office Assistant: Clinical program is designed to give students the required knowledge and skills to pursue entry-level, “back office” careers in medical offices. The core curriculum in the Medical Office Assistant: Clinical program focuses on the development of clinical competencies designed to effectively assist physicians in the diagnosis and treatment of patients. Students gain skills in patient assessment, taking and charting of medical history and vital signs, basic phlebotomy and injection procedures, administration of medication, assisting with minor office surgery, as well as a number of specialized patient care procedures. The program emphasizes the effective use of medical terminology and the basics of human anatomy and physiology. Additional courses highlight patient safety and the ethical issues related to employment in a medical office. Students will develop solid skills in bookkeeping/accounting, math, and oral communication.

Student Learning Outcomes for this certificate are:

- Demonstrate understanding and effective use of advanced medical terminology (to include correct spelling and pronunciation);
- Demonstrate the ability to competently perform all clinical duties associated with assisting a physician in the diagnosis and treatment of patients in a medical office setting;
- Demonstrate effective procedures for handling office emergencies and perform basic triage duties;
- Become CPR-certified (health professional);
- Appreciate multiculturalism as it relates to the health care field;
- Apply principles of effective oral and written communication skills with patients, their families, and other health care providers; and
- Demonstrate professional behaviors and attitudes consistent with the delivery of safe, ethical, legal, and compassionate patient care.

A. REQUIRED COURSES

41.5-43.5 units distributed as follows:

1. 25.5-26.5 units distributed as follows:

BIO 120	Introduction to Human Anatomy & Physiology
HEA 110B	Basic Life Support for Healthcare Providers
HEA 149	Introduction to Medical Ethics and Law
MOA 133	Occupational Work Experience - Internship (minimum 1 unit)
MOA 228	Clinical Techniques I
MOA 229	Clinical Techniques II
MOA 230	Clinical Techniques III
MOA 235	Introduction to Administrative Medical Assisting
MOA 238	Beginning Medical Terminology
MOA 240	Advanced Medical Terminology
SPA 180A	Spanish for the Medical/Dental Profession I
	<i>or</i>
SPA 141	Conversational Spanish I

2. 16-17 units distributed as follows:

CAO 150A	Beginning Keyboarding I
CAO150B	Beginning Keyboarding II
CAO 152A	Introduction to Windows for PC
CAO 153	Word Processing
MAT 152A	Basic Algebra (Part 1)
	<i>or</i>
MAT 152AA	Basic Algebra (Part I): Expanded
SPE 104	Speech Communication

PHOTOGRAPHY

Photography is an exciting field with both artistic and commercial applications. The certificate program incorporates both, and gives the student a solid foundation in a variety of photographic/digital areas. Individuals in the field may work as landscape, portrait or commercial photographers, camera operators in television broadcasting or motion picture studios, or photojournalists with newspapers, magazines, advertising agencies and government agencies.

Student Learning Outcomes for this certificate are:

- Be knowledgeable about and apply the current photographic/digital processes;
- Manually operate traditional and digital camera formats from 35mm to large format cameras;
- Operate commercial studio equipment;
- Correctly utilize traditional photographic processes and digital applications;
- Be fluent in design and compositional concepts, and be able to apply these to the photographic and digital arts;
- Recognize master photographers and traditional historical processes, as well as alternative processes; and
- Assemble a portfolio of their work.

◆◆◆

A. REQUIRED COURSES:

36.25 units distributed as follows:

1. All courses from the following:

NOTE: Students must choose to take either:

- ART 111 Two-Dimensional Design *or*
- ART 112 Two- and Three-Dimensional Design
- ART 141 The History of Photography
- ART 142 Photography I
- ART 143 Photography II
- ART 228 Developing a Portfolio
- ART 242 Photography III
- ART 244 Color Photography

2. Three courses from the following:

- ART 135A Digital Imaging I
- ART 135B Digital Imaging II
- ART 135C Digital Imaging III
- ART 145A Landscape Photography
- ART 146 Digital Photography
- ART 147 Photojournalism
- ART 247 Portrait Photography
- ART 248 Commercial Photography

SPANISH

The Spanish program is designed to give students a basic understanding of the Spanish language and to facilitate and promote placement of intermediate proficiency-level Spanish speakers into California's bilingual workplace. Students will gain a broad-based appreciation of the culture, history, literature, and art of Spanish-speaking countries. Students will complete course work leading to a proficiency in reading, writing, speaking, and listening skills at the intermediate level according to the American Council on Teaching of Foreign Languages (ACTFL) Proficiency Guidelines. The importance of study abroad will be shared with students.

Student Learning Outcomes for this certificate are:

- Communicate effectively in the four modalities of listening, reading, writing, and speaking in the indicative and subjunctive tenses with reference to the past, present, and future.
- Demonstrate appreciation, understanding, and awareness of different Spanish-speaking cultures, peoples, values, and traditions.
- Recognize and internalize the importance of being able to communicate with native Spanish speakers in social, educational, and business settings.

A. REQUIRED COURSES:

39-41 units distributed as follows:

1. Six courses from the following (30 units total):

Any units over the 30 units required from this section may be applied toward the 9-11 units listed in Section 2: Elective Courses.

- SPA 101 Elementary Spanish I
- SPA 102 Elementary Spanish II
- SPA 103 Elementary Spanish III
- SPA 201 Intermediate Spanish
- SPA 202 Intermediate Spanish
- SPA 203 Intermediate Spanish
- SPA 210 Advanced Spanish Grammar and Composition I
- SPA 211 Advanced Spanish Grammar and Composition II
- SPA 212 Introduction to Spanish Literature

2. ELECTIVE COURSES

9-11 units minimum from the following sections:

At least 3 units must be completed from the Recommended Courses:

Section a. *The remaining units may be completed from the Recommended and/or Suggested Courses: Sections a, b, or c.*

a. Recommended courses:

- SPA 101 Elementary Spanish I
- SPA 102 Elementary Spanish II
- SPA 103 Elementary Spanish III
- SPA 105 Intermediate Spanish Oral Proficiency
- SPA 110 Hispanic Civilization and Culture
- SPA 120A A Cultural Overview of Mexico
- SPA 141 Conversational Spanish I
- SPA 142 Conversational Spanish II
- SPA 143 Conversational Spanish III
- SPA 155 Bi-Cultural Conversation
- SPA 157A Conversation Expanded Experience - Low Beginning
- SPA 157B Conversation Expanded Experience - Beginning
- SPA 157C Conversation Expanded Experience - High Beginning
- SPA 157D Conversation Expanded Experience - Low Intermediate
- SPA 157E Conversation Expanded Experience - Intermediate
- SPA 157F Conversation Expanded Experience - High Intermediate

SPA 157G	Conversation Expanded Experience - Low Advanced
SPA 157H	Conversation Expanded Experience - Advanced
SPA 157J	Conversation Expanded Experience - High Advanced
SPA 170A	Elementary Spanish for the Professions I**
SPA 170B	Elementary Spanish for the Professions II**
SPA 170C	Elementary Spanish for the Professions III**

SPA 195D	ISSI: Spanish for the Teaching Profession: High Intermediate to High Superior
SPA 199A	ISSI: Spanish Communicative Interactive Conversation Course (SCICC): The Difficult Trip: Beginning Levels
SPA 199D	ISSI: Spanish Communicative Interactive Conversation Course (SCICC): The Difficult Trip: Intermediate Levels
SPA 199H	ISSI: Spanish Communicative Interactive Conversation Course (SCICC): The Difficult Trip: Advanced Levels

c. Suggested courses:

ANT 101	Introduction to Archeology
ART 107	Art of the Americas
ENG 107	Cross-Cultural Literature
ETH 100	Current Latino Issues
ETH 201	Mexican-American Culture
ETH 202A	Mexican-American History: Pre-Columbian to 1848
ETH 202B	Mexican-American History: 1848 to 1960
ETH 202C	Mexican-American History: 1960 to Present
ETH 203A	History of Mexico: Pre-Columbian to 1821
ETH 203B	History of Mexico: 1821 to 1910
ETH 203C	History of Mexico: 1910 to Present
HIS 104	Early California History
HIS 110	Minority and Multicultural History of the United States
SPE 102	Intercultural Communications

*NOTE: Students should be advised that the above required courses, taken out of sequence or taken by challenge exam, **may not** be transferable. Students should contact the four-year schools to which they plan to transfer.*

NON-CREDIT CERTIFICATE OF COMPLETION: ESL PROFICIENCY

The noncredit ESL program at LTCC is designed as a series of sequential courses, ranging from Low Beginning through Advanced levels of English proficiency. The sequential curriculum, based upon an integrated set of student learning outcomes, provides instruction through each strand of learning: listening, speaking, reading, and writing.

This certificate of completion will be awarded upon completion of the following noncredit courses:

- ESL551: Low Beginning ESL -or- ESL 561: Low Beginning ESL
- ESL552: High Beginning ESL -or- ESL 562: High Beginning ESL
- ESL553: Low Intermediate ESL -or- ESL 563: Low Intermediate ESL
- ESL554: High Intermediate ESL -or- ESL 564: High Intermediate ESL
- ESL556: Advanced ESL

WILDERNESS EDUCATION

- STATE APPROVAL PENDING -

The Wilderness Education program is designed to prepare students to become theoretically and technically competent wilderness specialists who can apply their skills as outdoor leaders to diverse groups and environments in a world with a growing population and finite wilderness resources. The curriculum provides a balanced foundation of all aspects of wilderness education/outdoor recreation. Students will gain basic competencies in outdoor-based activities, wilderness first aid skills, experiential educational theory, group dynamics, leadership theory and skills, and environmental awareness. There is emphasis on the integration of academic work and technical field skills.

Student Learning Outcomes for this certificate are:

- Identify the many influences that have shaped wilderness education.
- Identify the management protocols for land use on the local, state, and national level.
- Employ a variety of experiential leadership styles to specific settings.
- Assess good judgment and safety in wilderness settings.
- Demonstrate a working vocabulary and a skills-based knowledge in field specific topics.

A. REQUIRED COURSES

All courses from the following (26.25 units):

GSE 103	Lake Tahoe Issues and Agencies
WLD 100	Foundations of Recreation Land Management
WLD 101	Origins and Directions of Wilderness Education
WLD 104	Fundamentals of Outdoor Leadership
WLD 107B	Wilderness First Responder
WLD 112C	Map, Compass, and GPS
WLD 117A	Mountaineering
WLD 118A	Rock Climbing: Beginning
WLD 128B	AIARE Level 1 Avalanche
WLD 133	Occupational Work Experience
WLD 134	Facilitation of Experiential/Adventure Based Learning
WLD 140A	Whitewater Rafting: Beginning
WLD 146A	Sea Kayaking: Beginning

B. AREAS OF CONCENTRATION: (Choose one option)

1. CLIMBING

A minimum of 4.75 units selected from the following:

WLD 117B	Intermediate Mountaineering
WLD 118B	Rock Climbing: Intermediate
WLD 118C	Introduction to Lead Climbing
WLD 118D	Self-Rescue for Climbers

TOTAL UNITS (including required courses): 31 units

2. SNOW SKILLS

A minimum of 6 units selected from the following:

WLD 125A	Backcountry Skiing
WLD 126A	Backcountry Snowboarding
WLD 126C	Multi-day Ski/Snowboard Touring
WLD 127A	Winter Survival
WLD 128C	AIARE Level 2 Avalanche

TOTAL UNITS (including required courses): 32.25 units

3. WATER SKILLS

All of the following:

WLD 140C	Whitewater Guide School
WLD 143A	Fly Fishing: Beginning
WLD 146B	Sea Kayaking: Camping

TOTAL UNITS (including required courses): 31.50 units

Short - Term Departmental Certificates

Various departments offer students the opportunity to gain fundamental skills in a career field by completing an intensive course or set of courses. Upon successful completion of one of these programs, the student will receive a department-issued certificate. These programs differ from the college's official certificates of achievement in that they are short-term, cover a more narrow area of study, and are generally not recorded on the student's transcript. These programs are coordinated by the individual departments. Interested students should contact the specific department for further information.

APPLIED ANTHROPOLOGY

The certificate in Applied Anthropology provides students with the methods, perspectives, and case studies necessary in understanding the applications of anthropology to contemporary settings. The specializations of Applied Anthropology include organizational anthropology (focused on understanding the methods of problem-solving and conflict resolution in complex organizations), medical anthropology (focused on developing insights on the cross-cultural contexts of healing and healthcare), development anthropology (focused on the legacy of economic and cultural systems and the contexts of policy and technological applications of anthropology in field settings), and cultural resource and land management (focused on making connections between archaeology, conservation and land use, and resource policy). For further information about this program, contact the Anthropology department at extension 316.

Student Learning Outcomes for this certificate are:

- Understand the theoretical approaches of the four fields of anthropology;
- Comprehend the scientific approaches to anthropological research, including research design;
- Develop an understanding of the varied approaches of applied anthropology relevant to each of the four fields; and
- Have the ability to apply theoretical positions to real-world contexts of anthropological research.

All courses from the following (8 units):

ANT 102	Cultural Anthropology
ANT 110	Applied Anthropology

8 units from the following:

ANT 101	Introduction to Archaeology
ANT 103	Physical/Biological Anthropology
ANT 105	Beginning Field Archaeology
ANT 107	Magic, Witchcraft, and Religion
BIO 149	Ecology
BSN 100	Introduction to Business
BSN 215	International Business: Competing in the Global Marketplace
COU 111	Crisis Counseling
GEG 102	Human Geography
GEG 103	World Regional Geography
GEG 134	Introduction to Geographic Information Systems
GEG 135	Intermediate Geographic Information Systems
PEH 100	Personal Health and Wellness
PSY 101	General Psychology
SOC 102	Marriage, Families, and Intimate Relationships
SOC 104	Deviance
SOC 107	Race and Ethnic Relations
SPE 102	Intercultural Communication

WORK EXPERIENCE

Because Applied Anthropology involves the direct application of anthropology to real-world settings, students are required to complete 2 units in an approved work experience project related to an organizational setting, such as in business and the service industry, healthcare, a local public service, political or environmental agency.

Required Course (2 units from the following):

WKX 101	General Work Experience
WKX 102	General Work Experience - Internship
Discipline Specific Internships	

CERTIFIED PHLEBOTOMY TECHNICIAN I

This short term department certificate is offered in partnership with Barton HealthCare System and prepares students for the California state examination to become "Certified Phlebotomy Technicians, I." The program includes both basic and advanced classroom instruction and is designed for all beginning students and for phlebotomists with less than 1,040 hours of phlebotomy experience. The two-course sequence begins in the summer quarter with HEA144A (Phlebotomy Training, Part 1 – Didactic) and concludes in the fall quarter with HEA144B (Phlebotomy Training, Part 2 - Clinical). Successful certificate completion requires perfect attendance and a final grade of "B" or higher in HEA144A and 50 successful patient venipunctures and 10 successful patient skin punctures (pursuant to CCR, Title 17) in HEA144B. In order to apply for certification, students will be required to provide a certified copy of their high school transcripts or GED, as well as proof of the Hepatitis B series. For further information about this program, contact the Vocational Education department at extension 583.

COMPUTER APPLICATIONS/OFFICE TECHNOLOGY

For further information about this program, contact the Computer Applications/Office Technology department at extension 237.

DATA ENTRY CLERK: *This program is designed to prepare the student for an entry-level data entry position.*

All courses from the following (17 units):

CAO 153	Word Processing
CAO 173AB	Beginning Document Production
CAO 176ABC	Keyboarding Speed and Accuracy Building
CAO 177ABC	Data Entry
CAO 184	Filing and Records Management

RECEPTIONIST: *This program is designed to prepare the student for an entry-level receptionist position.*

All courses from the following (20 units):

CAO 152A	Introduction to Windows for the PC
CAO 153	Word Processing
CAO 154	Introduction to Spreadsheets
CAO 174ABCD	Intermediate Keyboarding and Document Production
CAO 184	Filing and Records Management
CAO 185	Office Procedures

OFFICE ASSISTANT: *This program is designed to prepare the student for an entry-level office assistant position.*

All courses from the following (24 units):

CAO 153	Word Processing
CAO 154	Introduction to Spreadsheets
CAO 174ABCD	Intermediate Keyboarding and Document Production
CAO 180	Business English
CAO 184	Filing and Records Management
CAO 185	Office Procedures
CIS 150	Introduction to the Internet

CULINARY ARTS

The short-term certificate in culinary arts is designed to provide opportunities to learn the basic fundamentals of culinary arts. The certificate serves as both a career-readiness certificate leading to either employment within the culinary arts industry or continued study leading to a more advanced certificate or degree in the culinary arts, and as an area of personal interest or study. For further information about this program, contact the Culinary Arts department at extension 334.

All courses from the following (13 units):

CUL 101	Introduction to the Culinary Arts Profession
CUL 102	Principles and Practices of Basic Food Preparation
CUL 103	Sanitation and Food Safety
CUL 104	Principles and Practices of Baking and Pastry Arts
	-or-
CUL 106	Practices of Intermediate Food Preparation

DENTAL ASSISTING

The Dental Assisting program at LTCC consists of three courses. In Dental Assisting and Radiology, Part 1 (HEA 147A), students learn the skills necessary to begin a career as an entry-level, back-office Dental Assistant. In Dental Radiology, Part 2 (HEA 147B), students learn anatomic interpretation, x-ray technique, and radiation safety. This radiology curriculum is approved by the California Board of Dental Examiners. In Dental Radiology, Part 3 (Externship) (HEA 147C), students hone their workplace dental assisting skills and take part in a comprehensive externship placement experience. Upon successful completion of all three courses, students will be awarded a Short-Term Departmental Certificate in Dental Assisting and a Radiation Safety Certificate (required to work in a California dental office). For further information about this program, contact the Career and Technical department at extension 583.

EMERGENCY MEDICAL TECHNICIAN

The Emergency Medical Tech I course (HEA141, one quarter, 8.5-units) prepares students for a career administering first response treatment in emergency situations. Responsibilities include driving an ambulance, removing trapped victims from accident scenes, administering emergency patient care, and recording observation. Clinical experience in an emergency room and ambulance ride-alongs further enhance the learning experience. This course is approved by the El Dorado County EMS Agency and is recognized throughout the State of California. Successful course completion allows students to take the EMT National Registry Exam. For further information about this program, contact the Career and Technical Education department at extension 583.

MEDICAL OFFICE ASSISTANT

Three short-term departmental certificates have been designed to assist students in obtaining responsible entry-level administrative and clinical positions in medical offices. The ultimate goal of these certificates is to develop competency in communication, critical thinking, and technology applications as required for the delivery of safe, ethical, legal, and compassionate patient care. For further information about this program, contact the Career and Technical Education department at extension 583.

MEDICAL TERMINOLOGY: (8 units)

MOA 238:	Beginning Medical Terminology
MOA 240:	Advanced Medical Terminology

BILLING AND CODING: (7 units)

MOA 236:	Basic Principles of Medical Coding
MOA 237:	Medical Insurance Billing

CLINICAL PROCEDURES: (8.25 units)

MOA 228:	Clinical Techniques I
MOA 229:	Clinical Techniques II
MOA 230:	Clinical Techniques III

NURSING ASSISTANT

The highly successful Nursing Assistant Training Program (HEA145) is a one quarter course (8-units) that prepares students for careers as Certified Nursing Assistants (CNA). CNAs are important members of a health care team and provide patients with the personal care needed in nursing homes, hospitals, and other health-care facilities. Typical patient-care duties include bathing and dressing patients, helping with personal hygiene, taking vital signs, answering call lights, transporting patients, servicing and collecting food trays, and feeding patients when necessary. Upon successful completion of this course, students are eligible to take the California State certifying exam for nursing assistants. For further information about this program, contact the Career and Technical Education department at extension 583.

PERSONAL TRAINER CERTIFICATION

This short term departmental certificate program provides students with skills and knowledge to prepare them for employment within the fitness industry. The student will gain understanding of physiology of exercise, fitness assessment procedures and methodologies, sports nutrition, treating activity-related injuries, and designing exercise programs. The program includes a hands-on experience with an exercise population. This certification also prepares students for industry standard personal trainer examinations. For further information about this program, contact the Physical Education department at extension 557.

All courses from the following (15.75 units):

PEH 102	Nutrition for Fitness and Sport
PET 100	Introduction to Exercise Science
PET 101	Exercise Program Design
PET 102	Care and Prevention of Athletic Injuries
PET 103	Fitness Assessment
HEA 110E	Basic Life Support for the Healthcare Provider/ Heart Saver First Aid
WKX 102	General Work Experience - Internship

PHOTOGRAPHY/DIGITAL PHOTOGRAPHY/ NEW DIGITAL MEDIA

Photography/Digital Photography/New Digital Media is a dynamic field exploring artistic and commercial applications, as well as digital technology. This short-term departmental certificate program provides photographic and digital experiences that equip the students for a variety of entry-level career applications. The program is designed to prepare the student for entry-level positions in the fields of traditional photography, photojournalism, commercial photography, digital photography, digital imaging, and new digital media. For further information about this program, contact extension 230.

A. TRADITIONAL PHOTOGRAPHY I: *This program is designed to prepare the student for an entry-level position in the field of Traditional Photography.*

All courses from the following (12 units):

- ART 141 History of Photography
- ART 142 Photography I
- ART 143 Photography II

3 units from the following:

- ART 111 Two-Dimensional Design
- ART 112 Two- and Three-Dimensional Design

TOTAL UNITS (including required courses) = 15

B. TRADITIONAL PHOTOGRAPHY II: *This program is designed to prepare the student for an advanced level position in the field of Traditional Photography.*

All courses from the following (8 units):

- ART 242 Photography III
- ART 244 Color Photography

8 units from the following:

- ART 145A Landscape Photography
- ART 147 Photojournalism
- ART 247 Portrait Photography

TOTAL UNITS (including required courses) = 16

C. PHOTOJOURNALISM: *This program is designed to prepare the student for an entry-level position in the field of Photojournalism.*

All courses from the following (12 units):

- ART 142 Photography I
- ART 146 Digital Photography
- ART 147 Photojournalism

3 units from the following:

- ART 111 Two-Dimensional Design
- ART 112 Two- and Three-Dimensional Design

TOTAL UNITS (including required courses) = 15

D. COMMERCIAL PHOTOGRAPHY: *This program is designed to prepare the student for an entry-level position in the field of Commercial Photography.*

All courses from the following (12 units):

- ART 244 Color Photography
- ART 247 Portrait Photography
- ART 248 Commercial Photography

4 units from the following:

- ART 135A Digital Imaging I
- ART 135B Digital Imaging II
- ART 135C Digital Imaging III
- ART 146 Digital Photography

3 units from the following:

- ART 111 Two-Dimensional Design
- ART 112 Two- and Three-Dimensional Design

TOTAL UNITS (including required courses) = 19

E. DIGITAL PHOTOGRAPHY: *This program is designed to prepare the student for an entry-level position in the field of Digital Photography or as a Digital Photo Specialist.*

All courses from the following (8 units):

- ART 142 Photography I
- ART 146 Digital Photography

4 units from the following:

- ART 135A Digital Imaging I
- ART 135B Digital Imaging II

3 units from the following:

- ART 111 Two-Dimensional Design
- ART 112 Two- and Three-Dimensional Design

TOTAL UNITS (including required courses) = 15

F. NEW DIGITAL MEDIA: *This program is designed to prepare the student for an entry-level position in the field of New Digital Media.*

All courses from the following (12 units)

- ART 135A Digital Imaging I
- ART 135B Digital Imaging II
- ART 135C Digital Imaging III

3 units from the following:

- ART 111 Two-Dimensional Design
- ART 112 Two- and Three-Dimensional Design

TOTAL UNITS (including required courses) = 15

PROFESSIONAL BOOKKEEPER

The American Institute of Professional Bookkeepers (AIPB) has established a national professional certification, the Certified Bookkeeper (CB) credential, a professional standard for working bookkeepers. By successfully passing tests that cover six subjects, signing a code of ethics, and demonstrating two years' experience in bookkeeping, students earn the right to put "CB" after their name. The experience requirement may be completed before or after the national examination.

National certification distinguishes students from other bookkeepers because it proves that they have met high national standards and demonstrated the ability to handle all of the books for a small- to medium-sized business. Lake Tahoe Community College offers the following three courses which can be completed in one academic year to help students prepare for this national certification. For further information about this program, contact the Business department at extension 263.

- BSN 152A Fundamentals of Bookkeeping I
- BSN 152B Fundamentals of Bookkeeping II
- BSN 152C Becoming a Certified Bookkeeper

"I've met some of the nicest teachers I've ever met in my life and I've made some of the best friends."

Travis Lund, 26
is majoring in Theatre Arts. During the 2008-09 school year, Travis performed in "You Can't Take it With You," "Short-Attention-Span Comedy," and "Cats."

FAQ's...

How many credits are classes worth?

Credit for classes is measured in units. A unit relates to the amount of time spent in a class. For example, a 4 unit class will meet for 4 hours per week, for 12 weeks. Classes with labs meet for additional hours. Since LTCC is on the quarter system, credit is earned in quarter units (1 quarter unit = 2/3 semester units)

Admissions and Records ext. 211
 Student Services ext. 231
 Financial Aid ext. 236

Course Descriptions

COURSE NUMBERING SYSTEM

Lake Tahoe Community College offers its courses on the quarter unit system (1-1/2 quarter units = 1 semester unit). The courses in the catalog and published schedules are listed with a subject area abbreviation and three digit number (e.g. ENG 101). The key to subject abbreviations is described on page 56. Of particular note with the three-digit course number is the middle digit. A middle digit of 0-4 indicates that the course transfers to CSU. More information regarding transferability of courses to other colleges and universities is available in Student Services. Students are strongly encouraged to meet with a counselor for transfer planning. Additional transfer information may be found in the course descriptions on pages 95 through 225.

NOTE: All credit courses offered at Lake Tahoe Community College apply to the Associate of Arts degree and certificate unless listed on page 45, sections 11 (Non-degree applicable courses) and 12 (Basic Skills courses). Information regarding transferability of courses to colleges and universities is available in Student Services, and in the course descriptions on pages 95 through 225.

UNIT CODE SYSTEM

Below each course title in the catalog description is a unit code designation (e.g., Lecture 4, Lab 3, Units 5) indicating the following:

Lecture:

Number of lecture hours per week.

Lab:

Number of laboratory or activity hours per week.

Units:

Number of units granted for the course.

SCHEDULED HOURS

While the unit code indicates the number of lecture and lab hours required for each course, the meeting days and times vary by quarter. Please see the quarterly Schedule of Classes for specific details of each section including regular course meetings and TBA requirements.

REPEATABILITY

Information relating to the repeatability of courses is located at the bottom of each course description.

ALLIED HEALTH

THE FOLLOWING COURSES IN THIS SUBJECT AREA MAY BE CHALLENGED: HEA 141 (IN ORDER TO CHALLENGE HEA 141, A STUDENT MUST EITHER BE AN MD, RN OR HAVE HAD PREVIOUS MILITARY MEDICAL HEALTH EXPERIENCE).

HEA 106 EMERGENCY RESPONSE

Lecture 3, Lab 1, Units 3.25

This course will train those individuals who have a duty to respond in emergency situations (first responders) with the knowledge and skills necessary to help sustain life, reduce pain, and minimize the consequences of injury or sudden illness until advanced medical help arrives. Students will receive an emergency response card (valid for 3 years) and a CPR card (valid for 1 year) from the American Red Cross upon successful completion of the course.

Transfers to CSU

REPEATABILITY: May be repeated 5 times.

HEA 108 EMERGENCY RESPONSE (REFRESHER)

Lecture 1.5, Lab .5, Units 1.75

This course is an update and review of the knowledge and skills pertaining to Emergency Response. This American Red Cross course allows the student to renew his/her current card. A student has a 30-day grace period after the card expires to complete this refresher course. Students need to plan ahead to ensure that they take the refresher course before their first aid card expires. Instruction includes a review of bandaging and splinting skills and current information including CPR.

Transfers to CSU

PREREQUISITE: Current Emergency Response (Advanced First Aid) Card (30-day grace period).

REPEATABILITY: May be repeated 5 times.

HEA 110A AHA HEART SAVER-AED

Lecture .5, Lab 0, Units .5

This course teaches basic adult, child, and infant cardiopulmonary resuscitation (CPR) as well as rescue breathing and foreign body airway obstruction techniques. Additional topics include recognition of heart attack symptoms, responding to emergencies, recognition of signs and symptoms of common sudden illnesses, and the use of the Automatic External Defibrillator (AED). Students who have successfully mastered these skills will receive a CPR certification card from the American Heart Association valid for two years.

Transfers to CSU

REPEATABILITY: May be repeated 5 times.

HEA 110B BASIC LIFE SUPPORT FOR HEALTHCARE PROVIDERS

Lecture .5, Lab .25, Units .5

This American Heart Association course covers core material such as adult and pediatric cardiopulmonary resuscitation (CPR), foreign body airway obstruction, and automatic external defibrillation. This course is for healthcare providers such as Emergency Medical Services (EMS) personnel, physician assistants, doctors, dentists, nurses, and respiratory therapists who must have a credential documenting successful completion of a CPR course. This course meets Emergency Medical Technician (EMT) course requirements for CPR. An American Heart Association certificate will be issued upon successful completion valid for two years.

Transfers to CSU

REPEATABILITY: May be repeated 5 times.

HEA 110E BASIC LIFE SUPPORT FOR THE HEALTHCARE PROVIDER/HEART SAVER FIRST AID

Lecture .75, Lab .25, Units .75

This course teaches professional rescuers the skills needed to respond to sudden illnesses, injuries, and breathing and cardiac emergencies. Additional topics include the use of Automated External Defibrillator (AED) and basic skills in splinting and bandaging for the care of trauma. This course is especially designed as a prerequisite for entrance into the Emergency Medical Technician (EMT) program. Upon successful completion of this course, students will receive two certificates from the American Heart Association: Health Care Provider and Heart Saver First Aid valid for two years.

Transfers to CSU

REPEATABILITY: May be repeated 5 times.

HEA 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

HEA 132 OCCUPATIONAL WORK EXPERIENCE

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience is for students who are employed in jobs related to their educational or occupational goals. This program extends knowledge gained in the classroom to the workplace, helps students identify new and challenging objectives at work, and encourages professional growth and advancement.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

HEA 133 OCCUPATIONAL WORK EXPERIENCE - INTERNSHIP

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience Internship is supervised placement at a worksite related to the student's educational or occupational goals. The program will assist students in acquiring desirable work experience, attitudes, and awareness of career opportunities in their chosen field of study.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

HEA 141 EMERGENCY MEDICAL TECH I

Lecture 7.5, Lab 3, Units 8.5

This course covers all techniques of emergency medical care including legal, moral, and emotional needs of persons involved in emergency situations. Emphasis will be placed on the evaluation of the ill and injured and appropriate emergency care procedures as required by the State of California, EMS Authority, and El Dorado County for the best quality patient care. This course includes four hours of Automated External Defibrillator (AED) training.

Transfers to CSU

PREREQUISITE: Current CPR card (either American Heart Association, BLS Healthcare Provider or American Red Cross Professional Rescuer); and Current First Aid, Emergency Response, or Medic First Aid Card.

REPEATABILITY: May be repeated up to 5 times.

HEA 143 REFRESHER – EMERGENCY MEDICAL TECH I

Lecture 2.75, Lab 1.25, Units 3.25

In this refresher course, students will review technical skills and knowledge required to perform the appropriate pre-hospital basic emergency care. The course consists of classroom instruction and skills review as well as eight hours of supervised clinical time in either the hospital emergency department or with the local ambulance. The content of this course satisfies 48 of the 72 hours of EMS related continuing education required for the National Registry of EMTs.

Transfers to CSU

PREREQUISITE: (1) Current CPR Card (either American Heart Association BLS or American Red- Cross Professional Rescuer) (2) Current EMT-I Certification. Students will be required to present copies of these cards at the first class session.

REPEATABILITY: May be repeated unlimited times.

HEA 144A PHLEBOTOMY TRAINING - PART 1 (DIDACTIC)

Lecture 4.75, Lab 0, Units 4.75

This course includes both basic and advanced classroom instruction and is designed for all beginning students and for phlebotomists with less than 1,040 hours of phlebotomy experience. Basic instruction topics include universal precautions, infection control, laboratory and equipment safety, basic anatomy and physiology, medical terminology, and blood collection techniques. Advanced instruction topics include biohazards, sources of error in laboratory testing, anatomical site selection and patient preparation, risk factors and complications, problem solving and communication, ethics, and QA in phlebotomy practice. Successful course completion requires perfect attendance and a final grade of "B" or higher. When combined with successful completion of HEA 144B (Phlebotomy Training - Part 2, Clinical), students will be prepared for the California state examination to become a "Certified Phlebotomy Technician I."

Transfers to CSU

ADVISORY: In order to be certified as a Phlebotomy Technician I, students will be required to produce an official copy of their high school transcript (or GED) for submission to California's Department of Health Services. The specifics of this documentation requirement will be explained at the first class meeting. Students will be required to provide proof of starting the Hepatitis B series.

HEA 144B PHLEBOTOMY TRAINING - PART 2 (CLINICAL)

Lecture .25, Lab 3.5, Units 1.5

This course satisfies the practical experience requirement to become a Certified Phlebotomy Technician I in California and is designed for all beginning students and for phlebotomists with less than 1,040 hours of phlebotomy experience. In a clinical setting with access to actual patients, the course will include equipment usage; patient preparation and infection control; blood collection from patients of various ages, stages of health, and weight; post puncture care; blood processing after collection and centrifugation; and disposal of waste and sharps. Successful completion of this course requires perfect attendance, 50 successful patient venipunctures, and 10 successful patient skin punctures pursuant to CCR, Title 17, Section 1034(a) (2). When combined with the successful completion of HEA 144A (Phlebotomy Training - Part 1, Didactic), students will be prepared for the California state examination to become a "Certified Phlebotomy Technician I."

Transfers to CSU

PREREQUISITE: HEA 144A (or equivalent) with a grade of "B" or better.

ADVISORY: Students will be required to provide a certified copy of their high school transcripts or GED, as well as proof of the Hepatitis B series.

HEA 145 NURSING ASSISTANT TRAINING PROGRAM

Lecture 5, Lab 9, Units 8

This course is a training program that prepares students for the nursing assistant certifying examination that is approved by the Department of Health Services. The successful student will be prepared to enter the field of health care in acute and skilled nursing facilities. Emphasis will be on nursing assistant skills necessary to deliver safe patient care and basic restorative services. Additional topics include safety and emergency procedures, infection control, patient rights and independence, communication and interpersonal skills.

Transfers to CSU

COREQUISITE: CPR - Level C certification (CPR for the Health Professional).

ADVISORY: Eligibility for ENG 152.

HEA 146 HOME HEALTH AIDE

Lecture 2, Lab 2, Units 2.75

This course provides Home Health Aide training for Certified Nursing Assistants (CNAs) in preparation for meeting state certification requirements necessary for employment in home health settings. Topics include nursing care in the home, patient accident prevention, cleaning and care tasks in the home, nutrition, and food purchasing and preparation. Upon successful completion of the course, the student will be eligible to receive a Home Health Aide Certificate from the California Department of Health Services and will be qualified for employment through a home health agency.

Transfers to CSU

PREREQUISITE: Current Certified Nursing Assistant (CNA) Certification.

HEA 147A DENTAL ASSISTING AND RADIOLOGY, PART 1

Lecture 7, Lab 1, Units 7.25

This course is the first of a three-part series which provides students with the skills necessary to work in dental offices as entry-level, back office assistants. This course includes basic dental terminology, tooth identification, intra-oral anatomy, four-handed dentistry, sterilization, and asepsis. Successful completion of the entire three-course sequence, to include HEA 147A, HEA 147B, and HEA 147C, will culminate in a Dental Assisting certificate and a California Radiation Safety certificate.

Transfers to CSU

HEA 147B DENTAL RADIOLOGY, PART 2

Lecture 7.5, Lab 2, Units 8.25

This course is the second of a three-part sequence focusing on advanced dental radiological safety procedures, anatomic interpretation, and mounting. Students will receive hands-on experience in perfecting x-ray technique using both the paralleling and bisecting techniques. The radiology curriculum is approved by the California Board of Dental Examiners and successful completion of the entire course sequence, to include HEA 147A, HEA 147B, and HEA 147C, will culminate in a Dental Assisting certificate and a California Radiation Safety certificate.

Transfers to CSU

PREREQUISITE: HEA 147A or equivalent work experience.

COREQUISITE: CPR Card (Basic Life Support for Health Care Providers).

HEA 147C DENTAL RADIOLOGY, PART 3 (EXTERNSHIP)

Lecture 3.5, Lab 6, Units 5.5

This course is the third part of a three-part course sequence which prepares students for responsible positions as dental assistants. The focus in this course is on acquiring advanced dental assisting skills through externship placement and lab practice. Students will practice and perfect their chairside skills in an actual dentist office and will meet with the instructor on a weekly basis for additional skill practice of advanced procedures. The radiology curriculum is approved by the California Board of Dental Examiners and successful completion of the entire course sequence, to include HEA 147A, HEA 147B, and HEA 147C will culminate in a Dental Assisting certificate and a California Radiation Safety certificate.

Transfers to CSU

PREREQUISITE: HEA 147B or equivalent work experience.

COREQUISITE: CPR Card (Basic Life Support for Health Care Providers).

HEA 149 INTRODUCTION TO MEDICAL ETHICS AND LAW

Lecture .75, Lab 0, Units .75

This course explores ethical and legal issues relating to health care. Topics include access to health care information, confidentiality and informed consent, judicial process related to health information, risk management and quality management, computerized patient records, and health care fraud and abuse. This course provides essential information for persons working in any health care setting.

Transfers to CSU, UNR

HEA 151A CONTINUING EDUCATION FOR PROFESSIONAL SKI PATROLLERS: MODULE A

Lecture 0, Lab 8.25, Units 2.75

This course is part one of a four-part sequence designed to update, improve and assess the knowledge, skills and abilities of currently employed professional ski patrollers. Topics covered include outdoor emergency care procedures for accident or sudden illness victims, skiing safety, skiing skill enhancement, incident scene procedures, search and rescue procedures, incident reporting, customer service, and resort-specific policies and procedures.

PREREQUISITE: Emergency Medical Technician (EMT) card or Outdoor Emergency Care (OEC) Basic card.

ADVISORY: Students should possess skills equivalent to a professional ski patroller.

REPEATABILITY: May be repeated 2 times.

HEA 151B CONTINUING EDUCATION FOR PROFESSIONAL SKI PATROLLERS: MODULE B

Lecture 0, Lab 16.75, Units 5.5

This course is part two of a four-part sequence designed to update, improve and assess the knowledge, skills and abilities of currently employed professional ski patrollers. Topics covered include outdoor emergency care procedures for accident or sudden illness victims, skiing safety, skiing skill enhancement, incident scene procedures, search and rescue procedures, incident reporting, customer service, and resort-specific policies and procedures.

PREREQUISITE: Emergency Medical Technician (EMT) card or Outdoor Emergency Care (OEC) Basic card.

ADVISORY: Students should possess skills equivalent to a professional ski patroller.

REPEATABILITY: May be repeated 2 times.

HEA 151C CONTINUING EDUCATION FOR PROFESSIONAL SKI PATROLLERS: MODULE C

Lecture 0, Lab 25, Units 8.25

This course is part three of a four-part sequence designed to update, improve and assess the knowledge, skills and abilities of currently employed professional ski patrollers. Topics covered include outdoor emergency care procedures for accident or sudden illness victims, skiing safety, skiing skill enhancement, incident scene procedures, search and rescue procedures, incident reporting, customer service, and resort-specific policies and procedures.

PREREQUISITE: Emergency Medical Technician (EMT) card or Outdoor Emergency Care (OEC) Basic card.

ADVISORY: Students should possess skills equivalent to a professional ski patroller.

REPEATABILITY: May be repeated 2 times.

HEA 151D CONTINUING EDUCATION FOR PROFESSIONAL SKI PATROLLERS: MODULE D

Lecture 0, Lab 33.25, Units 11

This course is part four of a four-part sequence designed to update, improve and assess the knowledge, skills and abilities of currently employed professional ski patrollers. Topics covered include outdoor emergency care procedures for accident or sudden illness victims, skiing safety, skiing skill enhancement, incident scene procedures, search and rescue procedures, incident reporting, customer service, and resort-specific policies and procedures.

PREREQUISITE: Emergency Medical Technician (EMT) card or Outdoor Emergency Care (OEC) Basic card.

ADVISORY: Students should possess skills equivalent to a professional ski patroller.

REPEATABILITY: May be repeated 2 times.

HEA 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

HEA 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

HEA 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

ANTHROPOLOGY

A.A. DEGREE

An A.A. Degree is offered in the field of Anthropology. For major requirements, see page 58.

THE FOLLOWING COURSES IN THIS SUBJECT AREA MAY BE CHALLENGED: ANT 101, 102, 103.

ANT 101 INTRODUCTION TO ARCHAEOLOGY

Lecture 4, Lab 0, Units 4

As an introduction to the theoretical and methodological approaches of archaeology, this course will expose students to the foundations of prehistoric and historic archaeology. Included in the topical considerations are the basis of human hominid evolution, the evolution of human societies throughout the world, evidence for human cultural behavior and creativity, relationships between material culture and ideology, theories of site exploration, as well as selected case studies in the discipline, such as the origins of agriculture, the formation of the state and cultural resource management.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101.

ANT 102 CULTURAL ANTHROPOLOGY

Lecture 4, Lab 0, Units 4

This course is an introduction to cultural anthropology. It investigates specific aspects of culture including kinship, law and politics, religion and myth, gender, social organization, expressive culture and art, and cultural change. In addition to studying case studies from various world cultures, the course will introduce students to relevant anthropological theories, perspectives and methods, including fieldwork, participant observation, and ethnographic writing.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101.

ANT 103 PHYSICAL/BIOLOGICAL ANTHROPOLOGY

Lecture 4, Lab 0, Units 4

This course will examine the physical and biological nature of the human species, including hominid evolution, genetics and processes of human variation, paleoanthropology, primatology, forms of human adaptation, disease, demography, and forensic anthropology. The course will develop these topics using an evolutionary, scientific and bio-cultural approach.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101.

ANT 104 AREA STUDIES IN CULTURAL ANTHROPOLOGY

Lecture 4, Lab 0, Units 4

This is a course which focuses on a specialized geographical area of study in cultural anthropology. Students will develop appreciation of a specific cultural group, such as peoples of Papua New Guinea and cultures of Sub-Saharan Africa.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101.

ANT 105 BEGINNING FIELD ARCHAEOLOGY

Lecture 1, Lab 5, Units 2.75

This course will introduce students to the scientific methods of excavation and material culture analysis employed by archaeologists. Emphasis will be on specific hands-on understandings of site surveying, excavation, classification and analysis, cataloging and preservation of various forms of material culture under supervised field and laboratory conditions.

Transfers to CSU, UNR

ADVISORY: ENG 101 or equivalent.

ANT 106 VISUAL ANTHROPOLOGY

Lecture 4, Lab 0, Units 4

This course will study the anthropology of visual communication. Specifically the relationships between cultural anthropology and communication theory to space, photography, film, the body, art and aesthetics, museums, the Internet and multi-media will be considered in various cultural contexts. Screenings of ethnographic and documentary films, as well as hands-on use of media technologies, will be incorporated in the course content.

Transfers to CSU, UNR

ADVISORY: ENG 101 or equivalent

ANT 107 MAGIC, WITCHCRAFT, AND RELIGION

Lecture 4, Lab 0, Units 4

This course is a cross-cultural study of beliefs, practices, and issues related to varied forms of the supernatural. In developing an anthropological appreciation of religion and spirituality, students will be encouraged to understand and analyze the varied forms of the supernatural in examples including shamanism, animism, magic, witchcraft, totemism, forms of ritual and symbolism, as well as comprehend the socio-cultural purposes of these forms. Applications of anthropological theories to case studies of the past and present will complement the course considerations.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101.

ANT 108 INTRODUCTION TO LANGUAGE AND CULTURE

Lecture 4, Lab 0, Units 4

This course will consider the anthropological subfield of language and culture or linguistic anthropology. In this course students will be exposed to the anthropological theories of language origin, language use, and the specific cultural issues associated with language in cross-cultural contexts. Some specific issues will include the biology of language, non-human language and communication, primate language, the impact of language on worldview (Sapir-Whorf), sociolinguistics, language maps, linguistic nationalism, language and gender, the Internet and communication, linguistic anthropology fieldwork, and the future of language.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101.

ANT 110 APPLIED ANTHROPOLOGY*Lecture 4, Lab 0, Units 4*

Applied anthropology focuses on the use of anthropological theories and perspectives in real-world contexts of practice or problem-solving. The course will provide students with tools designed to help understand and solve problems arising as a result of culture change, modernization and globalization. The major arenas of study will include development anthropology and the use of technology in field settings, anthropology and healthcare, anthropology and advocacy, such as in social work settings, anthropology and law, organizational and business anthropology, and land and resource management. An applied research project and/or fieldtrips may be required.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101.

ANT 111A ANTHROPOLOGY OF POP CULTURE: STAR TREK*Lecture 4, Lab 0, Units 4*

This course introduces students to the politics, philosophy, multiculturalism, and historical context of the science fiction thriller Star Trek. Using select television episodes and excerpts of feature films, this course will examine the significance of the cultural, historical, social and evolutionary nature of the human condition within the context of a futuristic setting, along with the underlying perspective on politics, philosophy, religion, ethics, science, and the future of humanity. Core concepts in cultural anthropology will be introduced and discussed through the analysis of the films and television episodes which reflect common cross cultural themes.

Transfers to CSU, UNR

ADVISORY: ENG 101 or equivalent.

ANT 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

ANT 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

ANT 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

ANT 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

ART**A.A. DEGREE**

An A.A. Degree is offered in the field of Art and Visual and Performing Arts. For major requirements, see pages 59 and 79.

CERTIFICATE OF ACHIEVEMENT

A Certificate of Achievement is offered in the field of Art and Photography. For requirements, see pages 81 and 89.

THE FOLLOWING COURSES IN THIS SUBJECT AREA MAY BE CHALLENGED: ART 101, 102, 103.

ART 101 ART HISTORY: PREHISTORIC - ISLAMIC*Lecture 4, Lab 0, Units 4*

This course is a historical survey of Western art from prehistoric times through Egyptian, Greek, Roman, and early Christian and Byzantine civilizations.

Transfers to CSU, UNR, UC

ART 102 ART HISTORY: MEDIEVAL EUROPE - RENAISSANCE*Lecture 4, Lab 0, Units 4*

This course is a historical survey of Western art from Medieval Europe through Romanesque, Gothic, and the Renaissance.

Transfers to CSU, UNR, UC

ART 103 ART HISTORY: BAROQUE - CONTEMPORARY*Lecture 4, Lab 0, Units 4*

This course is a historical survey of Western art from the Baroque period through the art of the modern world to the present. Topics will include Neoclassicism, Romanticism, Realism, Impressionism, Twentieth Century "isms" and the growth of American art.

Transfers to CSU, UNR, UC

ART 104 DISCOVERING AND DEVELOPING CREATIVE IMAGINATION I*Lecture 2, Lab 3, Units 3*

This course is an exploration of the creative process including sources of inspiration, and recognizing and developing an idea. This is an introduction to art through dimensional experiments in drawing, design, collage, printmaking, and painting.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

ART 105 DISCOVERING AND DEVELOPING CREATIVE IMAGINATION II*Lecture 2, Lab 3, Units 3*

This course is an exploration of the creative process including sources of inspiration, and recognizing and developing an idea. This is an introduction to art through two and three dimensional experiments in drawing, design, ceramics, and sculpture.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

ART 106 ARTISTS' LIVES*Lecture 4, Lab 0, Units 4*

This course is designed to give students a view of the history of Art through specific study of the lives and work of selected great artists of the past and present. The study will focus on the times, events, and personal influences which affected their individual contributions. Some of the artists included in this study will be Leonardo, Michelangelo, Raphael, Titian, Rembrandt, Vermeer, Rodin, Van Gogh, Cezanne, Toulouse-Lautrec, Gauguin, Degas, Picasso, Dali, O'Keeffe and Christo.

Transfers to CSU, UNR, UC

ART 107 ART OF THE AMERICAS*Lecture 4, Lab 0, Units 4*

Students will examine the development of the art of pre-Columbian cultures of South and Central America, Mexico and North America. This course will emphasize the art of the Inca, Mayan, Aztec, American Indian, and Eskimo cultures. This course will also show how these cultures have affected the work of contemporary American artists.

Transfers to CSU, UNR, UC

ART 111 TWO-DIMENSIONAL DESIGN*Lecture 2, Lab 3, Units 3*

This course will include studio experiments with the formal elements and principles of design. Emphasis is placed on creative problem solving and invention with spatial concepts and techniques as they are applied to two-dimensional design problems.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

ART 112 TWO- AND THREE-DIMENSIONAL DESIGN*Lecture 2, Lab 3, Units 3*

This course will include studio experiments with the formal elements and principles of design along with spatial concepts as they are applied to two-dimensional, relief, and three-dimensional design problems.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

ART 113 THREE-DIMENSIONAL DESIGN*Lecture 2, Lab 3, Units 3*

This course will include studio experiments with the formal elements and principles of three-dimensional design. Emphasis is placed on creative problem solving and invention, with spatial and volumetric concepts and techniques as they are applied to three-dimensional design forms and constructions.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

ART 114 BEGINNING DRAWING FROM OBSERVATION*Lecture 2, Lab 3, Units 3*

This course is an introduction to the concepts and techniques of perceptual drawing. Using the subjects of architecture and still life, students will learn to draw with perceptual accuracy the world around them. Linear and aerial perspective will be emphasized both theoretically and experientially in the construction of a three-dimensional illusionary space. Also included will be techniques with graphite, charcoal, conte, pastel, and pen and ink.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 3 times.

ART 115 DRAWING: WET MEDIA*Lecture 2, Lab 3, Units 3*

This course is designed to explore the concepts and techniques of perceptual drawing using a variety of wet media. Drawing techniques that emphasize wet media such as art markers, pen and ink, ink wash, and watercolor/gouache will be presented. The works of historical and contemporary artists will also be examined.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

ART 116 DRAWING: CONCEPT AND IMAGE*Lecture 2, Lab 3, Units 3*

This course involves studio experiments in drawing with an emphasis on visual perception and the development of image concept and expression utilizing traditional subjects. This course will explore drawing techniques with graphite, charcoal, conte, colored pencils, and pastels.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

ART 117 LANDSCAPE DRAWING*Lecture 2, Lab 3, Units 3*

This course focuses on mastering materials and techniques such as pencil, conte, pen and ink, and pastels in developing compositions based on plein air landscape subjects. The course will also address the unique challenges of drawing on location.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

ART 118 COLOR*Lecture 2, Lab 3, Units 3*

This is a course in the exploration and understanding of color. The primary focus of this course is not the making of art but the discovery of how and why color affects art and how it influences our understanding of the visual world. This course applies not only to fine art but to all art disciplines and media as well as to areas outside the realm of art. This is a hands-on course in color experiments with colored pigments, paper, and light.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 2 times.

ART 119 BEGINNING CERAMICS*Lecture 2, Lab 3, Units 3*

This course is an exploration of many ceramic forms using ceramic clay. Experiences in clay preparation, design, hand-building techniques, beginning wheel throwing, glazing, and knowledge of the firing process and clay bodies are emphasized in this course.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

ART 120 INTERMEDIATE CERAMICS*Lecture 2, Lab 3, Units 3*

This course explores clay as a ceramic medium. Experience emphasized in this study will include clay preparation, design, wheel throwing techniques, glazing, and knowledge of the firing process and clay bodies.

Transfers to CSU, UNR, UC

PREREQUISITE: ART 119 or equivalent.

REPEATABILITY: May be repeated 5 times.

ART 122 ART EXHIBIT PRODUCTION*Lecture 1, Lab 1, Units 1.25*

This course provides hands-on experience in the development and production of the college's annual student art exhibition. The course will involve all aspects of staging a group art exhibition including publicity, jurying, installation, and lighting for two- and three-dimensional works of art.

Transfers to CSU, UNR

REPEATABILITY: May be repeated 5 times.

ART 128 MATTING AND FRAMING*Lecture .25, Lab .5, Units .5*

This is a studio course designed to train students in the professional methods of matting, framing, hanging, and displaying of drawings, prints, paintings, and photographs. Students will frame a number of works in order to achieve a working knowledge of one aspect of the business of art.

Transfers to CSU, UNR

REPEATABILITY: May be repeated 5 times.

ART 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

ART 135A DIGITAL IMAGING I*Lecture 3, Lab 3, Units 4*

This course is an introduction to the tools for expressive digital communication using digital imaging software including scanning, manipulating, printing, and web publishing. Students will develop skills for a variety of outputs for both fine art and commercial applications.

Transfers to CSU, UNR

ADVISORY: CAO 151 or 152B, with a grade of "C" or better or equivalent.

REPEATABILITY: May be repeated 2 times.

ART 135B DIGITAL IMAGING II*Lecture 3, Lab 3, Units 4*

This course is a continued study of creative and expressive tools for digital communication using digital imaging software. It is an intermediate level of digital imaging including scanning, manipulating, editing, printing, and web publishing. Students will increase their proficiency in skills for a variety of outputs for both fine art and commercial applications.

Transfers to CSU, UNR

PREREQUISITE: ART 135A with a grade of "C" or better or equivalent.

REPEATABILITY: May be repeated 2 times.

ART 135C DIGITAL IMAGING III*Lecture 3, Lab 3, Units 4*

This course is a continued study of creative and expressive tools for digital communication using current digital imaging software. It is an advanced level course that explores the field of digital imaging including scanning, manipulating, editing, printing, and web publishing. Students will increase their proficiency in skills for a variety of outputs for both fine art and commercial applications.

Transfers to CSU, UNR

PREREQUISITE: ART 135B with a grade of "C" or better or equivalent.

REPEATABILITY: May be repeated 2 times.

ART 139A RAKU POTTERY WORKSHOP*Lecture 1, Lab 3, Units 2*

This course will focus on the development of pottery forms using the glazing and firing techniques known in Japan as Raku. The history of Raku will be covered as well as the contemporary forms of Raku pottery in the United States. This is a hands-on course with demonstrations including techniques of design, glaze application, and kiln loading and firing. Students will also learn about alternative kilns and firing techniques to produce Raku pottery creations.

Transfers to CSU, UC, UNR

REPEATABILITY: May be repeated 5 times.

ART 139B BRONZE FINISHING WORKSHOP*Lecture 1, Lab 2, Units 2*

This workshop experience is designed for bronze sculptors who have works in progress. Emphasis is on the finishing techniques following the foundry process of the bronze pour, necessary prior to exhibit presentation.

Transfers to CSU, UNR

PREREQUISITE: ART 236 or 237 with a grade of "C" or better or equivalent.

REPEATABILITY: May be repeated 1 time.

ART 139C ADVANCED WATERCOLOR PAINTING WORKSHOP*Lecture 1, Lab 3, Units 2*

This course is a continuation of ART 209 and is designed for students who are experienced in watercolor techniques and materials. Emphasis is on painting applications and concepts of the Tahoe landscape developed on location.

Transfers to CSU, UC

ADVISORY: ART 209 or equivalent.

REPEATABILITY: May be repeated 5 times.

ART 139D PRINTMAKING TECHNIQUES WITH ETCHING WORKSHOP*Lecture 1, Lab 3, Units 2*

This printmaking workshop will explore the technique of etching. Students will have the opportunity to experiment with a variety of methods and materials using traditional and contemporary techniques.

Transfers to CSU, UC

REPEATABILITY: May be repeated 5 times.

ART 139E SILK PAINTING WORKSHOP*Lecture 1, Lab 3, Units 2*

This course is a hands-on workshop in the concepts and techniques of silk painting. Emphasis will be on experiments in designing and applying silk dyes utilizing a variety of techniques. Students will experience the use of resists, brush techniques, silk stretching, dye mixing, and sequential silk painting methods.

Transfers to CSU, UC

REPEATABILITY: May be repeated 5 times.

ART 139F ACRYLIC PAINTING*Lecture 1, Lab 2, Units 1.75*

This course is a foundation study in the concepts, materials, and techniques of acrylic painting. Studio experiences will emphasize canvas preparation, subject design, composition, color theory, pigment mixing, painting methods, and terminology. Still life, landscape, figurative subjects, and free studies are offered as topics for painting. The study will also examine the styles and works of traditional and contemporary painters.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

ART 139G ART GALLERY DOCENT PROGRAM*Lecture .5, Lab 1.5, Units 1*

This course provides opportunities for students to share in the operation of the Haldan Gallery, as well as other art galleries, as docents or guides in leading educational tours through the special exhibitions scheduled in the gallery. The course emphasizes providing training and brief study focused on the specific nature of the art and artists whose work will be showcased in the college gallery each quarter.

Transfers to CSU, UNR

ADVISORY : Some prior art experience (an avid viewer of art or interest in art history and/or classwork in art history or applied art studio experience).

REPEATABILITY: May be repeated 5 times.

ART 139H ART GALLERY DOCENT PROGRAM: FACILITATING THE STUDENT EXPERIENCE*Lecture .5, Lab 1.5, Units 1*

This course provides docent training for individuals seeking to lead K-12 groups in conducting classroom tours through the scheduled exhibitions in the Haldan Gallery as well as other art galleries. The course involves practical applications in the viewing and sharing of works of art. The course also includes a brief study focused on the specific nature of the art and artists whose work will be showcased in the new gallery each quarter.

Transfers to CSU, UNR

ADVISORY : Some prior art experience (an avid viewer of art or interest in art history and/or coursework in art history or applied art studio experience).

REPEATABILITY: May be repeated 5 times.

ART 141 THE HISTORY OF PHOTOGRAPHY*Lecture 4, Lab 0, Units 4*

This course will examine the beginnings and historical development of the still photography medium. This perspective will include photography's place in the history of the visual arts from the earliest investigations of the camera obscura to the late 20th century. Students will also learn about master photographers and their work. No lab is included in this course.

Transfers to CSU, UNR, UC

ART 142 PHOTOGRAPHY I*Lecture 3, Lab 3, Units 4*

This course is an introduction to traditional black and white photography, with an emphasis on artistic visual expression. Students will be introduced to the history of photography, the basic principles of the process, different types of cameras and materials, accurate film exposure, visual communication, and portfolio creation. Dark room lab included.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 1 time.

ART 143 PHOTOGRAPHY II*Lecture 3, Lab 3, Units 4*

This course is a continuation of ART 142 and the broadening of the black and white photographic experience. Advanced darkroom and shooting techniques will be emphasized. This technical knowledge will provide students with the means to express themselves visually through the photographic medium. Traditional photographic darkroom techniques included.

Transfers to CSU, UNR, UC (unit limit)

PREREQUISITE: ART 142 or equivalent.

REPEATABILITY: May be repeated 1 time.

ART 145A LANDSCAPE PHOTOGRAPHY*Lecture 3, Lab 3, Units 4*

This course will provide the student with the opportunity to interpret the natural environment photographically. Continued growth in traditional darkroom procedures, as well as digital processing techniques will be stressed. In addition, emphasis on the seasonal aspects determined by the time of the year the course is offered will be included. Lab is included.

Transfers to CSU, UNR, UC (unit limit)

PREREQUISITE: ART 142 or 146 or equivalent.

REPEATABILITY: May be repeated 3 times.

ART 145B LANDSCAPE PHOTOGRAPHY*Lecture 1-3, Lab 0, Units 1-3*

This course is designed to improve the student's photographic skills in the natural environment. Emphasis will be on composition, correct exposure, and improved knowledge of photo equipment. The subject matter will include various wilderness locations. Topics and credits will vary from quarter to quarter, and will be included under this cover title. No lab is included in this course.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

ART 146 DIGITAL PHOTOGRAPHY*Lecture 3, Lab 3, Units 4*

This course will examine the fundamental principles of how digital cameras capture light and translate it to pixels. Students will learn how to transfer digital files from the camera to the computer, as well as how to scan images into the computer. Once files are in the computer, students will learn how to manipulate their images in digital imaging software using the Macintosh platform, as well as artistic design tools for building good compositions. In addition, students will learn how to burn images on CD's, as well as print high quality photographic images.

Transfers to CSU, UNR, UC

ADVISORY : CAO 152B or equivalent.

REPEATABILITY: May be repeated 2 times.

ART 147 PHOTOJOURNALISM*Lecture 3, Lab 3, Units 4*

This course is an introduction to photojournalism, and its many applications in printed media, including newspapers and magazines. Students will examine visual communication, and how the photographic image is used to enhance or replace the written word. Emphasis is also placed on more advanced shooting and processing techniques. In addition, study will include the historical context, as well as production of a final portfolio of finished prints.

Transfers to CSU, UNR

PREREQUISITE: ART 142 or 146 with a grade of "C" or better or equivalent.

REPEATABILITY: May be repeated 4 times.

ART 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

ART 206A THE ART OF PARIS I*Lecture 3.5, Lab 1.5, Units 4*

This course is a survey of the great art monuments in Paris and selected sites in the nearby French countryside: the architecture, sculpture, painting, artists' studios, and museums. This study will emphasize an understanding of the role which art has played in shaping our lives and aesthetics through examination of the rich French and European heritage in Paris and Ile de France.

Transfers to CSU, UNR

ART 206B THE ART OF ITALY I*Lecture 3.5, Lab 1.5, Units 4*

This field course is a survey of the great art monuments of Italian cities: Rome, Florence, Sienna, Pisa, Venice, and Milan. This study will emphasize the role art has played in shaping our lives and aesthetics by viewing the architecture, sculpture, and painting on location in Italy.

Transfers to CSU, UNR

ART 206C THE ART OF GREECE I*Lecture 3.5, Lab 1.5, Units 4*

This course is a field study and survey of the great monuments of classical Greece, the cradle of democracy and the birthplace of Western civilization. This study will emphasize an understanding of the role which art has played in shaping our lives and aesthetics through examination of the rich heritage of ancient Greece and its monuments on location in Greece and Turkey.

Transfers to CSU, UNR

ART 206D GREAT MUSEUMS OF EUROPE I: LONDON, AMSTERDAM, AND PARIS*Lecture 3.5, Lab 1.5, Units 4*

This course is a survey of the great monuments of London, Amsterdam, and Paris. This study experience will emphasize an understanding of the role art has played in shaping our lives and aesthetics through examination of the rich heritage of painting, sculpture, and architecture while on location in England, Holland, and France.

Transfers to CSU, UNR

ART 207A THE ART OF PARIS II*Lecture 6, Lab 3, Units 7*

This course is a survey of the great art monuments in Paris and selected sites in the nearby French countryside: the architecture, sculpture, painting, artists' studios, and museums. This study will emphasize an understanding of the role which art has played in shaping our lives and aesthetics through examination of the rich French and European heritage in Paris and Ile de France.

Transfers to CSU, UNR

ART 207B THE ART OF ITALY II*Lecture 6, Lab 3, Units 7*

This field course is a survey of the great art monuments of Italian cities: Rome, Florence, Sienna, Pisa, Venice, and Milan. This study will emphasize the role art has played in shaping our lives and aesthetics by viewing the architecture, sculpture, and painting on location in Italy.

Transfers to CSU, UNR

ART 207C THE ART OF GREECE II*Lecture 6, Lab 3, Units 7*

This course is a field study and survey of the great monuments of classical Greece, the cradle of democracy and the birthplace of Western civilization. This study will emphasize an understanding of the role which art has played in shaping our lives and aesthetics through examination of the rich heritage of ancient Greece and its monuments on location in Greece and Turkey.

Transfers to CSU, UNR

ART 207D GREAT MUSEUMS OF EUROPE II: LONDON, AMSTERDAM, AND PARIS*Lecture 6, Lab 3, Units 7*

This course is a survey of the great monuments of London, Amsterdam, and Paris. This study experience will emphasize an understanding of the role art has played in shaping our lives and aesthetics through examination of the rich heritage of painting, sculpture, and architecture while on location in England, Holland, and France.

Transfers to CSU, UNR

ART 208A THE ART OF FRANCE*Lecture 8, Lab 3, Units 9*

This course is a field study and survey of the great art monuments of France: Paris and the Ile de France, Normandy, Brittany, Loire Valley, and Champagne regions. This study will emphasize an understanding of the role art has played in shaping our lives and aesthetics through examination of the rich heritage of French art and culture while living in France.

Transfers to CSU, UNR

ART 208B THE ART OF ITALY III*Lecture 8, Lab 3, Units 9*

This field course is a survey of the great art monuments of Italian cities: Rome, Florence, Sienna, Pisa, Venice, and Milan. This study will emphasize the role art has played in shaping our lives and aesthetics by viewing the architecture, sculpture, and painting on location in Italy.

Transfers to CSU, UNR

ART 208C THE ART OF GREECE III*Lecture 8, Lab 3, Units 9*

This course is a field study and survey of the great monuments of classical Greece, the cradle of democracy and the birthplace of Western civilization. This study will emphasize an understanding of the role which art has played in shaping our lives and aesthetics through examination of the rich heritage of ancient Greece and its monuments on location in Greece and Turkey.

Transfers to CSU, UNR

ART 208D GREAT MUSEUMS OF EUROPE III: LONDON, AMSTERDAM, AND PARIS*Lecture 8, Lab 3, Units 9*

This course is a survey of the great monuments of London, Amsterdam, and Paris. This study experience will emphasize an understanding of the role art has played in shaping our lives and aesthetics through examination of the rich heritage of painting, sculpture, and architecture while on location in England, Holland, and France.

Transfers to CSU, UNR

ART 209 WATERCOLOR WORKSHOP*Lecture 1, Lab 2, Units 1.75*

This is an introductory course in the materials and techniques of watercolor painting. This course will emphasize methods in color mixing, brushwork, washes, resists and the use of mixed media. The course will emphasize landscape, with many of the classes being conducted on location working directly from nature.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 3 times.

ART 210 WATERCOLOR PAINTING*Lecture 2, Lab 3, Units 3*

This course will explore the materials and techniques of watercolor painting. Concepts and methods in color mixing, and application, brushwork, resists, and the use of mixed media are included in this study. Experiences with traditional and contemporary subjects are provided.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

ART 211 PAINTING I*Lecture 2, Lab 4, Units 4*

This is an introductory course in the concepts, materials, and techniques of oil painting. Through the use of still life subject matter, topics including pigment mixing and application, color theory, spatial development, pictorial compositions, and painting terminology will be emphasized. The works of historical and contemporary painters will also be examined.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

ART 212 PAINTING II*Lecture 2, Lab 4, Units 4*

This is an advanced course designed to further explore the concepts, materials, and techniques of oil painting. Through the use of still life subject matter, both perceptual and conceptual approaches to painting will be emphasized. This course will also include the study of historical and contemporary painters.

Transfers to CSU, UNR, UC

PREREQUISITE: ART 211 or equivalent.

REPEATABILITY: May be repeated 5 times.

ART 213 BEGINNING LIFE DRAWING*Lecture 2, Lab 3, Units 3*

This course involves studio experiences in concept and technique in drawing from the live model, with emphasis on the human figure as a source of formal and expressive visual statements.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

ART 214 ADVANCED DRAWING FROM OBSERVATION*Lecture 2, Lab 3, Units 3*

This course addresses advanced problems using the concepts and techniques of perceptual drawing. Linear and aerial perspective will be emphasized both theoretically and experientially in the construction of a three-dimensional illusionary space. Architecture and still life will be used as subject matter in advanced drawing problems. Also included will be techniques with graphite, charcoal, conte, and pen and ink. Perspective concepts will also be examined through the study of historical works of art.

Transfers to CSU, UNR, UC

PREREQUISITE: ART 114 or equivalent.

REPEATABILITY: May be repeated 5 times.

ART 215 ADVANCED DRAWING: WET MEDIA*Lecture 2, Lab 3, Units 3*

This is an advanced course designed to further explore the concepts and techniques of perceptual drawing using a variety of wet media. Drawing techniques that emphasize wet media such as art markers, pen and ink, ink wash, and watercolor/gouache will be presented. The works of historical and contemporary artists will also be examined.

Transfers to CSU, UNR, UC

PREREQUISITE: ART 115 or equivalent.

REPEATABILITY: May be repeated 5 times.

ART 216 ADVANCED DRAWING: CONCEPT AND IMAGE*Lecture 2, Lab 3, Units 3*

This course involves advanced studio experiments with emphasis on visual perception, image concept, expression, and presentation. Also included will be techniques with graphite, charcoal, conte, colored pencils, and pastels.

Transfers to CSU, UNR, UC

PREREQUISITE: ART 116 or equivalent.

REPEATABILITY: May be repeated 5 times.

ART 217 SCULPTURE: MODELING AND CASTING*Lecture 2, Lab 4, Units 4*

This course involves studio experiments in the concepts and development of sculpture. Emphasis will be placed on modeling techniques in both relief and free-standing forms in the making of one- and multiple-piece molds for cast sculpture. The course will include techniques in clay, plaster, fiberglass reinforced resin, cast paper, and lead.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

ART 218 SCULPTURE: MODELING AND CARVING*Lecture 2, Lab 4, Units 4*

This course involves studio experiments in concept and development in the production of sculpture with emphasis on the additive process with free-standing terra-cotta forms and the subtractive process with wood or stone carving.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

ART 219 SCULPTURE: METALS*Lecture 2, Lab 4, Units 4*

This course involves studio experiments in the concept and development of metal sculpture. Emphasized are techniques and materials in sculpting with metal: forging, soldering, brazing, welding, casting, and fabrication.

Transfers to CSU, UNR

REPEATABILITY: May be repeated 5 times.

ART 220 FIGURE SCULPTURE*Lecture 2, Lab 4, Units 4*

Figure sculpture involves studio experiments in the design and production of sculpture using the human figure as the subject of all work. The course will emphasize the techniques in sculpting from live models. The materials and methods will include armature design, plastiline and ceramic clays, plaster of Paris, and formed metal.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

ART 221 PRINTMAKING*Lecture 2, Lab 3, Units 3*

This course involves a studio survey in fine art printmaking. Emphasis will be on historical as well as the technical level of printmaking processes including linocut, embossed relief printing, color collagraph, drypoint, etching, and aquatint.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

ART 223 INTERMEDIATE LIFE DRAWING*Lecture 2, Lab 3, Units 3*

A continuation of ART 213, Beginning Life Drawing, this course will place emphasis on visualization and consistency of anatomical rendering from the live model.

Transfers to CSU, UNR, UC

PREREQUISITE: ART 213 or equivalent.

REPEATABILITY: May be repeated 5 times.

ART 224 PORTRAITURE*Lecture 2, Lab 3, Units 3*

This course will emphasize both an historical and a technical study of anatomy, form, design, and expression of the human head and face. The course will include studies and experiments in applied techniques for two-dimensional media as observed from live models. The materials and techniques explored in this course may include graphite, charcoal, pen and ink, ink wash, and pastel.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

ART 228 DEVELOPING A PORTFOLIO*Lecture 1, Lab 1, Units 1.25*

This course is designed to assist art students in preparing a complete portfolio which would be available for career and advanced study opportunities. The course will include the preparation, development and presentation of a portfolio of original art, photographing art in producing a slide and digital image portfolio, developing an artist's resume and artist's statement. The course also addresses preparing the developing artist for the professional world of art: pricing of artwork, copyright, and an introduction to art galleries.

Transfers to CSU, UNR

REPEATABILITY: May be repeated 3 times.

ART 229 AIRBRUSH TECHNIQUES*Lecture 2, Lab 3, Units 3*

This course will familiarize students with the materials and techniques in the application of the airbrush in art production. Included in this course will be methods with frisket, full toning, montage, color and photo retouching.

Transfers to CSU, UNR

REPEATABILITY: May be repeated 5 times.

ART 230A PRINCIPLES OF ART EDUCATION FOR CHILDREN*Lecture 2, Lab 2, Units 3*

This course introduces the fundamentals of art techniques to elementary school teachers to facilitate the integration of art into the elementary curriculum. Included are concepts and application of the following: line, texture, values and volumes, perspective, color and painting techniques, and sculpture. Students will explore the relationship between historical works of art and classroom activities and application. The goal of this course is to ensure success in art for the elementary teacher and his/her student.

Transfers to CSU, UNR

REPEATABILITY: May be repeated 5 times.

ART 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

ART 233 ADVANCED LIFE DRAWING*Lecture 2, Lab 3, Units 3*

This course emphasizes the concepts and techniques of figure drawing in spatial context of design, composition and the development of a personal expression.

Transfers to CSU, UNR, UC

PREREQUISITE: ART 223 with a grade of "C" or better or equivalent.

REPEATABILITY: May be repeated 5 times.

ART 234 FIGURE PAINTING*Lecture 2, Lab 4, Units 4*

This course focuses on the study of the human body through the medium of oil paint. Emphasis will be placed on observation and rendering of anatomy, historical references, color theory, pigment mixing, and paint handling.

Transfers to CSU, UNR, UC

PREREQUISITE: ART 211 and 213.

REPEATABILITY: May be repeated 5 times.

ART 235 ADVANCED SCULPTURE*Lecture 2, Lab 4, Units 4*

This course will focus on developing mastery in producing sculptural forms which emphasize conceptual as well as formal aesthetic issues. Important to this experience will be the encouragement of individual work utilizing a variety of materials and techniques.

Transfers to CSU, UNR, UC

PREREQUISITE: ART 213, 223, or 233 with a grade of "C" or better or equivalent. Students must have two classes from the following: ART 217, 218, 219, 220, 236 with a grade of "C" or better or equivalent.

REPEATABILITY: May be repeated 5 times.

ART 236 BEGINNING BRONZE CASTING*Lecture 2, Lab 4, Units 4*

This course will involve individual and group instruction in casting bronze using the ceramic shell investment process. Emphasis is on the design and production of bronze sculpture derived from an original wax prototype in casting solid and hollow forms, bronze finishing, and patination.

Transfers to CSU, UNR

PREREQUISITE: Two sculpture courses from the following: ART 217, 218, 219, or 220 with a grade of "C" or better or equivalent.

REPEATABILITY: May be repeated 5 times.

ART 237 INTERMEDIATE BRONZE CASTING*Lecture 2, Lab 4, Units 4*

This course is a continuation of ART 236. Emphasis is on the casting of bronze sculpture derived from wax forms produced from original molds and applying techniques of welding bronze.

Transfers to CSU, UNR

PREREQUISITE: ART 236 with a grade of "C" or better or equivalent.

REPEATABILITY: May be repeated 5 times.

ART 238 ADVANCED BRONZE CASTING*Lecture 1, Lab 2, Units 2*

This course is a continuation of ART 237 and explores lost wax bronze casting methods in addition to the ceramic shell process to include traditional ludo investment and experimental casting techniques. Emphasized in this study is the refinement of sculptural esthetics, form context, technical skills, and foundry practices.

Transfers to CSU, UNR

PREREQUISITE: ART 237 with a grade of "C" or better or equivalent.

REPEATABILITY: May be repeated 5 times.

ART 239 ADVANCED CERAMICS*Lecture 2, Lab 3, Units 3*

This course is designed for students interested in developing a personal stylistic expression expanding the skills and aesthetics of ART 120. Emphasized in this study are the following: glaze formulation, electric and gas kiln firing, developing a personal clay studio space, design research, and advanced clay forming methods.

Transfers to CSU, UNR, UC

PREREQUISITE: ART 120 or equivalent.

REPEATABILITY: May be repeated 3 times.

ART 240 PAINTING: NARRATIVE AND SYMBOLISM*Lecture 2, Lab 4, Units 4*

This painting course is designed to develop the artist's imagination and ability to translate concepts into visual images. Contemporary and historical art concepts and interpretations of themes and symbols will be presented. Technical and formal elements of oil painting will be stressed in order to maximize communication of images and meaning.

Transfers to CSU, UNR

PREREQUISITE: ART 211 or equivalent.

REPEATABILITY: May be repeated 5 times.

ART 242 PHOTOGRAPHY III*Lecture 3, Lab 3, Units 4*

This course is a continuation of traditional black and white photography, with an emphasis on advanced techniques and disciplines. Students will be encouraged to develop their own personal vision and style for the purpose of creative visual communication. Darkroom lab is included.

Transfers to CSU, UNR, UC

PREREQUISITE: ART 143 with a grade of "C" or better or equivalent.

REPEATABILITY: May be repeated 1 time.

ART 244 COLOR PHOTOGRAPHY*Lecture 3, Lab 3, Units 4*

This course is designed to introduce students to color photography. The course includes an historical perspective, basic theories of color, and processing procedures for color film, and digital prints.

Transfers to CSU, UNR

PREREQUISITE: ART 142 or 146 with a grade of "C" or better or equivalent.

REPEATABILITY: May be repeated 2 times.

ART 247 PORTRAIT PHOTOGRAPHY*Lecture 3, Lab 3, Units 4*

This is an intermediate photography course that emphasizes the portrait as subject. Students will develop skills in lighting, subject posing, composition, and exposure. Advanced darkroom techniques, as well as digital processing techniques will be used for achieving the final image.

Transfers to CSU, UNR

PREREQUISITE: ART 142 or 146 with a grade of "C" or better or equivalent.

REPEATABILITY: May be repeated 2 times.

ART 248 COMMERCIAL PHOTOGRAPHY*Lecture 3, Lab 3, Units 4*

This is an intermediate photography course that emphasizes the commercial image. Students will explore various areas of commercial photography such as advertising, fashion, glamour, and food. Students will investigate different photographic techniques for various types of photo careers. In addition, students will create a final portfolio of their work.

Transfers to CSU, UNR

PREREQUISITE: ART 142 or 146 with a grade of "C" or better or equivalent.

REPEATABILITY: May be repeated 2 times.

ART 249 ART CONCEPTS FOR GRAPHIC DESIGN*Lecture 1.5, Lab 1.5, Units 2*

This is a studio course designed to provide students with art concepts and techniques that are the foundation of graphic design. The course will specifically address technical and conceptual issues relating directly to real-world commercial graphic design.

Transfers to CSU, UNR

REPEATABILITY: May be repeated 3 times.

ART 253 PLEIN-AIR OIL PAINTING*Lecture 1.25, Lab 2.25, Units 2*

This course is a landscape painting workshop for all skill levels and will emphasize painting the landscape in oil paint out of doors. This course will focus on methods of color mixing, color theory, brushwork, composition, and technical applications of the oil paint medium. The course will also involve the set-up and practice of an efficient system for painting in the outdoors.

REPEATABILITY: May be repeated 5 times.

ART 254 PAINTING III*Lecture 2, Lab 0, Units 2*

This course is designed for students wishing to pursue a specific topic in oil painting. Emphasis is placed on individual instruction, student project planning, and class group critiques. The student must be ready to work independently on paintings which have thematic consistency.

PREREQUISITE: ART 211 and 212 with a grade of "C" or better or equivalent.

REPEATABILITY: May be repeated 5 times.

ART 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

BIOLOGY

A.A. DEGREE

An A.A. Degree is offered in the field of Natural Science. For major requirements, see page 72.

BIO 101 PRINCIPLES OF BIOLOGY

Lecture 4, Lab 3, Units 5

The course will provide a general introduction to organic molecules, cell structure and function, and molecular genetics. Lab topics include microscopy, scientific method, biological molecules, cell structure and function, and genetics. This course is intended for biological science majors but open to all students. This course is a prerequisite for BIO 102 and BIO 103, which must be taken to complete the sequence.

Transfers to CSU, UNR, UC

PREREQUISITE: MAT 154A OR MAT 154AA with a grade of "C" or better or equivalent.

BIO 102 PRINCIPLES OF BIOLOGY

Lecture 4, Lab 3, Units 5

This course is an introduction to the diversity of life on Earth. BIO 101 is a prerequisite. BIO 103 must be taken in addition to this course to complete the biology majors sequence. Topics include: evolution; the five major kingdoms of organisms; survey of structure and diversity in plant, fungi and protist kingdoms; populations, communities, and ecosystems. Laboratory time emphasizes protist, fungi and plant structure and function; ecological structure and processes of ecosystems; and evolution and cladistics.

Transfers to CSU, UNR, UC

PREREQUISITE: BIO 101 with a grade of "C" or better or equivalent.

BIO 103 PRINCIPLES OF BIOLOGY

Lecture 4, Lab 3, Units 5

This course gives an overview of animal diversity, structure, and function, with an emphasis on mammalian anatomy and physiology. It is intended as part of a year-long sequence for science majors, along with BIO 101 (a prerequisite) and BIO 102. Topics include: survey of the diversity of protist and animal kingdoms; introduction to mammalian anatomy and physiology, including digestive, cardiovascular, respiratory, urinary, nervous, musculoskeletal, endocrine, and reproductive systems. Laboratory time focuses on diversity of the animal kingdom and fetal pig dissection with emphasis on the organ systems.

Transfers to CSU, UNR, UC

PREREQUISITE: BIO 101 with a grade of "C" or better or equivalent.

BIO 110 INTRODUCTION TO CELL AND MOLECULAR BIOLOGY

Lecture 4, Lab 3, Units 5

This course will describe the biological and chemical principles that apply to all living organisms. Topics include scientific method, critical thinking, homeostasis, chemical bonds, photosynthesis, cellular respiration, DNA structure and function, cell division (mitosis and meiosis), genetic theory, and gene function. Laboratory time emphasizes learning proper microscopy techniques and the study of living organisms using hands-on experiments.

Transfers to CSU, UNR, UC

BIO 111 INTRODUCTION TO PLANT AND ANIMAL BIOLOGY

Lecture 4, Lab 3, Units 5

This course is intended for non-science majors and gives an overview of the basic diversity of life on earth with focus on organisms, evolution, and biological systems. Topics include, but are not limited to the following: Darwin and origin of species, earth history and macroevolution, basic systematics, prokaryotes, protists, animal evolution and diversity, including invertebrates and vertebrates, fungi, evolution of plants, major plant groups, plant structure growth and reproduction, the biosphere, basic ecology, communities, population dynamics, animal behavior, and conservation biology. Indoor and field laboratory exercises will illustrate course concepts using local organisms, communities, and ecosystems.

Transfers to CSU, UNR, UC

BIO 115 FORENSICS

Lecture 4, Lab 3, Units 5

This course is an introduction to forensic science. Topics covered include volar tissue analysis; an introduction to trace evidence, including hair and fibers; ballistics; forensic entomology, botany and geology; ABO and Rh blood factors and spatter analysis; cellular components, including DNA; human skeletal anatomy and forensic anthropology; forensic odontology, autopsies and facial reconstruction techniques; arson and explosives; and computer forensics. Laboratory exercises will employ the scientific method and teach microscopic and laboratory techniques, as well as proper data collection and analysis. Experiments will correlate with aspects of forensic science and biotechnology discussed in lecture. The laboratory course will culminate in students using their acquired skills to process a mock crime scene.

Transfers to CSU, UNR

BIO 116 INTRODUCTION TO BIOTECHNOLOGY

Lecture 4, Lab 3, Units 5

This course is an introduction to biotechnology. This course begins with a history of biotechnology and moves on to examine how biotechnology is impacting our lives today. Students will focus on the concepts, research, and techniques found in microbial, plant, animal, marine, and medical biotechnology. Topics include the historical origins of the cell and molecular biology, the structure and function of the cell and its contents, nucleotides and nucleic acids, gene expression, transcriptional and translational regulation, the basic principles of recombinant DNA technology and the human genome project. Bioinformatics, a storage, search and retrieval computer-based system will be introduced. Throughout this course, students will examine the social and ethical implications of biotechnology.

Transfers to CSU, UNR

BIO 120 INTRODUCTION TO HUMAN ANATOMY AND PHYSIOLOGY

Lecture 2, Lab 0, Units 2

This course will provide an introduction to the human body and is designed for anyone wanting to learn more about how their body actually works. Topics covered include the following: the history of medicine, the cell and its organelles, the bones and the muscles of the body, the nervous system, the general and special senses, the endocrine system, the blood and the immune system, the cardiovascular system, the respiratory system, the digestive system, the urinary system, and the reproductive system.

Transfers to CSU, UNR

BIO 121 MUSCULOSKELETAL ANATOMY

Lecture 3, Lab 3, Units 4

This course is an anatomical study of the human skeleton and the location and movement of the skeletal muscles. Topics covered include bone tissue, all bones of the skeleton, muscle tissue, muscle terminology, the craniofacial muscles, the major muscles moving the skeleton, and skin. Activities will include working with individual bones, skeletons, models of the upper and lower extremities, and equipment in the physical education department. This course is designed for students interested in physical therapy, massage therapy, physical education, as well as art students interested in the human form (e.g., painting, drawing, portraiture, sculpture.)

Transfers to CSU, UNR

BIO 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

BIO 140 TREES, ROCKS, AND STARS OF COASTAL REGIONS

Lecture 1, Lab .5, Units 1.25

This field-based course will introduce students to basic ecology and geology of various coastal regions of California, with an introductory astronomy session. The ecology component will address the regional plant communities with a focus on the endemic plants of an area, especially trees. Content will focus on adaptations to environmental features exhibited by plants. The geology component of the course will feature interpretation of the modern and ancient geologic events that formed these regions and basic rock identification. The astronomy component will focus on seasonal constellations and planets, as well as on other available astronomical phenomena that are occurring during the course.

Transfers to CSU, UNR

BIO 141A BIRDS OF THE LAKE TAHOE BASIN

Lecture 1, Lab .75, Units 1.25

This course provides an introduction to the science of ornithology as well as an overview of the birds that inhabit the Lake Tahoe basin. The course will cover the major classes of birds, important local species, their characteristics, importance in the ecosystem, and their impacts on humans. Students will observe and identify representative species of birds.

Transfers to CSU, UNR

BIO 149 ECOLOGY

Lecture 4, Lab 3, Units 5

This course introduces the basic principles of ecology. It will cover population, community and ecosystem structure and dynamics, and the interaction of organisms with the physical world and with each other. It includes investigation of local terrestrial and aquatic ecosystems. Laboratory exercises focus on applying the scientific method in the investigation of local ecosystems.

Transfers to CSU, UNR, UC

BIO 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

BIO 201 BOTANY

Lecture 4, Lab 3, Units 5

This course is an introduction to the structure and function of plants. The course will examine how plants grow, reproduce, and respond to environmental stimuli. Topics include the evolution and biology of major groups in the plant kingdom. Laboratory exercises will focus on identification, structure, and function of plants and will be both indoor and field-based.

Transfers to CSU, UNR, UC

BIO 203 HUMAN ANATOMY AND PHYSIOLOGY I

Lecture 4, Lab 3, Units 5

This course is an integrated course covering the fundamental principles of human anatomy and physiology. The course progresses from the cellular and tissue level to the organ level. Structure and function are related through study of histological slides, anatomical models and charts, clinical presentations, and human cadaver parts. Topics include anatomical terms, homeostasis, cells and tissues, integumentary system, skeletal system, nervous tissue and central nervous system. This course is designed for students entering the fields of nursing, physical therapy, dentistry, athletic training, chiropractic, paramedic, physician assistant and graduate or medical school.

Transfers to CSU, UNR, UC

PREREQUISITE: BIO 101 or 110 with a grade of "C" or better or equivalent.

BIO 204 HUMAN ANATOMY AND PHYSIOLOGY II

Lecture 4, Lab 3, Units 5

This is an integrated course covering the fundamental principles of human anatomy and physiology. Structure and function are related through the study of histological slides, anatomical models and charts, clinical presentations, fresh sheep eye dissection, preserved cat dissection, sheep and cow body parts, as well as human cadaver parts. Topics include spinal cord and spinal nerves, autonomic nervous system, endocrine system, special senses, muscular system, blood, immune system, cardiovascular system and lymphatic system. This course is designed for students entering the fields of nursing, physical therapy, athletic training, chiropractic, paramedic, physician assistant and graduate or medical school.

Transfers to CSU, UNR, UC

PREREQUISITE: BIO 203 with a grade of "C" or better or equivalent.

BIO 205 HUMAN ANATOMY AND PHYSIOLOGY III

Lecture 4, Lab 3, Units 5

This is an integrated course covering the fundamental principles of human anatomy and physiology. Structure and function are related through the study of histological slides, anatomical models and charts, clinical presentations, preserved cat dissection, sheep and cow parts, as well as human cadaver parts. Topics include blood vessels and circulation, respiratory system, digestive system, urinary system and reproductive system. This course is designed for students entering the fields of nursing, physical therapy, athletic training, chiropractic, paramedic, physician assistant and graduate or medical school.

Transfers to CSU, UNR, UC

PREREQUISITE: BIO 204 with a grade of "C" or better or equivalent.

BIO 210 MICROBIOLOGY

Lecture 3, Lab 6, Units 5

This course serves as an introduction to the field of microbiology and includes the study of the form, function, and pathogenicity of microorganisms such as bacteria, protozoa, fungi, helminths, and viruses. The diagnosis, transmission, and control of diseases caused by these microbes are examined. The role of microorganisms in environmental processes, such as water quality control and bioremediation, is also covered. Laboratory emphasis is on specimen handling, pure culture techniques, bacterial growth, staining, and identification.

Transfers to CSU, UNR, UC

PREREQUISITE: BIO 101 or 110 with a grade of "C" or better or equivalent.

BIO 212 ZOOLOGY

Lecture 4, Lab 3, Units 5

This course is an introductory survey of vertebrate and invertebrate zoology. Topics include animal ecology, physiology, reproduction, behavior, evolution, classification, and characteristics of the major animal phyla. Emphasis is placed on natural history and diversity of animal morphology.

Transfers to CSU, UNR, UC

BIO 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

BIO 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

BUSINESS

A.A. DEGREE

An A.A. Degree is offered in the field of Business, with concentrations in Accounting, Finance, Management, Marketing, Small Business Ownership, General Business, and Global Business. For major requirements, see page 60.

CERTIFICATE OF ACHIEVEMENT

A Certificate of Achievement is offered in the field of Business, with concentrations in Accounting Technician and Small Business Ownership. For requirements, see page 82.

THE FOLLOWING COURSES IN THIS SUBJECT AREA MAY BE CHALLENGED: BSN 110A, 110B, 110C, 150, AND 190.

BSN 100 INTRODUCTION TO BUSINESS

Lecture 4, Lab 0, Units 4

This course provides an overview of the basic functions of business and how they interrelate. Topics to be covered include global business, e-business, entrepreneurship, human resources, marketing, management, logistics, accounting, finance, and investment.

Transfers to CSU, UNR, UC

BSN 101A BUSINESS LAW

Lecture 4, Lab 0, Units 4

This course will provide an introduction to the American legal system in a business context. This course introduces the concept of law and discusses its sources and its uses as an instrument of social control, dispute settlement, and ethical responsibility. Major emphasis will be placed on torts, crimes, and a full development of contract law.

Transfers to CSU, UNR, UC (unit limit)

BSN 101B BUSINESS LAW

Lecture 4, Lab 0, Units 4

This course will provide students with an introduction to the legal system and its impact on businesses. This course will introduce the study of laws pertaining to businesses such as corporations and partnerships, and their formation and function. Topics to be covered include securities and commercial paper, personal and real property transactions, and government regulations.

Transfers to CSU, UNR, UC (unit limit)

BSN 104 BUSINESS COMMUNICATIONS

Lecture 4, Lab 0, Units 4

This course is designed as a general survey of current business communication principles and techniques. Emphasis will be placed on appropriate communication strategies and written correspondence. Students will gain experience in organizing, analyzing, composing, and dictating basic types of letters, memoranda, and communications used in today's business world. Study will also include employment resumes and letters. Correct English usage with clear, concise, varied, and meaningful expression will be emphasized. Students must be able to use personal computer and word processing software.

Transfers to CSU, UNR

ADVISORY: ENG 152 or CAO 180 or equivalent.

BSN 105 PROFESSIONAL COMMUNICATION*Lecture 4, Lab 0, Units 4*

This course is designed to prepare students in the fundamentals of business and professional communication. Students will learn about interpersonal, small group communication, and the development and implementation of formal business presentations. Interviewing techniques will also be examined and practiced in this course.

Transfers to CSU, UNR

BSN 110A PRINCIPLES OF ACCOUNTING I*Lecture 4, Lab 0, Units 4*

This course introduces students to the study of accounting as the basis of an information system with emphasis on concepts and assumptions underlying data accumulation for financial reports. Topics will include the general accounting cycle, financial reporting and analysis, merchandising operations and the operating cycle, inventories, and short-term financial assets.

Transfers to CSU, UNR, UC

BSN 110B PRINCIPLES OF ACCOUNTING II*Lecture 4, Lab 0, Units 4*

This course is a continuation of BSN 110A. Students will explore more specific and detailed accounting activities as a basis of an information system with emphasis on concepts and assumptions underlying data accumulation for financial reports. Topics will include current liabilities, the Time Value of Money (TVOM) concept, internal control, long-term assets, contributed capital, long-term liabilities, the corporate Income Statement, the Statement of Cash Flows, investments, and financial performance measurement.

Transfers to CSU, UNR, UC

PREREQUISITE: BSN 110A with a grade of "C" or better or equivalent.

BSN 110C PRINCIPLES OF ACCOUNTING III*Lecture 4, Lab 0, Units 4*

This course is a continuation of BSN 110B. The course introduces students to a full range of innovative managerial systems in which managers must make critical decisions about product quality, customer service, and long-term business relationships. The course addresses the application of appropriate techniques and concepts in processing historical and projected financial and qualitative data to assist managerial planning, controlling, and decision-making. Selected topics will include cost concepts and allocations, product costing, cost behavior, standard costing and variance analysis, budgeting, and responsibility accounting.

Transfers to CSU, UNR, UC

PREREQUISITE: BSN 110B with a grade of "C" or better or equivalent.

BSN 111 COMPUTERIZED ACCOUNTING*Lecture 4, Lab 0, Units 4*

This course is an introduction to the use of microcomputers for processing accounting information such as invoices, accounts receivable, and accounts payable as well as a general ledger system. It will show how the computer stores, maintains, and processes information and prints required accounting reports.

Transfers to CSU

ADVISORY: BSN 110A or equivalent.

BSN 115 BUSINESS FINANCE*Lecture 4, Lab 0, Units 4*

This course is an introduction to financial management. Special emphasis is placed on developing the tools necessary for a manager to make financial decisions for a corporation. Topics covered include financial analysis, financial forecasting and planning, operating and financial leverage, working capital management, financing decisions, and cost of capital decisions. Students should have substantial experience in Excel software applications.

Transfers to CSU, UNR

ADVISORY: CAO 121 or equivalent.

BSN 117 PERSONAL FINANCE*Lecture 4, Lab 0, Units 4*

This course is designed to expose students to basic personal financial concepts and principles, and the tools necessary to effectively analyze and interpret critical financial and non-financial elements of their lives. The course is intended to assist students in the development of an effective and relevant Personal Financial Plan through the application of proposed techniques in budgeting, money management, risk assessment, and retirement planning.

Transfers to CSU

ADVISORY: CAO 121, 154, or equivalent.

BSN 118 PRINCIPLES OF INVESTMENTS*Lecture 4, Lab 0, Units 4*

This course introduces students to the language, concepts, vehicles, and strategies of investing that are critical to becoming conversant with the many aspects of investing. Students will then be better prepared to make informed decisions in the highly dynamic investment environment whether those decisions are for personal or professional purposes. By understanding and effectively applying the fundamentals of investing, through the use of a computer simulation software program, students will develop, implement, and monitor their investment portfolio plans and strategies. Such exposure to the fundamentals of investing should allow students to respond effectively to those changes in the investment environment and to achieve their goals.

Transfers to CSU, UNR

ADVISORY: CAO 121, 154, or equivalent.

BSN 120 HUMAN RESOURCE MANAGEMENT*Lecture 4, Lab 0, Units 4*

This course surveys human resource management issues and skills needed for effective performance by managers and employees. The focus of the course is on methods of recruiting, hiring, training, evaluating, rewarding, and disciplining employees. Analysis of these areas is designed to attract and retain the best possible workforce in an organization.

Transfers to CSU, UNR

BSN 121 HIGHLY EFFECTIVE LEADERSHIP SKILLS*Lecture 2, Lab 0, Units 2*

This course examines the leadership paradigms and principles that individuals need to succeed personally and professionally. Topics include personal responsibility, mission statement development, time management, seeking mutual benefit in all interactions, advanced communication skills, embracing diverse viewpoints, and the importance of personal renewal.

Transfers to CSU, UNR

BSN 122 ORGANIZATIONAL BEHAVIOR*Lecture 4, Lab 0, Units 4*

This course explores the application of behavioral science to the workings of business organizations. Students will learn the importance of developing sensitivity to other people and gain a realization of how their own attitudes and behavior play a role in their work lives. The areas of leadership, morale, personal efficiency, personality, motivational philosophies, communications, assertiveness, gender differences, and discipline will be covered. Dynamics of change, human perception, and human difference will also be examined.

Transfers to CSU, UNR

BSN 125 BUSINESS MANAGEMENT*Lecture 4, Lab 0, Units 4*

This course provides students with an understanding of the management process. It includes management theory and applications related to the contemporary manager's role in our global business environment. Topics include planning, organizing, leading, and controlling in business organizations. Teamwork is emphasized in the development and presentation of management projects and activities.

Transfers to CSU, UNR

BSN 128/ECE 128 PRINCIPLES OF SUPERVISION*Lecture 4, Lab 0, Units 4*

This course explores supervisory functions as they relate to the contemporary work environment. Students will discuss and analyze supervisory responsibilities and challenges in today's complex and culturally diverse workforce and variety of work environments. This course satisfies a specific course requirement for the California Children's Center Permit.

Transfers to CSU

BSN 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

Transfers to CSU

BSN 132 OCCUPATIONAL WORK EXPERIENCE*Lecture 0, Lab 0, Units 1-6*

Occupational Work Experience is for students who are employed in jobs related to their educational or occupational goals. This program extends knowledge gained in the classroom to the workplace, helps students identify new and challenging objectives at work, and encourages professional growth and advancement.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

BSN 133 OCCUPATIONAL WORK EXPERIENCE - INTERNSHIP*Lecture 0, Lab 0, Units 1-6*

Occupational Work Experience Internship is supervised placement at a worksite related to the student's educational or occupational goals. The program will assist students in acquiring desirable work experience, attitudes, and awareness of career opportunities in their chosen field of study.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

BSN 135 PRINCIPLES OF MARKETING*Lecture 4, Lab 0, Units 4*

This course is an introduction to contemporary marketing. It includes marketing theory and applications related to consumer and customer demand for products and services. The focus is on market planning strategy and the determination of the appropriate product, price, distribution, and promotional elements.

Transfers to CSU, UNR

BSN 152A FUNDAMENTALS OF BOOKKEEPING I*Lecture 4, Lab 0, Units 4*

In this course, students will study the accounting cycle of small to moderate sized service and merchandising businesses. The course emphasizes the practical approach to accounting. The topics covered include analyzing business transactions, processing transactions through the accounting cycle, preparing financial statements, and recording payroll.

BSN 152B FUNDAMENTALS OF BOOKKEEPING II*Lecture 4, Lab 0, Units 4*

The course is a continuation of BSN 152A where students will build upon the study of the accounting cycle of small to moderate sized service and merchandising businesses. The course emphasizes the practical approach to accounting. The topics covered include promissory notes; valuation of receivables, inventory, and property; partnerships and corporations; and the analytical tools for effective decision making by managers.

PREREQUISITE: BSN 152A or equivalent.

BSN 152C BECOMING A CERTIFIED BOOKKEEPER*Lecture 4, Lab 0, Units 4*

This course is designed to provide students with practical experience applying various accounting and bookkeeping concepts and topics in preparation for taking the AIPB (American Institute of Professional Bookkeepers) National Certification Examination.

ADVISORY: BSN 152B or equivalent.

BSN 155A QUICKBOOKS*Lecture 2, Lab 0, Units 2*

This course reviews the personal computer accounting software, QuickBooks for Windows. This is an easy-to-use accounting system designed for small-business owners and bookkeepers. It does not require knowledge of traditional double-entry accounting systems. Students will learn how to set up a company, track its activity, and produce reports which will provide income tax information and a complete financial picture of the company.

BSN 155B ADVANCED QUICKBOOKS

Lecture 2, Lab 0, Units 2

This course is a continuation of BSN 155A using PC's and the small business accounting software programs, QuickBooks for Windows. This course covers more advanced QuickBooks topics such as inventory, classes, customizing reports and payroll deductions, and provides practice using a sample company.

ADVISORY: BSN 155A or equivalent.

BSN 160 INDIVIDUAL INCOME TAXES I

Lecture 2, Lab 0, Units 2

This course covers the fundamentals of income tax and basic reporting. Students will be introduced to the concepts and step-by-step procedures for preparing the basic federal personal income tax return. Federal form 1040, schedule A (itemized deductions), schedule B (Interest and Dividend Income), and other miscellaneous forms will be covered.

REPEATABILITY: May be repeated 5 times.

BSN 161 INDIVIDUAL INCOME TAXES II

Lecture 2, Lab 0, Units 2

This course is a continuation of BSN 160. Students will be introduced to the concepts and step-by-step procedures for preparing federal form 1040, schedule C (Profit or Loss From Business or Profession), schedule D (Capital Gains and Losses), schedule E (Supplemental Income), and other miscellaneous forms.

ADVISORY: BSN 160 or equivalent.

REPEATABILITY: May be repeated 5 times.

BSN 163 INDIVIDUAL INCOME TAX WORKSHOP

Lecture .5, Lab 0, Units .25

This course covers the basic forms of filing a personal income tax return. In a step-by-step manner, the students will be guided through the procedures for preparing the basic federal and state personal income tax return. Federal form 1040, 1040A, 1040EZ, Schedule A (itemized deductions), Schedule B (Interest and Dividend Income), California form 540, and other miscellaneous forms will be covered. Electronic filing will also be discussed.

BSN 164 SMALL BUSINESS TAX WORKSHOP

Lecture .5, Lab 0, Units .25

This course covers the basic tax and record-keeping requirements for the self-employed individual. The different types of taxes, accounting methods, filing requirements, payment requirements, and other small business regulation issues will be covered.

BSN 170 TIME MANAGEMENT

Lecture .75, Lab 0, Units .75

This course provides proven strategies for prioritizing work schedules and work, overcoming procrastination, and dealing with interruptions and time wasters. Students will be introduced to the Time Management Matrix and develop an understanding of the difference between urgent and important activities. Students will create an action plan for improving their most common time management pitfalls.

BSN 190 BUSINESS MATH

Lecture 4, Lab 0, Units 4

This course will familiarize the student with fundamental math skills necessary in the field of business. Topics covered include the calculation of simple interest, percentages, profit margins, payroll, compound interest, annuities and other selected topics.

ADVISORY: MAT 187AB.

BSN 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

BSN 210 ENTREPRENEURSHIP

Lecture 4, Lab 0, Units 4

This course focuses on the process of developing a business plan to effectively organize the resources required to establish/enhance a business. Topics to be covered include finding financial resources, meeting legal requirements, developing management techniques, understanding marketing concepts, creating financial plans, and other areas of interest to a small business entrepreneur.

Transfers to CSU, UNR

**BSN 215 INTERNATIONAL BUSINESS:
COMPETING IN THE GLOBAL MARKETPLACE**

Lecture 4, Lab 0, Units 4

This course provides an introduction to the global business community. Students will explore a full range of international business activities: marketing, logistics, finance, research, risk analysis, and global corporate ethics and responsibility. Major economic, social, political, and cultural forces impacting the competitive business environment will be explored.

Transfers to CSU, UNR

ADVISORY: BSN 100 or equivalent

BSN 231 SPECIAL PROJECTS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

Transfers to CSU

**BSN 251 ELECTRONIC MARKETING: SUCCESS
ON THE INTERNET**

Lecture 2, Lab 0, Units 2

In this highly interactive course students will be introduced to the resources of electronic marketing. Participants will learn how to integrate electronic resources into the marketing process. This course will cover topics ranging from integrating on-line activities into the integrated marketing communication effort to establishing and promoting the virtual store. Although helpful, participants need not have computer/Internet skills to benefit from this course experience.

BSN 260 HOW TO START A SMALL BUSINESS*Lecture .5, Lab 0, Units .5*

This course presents a concentrated treatment of the first steps necessary to start a small business and is designed for individuals thinking about opening up a small business. Experts address topics that are vital to a start-up.

BSN 271 ADVERTISING*Lecture 4, Lab 0, Units 4*

This course will analyze the marketing promotional mix focusing on the field of advertising. The advertising message from initial research through the final advertising message will be discussed and examined. Historic, economic, and social aspects of advertising as well as the analysis of successful and unsuccessful advertising campaigns will be covered.

BSN 291 SPECIAL PROJECTS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

CHEMISTRY**A.A. DEGREE**

An A.A. Degree is offered in the field of Natural Science. For major requirements, see page 72.

CHM 101 GENERAL CHEMISTRY I*Lecture 4, Lab 5, Units 5.75*

This course is the first quarter of a one-year course in chemistry intended for majors in the natural sciences (chemistry, biochemistry, biology, physics, pre-medicine), mathematics, or engineering. Topics include foundations of chemistry, atomic structure, nuclear chemistry, stoichiometry, types of chemical reactions, gases, and thermochemistry.

Transfers to CSU, UNR, UC

PREREQUISITE: MAT 154A or 154AA with a grade of "C" or better or equivalent and completion of CHM 114: Principles of Inorganic Chemistry or equivalent with a grade of "C" or better.

CHM 102 GENERAL CHEMISTRY II*Lecture 4, Lab 5, Units 5.75*

This course is the second quarter of a one-year sequence in chemistry intended for majors in the natural sciences (chemistry, biochemistry, biology, physics, pre-medicine), mathematics, or engineering. Topics include liquids and solids, properties of solutions, chemical kinetics, chemical equilibrium, acids and bases, applications of aqueous equilibria, spontaneity/entropy/free energy, and electrochemistry.

Transfers to CSU, UNR, UC

PREREQUISITE: Completion of CHM 101 with a grade of "C" or better or equivalent.

CHM 103 GENERAL CHEMISTRY III*Lecture 4, Lab 5, Units 5.75*

This course is the third and final quarter of a one-year sequence in chemistry intended for majors in the natural sciences (chemistry, biochemistry, biology, physics, pre-medicine), mathematics, or engineering. Topics include atomic structure and quantum theory, molecular structure and bonding, descriptive chemistry of the elements, coordination chemistry, and organic chemistry.

Transfers to CSU, UNR, UC

PREREQUISITE: Completion of CHM 101 with a grade of "C" or better or equivalent.

CHM 114 PRINCIPLES OF INORGANIC CHEMISTRY*Lecture 4, Lab 3, Units 5*

This course serves as a comprehensive survey of inorganic chemistry for the non-science or health major. Topics covered will include structure of atoms, molecules and ions; the solid, liquid and gaseous states of matter; nomenclature; and chemical reactions including stoichiometry, acid/base, oxidation/reduction, equilibrium, organic chemistry, and biochemistry. It is also appropriate for students needing an introduction or review to prepare for General Chemistry.

Transfers to CSU, UNR, UC (unit limit)

CHM 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

CHM 151 SUPPLEMENTAL STUDY FOR CHM 101*Lecture 2, Lab 0, Units 2*

This course is specifically designed for students who fall into any or all of the following categories: (1) do not feel that they have a sufficient background to succeed in college-level chemistry; (2) have not taken high school chemistry; (3) are anxious about chemistry and/or find the subject difficult to master; or (4) need additional instruction in the subject and/or study skills specific to chemistry. This course is to be taken in conjunction with CHM 101, and it allows for two additional hours each week of instructional time.

COREQUISITE: CHM 101 or equivalent.

NOTE: Non-degree applicable course.

CHM 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

CHM 201 FUNDAMENTALS OF ORGANIC CHEMISTRY I*Lecture 4, Lab 3, Units 5*

This is the first quarter of a two-quarter introductory course in organic chemistry intended for majors in allied health and other applied sciences. This course introduces the principles of organic chemistry including nomenclature, functional groups, reaction mechanisms, and properties of organic compounds. The types of compounds studied include aliphatic, unsaturated, and aromatic hydrocarbons, alkyl halides, alcohols and thiols, and ethers.

Transfers to CSU, UNR, UC

PREREQUISITE: Completion of CHM 102 and 103 with grades of "C" or better or equivalent.

CHM 202 FUNDAMENTALS OF ORGANIC CHEMISTRY II*Lecture 4, Lab 3, Units 5*

This is the second and final quarter of an introductory course in organic chemistry intended for majors in allied health and other applied sciences. This course introduces the principles of organic chemistry including nomenclature, functional groups, reaction mechanisms, and properties of organic compounds. The types of organic compounds studied include amines, aldehydes, ketones, carboxylic acids and derivatives of carboxylic acids. This course also includes a survey examination of biomolecules including: organic polymers, carbohydrates, amino acids, proteins, nucleic acids and lipids.

Transfers to CSU, UNR, UC

PREREQUISITE: CHM 201 with a grade of "C" or better or equivalent.

CHM 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

CHM 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

CHINESE

CHN 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

CHN 141 CONVERSATIONAL MANDARIN CHINESE I*Lecture 4, Lab 0, Units 4*

This introductory level course is designed to provide beginning level students of the Chinese language a foundation in vocabulary and grammar. Students will develop the ability to understand and speak beginning level conversational Mandarin. The students will be introduced to the "pin-yin" system of Romanized Chinese writing, and will learn to read and write Chinese characters. Students will be introduced to the highlights of Chinese culture, including both mainland China and Taiwan.

Transfers to CSU

CHN 142 CONVERSATIONAL MANDARIN CHINESE II*Lecture 4, Lab 0, Units 4*

This beginning level Chinese conversational course is a continuation of CHN 141. It is designed to advance students' listening, reading, writing, and speaking skills. Students will build their conversational skills in Mandarin Chinese through the continued introduction of vocabulary, Chinese characters, and grammatical structures. Students will continue to build upon their understanding of the various roots and radicals that form Chinese characters. They will also begin to develop an understanding of Mandarin Chinese grammar. Students will be introduced to various aspects of Chinese culture, including social customs, foods, and religious beliefs and practices.

Transfers to CSU

ADVISORY: CHN 141 with a grade of "C" or better or equivalent.

CHN 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

CHN 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

CHN 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

COMMUNICATIONS

COM 122 MASS MEDIA AND SOCIETY

Lecture 4, Lab 0, Units 4

This course is an exploration of the effects and influences of mass media industries upon American culture and society. Study will involve the examination of the major modes of mass communication media such as radio, film, newspapers, and magazines, with emphasis upon television and news media. Applying elements of established communication theory, students will identify and analyze objective and subjective media messages and content, while exploring the effects of media upon individuals and society. This course will examine the influences corporate-media institutions, in progressively fewer numbers, exert upon culture, tastes, and opinions, through the mediation of news, entertainment, and advertisements. Students will become objective media analysts, reasoning beyond the accepted, conditioned response boundaries of conventional media consumers.

Transfers to CSU, UC, UNR

COM 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

COM 132 OCCUPATIONAL WORK EXPERIENCE

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience is for students who are employed in jobs related to their educational or occupational goals. This program extends knowledge gained in the classroom to the workplace, helps students identify new and challenging objectives at work, and encourages professional growth and advancement.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

COM 133 OCCUPATIONAL WORK EXPERIENCE - INTERNSHIP

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience Internship is supervised placement at a worksite related to the student's educational or occupational goals. The program will assist students in acquiring desirable work experience, attitudes, and awareness of career opportunities in their chosen field of study.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

COM 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

COM 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

COM 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

COMPUTER APPLICATIONS/ OFFICE TECHNOLOGY

A.A. DEGREE

An A.A. degree is offered in the field of Computer Applications/Office Technology. For major requirements and areas of concentration, see page 61.

CERTIFICATE OF ACHIEVEMENT

A Certificate of Achievement is offered in the field of Computer Applications/Office Technology. For requirements and areas of concentration, see page 82.

THE FOLLOWING COURSES IN THIS SUBJECT AREA MAY BE CHALLENGED: CAO 150, CAO 174, CAO 175, CAO 178, CAO 181.

CAO 110 MICROCOMPUTER APPLICATIONS

Lecture 3, Lab 2, Units 4

This course provides students with an introduction to the use of the microcomputer and to commonly used applications software. Emphasis is placed on learning essential computer concepts, understanding the Windows environment, and surveying applications software. After completing this course, students should have a solid foundation in using the microcomputer for word processing, spreadsheet, database management, and presentation software. Students will be well prepared to continue on to more in-depth study of any of these applications software packages.

Transfers to CSU, UNR, UC

ADVISORY: CAO 152 or equivalent.

CAO 121 SPREADSHEET APPLICATIONS IN BUSINESS

Lecture 3, Lab 2, Units 4

This is a comprehensive course in spreadsheet applications in business using electronic spreadsheet software. This course covers the design, development, and formatting of spreadsheets; the presentation of data through the creation of charts; the use of data lists and pivot tables; macros; and the management of multiple spreadsheets. Emphasis is placed on using spreadsheet software to solve practical business problems.

Transfers to CSU, UNR

ADVISORY: CAO 110 or equivalent.

CAO 122 RELATIONAL DATABASE MANAGEMENT

Lecture 3, Lab 2, Units 4

This is a comprehensive course in relational database applications using database management software. Topics include relational database concepts, the development and maintenance of databases, table relationships, normalization, the creation of basic and advanced queries, custom forms, and custom reports.

Transfers to CSU, UNR

ADVISORY: CAO 110 or equivalent.

CAO 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

CAO 132 OCCUPATIONAL WORK EXPERIENCE

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience is for students who are employed in jobs related to their educational or occupational goals. This program extends knowledge gained in the classroom to the workplace, helps students identify new and challenging objectives at work, and encourages professional growth and advancement.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

CAO 133 OCCUPATIONAL WORK EXPERIENCE - INTERNSHIP

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience Internship is supervised placement at a worksite related to the student's educational or occupational goals. The program will assist students in acquiring desirable work experience, attitudes, and awareness of career opportunities in their chosen field of study.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

CAO 134 OFFICE TECHNOLOGY INTERNSHIP SEMINAR

Lecture .5, Lab 0, Units .5

The purpose of this course is to allow students the appropriate time and space to be able to reflect, discuss, and ask questions about their internship. It is meant to be taken in tandem with their office technology internship, CAO 133. Students will also be creating a portfolio which will include a current resume, examples of work completed, certificates/awards received, and other items helpful to employment in the office technology area.

Transfers to CSU

COREQUISITE: CAO 133

CAO 150AB BEGINNING KEYBOARDING

Lecture .75, Lab .75, Units 1 (each module)

This course is an introduction to touch keyboarding at a personal computer. Emphasis is on correct keyboarding techniques. Students use a keyboarding software to learn/reinforce correct touch keyboarding.

Module A - Is an introduction to touch keyboarding of the alphabetical keyboard and correct techniques.

Module B - Emphasizes learning the figures and symbols on the computer keyboard and learning the correct figures' usage.

ADVISORY: CAO 150A or equivalent.

CAO 151 INTRODUCTION TO PERSONAL COMPUTERS

Lecture 2, Lab 0, Units 2

This is a foundation course in computer concepts for beginning computer users. Hardware and software concepts and terminology are introduced along with a brief survey of microcomputer software, including Windows, word processing, spreadsheet, and Web browser software.

REPEATABILITY: May be repeated 2 times.

CAO 152A INTRODUCTION TO WINDOWS FOR THE PC

(Formerly numbered CAO 152)

Lecture 2, Lab 0, Units 2

This is a beginning course in the Windows operating system, the most popular operating system for the PC. Topics include working in the Windows graphical user interface, managing (creating, copying, deleting, moving, renaming) files and folders, and customizing the Windows desktop. This course provides an essential foundation for all subsequent microcomputer software courses.

ADVISORY: CAO 151 or equivalent.

REPEATABILITY: May be repeated 2 times.

CAO 152B INTRODUCTION TO THE MACINTOSH

Lecture 2, Lab 0, Units 2

This course will give students fundamental skills with the Macintosh operating system. These skills include finder basics, file management, saving to disks, burning a CD or DVD, moving and copying items, system preferences, networking, application basics, and printing.

REPEATABILITY: May be repeated 2 times.

CAO 153 WORD PROCESSING

Lecture 3, Lab 2, Units 4

This is a comprehensive course in using word processing software to create and design documents for business. Basic topics include creating, editing, and formatting multi-page documents. Advanced topics include tables, outlines, mail merge, and working with graphics.

ADVISORY: CAO 150A or basic keyboarding skills recommended. CAO 152A or equivalent.

CAO 154 INTRODUCTION TO SPREADSHEETS

Lecture 2, Lab 0, Units 2

This is a beginning course in spreadsheet applications software. Students will learn to enter, calculate, format, and manage numerical data through the creation of spreadsheets and charts.

ADVISORY: CAO 152A or equivalent.

REPEATABILITY: May be repeated 2 times.

CAO 155 INTRODUCTION TO DATABASE MANAGEMENT

Lecture 2, Lab 0, Units 2

This is a beginning course in database applications focusing on introductory database concepts and the use of database management software. Topics include creating and modifying basic tables, queries, forms, and reports.

ADVISORY: CAO 152A or equivalent.

REPEATABILITY: May be repeated 2 times.

CAO 156 INTRODUCTION TO PRESENTATION SOFTWARE

Lecture 3, Lab 0, Units 3

This is a comprehensive course using presentation software to create presentation slides and handouts. Topics include the use of text, graphics, animation, and sound to create effective presentations on the computer. Advanced topics include the creation and use of summary slides, hyperlinks, transition effects, custom design templates, slide masters, and self-running presentations.

ADVISORY: CAO 152A or equivalent.

REPEATABILITY: May be repeated 2 times.

CAO 157A INTRODUCTION TO CALENDARING AND E-MAIL SOFTWARE

Lecture 2, Lab 0, Units 2

This course covers the basic features of a messaging and personal information management program. Students will learn software features, such as using the calendar to track and schedule appointments; events and meetings; using the inbox features to create and manage E-mail; using the contacts and address book; creating journal entries; creating notes; creating tasks; and using the software with other applications.

ADVISORY: CAO 152A or equivalent.

REPEATABILITY: May be repeated 2 times.

CAO 157B INTRODUCTION TO E-MAILING

Lecture 1, Lab 1, Units 1.25

This is a beginning course in E-mail. Students will learn how to create a free E-mail account, open and read messages, compose and send a message, open and send attachments, create an electronic address book, and customize electronic messages.

ADVISORY: CAO 151 AND 152A or equivalent.

NOTE: Non-degree applicable course.

CAO 161 INTRODUCTION TO iLIFE

Lecture 3, Lab 2, Units 4

Apple Macintosh computers come bundled with a powerful set of programs for working with photos, videos, music, websites, and DVDs. This course will give students a fundamental understanding of the bundled iLife suite including iPhoto, iMovie, iWeb, and iDVD. Students will become familiar with the media used in these programs and will produce a DVD of collected media.

ADVISORY: CAO 152B or equivalent.

REPEATABILITY: May be repeated 2 times.

CAO 164A DESKTOP PUBLISHING USING MICROSOFT PUBLISHER

Lecture 2, Lab 0, Units 2

This course is an introduction to desktop publishing using Microsoft Publisher. Students will learn how to use templates to design and produce printed publications for personal use or for a small business. Topics include the creation of letterhead, flyers, business cards, and newsletters.

ADVISORY: CAO 152A or equivalent.

REPEATABILITY: May be repeated 2 times.

CAO 164B DESKTOP PUBLISHING USING ADOBE INDESIGN

Lecture 4, Lab 0, Units 4

This course is an introduction to industry-standard desktop publishing software Adobe InDesign. Students will learn how to design and produce printed publications including letterhead, flyers, business cards, newsletters, and brochures.

ADVISORY: CAO 152A and 164A or equivalent.

REPEATABILITY: May be repeated 2 times.

CAO 165A INTRODUCTION TO PHOTO EDITING SOFTWARE

Lecture 4, Lab 0, Units 4

This course is an introduction to using photo editing software PhotoShop to edit and manipulate images. Topics include basic tools to retouch and modify images, the use of layers and masks, compositing images, selective sharpening, scanning techniques, and printing.

ADVISORY: CAO 152A or equivalent.

REPEATABILITY: May be repeated 2 times.

CAO 166 COMPUTER ILLUSTRATION

Lecture 4, Lab 0, Units 4

This course will provide an introduction to computer illustration using industry-standard software for graphic design. Topics to be covered include basic graphic design terminology and techniques, drawing and painting using the computer as a tool, preparing documents for print production, marketing, and portfolio development.

ADVISORY: CAO 152A or equivalent.

REPEATABILITY: May be repeated 2 times.

CAO 173AB BEGINNING DOCUMENT PRODUCTION

Lecture 1, Lab 1.5, Units 1.5 (each module)

This course is an introduction to document production. After completing Modules A and B, students will be able to format simple business letters, memos, reports, and tables. This course is recommended for business students and those working in an office environment. At the end of this course, the student should be able to key a minimum of 40 words per minute for three minutes with appropriate accuracy.

Module A - **ADVISORY:** CAO 150B or ability to key at least 30 words per minute.

Module B - **ADVISORY:** CAO 173A or equivalent.

CAO 174ABCD INTERMEDIATE KEYBOARDING AND DOCUMENT PRODUCTION

Lecture .75 Lab .75, Units 1 (each module)

This course emphasizes the development of speed, accuracy, correct keying techniques, and an in-depth study of letters, manuscripts, and reports. Related English skills will also be reviewed. Students will use computers and word processing software. At the end of this course, students should be able to key a minimum of 40 words per minute for three minutes with appropriate accuracy.

Module A - Covers all business letter styles and special features that may appear in business letters and memos.

ADVISORY: CAO 173B or equivalent.

Module B - Includes table and tab mastery and report mastery.

ADVISORY: CAO 174A or equivalent.

Module C - Includes skill building and graphic enhancements (letterhead, lines, borders, WordArt, and columns).

ADVISORY: CAO 174B or equivalent.

Module D - Includes administrative and employment documents (agenda and action minutes, news releases, labels, merge, resumes, employment letters, employment tests, reports, and manuscripts).

ADVISORY: CAO 174C or equivalent.

CAO 175ABCD DOCUMENT PRODUCTION USING INTEGRATED APPLICATIONS

Lecture .75, Lab .75, Units 1 (each module)

Students use Microsoft Office in realistic office-style projects and gain in-depth knowledge of word processing and basic introductory skills using PowerPoint, Word, Excel, and Access. The student will practice using these four programs to produce integrated, compound documents. Class is taught in modules. Students may complete 1 - 4 modules.

Module A - Introduction to PowerPoint and Word to create simple presentations with transitions and animation.

ADVISORY: CAO 174D or equivalent.

Module B - Introduction to Excel basics to create simple spreadsheets, embed objects, and link objects.

ADVISORY: CAO 175A or equivalent.

Module C - Use Word to create and manage long documents. Introduction to Access basics to create databases, queries, and merge documents.

ADVISORY: CAO 175B or equivalent.

Module D - Use Word, PowerPoint, and Excel to create integrated, compound documents.

ADVISORY: CAO 175C or equivalent.

CAO 176ABC KEYBOARDING SPEED AND ACCURACY BUILDING

Lecture .75, Lab .75, Units 1 (each module)

This course gives the student an opportunity to build speed and accuracy on straight, rough draft, script, and statistical copy. Students will use a software program that diagnoses their keystroke speeds and assigns appropriate practice lessons for improvement.

Module A - **ADVISORY:** CAO 150B or equivalent.

Module B - **ADVISORY:** CAO 176A or equivalent.

Module C - **ADVISORY:** CAO 176B or equivalent.

CAO 177ABC DATA ENTRY

Lecture .75, Lab .75, Units 1 (each module)

This course is designed to teach the numeric keypad with speed and accuracy using industry standards for data entry. Proficiency on employment tests used by large interstate corporations helps the student meet workplace standards.

Module A - **ADVISORY:** CAO 150B or equivalent.

Module B - **ADVISORY:** CAO 177A or equivalent.

Module C - **ADVISORY:** CAO 177B or equivalent.

CAO 178ABC ELECTRONIC CALCULATOR

Lecture .75, Lab .75, Units 1 (each module)

This course trains students in the techniques, operation, and application of the ten-key electronic calculator for business problems and computations. The course is recommended for accounting students.

Module A - Techniques and operation; speed development.

ADVISORY: MAT 187B or equivalent.

Module B - Application to common business problems; speed development.

ADVISORY: CAO 178A or equivalent.

Module C - Application to advanced business problems; speed development.

ADVISORY: CAO 178B or equivalent.

CAO 180 BUSINESS ENGLISH

Lecture 4, Lab 0, Units 4

This course will focus on the English principles needed by today's successful business people and professionals. Students will study materials taken from the business world, especially word processing and business communications. Topics include sentence structure, parts of speech, punctuation, number usage, spelling, proofreading, capitalization, word division, and abbreviations.

CAO 181ABC BEGINNING MACHINE TRANSCRIPTION

Lecture .75, Lab .75, Units 1 (each module)

Students study and practice using transcription equipment and word processing software to develop the ability to produce accurate, correctly formatted transcripts of dictated office communications with an emphasis on proficiency in word usage and correct grammar.

Module A - Introduction to machine transcription.

Review of correct grammar and punctuation.

ADVISORY: CAO 173B or equivalent.

Module B - Introduction to business letters and memorandums.

ADVISORY: CAO 181A or equivalent.

Module C - Business letters and memorandums with special features.

ADVISORY: CAO 181B or equivalent.

CAO 184 FILING AND RECORDS MANAGEMENT

Lecture 3, Lab 2, Units 4

In this course, students will study fundamentals of indexing and filing, combining theory and practice by using a filing practice set. Study will also include alphabetic, numeric, geographic and subject filing, and the organization and management of an office records system.

CAO 185 OFFICE PROCEDURES*Lecture 4, Lab 0, Units 4*

This course is a survey and study of the role and responsibilities of the office employee. Students integrate the skills and knowledge gained in other office administration classes with additional topics including office communications, correspondence, administrative support, office organization, and automation.

ADVISORY: This course should be taken after all other CAO: Office Technology courses are completed.

CAO 190 GETTING ACQUAINTED WITH THE PERSONAL COMPUTER*Lecture 2, Lab 0, Units 2*

This course is a hands-on orientation to personal computers and the most widely used application, word processing. It is particularly tailored to those students who have had no prior computer experience and provides a slower pace than the introductory course, CAO 151. Topics will include starting and stopping a computer, general kinds of hardware and software, getting started with the operating system, a general use of a word processing package and basic use of e-mail.

REPEATABILITY: May be repeated 2 times.

CAO 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

CAO 192A HOW TO MANAGE YOUR FILES USING WINDOWS*Lecture .25, Lab 0, Units .25*

This course will provide an overview of how to manage files using Microsoft Windows to create folders and to copy, move, rename, and delete files.

REPEATABILITY: May be repeated 2 times.

NOTE: Non-Degree Applicable course.

CAO 192B HOW TO CREATE AN ACCESS DATABASE*Lecture .25, Lab 0, Units .25*

This course will provide an overview of how to set up and maintain a database table in Access.

ADVISORY: Basic knowledge of Microsoft Windows.

REPEATABILITY: May be repeated 2 times.

NOTE: Non-Degree Applicable course.

CAO 192C HOW TO CREATE A REPORT IN ACCESS*Lecture .25, Lab 0, Units .25*

This course will provide an overview of the process of creating and formatting custom reports from data stored in an Access database.

ADVISORY: CAO 192B or basic knowledge of Access.

REPEATABILITY: May be repeated 2 times.

NOTE: Non-Degree Applicable course.

CAO 192D HOW TO CREATE AN EXCEL SPREADSHEET*Lecture .25, Lab 0, Units .25*

This course will provide an overview of how to enter and edit data in Excel.

ADVISORY: Basic knowledge of Microsoft Windows.

REPEATABILITY: May be repeated 2 times.

NOTE: Non-Degree Applicable course.

CAO 192E HOW TO WORK WITH EXCEL FORMULAS*Lecture .25, Lab 0, Units .25*

This course will provide an overview of how to set up and generate formulas in Excel.

ADVISORY: CAO 192D or basic knowledge of Excel.

REPEATABILITY: May be repeated 2 times.

NOTE: Non-Degree Applicable course.

CAO 192F HOW TO CREATE A POWERPOINT PRESENTATION*Lecture .25, Lab 0, Units .25*

This beginning course will provide an overview of how to use text and graphics to create a PowerPoint slide show that can enhance a presentation one would need to make in front of a group.

ADVISORY: Basic knowledge of Microsoft Windows.

REPEATABILITY: May be repeated 2 times.

NOTE: Non-Degree Applicable course.

CAO 192G HOW TO ANIMATE YOUR POWERPOINT PRESENTATION*Lecture .25, Lab 0, Units .25*

This course will provide an overview of how to add, animate, and sequence graphics in PowerPoint.

ADVISORY: CAO 192F or basic knowledge of PowerPoint.

REPEATABILITY: May be repeated 2 times.

NOTE: Non-Degree Applicable course.

CAO 192H HOW TO CREATE LETTERS AND MEMOS USING WORD*Lecture .25, Lab 0, Units .25*

This course will provide an overview of how to use word wrap, fonts, alignment, and formatting features to create business letters and memos using Microsoft Word.

ADVISORY: Basic keyboarding skills.

REPEATABILITY: May be repeated 2 times.

NOTE: Non-Degree Applicable course.

CAO 192J HOW TO CREATE A REPORT USING WORD*Lecture .25, Lab 0, Units .25*

Learn proper formatting for a multi-page report and cover page using Word features: page numbering, line spacing, headers and footers, margins, page breaks, and custom tabs.

ADVISORY: CAO 192H or basic knowledge of word processing.

REPEATABILITY: May be repeated 2 times.

NOTE: Non-Degree Applicable course.

CAO 192K INTRODUCTION TO COMPUTER KEYBOARDING*Lecture .25, Lab 0, Units .25*

This course will introduce students to the functions of the computer, using the mouse properly, and using the touch method of computer keyboarding.

NOTE: Non-Degree Applicable course.

CAO 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

CAO 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

COMPUTER AND INFORMATION SCIENCES

A.A. DEGREE

The A.A. degree is offered in the field of Computer and Information Sciences - Web Development. For major requirements, see page 62.

CERTIFICATE OF ACHIEVEMENT

The Certificate of Achievement is offered in the field of Computer Information Sciences - Web Development. For requirements, see page 84.

CIS 100 WEB PUBLISHING USING AUTHORING SOFTWARE*Lecture 3, Lab 2, Units 4*

This is an introductory course in developing web sites using web authoring software. Topics include designing and creating web sites with hyperlinks, graphics, lists, tables, styles, and more. Students will learn about the web development process from start to finish.

Transfers to CSU, UNR

ADVISORY: CIS 150 or equivalent and CAO 151 or equivalent.

REPEATABILITY: May be repeated 1 time.

CIS 101 GRAPHICS FOR THE WEB*Lecture 3, Lab 2, Units 4*

This is an introductory course in designing graphics for a web site using a web graphics software package. Topics include the software environment, software tools for editing graphics, characteristics of the web medium, page layout, slicing, optimizing, and exporting. Basic (art) design principles will be introduced.

Transfers to CSU, UNR

ADVISORY: CIS 100 or equivalent.

REPEATABILITY: May be repeated 1 time.

CIS 102 ANIMATION FOR THE WEB*Lecture 3, Lab 2, Units 4*

This course is an introduction to creating, editing, and publishing animations for web sites. This course will cover the use of an animation application program for developing buttons, images, animations, video, and interactive interfaces for web sites.

Transfers to CSU, UNR

ADVISORY: CIS 100 or equivalent.

REPEATABILITY: May be repeated 1 time.

CIS 112 WEB PUBLISHING*Lecture 3, Lab 2, Units 4*

This is a comprehensive course in using HTML to design and create a Web site. Topics include Web site design and the creation of Web pages using HTML tags to include hyperlinks, lists, tables, color, graphics, image maps, forms, cascading style sheets, and multimedia.

Transfers to CSU, UNR

ADVISORY: CIS 150 or equivalent.

CIS 113 CLIENT-SIDE SCRIPTING USING JAVASCRIPT AND DYNAMIC HTML*Lecture 3, Lab 2, Units 4*

This is an advanced course in developing Web pages using client-side scripting techniques with JavaScript and Dynamic HTML. Topics include sending output to a Web page, working with variables and data, working with expressions and operators, JavaScript functions, conditional statements, loops, form validation, JavaScript objects, JavaScript events, dynamic page layout, and dynamic content and styles. Students will learn to organize and manage the web pages as a web site.

Transfers to CSU, UNR

ADVISORY: CIS 112 or equivalent.

CIS 114 DATA-DRIVEN WEB SITES*Lecture 3, Lab 2, Units 4*

This project-based course is an introduction to data-driven web sites. This course will examine established data-driven web sites, survey technologies used to create data-driven web sites, review basic database concepts, and introduce server-side scripting.

Transfers to CSU, UNR

ADVISORY: CIS 112 or equivalent.

REPEATABILITY: May be repeated 1 time.

CIS 115 CURRENT TECHNOLOGIES IN WEB DEVELOPMENT*Lecture 2, Lab 2, Units 3*

This capstone course is designed to give students the knowledge and experience of researching emerging web technologies. This is a seminar course in which students will be responsible for researching and presenting current topics in web development. Students will also develop a personal web portfolio as a class project.

Transfers to CSU, UNR

ADVISORY: CIS 100, 101, 112, and ART 111.

REPEATABILITY: May be repeated 1 time.

CIS 120A COMPUTER PROGRAMMING I*Lecture 3, Lab 2, Units 4*

This is the first course in computer programming for computer science, information systems, science or engineering majors. The course covers proper programming structure and style. Topics covered include algorithm development, control structures, subprograms and functions, parameter passing and data types. Students write numerous programs in a high-level programming language.

Transfers to CSU, UNR, UC

PREREQUISITE: MAT 154A or 154AA with a grade of "C" or better or appropriate skills (co-enrollment allowed).

ADVISORY: CAO 110 or 152A or equivalent knowledge of Windows.

CIS 120B COMPUTER PROGRAMMING II*Lecture 3, Lab 2, Units 4*

This is a second course in computer programming for computer science, information systems, science or engineering majors. Topics will build upon those covered in CIS 120A as well as include software engineering principles, development of efficient algorithms, and the design and selection of appropriate classes. Students will study the principles and use of object-oriented programming.

Transfers to CSU, UNR, UC

PREREQUISITE: CIS 120A with a grade of "C" or better or equivalent.

CIS 120C COMPUTER PROGRAMMING III*Lecture 3, Lab 2, Units 4*

This is a third course in computer programming for computer science, information systems, science or engineering majors. The topics build upon those covered in CIS 120B. The course covers the principles and use of object-oriented programming. Students will study searching, sorting, and the relative efficiencies algorithms implementing these tasks. Students will study recursively implemented algorithms, lists, stacks, queues, and trees together with further study of abstract data types. Students will complete a large programming project.

Transfers to CSU, UNR, UC

PREREQUISITE: CIS 120B with a grade of "C" or better or equivalent.

CIS 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

CIS 132 OCCUPATIONAL WORK EXPERIENCE*Lecture 0, Lab 0, Units 1-6*

Occupational Work Experience is for students who are employed in jobs related to their educational or occupational goals. This program extends knowledge gained in the classroom to the workplace, helps students identify new and challenging objectives at work, and encourages professional growth and advancement.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

CIS 133 OCCUPATIONAL WORK EXPERIENCE - INTERNSHIP*Lecture 0, Lab 0, Units 1-6*

Occupational Work Experience Internship is supervised placement at a worksite related to the student's educational or occupational goals. The program will assist students in acquiring desirable work experience, attitudes, and awareness of career opportunities in their chosen field of study.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

CIS 150 INTRODUCTION TO THE INTERNET*Lecture 2, Lab 0, Units 2*

This is an introductory course in understanding and accessing the Internet. Topics include computer networks, browsers, electronic mail, search engines, evaluating information on the Internet, FTP and telnet, and the history and use of World Wide Web. Students will learn to send and receive electronic mail and will learn how to use Web browser software to search the Web.

ADVISORY: CAO 152A or equivalent.

REPEATABILITY: May be repeated 2 times.

CIS 151 INTRODUCTION TO WEB PUBLISHING*Lecture 2, Lab 0, Units 2*

This is an introductory course in developing web pages using web authoring software. Topics include designing and creating web pages with hyperlinks, graphics, lists, and tables. Students will learn to organize and manage the web pages as a web site.

ADVISORY: CIS 150 or equivalent.

REPEATABILITY: May be repeated 2 times.

CIS 152 ELECTRONIC (INTERNET) STOREFRONT DEVELOPMENT*Lecture 2, Lab 0, Units 2*

This course will prepare students to develop and maintain an Internet online storefront. Students will learn to list products and services for sale and set up an automated merchant system that will process transactions without human intervention.

ADVISORY: Familiarity with Windows and web navigation and usage.

CIS 160 INTRODUCTION TO COMPUTER HARDWARE*Lecture 2, Lab 0, Units 2*

This course teaches students how computer components operate a PC, and how to specify, install and configure computer hardware.

ADVISORY: CAO 152A or equivalent.

REPEATABILITY: May be repeated 2 times.

CIS 162 HOW A COMPUTER WORKS*Lecture 2, Lab 0, Units 2*

This course is a practical examination of how a computer operates. Students will examine its construction by disassembling and reassembling a computer. Students will learn the way functions are layered and learn the roles of the hardware, BIOS, operating system, and device drivers.

ADVISORY: Familiarity with Microsoft Windows.

REPEATABILITY: May be repeated 2 times.

CIS 164 WIRELESS NETWORKING FOR HOME OR SMALL OFFICE*Lecture 2, Lab 0, Units 2*

In this course, students will learn the theory of wireless networking and how to set up and configure a wireless network.

ADVISORY: Familiarity with Microsoft Windows.

CIS 165A MICROCOMPUTER TECHNICIAN I – OPERATING SYSTEMS*Lecture 4, Lab 0, Units 4*

This course is designed to give students basic knowledge and skills necessary to gain an entry-level position in computer repair and maintenance. This section covers the Windows 95-98 and Windows 2000 Operating Systems: functions and structure, managing files and directories, and running programs. The course will also include the installation, configuration, and upgrading of these operating systems. This course is a companion to CIS 165B Microcomputer Technician I — Hardware and both are part of a sequence.

ADVISORY: Concurrent enrollment in CIS 165B.

CIS 165B MICROCOMPUTER TECHNICIAN I – HARDWARE*Lecture 4, Lab 0, Units 4*

This course is part of a two-part sequence that prepares the student for an entry-level job as a computer repair technician, and to pass the hardware portion of the COMPTIA A+ Certification Exam. In this course, students learn about computer hardware - the parts inside a computer and the peripherals that connect to it - and become knowledgeable in hardware specification, installation, and troubleshooting. This course is a companion to CIS 165A Microcomputer Technician I - Operating Systems and both are part of a series.

ADVISORY: Concurrent enrollment in CIS 165A.

CIS 166A MICROCOMPUTER TECHNICIAN II – OPERATING SYSTEMS*Lecture 4, Lab 0, Units 4*

This course is designed to give students basic knowledge and skills necessary to gain an entry-level position in computer repair and maintenance. This section covers the Windows 2000 and Windows XP Operating Systems: functions and structure, managing files and directories, and running programs. The course will also include the installation, configuration, and upgrading of these operating systems. This is a continuation of CIS 165A and is a companion to CIS 166B Microcomputer Technician II — Hardware. Both courses are part of a series.

ADVISORY: Successful completion of CIS 165A is highly recommended. Concurrent enrollment in CIS 166B is highly recommended.

CIS 166B MICROCOMPUTER TECHNICIAN II – HARDWARE*Lecture 4, Lab 0, Units 4*

This course is the second part of a two-quarter course that prepares students for an entry-level job as a computer repair technician and to pass the hardware portion of the COMPTIA A+ Certification Exam. In this course, students learn about computer hardware - the parts inside a computer and the peripherals that connect to it - and become knowledgeable in hardware specification, installation, and troubleshooting. This course is a companion to CIS 166A Microcomputer Technician II - Operating Systems and both are part of a series.

ADVISORY: Successful completion of CIS 165B is highly recommended. Concurrent enrollment in CIS 166A is highly recommended.

CIS 166C MICROCOMPUTER TECHNICIAN III – OPERATING SYSTEMS*Lecture 4, Lab 0, Units 4*

This course is designed to give students basic knowledge and skills necessary to gain an entry-level position in computer repair and maintenance. This section covers the Windows 2000 and Windows XP Operating Systems: functions and structure, managing files and directories, and running programs. The course also includes the installation, configuration, and upgrading of these operating systems. This is a continuation of CIS 166A Microcomputer Technician II - Operating Systems.

ADVISORY: Successful completion of CIS 166A and 166B is highly recommended. Successful completion of CIS 166A and 166B is highly recommended.

CIS 170 INTRODUCTION TO COMPUTER NETWORKS*Lecture 2, Lab 0, Units 2*

This course provides students with an overview of LAN and WAN operations. Students will learn how to specify, build and use small Ethernet networks.

ADVISORY: CAO 152A or equivalent.

REPEATABILITY: May be repeated 2 times.

CIS 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

CIS 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

CIS 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

CONSTRUCTION TRADES

CNT 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

CNT 132 OCCUPATIONAL WORK EXPERIENCE

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience is for students who are employed in jobs related to their educational or occupational goals. This program extends knowledge gained in the classroom to the workplace, helps students identify new and challenging objectives at work, and encourages professional growth and advancement.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

CNT 133 OCCUPATIONAL WORK EXPERIENCE – INTERNSHIP

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience Internship is supervised placement at a worksite related to the student's educational or occupational goals. The program will assist students in acquiring desirable work experience, attitudes, and awareness of career opportunities in their chosen field of study.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

CNT 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

CNT 231 SPECIAL PROJECTS

Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

COUNSELING

A.A. DEGREE

An A.A. degree is offered in the field of Addiction Studies. For major requirements, see page 57.

CERTIFICATE OF ACHIEVEMENT

A Certificate of Achievement is offered in the field of Addiction Studies. For requirements, see page 80.

COU 101 CAREER EXPLORATION

Lecture 2, Lab 0, Units 2

This course provides a structured approach to career and educational planning focusing on assessment of interests, abilities, values, and personality type. Topics include research of occupational opportunities in the world of work and exploration of career decision making styles and strategies. The course is designed for those unclear about their career and educational plans.

Transfers CSU, UNR

COU 102 COLLEGE SUCCESS

Lecture 2, Lab 0, Units 2

This course is designed to provide students with the knowledge and skills for academic success in college. This course will include topics such as basic study skills, college life and requirements; an introduction to the services, programs and individuals available to assist students at the two-year college level; academic policies; development of an individual educational plan; and post-secondary educational systems. Also included in the course is a critical thinking component that will emphasize an understanding and ability to use critical thinking skills through written and verbal communication.

Transfers to CSU, UNR, UC

COU 109 INTRODUCTION TO COUNSELING

Lecture 4, Lab 0, Units 4

This course covers an introduction to major theoretical approaches to counseling and counseling techniques. Students will become familiar with the foundational theories behind counseling approaches. They will develop a working knowledge of the critical components of the counseling relationship, basic listening, interviewing and counseling skills, and ethical issues in counseling. Role-playing exercises will be utilized in class to demonstrate and practice counseling skills. Students will learn the importance of developing a counseling approach that matches their personal style.

Transfers to CSU, UNR

COU 111 CRISIS COUNSELING

Lecture 5, Lab 0, Units 5

This course is designed to teach students the fundamentals of crisis intervention techniques. Students will learn techniques of active listening skills, methods of identifying and responding to calls, crisis intervention response procedures at the hospital and with law enforcement, the importance of social service resources, and issues related to the criminal justice system. This course will focus primarily on the dynamics and effects of domestic violence, sexual assault, and child abuse.

Transfers to CSU, UNR

COU 120 INTRODUCTION TO ALCOHOL AND DRUG STUDIES

Lecture 4, Lab 0, Units 4

This is an introductory course for persons interested in any area of human services who wish to increase their knowledge of substance abuse (including alcohol) in our society. This course will cover various theories of substance abuse and alcoholism, identification signs, and symptomology. Treatment resources will be examined and myths of use will be dispelled. Students will learn a pragmatic approach to working with the using population.

Transfers to CSU, UNR

COU 121 THE PHYSICAL, CHEMICAL, AND BEHAVIORAL EFFECTS OF ALCOHOL AND DRUGS

Lecture 4, Lab 0, Units 4

This course provides a comprehensive examination of how drugs are metabolized, as well as their effects on the central nervous system and on behavior. Additional topics include the addiction process, the dynamics of tolerance and withdrawal, the medical consequences of alcohol and drug abuse, fetal alcohol syndrome, effects on human sexuality, and the nutritional aspects in both the active phases of chemical dependence and in recovery.

Transfers to CSU, UNR

COU 122 REHABILITATION AND RECOVERY FROM ALCOHOL AND DRUG ABUSE

Lecture 4, Lab 0, Units 4

This course provides the knowledge and skills required to help chemically dependent clients in their treatment and recovery from alcohol and drug abuse. Topics covered include techniques for client assessment and evaluation, treatment planning, case management, aftercare and relapse prevention, detoxification, twelve-step support groups, and therapeutic communities. Group, individual, and family therapy models of counseling are introduced and diversity issues in chemically dependent clients and legal and ethical issues are included. Students will be challenged to examine their existing ideas about dependency disorders and will conduct mock interviews with recovering people.

Transfers to CSU, UNR

COU 123 ALCOHOL AND DRUG PREVENTION AND EDUCATION

Lecture 4, Lab 0, Units 4

This course reviews the history, theories, models, and state-of-the-art approaches to the addiction prevention field. Additional topics include prevention programs; activities appropriate for the individual, community, campus, parent/family and work site; public policies and media/information-dissemination; ethnic and cultural specific approaches; and environmental risk reduction.

Transfers to CSU, UNR

COU 124 GROUP LEADERSHIP AND PROCESS

Lecture 4, Lab 0, Units 4

This course provides an intensive introduction to the experience of group therapy with emphasis on leader facilitation skills and analysis of group dynamics. Students will learn the fundamentals of group leadership by examining problems of communication, trust building, effective emotional responses, professional boundaries and personal growth. The emphasis will be on the group process as a means of changing behavior and attitude.

Transfers to CSU, UNR

COU 125 COUNSELING THE FAMILY OF ADDICTED PERSONS

Lecture 4, Lab 0, Units 4

This course examines methods of assisting significant others whose lives are affected by addiction. The profile of addicted persons and dynamics such as denial, codependency, and enabling on the part of family, employer, and friends will be covered. Intervention and treatment skills in counseling families are learned and practiced through class exercises.

Transfers to CSU, UNR

COU 126 INTERVENTION AND REFERRAL TECHNIQUES

Lecture 4, Lab 0, Units 4

This course is designed to introduce the student to the theory, purpose, and application of the formal intervention process as a tool for treating the chemically dependent client. Topics covered include crisis intervention, treatment planning, securing resources for clients, record documentation, screening, data collection, implementation of treatment plans, and aftercare.

Transfers to CSU, UNR

COU 127 DUAL DISORDERS AND MENTAL HEALTH ISSUES

Lecture 4, Lab 0, Units 4

This course provides counseling techniques appropriate for paraprofessionals in mental health, corrections, and substance abuse counseling. Students integrate the often divergent philosophies of mental health and substance abuse treatment towards the development of an integrated treatment approach. Students will be presented with mental health approaches that are effective with substance abusing clients and substance abuse approaches that are effective with mentally ill clients.

Transfers to CSU, UNR

COU 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

COU 132 OCCUPATIONAL WORK EXPERIENCE

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience is for students who are employed in jobs related to their educational or occupational goals. This program extends knowledge gained in the classroom to the workplace, helps students identify new and challenging objectives at work, and encourages professional growth and advancement.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

COU 133 OCCUPATIONAL WORK EXPERIENCE - INTERNSHIP

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience Internship is supervised placement at a worksite related to the student's educational or occupational goals. The program will assist students in acquiring desirable work experience, attitudes, and awareness of career opportunities in their chosen field of study.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

COU 134 ADDICTION STUDIES FIELD WORK - INTERNSHIP

Units 3

This course is a supervised placement in an agency providing services to chemically dependent clients. Students apply and integrate the values, knowledge, and skills learned in the classroom through direct experience in the area of counseling and chemical dependency. Special attention to the California Association of Alcoholism and Drug Abuse Counselors (CAADAC) and the California Association of Alcohol and Drug Educators (CAADE) required experiences of counseling will be addressed.

NOTE: In addition to other course requirements, students will be expected to complete at least 120 hours of volunteer work or 150 hours of paid employment.

Transfers to CSU

PREREQUISITE: COU 109, COU 120 or 121, COU 122, COU 124, and COU 126 with a grade of "C" or better or equivalent.

REPEATABILITY: May be repeated 2 times.

COU 154 SUMMER BRIDGE

Lecture 1.25, Lab 0, Units 1.25

This course is designed to introduce recent high school graduates to college and provide them with an opportunity to learn and adopt methods to promote their academic success. The course will include topics such as understanding the college environment, various services and programs to assist students, academic expectations and requirements, educational planning, career and transfer planning, critical thinking, and study skills.

COU 170 INTRODUCTION AND OVERVIEW OF ADOLESCENT SERVICES

Lecture 2, Lab 0, Units 2

This course is designed for child care professionals and others who work with or are interested in working with troubled adolescents. This course will focus on an overview of the child protective systems, access to education and health services available to teenagers, age appropriate child development, and caring for challenging children.

COU 171 ADVANCED ADOLESCENT TREATMENT

Lecture 2, Lab 0, Units 2

This course is designed for professionals and others who work with or are interested in working with troubled adolescents. This course will focus on how to plan treatment and provide counseling for teenagers with substance abuse and behavior disorders. Additionally, this course will provide students with a working knowledge of how to aid parents and other family members with a troubled teenager.

ADVISORY: COU 170 or equivalent.

COU 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

COU 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

COU 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

CRIMINAL JUSTICE

A.A. DEGREE

An A.A. Degree is offered in the field of Criminal Justice. For major requirements and areas of concentration, see page 63.

CERTIFICATE OF ACHIEVEMENT

A Certificate of Achievement is offered in the field of Criminal Justice. For requirements and areas of concentration, see page 84.

THE FOLLOWING COURSES IN THIS SUBJECT AREA MAY BE CHALLENGED: CRJ 101, 102, 103, 104, 105, 110.

CRJ 101 INTRODUCTION TO CRIMINAL JUSTICE

Lecture 4, Lab 0, Units 4

This course examines the history and philosophy of justice as it has evolved in American and English systems. The course includes an in-depth study of the various criminal justice sub-systems, roles and expectations of criminal justice agents and their societal interrelationships, concepts of crime causation, punishment and rehabilitation, ethics, and education and training for criminal justice professionals. This course orients the student regarding potential career opportunities in criminal justice and provides a sound foundational knowledge of the legal and criminal justice systems. The student will be exposed to an overview of the criminal justice system including laws, procedures, courtroom hearings, sentencing, and corrections.

Transfers to CSU, UNR, UC

CRJ 102 CRIMINAL LAW

Lecture 4, Lab 0, Units 4

This course focuses on crimes against persons, property, and society. It examines the historical development and philosophy of criminal law. Topics covered include legal definitions, classifications of crimes and their applications to the system of administration of justice, legal research, review of case law, methodology and the concept of law as a social force. A review of constitutional provisions of law as they integrate with fundamentals of state law is provided.

Transfers to CSU, UNR, UC

CRJ 103 INTRODUCTION TO EVIDENCE

Lecture 4, Lab 0, Units 4

This course explores the origin, development, philosophy and constitutional basis of evidence. Topics covered include constitutional and procedural considerations affecting arrest, search and seizure, the right to counsel, self-incrimination, the concepts of relevance and types of evidence, and rules governing admissibility. This course will also examine judicial decisions interpreting individual rights and case studies on a conceptual level.

Transfers to CSU, UNR

CRJ 104 CRIMINAL PROCEDURES

Lecture 4, Lab 0, Units 4

This course covers the identification and discussion of Constitutional rights relating to legal processes including pre-arrest, arrest through trial, sentencing, appeal and correctional procedures. Additional topics include the history of case and common law, Miranda warnings, the difference between 6th amendment rights to counsel and court created rights identified in the Miranda case.

Transfers to CSU, UNR

CRJ 105 COMMUNITY AND HUMAN RELATIONS

Lecture 4, Lab 0, Units 4

This course examines the relationship of the criminal justice system, and specifically local law enforcement, to the community. The role of the peace officer is defined and methods for successful partnerships with the community are explored. Key topics are the concepts of Community Oriented Policing and Problem Solving (COPPS), future trends in police/community relations, and community expectations with regards to social contracts. Special emphasis is given to cultural diversity and the challenges presented by language barriers and social norms.

Transfers to CSU, UNR, UC

CRJ 107 POLICE FIELD OPERATIONS

Lecture 4, Lab 0, Units 4

This course surveys the history and development of patrol philosophy and Community Policing programs. The course examines functions of patrol, traffic and other preliminary investigative duties of the field officer and includes techniques for planning patrol activities, handling complaints and requests for services, and conducting field interviews, searches, and arrests. The course will also cover the handling of traffic-related problems, civil and domestic disturbances, and other community crime incidents.

Transfers to CSU, UNR

CRJ 108 JUVENILE LAW AND PROCEDURES

Lecture 4, Lab 0, Units 4

This course explores the history and philosophy of juvenile law and procedures in the United States. Topics include the nature of juvenile delinquency, its cause and correlates, as well as the current strategies being used to control or eliminate the occurrence of juvenile delinquency. Special emphasis is placed on techniques for handling juvenile offenders and victims and referral sources available in the community. This course includes a review of landmark legal cases, research studies, and policy initiatives related to juvenile law.

Transfers to CSU, UNR

CRJ 109 TRAFFIC LAW, ENFORCEMENT AND INVESTIGATION

Lecture 3, Lab 0, Units 3

This course provides an overview of traffic accident investigation. Students will learn how to interpret California Vehicle Code law and related case law. Additional topics include factual diagramming and sketching, skid identification, collision reconstruction, witness interviewing techniques, hit and run criminal investigation, DUI investigation, and the basics of traffic control.

Transfers to CSU, UNR

CRJ 110 INTRODUCTION TO CORRECTIONS

Lecture 4, Lab 0, Units 4

This course provides an overview of the history and trends of the corrections system in the United States. Topics covered include legal issues, general laws, and basic operations in correctional institutions. Students will learn about emerging issues in the field, such as prison and street gangs, institutional violence and riot control, and prisoners' rights. This course includes a tour of the local jail facility and a discussion of corrections as a career.

Transfers to CSU, UNR

CRJ 112 INTRODUCTION TO INVESTIGATION

Lecture 4, Lab 0, Units 4

This course introduces the student to the fundamentals of criminal investigations. Topics covered include techniques of crime scene search and recording, the collection and preservation of physical evidence, modus operandi processes, sources of information, techniques of interview and interrogation, and conducting follow-up investigations.

Transfers to CSU, UNR

ADVISORY: Actual crime scene photographs may be displayed for instructional purposes.

CRJ 113 INTRODUCTION TO PROBATION AND PAROLE

Lecture 4, Lab 0, Units 4

This course surveys the probation and parole system of the United States from its inception to the present. The course will examine different systems within the U.S. and focus on history and administration, executive clemency, intermediate punishments, rights of prisoners, probationers and parolees, and strategies for treatment and supervision.

Transfers to CSU, UNR

CRJ 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

CRJ 132 OCCUPATIONAL WORK EXPERIENCE*Lecture 0, Lab 0, Units 1-6*

Occupational Work Experience is for students who are employed in jobs related to their educational or occupational goals. This program extends knowledge gained in the classroom to the workplace, helps students identify new and challenging objectives at work, and encourages professional growth and advancement.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

CRJ 133 OCCUPATIONAL WORK EXPERIENCE - INTERNSHIP*Lecture 0, Lab 0, Units 1-6*

Occupational Work Experience Internship is supervised placement at a worksite related to the student's educational or occupational goals. The program will assist students in acquiring desirable work experience, attitudes, and awareness of career opportunities in their chosen field of study.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

CRJ 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

CRJ 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

CRJ 291 SPECIAL PROJECTS*Units 1-4*

CULINARY ARTS**A.A. DEGREE**

An A.A. Degree is offered in the field of Culinary Arts. For major requirements see page 63.

CERTIFICATES OF ACHIEVEMENT

A Certificate of Achievement is offered in the fields of Foundations of Cooking, Foundations of Baking and Pastry, Global Cuisine, and Wine Studies. For requirements, see pages 85-86.

CUL 101 INTRODUCTION TO THE CULINARY ARTS PROFESSION*Lecture 3, Lab 0, Units 3*

The purpose of this course is to survey the food service industry to broaden the students' perspective on what career options exist and to provide them with a solid understanding about the nature of this profession. Nearly half of this course will be made up of field trips and guest speakers. Students will be encouraged to formulate a career plan which will be developed progressively throughout their education or career. They will be introduced to the idea of interviewing and maintaining a personal portfolio/resume. Students will learn the expectations of the industry, and ways they can meet those expectations.

Transfers to CSU

CUL 102 PRINCIPLES AND PRACTICES OF BASIC FOOD PREPARATION*Lecture 2, Lab 6, Units 4*

This course will provide students with a comprehensive understanding of food and the processes of preparing food for human consumption. Included will be a survey of food itself: origins and history, categorization, selection, purchasing, and preservation. There is a special emphasis on the processing and fabricating of food and the specific processes of cooking. In the lab the student will apply the principles of cooking and food preparation that they learn in the lecture. The focus will be on the development of the rudimentary skills in food preparation and cooking that form the base for all further culinary classes and for ultimate success in the industry.

Transfers to CSU

CUL 103 FOOD SANITATION AND SAFETY*Lecture 2, Lab 0, Units 2*

This course covers the principles of storing, preparing, and serving food to insure that food is fit for human consumption. Students will study the importance of sanitary habits by food service personnel, causes of food borne illness and spoilage, public health practices, and managerial procedures to insure sanitary food for the public. Upon completion of the course, students will receive a Serv/Safe Certificate issued by the Educational Foundation of the National Restaurant Association. This certificate is recognized by the food service industry and the American Culinary Federation. This course satisfies a specific course requirement for the ACF American Culinary Federation's Cook Apprenticeship, and ACF Cook and Chef Certification.

Transfers to CSU

CUL 104 PRINCIPLES AND PRACTICES OF BAKING AND PASTRY ARTS

Lecture 2, Lab 6, Units 4

This course will introduce students to the principles and practices of baking and pastry arts. Understanding baking requires a more scientific approach than cooking; therefore, there will be greater emphasis on food chemistry and science and scientific experimentation. Students will learn the broad range of basic baked goods including breads, rolls, pies, cakes, and cookies as well as be introduced to the concept of pastry arts by making puddings, fillings, dessert sauces, icings, mousses, bavarians, and other pastry preparations. In the lab, students will apply the theory that they learn in the lecture to produce baked and pastry goods.

Transfers to CSU

CUL 106 PRINCIPLES AND PRACTICES OF INTERMEDIATE FOOD PREPARATION

Lecture 2, Lab 6, Units 4

This course will advance the principles and practices of food preparation introduced in CUL 102. More advanced processes of cooking and food preparation will be covered such as: butchery, stock and soup production, entree items, meat, poultry and seafood cookery, appetizers and hors d'oeuvres, and cold food preparations. Students will be encouraged to integrate these principles in the development of complete meals. Greater attention will be paid to the presentation of food, as well as to the nutritional and flavor considerations.

Transfers to CSU

ADVISORY: CUL 102 or equivalent.

CUL 110 INTRODUCTION TO THE BUSINESS OF CULINARY ARTS

Lecture 4, Lab 0, Units 4

The purpose of this course is to provide students with a sense of the largesse of the food service operations within which they may be employed. The goal is for students to understand how the business of the kitchen integrates with the business as a whole. This course will introduce students to the basic concepts of business operation such as accounting, developing a business plan, nutrition, sanitation, human relations, food costing, menu development, and purchasing which would be expanded upon should the students go forward with their education.

Transfers to CSU

CUL 114 PRINCIPLES AND PRACTICES OF INTERMEDIATE BAKING AND PASTRY ARTS

Lecture 2, Lab 6, Units 4

This course will provide the student with an intermediate knowledge of the principles and practices of baking and pastry arts. The information provided in this course will build upon a basic knowledge of baking and pastry. Students will learn about the range of more advanced and intricate baked goods including artisan and international breads and bread products, and more elaborate pastries and pastry products. There will be a continuation of learning about the basic baking and pastry items such as pies, cakes, and cookies as well as puddings, fillings, dessert sauces, icings, mousses, bavarians, and other pastry bases. In the lab, students will apply the theory that they learn in the lecture to produce more advanced baked and pastry goods. They will also gain skill in the evaluation of these products. This course has an orientation towards the production of baked and pastry goods in a food service operation.

Transfers to CSU

CUL 125 WINES OF THE WORLD

Lecture 3, Lab 0, Units 3

This course covers enology, the science of winemaking, and viticulture, which is the study of grape growing. The course will focus on the wines of France, Italy, Germany, Spain, Portugal, Greece, Australia, and New Zealand, from grape growing to wine appreciation. Pregnant women or persons with allergies to sulfites are advised not to take this course. Wine will be tasted. Students must be 21 years of age to enroll in this course.

Transfers to CSU

PREREQUISITE: Student must be 21 years or older.

CUL 127 WINES OF THE AMERICAS

Lecture 4, Lab 0, Units 4

This course will include the history of wine production in the Americas from early times to present day. Areas of concentration will include the East Coast, the Midwest, southeast and southwest, the Pacific Northwest, California, Canada, Mexico, and South America. Other topics of lecture and discussion will include the relationship of wine and food, storing and serving wine, purchasing wine and ordering wine in restaurants. Pregnant women or persons with allergies to sulfites are advised not to take this course. Wine will be tasted. Students must be 21 years of age to enroll in this course.

Transfers to CSU

PREREQUISITE: Student must be 21 years or older.

CUL 128 THE WINES OF CALIFORNIA

Lecture 3, Lab 0, Units 3

This course will be an in depth study of the wines of California. Students will explore the California wine industry with special emphasis on the different regions and specific quality wineries within those regions. As well, students will study the grape growing process and the differences in the areas for the growing of grapes in California. Students will sample many different varietals from all of the major wine regions of California. There will be extensive comparative tasting of the various wines. Pregnant women or persons with allergies to sulfites are advised not to take this course. Students must be 21 years of age to enroll in this course.

Transfers to CSU

PREREQUISITE: Student must be 21 years or older.

CUL 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

CUL 132 OCCUPATIONAL WORK EXPERIENCE

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience is for students who are employed in jobs related to their educational or occupational goals. This program extends knowledge gained in the classroom to the workplace, helps students identify new and challenging objectives at work, and encourages professional growth and advancement.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

CUL 133 OCCUPATIONAL WORK EXPERIENCE - INTERNSHIP

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience Internship is supervised placement at a worksite related to the student's educational or occupational goals. The program will assist students in acquiring desirable work experience, attitudes, and awareness of career opportunities in their chosen field of study.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

CUL 155 APPLIED MATH FOR CULINARY ARTS

Lecture 2, Lab 0, Units 2

The purpose of this course is to provide the culinary arts students with the basic principles of mathematics as they may be applied to the food service industry. Of particular importance are the basic arithmetic functions, weights and measures, percentages, fractions, the use of conversion factors, and simple problem solving. Problems and examples will be taken from the food service industry. The primary goal of this course is to help students obtain a depth of understanding of these concepts and functions that will allow them to freely apply these operations with accuracy.

CUL 161 FOOD SANITATION: SERVSAFE ESSENTIALS

Lecture .75, Lab 0, Units .75

This course is designed to provide a basic understanding of the requirements of the food service profession with regard to food safety and sanitation. This course satisfies the requirements of the State of California and the El Dorado County Department of Public Health for education and certification in sanitation and safe food handling. It serves as a refresher for renewal of certification. The successful student can receive certification from the National Restaurant Association Educational Foundation.

REPEATABILITY: May be repeated 2 times.

CUL 162A SIMPLY APPETIZERS

Lecture .5, Lab .25, Units .5

In this course, students will learn about a unique and interesting component to the meal: the appetizer. Appetizers have a special place in culinary arts because they serve a distinct purpose as a component of a meal while at the same time they can be utilized on their own for special parties and entertaining. Students will explore the history, categories and types, uses of, ingredients for, and preparation and comparative analysis of a wide variety of appetizers.

CUL 162B COOKING OF THE FALL: SOUPS, STEWS, AND CHILIES

Lecture .5, Lab 1, Units .75

In this course, students will learn different styles of soups, stews, and chilies in each of the three main categories and produce foods that are representative of those categories.

CUL 162C SOUPS FOR ALL SEASONS

Lecture .25, Lab .75, Units .5

This course is devoted to one particular area of culinary arts: soup and soup making. Students will learn about various types of soups and the ingredients that are used in soup making. The instructor will introduce the week's soups through a brief lecture which will orient the student to the recipes, the cooking methods, and the concepts behind soup making.

CUL 163A HOME COMFORT DESSERTS

Lecture .25, Lab .75, Units .5

This course explores the realm of the homestyle comfort desserts. The emphasis will be on easy-to-make but delicious desserts that the student can reproduce.

CUL 163B HIGH ALTITUDE AND EXPERIMENTAL BAKING

Lecture .5, Lab 1, Units .75

This course is designed to tackle the often difficult situation of baking at high altitude. It will explore the reasons for this phenomenon and provide the student with the knowledge and skill to succeed in baking at high altitude. In addition, this course will study experimental baking. Students will learn the problems that arise in baking - the reasons for the problems and the ways of fixing them as well as experimenting with different ingredients and methods in the creation of baked products.

CUL 163C RESTAURANT-STYLE DESSERTS

Lecture .5, Lab .75, Units .75

Students will learn how to prepare and present individually plated restaurant-style desserts. This course will cover the component preparations, how to assemble and present them for eye appeal, taste nuance combinations, and marketing possibilities. Learn how to prepare decorative additions to enhance the dining experience.

CUL 163D THE ART OF BAKING BREAD

Lecture .5, Lab 2.5, Units 1.25

This course will cover the basics of ingredients and how they interact to make a loaf of bread, special equipment and tools used in the baking of bread and rolls, the different types of breads, and the steps in producing quality breads and rolls. The student will also learn to differentiate between the various types and styles of bread and understand the characteristics that should exist in a good loaf of bread.

CUL 163E MAKING A GINGERBREAD HOUSE

Lecture .25, Lab .5, Units .5

In this course each student will design and build their own gingerbread house. They will learn how to bake the gingerbread, make the appropriate icing, and utilize various decorating techniques in the accomplishment of building their own gingerbread house.

CUL 163F COOKIE MASTERY

Lecture .25, Lab .5, Units .5

This course will explore all aspects of the cookie including its history, the various types of cookies, finishing, and decorating of cookies. Students will make a wide variety of different types and styles of cookies.

CUL 163G BREAKFAST BREADS AND PASTRIES

Lecture .25, Lab 1.5, Units .75

This course is an exploration of many of the sweet and savory breads and pastries that are so universally enjoyed during the breakfast period. The student will be introduced to the various types of products, the ingredients and methods necessary to produce them, and then create many of these delicacies.

CUL 164A VEGETARIAN CUISINE

Lecture .5, Lab 1.5, Units 1

This course is an introduction to vegetarian cuisine. Students will learn basic cooking and food preparation techniques, elements of nutrition as they relate to vegetarian cuisine, basic food science, how to make a variety of vegetarian dishes, and the philosophy and history of vegetarian cuisine.

CUL 164B PLANNING AND PREPARING A VEGAN BANQUET

Lecture .5, Lab .75, Units .75

This course introduces students to planning and serving a vegan banquet. Students will learn how to plan, cost, purchase food for, prepare, and serve a vegan banquet that is intended to feed a large number of guests.

CUL 165 A PASSION FOR CHOCOLATE

Lecture .25, Lab .75, Units .5

This course is an overall exploration of the essential culinary ingredient, chocolate. The history of chocolate is filled with mystery and passion. This course will be an intensive study of the properties, tastes, and uses of chocolate. Students will be introduced to the subject while gaining a comprehensive understanding of chocolate and its uses as a culinary ingredient.

CUL 166 SUMMER FOODS: SALADS, COLD SOUPS, GRILLING, AND FRUIT DESSERTS

Lecture .25, Lab .75, Units .5

This course explores the category of foods that are appropriate to produce and serve during summer. The course will focus on four categories: chilled soups, grilled foods, salads and dressings, and fruit desserts. Emphasis will be placed on proper food preparation techniques and the quality characteristics of summer produce and other foods. Every class session will include the production of foods from each of the four categories to create a complete meal.

CUL 167 INTRODUCTION TO ICE SCULPTURE

Lecture .25, Lab .5, Units .5

This course is an introduction to the principles and methods of beginning ice sculpture. Students will learn proper technique and the methodology for planning and executing an ice sculpture. Students will have the opportunity to get a feel for the ice with hands-on instruction.

ADVISORIES: Must be able to lift 25 lbs.

CUL 168 CAKE DECORATING

Lecture .25, Lab .75, Units .5

In this course students will learn the fundamentals of finishing and decorating cakes. This includes coverage of the variety of media used to do basic cake and pastry decorations including: cake coatings, frostings, glazes, borders, flowers, gels and icings for writing creatively on special occasion cakes, and the thematic approach to cakes.

CUL 169A THE FINE ART OF SUSHI MAKING I

Lecture .5, Lab .5, Units .75

Students will experience the Japanese art of Sushi. This course will cover the history and terminology of Sushi as well as ingredients, recipes, and customs. Emphasis will be placed on the proper handling and preservation of seafood. The creativity and appearance of the final product will be important.

ADVISORY: Women in late term pregnancy and people with seafood allergies are advised not to take this course.

CUL 169B THE FINE ART OF SUSHI MAKING II

Lecture .5, Lab .75, Units .75

Students will experience a more comprehensive and expanded approach to the Japanese art of Sushi. This course builds on what was learned in CUL 169A: The Fine Art of Sushi Making I, and will detail the history and terminology of sushi as well as ingredients, recipes, and custom. The creativity and appearance of the final product will be important as we progress in the development of skills and knowledge relating to the fine art of sushi making.

ADVISORY: This class is the second in a series. It is helpful to have CUL 169A first. Women in late term pregnancy and people with seafood allergies are advised not to take this course.

CUL 169C EXPLORING THE WORLD OF PIZZA

Lecture .25, Lab .75, Units .5

In this course, students will experiment with different crusts and the doughs used for crust, sauces, toppings, and styles of pizza and pizza-related products. Students will learn the history, source of origin, place in American society, and utilization of pizza. Students will produce, test, and evaluate the pizzas as a part of the course.

CUL 171 THE ART AND SCIENCE OF SAUCES AND SAUCEMAKING

Lecture .25, Lab .75, Units .5

This course will cover the basics of the different types of sauces and how they are made. The course will include classic French-style sauces, dessert sauces, cold sauces and dressings, and sauces for vegan and vegetarian cooking. Students will learn this through lecture and practice in the kitchen laboratory.

CUL 172A MIDDLE EASTERN CUISINE

Lecture .5, Lab .75, Units .75

This course is designed to provide a broader knowledge of a very specific global cuisine. Each week students will prepare foods from different Middle Eastern countries that will be combined into a meal that will be shared and evaluated. The instructor will introduce the week's menu through a brief lecture which will orient the student to the specific countries and their cuisines.

CUL 172B THE CUISINE OF INDIA

Lecture .5, Lab .75, Units .75

In this course, students will explore the various cuisines of India. Students will learn about the history, social context, religious aspects, and modern interpretations of Indian Cuisine - one of the oldest on the planet. In the laboratory, students will produce samosas, pakoras, flatbreads and Indian specialty breads, chutneys, raitas, curries, dhals, fresh cheese, and spice blends. Students will prepare meals that are representative of the main culinary regions of India.

CUL 172C MEXICAN REGIONAL CUISINE

Lecture .5, Lab .75, Units .75

In this course, students will explore the cuisines from the various regions of Mexico. Students will learn about the history, social context, religious aspects, and modern interpretations of Mexican cuisine, one of the most important to American cuisine and, particularly, to the birth of California cuisine. In the laboratory, students will produce representative dishes of each of the major regions of Mexico including Sonora, Chihuahua, Oaxaca, Veracruz, Puebla, Durango, Michoacan, Guerrero, Chiapas, Yucatan, and Jalisco. Students will prepare meals that are representative of these main culinary regions of Mexico.

CUL 172D FRENCH REGIONAL CUISINE*Lecture .5, Lab .75, Units .75*

This course will explore one of the world's great cuisines. Through lecture, cooking, and preparing food in the kitchen laboratory, students will gain experience with the primary food regions of France. The course will cover the most representative dishes of each of the main areas of France.

CUL 173A SAN FRANCISCO: FOOD MECCA*Lecture 2, Lab 0, Units 2*

This course will include an orientation and a field trip to the San Francisco Bay area with the specific purpose of studying what is considered one of the great food capitals of the world. Examples of the places that may be visited are the food shops in the restored Ferry Building, Chinatown, the Farmers Market, Josef Schmidt Chocolatier, Acme Breads, Zuni Cafe, Delfina Restaurant, Citizen Cake, North Beach, the Cliff House, Cowgirl Creamery, and Chez Panisse.

ADVISORY: Students will need to make arrangements for accommodations and transportation.

CUL 175A WINE AND CHEESE*Lecture .5, Lab 0, Units .5*

This course brings together two complex yet wonderful food items: wine and cheese. Students will be afforded the opportunity to gain a greater understanding of the characteristics of both wine and cheese, especially as it concerns the combining of the two. Students will taste and evaluate different types and styles of wines in combination with different cheeses.

PREREQUISITE: Students must be 21 years or older.

CUL 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

CUL 202 GLOBAL CUISINE*Lecture 2, Lab 6, Units 4*

This course will survey international, ethnic, and specialized cuisines in order to provide students with a global perspective. Students will study the countries and their cultures and perform an in-depth analysis of one country and its culture. Emphasis will be placed on the problem solving required in researching, preparing, and serving foods from around the world. In the lab, students will apply what they learn in lecture by preparing foods and classic dishes from each of these cultures.

Transfers to CSU

ADVISORY: CUL 102 or equivalent.

CUL 204 GARDE MANGER AND BUFFET CATERING*Lecture 1, Lab 6, Units 3*

The purpose of this course is to give the students advanced skills in the area of cold food preparation and display. The course will build upon the cold food preparation skills acquired in CUL 102 and 106. Additionally, students will be familiarized with the preparation and production of buffets and learn their importance to the food service industry. The appearance and presentation of food will be an emphasis in this course as well as the development of flavor in cold foods.

Transfers to CSU

CUL 206 PRINCIPLES AND PRACTICES OF ADVANCED FOOD PREPARATION*Lecture 1.5, Lab 7.5, Units 4*

This course will provide the students with advanced cooking techniques and principles. Students will delve more deeply into the classical repertoire of stocks, soups, sauces, a la carte cookery, international and ethnic cuisines, and other more advanced culinary preparations. Students will be encouraged to use creativity at this stage, developing some of their own dishes and recipes. The expectations for this course will culminate in the production of high quality meals.

Transfers to CSU

CUL 208 THE PRINCIPLES AND PRACTICES OF ADVANCED BAKING AND PASTRY ARTS*Lecture 2, Lab 6, Units 4*

The purpose of this course is to provide students with an advanced knowledge of the principles and practices of baking and pastry arts. Students will learn about the range of more advanced and intricate baked goods including artisan breads, French pastries, wedding cakes, candies, centerpieces, and other fine baked goods. There will be a continuation of learning about the basic baking and pastry items such as pies, cakes, and cookies as well as puddings, fillings, dessert sauces, icings, mousses, bavarians, and other pastry bases. In the lab, students will apply the theory that they learn in the lecture to produce advanced baked and pastry goods. This course has an orientation towards the production of baked and pastry goods in a food service operation.

Transfers to CSU

PREREQUISITE: CUL 114 or equivalent.

CUL 226 FOOD AND WINE*Lecture 4, Lab 0, Units 4*

This course is an in-depth analysis of the relationship between food and wine with special emphasis on food and wine pairing for home consumption and professional cooking. Other topics may include: cooking with wine; food and wine buying; ordering in restaurants; wine cellaring and serving; wine and health; and responsible drinking. Pregnant women or persons with allergies to sulfites are advised not to take this course. Wine will be tasted. Students must be 21 years of age to enroll in this course.

Transfers to CSU

PREREQUISITE: Student must be 21 years or older.

CUL 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

CUL 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

DANCE

DAN 101 INTRODUCTION TO DANCE

Lecture 2, Lab 2, Units 2.75

This course is an overview of the many styles and genres of dance. Students are presented with a variety of techniques and gain a basic physical competence level in several dance forms including ballet, tap, jazz, modern, ethnic, and musical theatre. Students will gain beginning performance experience by participating in a performance final at the end of the quarter.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

DAN 102A BEGINNING BALLET

Lecture 1, Lab 3, Units 2

This course introduces the student to elementary ballet theory and technique including barre, floor, and center work. The student will learn basic positions, poses, steps, jumps and turns, utilizing traditional French terminology. The student will gain an understanding and appreciation of his/her own unique body in relation to ballet as a classical art form.

Transfer to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

DAN 102B INTERMEDIATE BALLET

Lecture 1, Lab 3, Units 2

This course furthers the student's artistry and skill in classical ballet. The student will apply fundamentals of theory and technique with attention to musicality and style in the execution of intermediate level barre, floor, and center combinations. The student will gain fluency in the use of traditional French ballet terminology as well as an understanding and appreciation of his/her own unique body in relation to ballet as a classical art form.

Transfer CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

DAN 103A BEGINNING JAZZ DANCE

Lecture 1, Lab 3, Units 2

This course will focus on the fundamentals of jazz dance, encompassing theatre dance, music video and other contemporary dance styles. Through active participation in jazz techniques, students will learn the universal vocabulary of movement and terminology. Emphasis will be placed on rhythmic movement patterns, coordination, alignment, and performance. Students will become acquainted with jazz dance as a performing art.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

DAN 103B INTERMEDIATE JAZZ DANCE

Lecture 1, Lab 3, Units 2

This course will focus on an intermediate level of jazz dance technique. Longer combinations utilizing more intricate and stylized movement will be implemented in the warm-up, center work, and across-the-floor phases. Through active participation in jazz technique, students will learn the universal vocabulary of movement and terminology. Emphasis will be placed on furthering the technical level of students in various forms of jazz dance, theater dance, music video and other contemporary dance styles. Students will become acquainted with jazz dance as a performing art in our culture.

Transfers to CSU, UNR, UC

ADVISORY: DAN 103A or equivalent.

REPEATABILITY: May be repeated 5 times.

DAN 104A BEGINNING MODERN DANCE

Lecture 1, Lab 3, Units 2

This course introduces the student to contemporary dance as an expressive medium, building technical skills at the beginning level. Through active participation students explore fundamental movement principles and modern dance techniques. Structured improvisation and choreography allow the students to manipulate abstract ideas, and develop their creativity. The study of modern dance as an art form including history and theories of dance composition will also be incorporated.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

DAN 104B INTERMEDIATE MODERN DANCE

Lecture 1, Lab 3, Units 2

This course introduces the student to contemporary dance as an expressive medium, building technical skills at the intermediate level. Through active participation students explore longer movement combinations and more detailed spatial designs in the center work and across-the-floor phases. Structured improvisation and choreography allow the students to manipulate abstract ideas and develop their creativity. The study of modern dance as an art form including history and theories of dance composition will also be incorporated.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

DAN 105A BEGINNING TAP DANCE

Lecture 1, Lab 3, Units 2

This course introduces the student to elementary tap dance technique and application. The student will learn basic steps and rhythms. The student will gain understanding and appreciation of his/her own physical coordination and rhythmic sense in relation to tap dance as a traditional and contemporary performing art.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

DAN 105B INTERMEDIATE TAP DANCE

Lecture 1, Lab 3, Units 2

This course introduces the student to intermediate tap technique and application. The principles of beginning tap will be continued and developed. The student will gain an understanding and appreciation of his/her own physical coordination and rhythmic sense in relation to tap dance as a traditional and contemporary performing art.

Transfers to CSU, UNR, UC

ADVISORY: DAN 105A or equivalent

REPEATABILITY: May be repeated 5 times.

DAN 105D FUNK TAP

Lecture 1, Lab 2, Units 1.75

This course will introduce the student to funk and urban styles as they relate to tap. This course is designed to explore various rhythm tap styles. The student will learn basic tap techniques and how to apply them to urban choreography or use them alone to form rhythm patterns. Musical rhythm and themes will be analyzed as they relate to tap.

Transfers to CSU, UNR, UC

ADVISORY: DAN 105A or equivalent

REPEATABILITY: May be repeated 5 times.

DAN 106 FUNK/HIP HOP DANCE TECHNIQUES*Lecture 1, Lab 3, Units 2*

This course introduces the student to a variety of established and emerging street dance styles such as hip hop, funk, street jazz, locking, popping, old school, and break dancing. Students will gain an enhanced understanding of the historical cultural content of this ever-changing American dance form. Exploration of movement qualities and improvisation will be included, as well as basic rhythms and phrasing in listening and moving to hip hop/funk music.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

DAN 107A BEGINNING BALLROOM DANCE*Lecture .5, Lab .5, Units .75*

This course is designed to teach American social dance styles including, but not limited to the following dances: foxtrot, waltz, swing, cha-cha, 2-step, tango, rumba, and polka. Basic styling, rhythm, and partnering will be taught as well as the cultural and historical background on the evolution of these ballroom dance forms.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

DAN 107B INTERMEDIATE BALLROOM DANCE*Lecture .25, Lab .75, Units .5*

This course is designed to advance student's understanding of American social dance by expanding their repertoire of dance skills, steps, rhythms, and partnering techniques in additional selected forms of ballroom dance including but not limited to: merengue, schottisch, Viennese waltz, country line dance, and support partnering. Stylistic origins and modern transformations will be studied in their social and historical contexts.

Transfers to CSU, UNR, UC

ADVISORY: DAN 107A or equivalent.

REPEATABILITY: May be repeated 5 times.

DAN 108 MULTICULTURAL ETHNIC DANCE*Lecture 1, Lab 2, Units 1.75*

This course is for students who would like to experience selected world cultures through dance. Students will study the role of dance in society: consideration of style, historical background and religious, spiritual, and cultural influences. Emphasis on specific cultural dances will vary and may include Caribbean, African, Mexican, South American, European, and Asian.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

DAN 109A BEGINNING LATINO DANCE*Lecture .5, Lab .5, Units .75*

This course is designed to teach Latin dance styles including the following dances: Cha-cha, Merengue, Tango, La Salsa, Bachata, Rhumba, and Cumbia. Styling, rhythm, partnering, music, and ethnic costuming will be taught. The cultural and historical background on the evolution of these Latin dance forms will be introduced.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

DAN 109B INTERMEDIATE LATINO DANCE*Lecture .5, Lab .5, Units .75*

This course is designed to further enhance the student's understanding of Latin dance styles. The dances that will be explored include: Cha-cha, Merengue, Tango, La Salsa, Bachata, Rhumba, and Cumbia. Styling, rhythm, partnering, music, and ethnic costuming will be taught, as well as the cultural and historical background on the evolution of these Latin dance forms.

Transfers to CSU, UNR, UC

ADVISORY: DAN 109A or equivalent.

REPEATABILITY: May be repeated 5 times.

DAN 110A BEGINNING MIDDLE EASTERN DANCE*Lecture .5, Lab 1.5, Units 1*

This course emphasizes the social and stage dances from the region designated as the Near and Middle East. This course incorporates beginning choreography, improvisation, movement vocabulary and styling. Students will learn basic hip movements, undulations, shimmies, isolations, traveling steps, and combinations. Additional topics include the history and culture of tribal Middle Eastern dance as well as the costuming.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

DAN 110B INTERMEDIATE MIDDLE EASTERN DANCE*Lecture 1, Lab 2, Units 1.75*

This intermediate Middle Eastern dance course is for students who have already mastered the basics and desire to advance their skills. Emphasis is placed on presentation and performance. Additional topics include the history and culture of Middle Eastern dance as well as introduction to veil work and zills (finger cymbal rhythms.)

Transfers to CSU, UNR, UC

ADVISORY: DAN 110A or equivalent.

REPEATABILITY: May be repeated 5 times.

DAN 111 SWING/LINDY HOP*Lecture .5, Lab .5, Units .75*

This course focuses on instruction in steps, rhythms, and partnering techniques of Swing dance. Dynamics of improvisation, sequencing, and style will be explored through Lindy Hop "Jitterbug" and the modern style of East Coast Swing. Stylistic origins and modern transformations will be studied in their social and historical contexts.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

DAN 112A BEGINNING FLAMENCO DANCE*Lecture 1, Lab 2, Units 1.75*

This course will introduce students to the movement and music of flamenco dance and its cultural, historic, and geographic origins. This course provides students with the opportunity to develop coordination, rhythm, and performance skills. The history of flamenco dance will be introduced including cantos or flamenco song, music, instruments, and traditional and contemporary costuming.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

DAN 112B INTERMEDIATE FLAMENCO DANCE*Lecture 1, Lab 2, Units 1.75*

This course is for students who have mastered the basics of flamenco dance and wish to advance their skills at an intermediate level. Students will focus on more advanced presentation and performance skills utilizing castanets, fans, and shawl work. Students will learn how various cultures contributed to flamenco styles and rhythms, and the important relationship of song and classical guitar to this cultural art form.

Transfers to CSU, UNR, UC

ADVISORY: DAN 112A or equivalent.

REPEATABILITY: May be repeated 5 times.

DAN 113 BEGINNING COUNTRY DANCE*Lecture .5, Lab .5, Units .75*

This course is an introduction to Country Western dance and will provide students a basic foundation in skills, steps, turns, and partnering techniques necessary to perform in western/rock social dance routines for both line and couples dance. These dances include, but are not limited to: two-step, country swing, waltz, cowboy polka, cowboy cha-cha, and a variety of line dances.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

DAN 114A BEGINNING POLYNESIAN DANCE*Lecture .25, Lab .5, Units .5*

This course introduces the student to Polynesian dance with emphasis on Hawaiian hula and Tahitian ori. Students will learn basic Polynesian dance techniques, Polynesian culture, and will be able to perform a hula or ori by the end of the session.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times

DAN 114B INTERMEDIATE POLYNESIAN DANCE*Lecture .25, Lab .5, Units .5*

This intermediate Polynesian dance course is for students who have mastered the basics of Polynesian dance, and wish to advance their skills in Hawaiian hula and Tahitian ori at an intermediate level. Students will learn intermediate dance steps, hand, and hip motions. The history of Polynesian culture will also be studied. Performance skills will be emphasized. Students will dance in at least one performance.

Transfers to CSU, UNR, UC

ADVISORY: DAN 114A or equivalent.

REPEATABILITY: May be repeated 5 times

DAN 114C ADVANCED POLYNESIAN DANCE*Lecture .5, Lab .5, Units .75*

This course is designed for the advanced continuing study of Polynesian dance and its historical and cultural context. Emphasis is on performance skills, higher level dance technique, and student choreography for performance.

Transfers to CSU, UNR

ADVISORY: DAN 114B or equivalent.

REPEATABILITY: May be repeated 5 times

DAN 115 BEGINNING AFRO-CUBAN DANCE*Lecture .5, Lab 1, Units .75*

This course is designed for dancers of all levels who wish to explore and experience the world of Afro-Cuban dance, including history, music, and cultural traditions of Cuban folklore with an emphasis on Rhumba, Comparsa, Orisha, and Cabaret style.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

DAN 116A PILATES MAT WORK*Lecture .75, Lab 2.25, Units 1.5*

This course is designed to develop dance strength, flexibility, coordination, and balance for participants of all fitness levels, through a safe progression of challenging and functional exercises. Focus in this course will be on movement quality. Students will be introduced to the basic alignment concepts and core strength of the body via mat exercises evolved from the techniques developed by Joseph H. Pilates.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: DAN 116A and 116B may be taken for a combined total of 6 times.

DAN 116B INTERMEDIATE PILATES MAT WORK*Lecture .75, Lab 2.25, Units 1.5*

This course continues to explore the methods and techniques of Joseph H. Pilates. Emphasis will be placed on increasing stamina and endurance while mastering the intermediate level movements of pilates mat exercises. This course will focus on developing a sustained strengthening of the spine and torso while continuing to build muscular strength, flexibility, and balance. Students will build a strong mind/body connection utilizing the breath work and mat exercises in this course.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: DAN 116A or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: DAN 116A and 116B may be taken for a combined total of 6 times.

DAN 118A BEGINNING WEST COAST SWING*Lecture .5, Lab .5, Units .75*

This course will introduce the basics of West Coast Swing including footwork, styling, body movement, syncopations, and patterns. This dance is a partner dance derived from the 'Lindy Hop'. It is also commonly referred to as smooth style swing and is the California State dance. West Coast Swing allows for both partners to improvise steps while dancing together.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

DAN 118B INTERMEDIATE WEST COAST SWING*Lecture .5, Lab .5, Units .75*

This course will focus on intermediate level West Coast Swing steps, styling, body movement, syncopation, and patterns. Students will be provided with a variety of detailed swing patterns and techniques to strengthen their teamwork skills. Included in this course is the history of West Coast Swing, the footwork and patterns, and the music associated with this style of dance.

Transfers to CSU, UNR, UC

ADVISORY: DAN 118A or equivalent.

REPEATABILITY: May be repeated 5 times.

DAN 119 CONDITIONING FOR DANCERS*Lecture 1, Lab 2, Units 1.75*

This course will combine skills from dance and exercise for body conditioning. Dancers and non-dancers will strengthen the body's core while improving coordination, balance, alignment, flexibility, muscle endurance, and movement memory for greater technical ability and performance in all dance forms.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

DAN 120A BEGINNING CASINO RUEDA*Lecture .5, Lab .5, Units .75*

This course will introduce the student to Casino Rueda (Rueda de Casino), a Cuban Salsa, danced in a circle or 'wheel' with rapid exchanging of partners utilizing a variety of dance steps, patterns, and combinations. The leader of the group, the 'Cantante', gives the verbal commands as well as hand signals for the circle of dancers to follow. Students will learn and practice precise timing and teamwork while dancing to exciting Cuban Guaracha (Cuban Salsa) music and rhythms.

Transfers to CSU, UNR, UC

ADVISORY: DAN 109A or equivalent.

REPEATABILITY: May be repeated 5 times.

DAN 120B INTERMEDIATE CASINO RUEDA*Lecture .5, Lab .5, Units .75*

This course will focus on intermediate Casino Rueda steps, styling, partnering, combinations, and patterns. Students will further enhance their understanding of this Latin social dance and strengthen their technique and teamwork skills while dancing to Cuban Guaracha (Cuban Salsa) music and rhythms.

Transfers to CSU, UNR

ADVISORY: DAN 120A or equivalent.

REPEATABILITY: May be repeated 5 times.

DAN 121 STREET JAZZ*Lecture 1, Lab 2, Units 1.75*

This course introduces students to a style of dance known as street jazz. The course meshes stylized jazz dance with the contemporary street styles of funk and Hip Hop dance. Students will experience a visual art form that focuses on strength, style, attitude, and energy.

Transfers to CSU, UNR

REPEATABILITY: May be repeated 5 times.

DAN 122 MIDDLE EASTERN DANCE: FOCUS ON ZILLS (FINGER CYMBALS)*Lecture .75, Lab 1.25, Units 1.25*

This course will introduce students to zill (Sagat, finger cymbals) playing techniques and the most popular Arabic percussive rhythms and musical patterns. Students will learn how to incorporate basic zill techniques, rhythms and phrasing with Middle Eastern dance steps, movements and combinations. Elementary music theory will also be covered in this course.

Transfers to CSU, UNR

REPEATABILITY: May be repeated 5 times.

DAN 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

DAN 141 CHOREOGRAPHY*Lecture 2, Lab 2, Units 2.75*

This course covers basic elements of choreography and provides an opportunity to explore choreographic structure utilizing the concepts of time, space, design, and energy. Students will develop choreographic skills through dance movement phrasing, spatial design and relationships, rhythm, and theme development for solo and group compositions.

Transfers to CSU, UNR, UC

ADVISORY: DAN 102A or 103A or 104A or 105A or equivalent.

REPEATABILITY: May be repeated 5 times.

DAN 142 MUSICAL THEATRE DANCE*Lecture 2, Lab 2, Units 2.75*

This course will provide students with the opportunity to experience theatre dance and gain skills in musical theatre movement. Movement covered will include choreographed routines for musical theatre dance and basic group and partnering skills. There will be an opportunity for student choreography. When offered concurrently with a musical theatre production, participants will be actively involved in the performance.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

DAN 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

DAN 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

DAN 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

DIGITAL MEDIA ARTS

DMA 101 INTRODUCTION TO VIDEO EDITING: YOUTUBE TO HOLLYWOOD

Lecture 3 Lab 3, Units 4

This course is an introduction to the techniques used in video and film editing. From creating videos on YouTube to learning how to edit a feature length film, students will be exposed to theory and practice of the editing process. Practical applications for professional pathways will be discussed.

Transfers to CSU, UNR

DMA 111 INTRODUCTION TO ANIMATION

Lecture 3 Lab 3, Units 4

This course is an investigation into the artistic creation of movement on a frame by frame basis known as animation. Lectures will include demonstrations of different animation techniques, as well as historical and contemporary examples of professional animators who use those techniques. Students will gain an experiential knowledge of the breadth of classical and experimental animation techniques including hand-drawn, claymation, stop-motion, cut-outs, and paint-on-glass. Students will create and critique assignments using these techniques both individually and corporately, culminating in a final short film.

Transfers to CSU, UNR

REPEATABILITY: May be repeated 1 time.

DMA 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

DMA 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

DMA 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

DMA 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

EARLY CHILDHOOD EDUCATION

A.A. DEGREE

An A.A. Degree is offered in the field of Early Childhood Education. For major requirements, see page 64.

CERTIFICATE OF ACHIEVEMENT

A Certificate of Achievement is offered in the field of Early Childhood Education. For requirements, see page 86.

THE FOLLOWING COURSES IN THIS SUBJECT AREA MAY BE CHALLENGED: ECE 101, 102, 103.

ECE 100 HEALTH, SAFETY AND NUTRITION FOR YOUNG CHILDREN

Lecture 4, Lab 0, Units 4

This course is designed to provide the student with information about health, safety, and nutrition as it relates to young children. Students will learn about current health and safety issues for children in a variety of child care settings and how to implement safe and healthy practices and policies in these programs. Also included in this course are the various meal pattern requirements of state and federal child care food programs, feeding the challenging child, menu planning, and the relationship of nutrients to stages of growth and development.

Transfers to CSU, UNR

ECE 101 INTRODUCTION TO EARLY CHILDHOOD EDUCATION

Lecture 4, Lab 0, Units 4

This course is an introduction to essential themes, concepts, and skills related to early childhood education, including knowledge of history and traditions in the field; philosophical, psychological and social foundations of early childhood education; and ethical issues and standards of early childhood educators.

Transfers to CSU, UNR

ECE 102/PSY 102 CHILD AND ADOLESCENT DEVELOPMENT

Lecture 4, Lab 0, Units 4

This course is an introduction to the theoretical concepts and methodological approaches in child and adolescent development. Developmental processes through maturation and learning will be examined. Different theoretical perspectives (biological, cognitive, social, behavioral, emotional, and evolutionary) will be explored and relevant research discussed. This course is cross-listed with PSY 102.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

ECE 103 CHILD, FAMILY AND COMMUNITY

Lecture 4, Lab 0, Units 4

This course examines family living patterns and lifestyles in today's society. Topics include the diversity of family composition and interactions of family members and the factors affecting family life, child-rearing practices, family-school-community relationships and partnerships. Resources available within the school and community, as well as social services, health service, and recreational facilities within the community are explored.

Transfers to CSU, UNR, UC

ECE 109 CHILDREN'S LITERATURE*Lecture 4, Lab 0, Units 4*

This course is a survey of literature written for children. Topics include methods of selecting and evaluating books, practical skills to use literature in the classroom with focus on the presentation of activities, and techniques for effective storytelling. This course also includes strategies for incorporating and extending literacy-based activities across the curriculum.

Transfers to CSU, UNR

ECE 110 CURRICULUM DEVELOPMENT IN EARLY CHILDHOOD EDUCATION PROGRAMS*Lecture 4, Lab 0, Units 4*

This course presents an overview of knowledge and skills related to providing appropriate curriculum and environments for young children from birth to age six. Students will examine the teacher's role in supporting development and fostering the joy of learning for all young children using observation and assessment strategies emphasizing the essential role of play. An overview of content areas will include but not be limited to: language and literacy, social and emotional learning, sensory learning, art and creativity, math, and science.

Transfers to CSU, UNR

ADVISORY: ECE 101 or equivalent.

ECE 120 CREATIVE EXPERIENCES FOR YOUNG CHILDREN*Lecture 4, Lab 0, Units 4*

This course will introduce students to educational activities suitable for children in art, music, movement, literature, and drama. The course is designed for teachers, aides, parents, and people who provide care for children ages two through eight. Students will gain an enhanced understanding of the interrelationship between creative arts and the self.

Transfers to CSU, UNR

ADVISORY: ECE 101 or equivalent.

ECE 121 MATH AND SCIENCE EXPERIENCES FOR YOUNG CHILDREN*Lecture 4, Lab 0, Units 4*

This course is designed to introduce the student to math and science experiences for both the preschool and school-age child. It presents an organized, sequential approach to creating a developmentally appropriate math and science curriculum. Students will develop hands-on teaching aids that can be used in a classroom environment.

Transfers to CSU, UNR

ECE 125 POSITIVE CHILD GUIDANCE*Lecture 4, Lab 0, Units 4*

This course is intended for both parents and practitioners working with young children. Topics will address typical characteristics and needs of children as they proceed through chronological and developmental stages. This course provides a broad range of practical, effective, and flexible guidance strategies that are based on principles of straightforward communication and assertiveness.

Transfers to CSU, UNR

ECE 127 INFANTS AND TODDLERS: DEVELOPMENT AND CARE*Lecture 4, Lab 0, Units 4*

This course provides an overview of infant and toddler developmental theories. Topics include program development, curriculum implementation, principles of care giving, Title 22 program requirements, environmental design, observations and practical experiences in programs serving young children ages birth through three years. Students are required to complete an observation in the Early Childhood Education laboratory in the college's Child Development Center.

Transfers to CSU, UNR

ECE 128/BSN 128 PRINCIPLES OF SUPERVISION*Lecture 4, Lab 0, Units 4*

This course explores supervisory functions as they relate to the contemporary work environment. Students will discuss and analyze supervisory responsibilities and challenges in today's complex and culturally diverse workforce and variety of work environments. This course satisfies a specific course requirement for the American Culinary Federation Apprenticeship Program as well as for the California Children's Center Permit.

Transfers to CSU

ECE 129 THE EXCEPTIONAL CHILD*Lecture 4, Lab 0, Units 4*

This course presents the characteristics of exceptional children and will help students recognize and distinguish among various forms of special needs in children ages birth through eight years. It will introduce the student to a variety of techniques and curriculum designs; community resources, and current issues relating to the care and education of children with special needs.

Transfers to CSU, UNR

ECE 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

ECE 132 OCCUPATIONAL WORK EXPERIENCE*Lecture 0, Lab 0, Units 1-6*

Occupational Work Experience is for students who are employed in jobs related to their educational or occupational goals. This program extends knowledge gained in the classroom to the workplace, helps students identify new and challenging objectives at work, and encourages professional growth and advancement.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

ECE 133 OCCUPATIONAL WORK EXPERIENCE - INTERNSHIP

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience Internship is supervised placement at a worksite related to the student's educational or occupational goals. The program will assist students in acquiring desirable work experience, attitudes, and awareness of career opportunities in their chosen field of study.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

ECE 160A PARENTING: THE YOUNG CHILD AND THE FAMILY ENVIRONMENT

Lecture 1.5, Lab 0, Units 1.5

This course is designed for parents or caregivers of children ages two to five. Students will have the opportunity to discuss, explore, and learn more about how to be an effective parent/caregiver. Topics will include guidance and discipline, communication, developmental stages, and health and safety issues relating to young children.

REPEATABILITY: May be repeated 5 times.

NOTE: Non-Degree Applicable course.

ECE 160B PARENTING SKILLS: SIBLINGS AND THE FAMILY ENVIRONMENT

Lecture 1.5, Lab 0, Units 1.5

This course is focused on parenting multiple children in the family environment. Students will have the opportunity to discuss, explore, and learn more about how to be an effective parent/caregiver of siblings. Topics will include guidance and discipline, communication, developmental stages, and sibling relationships.

ADVISORY: ECE 160A

REPEATABILITY: May be repeated 5 times.

NOTE: Non-Degree Applicable course.

ECE 161A PARENT COOPERATIVE PRESCHOOL EDUCATION I

Lecture 1, Lab 3, Units 2

This course is intended for, but not limited to, parents of children enrolled in the Tahoe Parents Nursery School Cooperative Program. Presented in this course are a variety of topics including the physical, emotional, social and intellectual development of the young child, and ways in which parents can be involved in the learning process. Participation in the TPNS cooperative preschool is required.

REPEATABILITY: May be repeated 5 times.

ECE 161B PARENT COOPERATIVE PRESCHOOL EDUCATION II

Lecture 1, Lab 3, Units 2

In this course students will continue their participation in the Tahoe Parents Nursery School Program. Exploration and enhancement of classroom management skills will be facilitated. Topics will include guidance, observation skills, and classroom mentoring. Participation in the cooperative preschool is required.

ADVISORY: ECE 161A or equivalent.

REPEATABILITY: May be repeated 5 times.

ECE 170A - AA CHILD SUPERVISION AND MANAGEMENT OF IN-HOME CHILD CARE

Lecture .25, Lab 0, Units .25

This variable unit course is designed to allow the ECE department the opportunity to offer a variety of courses related to family day care which reflect student interest, community need and current trends in early childhood education. Each module will focus on a particular area and will include topics such as guidance and discipline, food and nutrition, family day care business practices, creative activities, and other relevant topics.

ECE 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

ECE 202 PRACTICUM IN EARLY CHILDHOOD PROGRAMS: FIELD EXPERIENCE

Lecture 3, Lab 3, Units 4

This course is a demonstration of developmentally appropriate early childhood teaching competencies under guided supervision. Students will utilize practical classroom experiences to make connections between theory and practice, develop professional behaviors and build a comprehensive understanding of children and families. Child centered, play-oriented approaches to teaching, learning, and assessments; and knowledge of curriculum content areas will be emphasized as student teachers design, implement, and evaluate experiences that promote positive development and learning for all children.

Transfers to CSU

PREREQUISITE: Current TB clearance.

ADVISORY: ECE 110 or equivalent.

ECE 203 ADMINISTRATION AND SUPERVISION OF EARLY CHILDHOOD PROGRAMS

Lecture 4, Lab 0, Units 4

This course is a study of California laws regulating and governing the licensing of child care and development programs for infants, toddlers, preschool and school-age children. It presents information on the start-up, daily operation, and administration of such programs, including the areas of staffing, program design, financial matters, facility planning and equipment purchasing.

Transfers to CSU, UNR

ADVISORY: ECE 101 and ECE 110 or equivalent.

ECE 204 EARLY CHILDHOOD ADMINISTRATION II - STAFF/PARENT/CHILD RELATIONSHIPS

Lecture 4, Lab 0, Units 4

This course presents principles, techniques, and methods emphasizing leadership and advocacy roles in the management of Child Development programs. Topics include effective strategies for working with parents, staff development and team building. Students will explore the advocacy roles of the center and of the community. It is designed to provide knowledge and methods for those working in supervisory capacities in early childhood programs.

Transfers to CSU, UNR

PREREQUISITE: ECE 203 with a grade of "C" or better or equivalent.

ECE 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

ECE 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

NON-CREDIT EARLY CHILDHOOD EDUCATION

ECE 550 PARENTING: THE YOUNG CHILD AND THE FAMILY ENVIRONMENT

Hours per week: 18

This course is designed for, but not limited to, parents or caregivers of children ages two to five enrolled in Tahoe Parents Nursery School. Students will have the opportunity to discuss, explore and learn more about how to be an effective parent/caregiver. Topics will include guidance and discipline, communication, developmental stages and health and safety issues relating to young children.

ECONOMICS

A.A. DEGREE

An A.A. Degree is offered in the field of Social Science. For major requirements, see page 74.

ECO 101 PRINCIPLES OF ECONOMICS (MACRO)*Lecture 4, Lab 0, Units 4*

This course is an introduction to macroeconomics. Topics covered will include economic principles, classical and Keynesian macro theory, monetary policy and fiscal policy, money and the banking system and international trade.

Transfers CSU, UNR, UC

ECO 102 PRINCIPLES OF ECONOMICS (MICRO)*Lecture 4, Lab 0, Units 4*

This course is an introduction to microeconomics. Students will analyze the theory of price in the market system, including supply and demand analysis, marginal utility, marginal revenue and marginal cost concepts, imperfect competition, theory of production, the problem of poverty, and income inequities. The study of the factor market and an overview of the "free market" failures will also be explored.

Transfers to CSU, UNR, UC

ECO 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

ECO 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

ECO 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

ECO 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

EDUCATION

EDU 110 TUTORING METHODS*Lecture 1, Lab 1, Units 1.25*

This course addresses effective tutoring techniques including planning the tutoring session, effective communication skills, the writing process, strengthening study skills, and techniques for working with students with diverse learning styles and needs.

Transfers to CSU

ADVISORY: ENG 101 or equivalent.

EDU 110M MATH TUTORING METHODS*Lecture 1, Lab 1, Units 1.25*

This course teaches effective tutoring techniques including planning the tutoring session, effective communication skills, and techniques for working with culturally diverse students and students with disabilities. A special emphasis will be given towards working with mathematics students.

Transfers to CSU

EDU 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this designation published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

EDU 132 OCCUPATIONAL WORK EXPERIENCE*Lecture 0, Lab 0, Units 1-6*

Occupational Work Experience is for students who are employed in jobs related to their educational or occupational goals. This program extends knowledge gained in the classroom to the workplace, helps students identify new and challenging objectives at work, and encourages professional growth and advancement.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

EDU 133 OCCUPATIONAL WORK EXPERIENCE - INTERNSHIP*Lecture 0, Lab 0, Units 1-6*

Occupational Work Experience Internship is supervised placement at a worksite related to the student's educational or occupational goals. The program will assist students in acquiring desirable work experience, attitudes, and awareness of career opportunities in their chosen field of study.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

EDU 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical, or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this designation published in the schedule of classes for the quarter in which the course will be offered

EDU 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

EDU 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical, or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

NON-CREDIT EDUCATION**EDU 500 SUPERVISED TUTORING**

This course offers individualized and small group tutoring designed to assist students in their college classes. Course content will vary depending upon congruent coursework and individual learning needs. Students are referred to this course by an instructor or counselor on the basis of identified learning needs. The course will focus on the acquisition of effective study skills and understanding of course content with the goal of improving academic performance and success.

COREQUISITE: Students must be enrolled in the course(s) for which they are receiving tutoring.

EDU 551 GED PREPARATION

Hours per week: 9

This course is designed to prepare students to pass the General Educational Development Test and enable students to apply the knowledge they gain to real-life situations. Students will review the five test sections: science, social studies, math, literature, and grammar and writing. This course will provide many resources such as test taking strategies, practice tests, and critical thinking activities.

ENGLISH**A.A. DEGREE**

An A.A. Degree is offered in the fields of English and Humanities. For major requirements, see pages 65 and 66.

THE FOLLOWING COURSE IN THIS SUBJECT AREA MAY BE CHALLENGED: ENG 101.

ALL STUDENTS ENROLLED FOR ENGLISH 101 AND 152 MUST TAKE A DIAGNOSTIC PLACEMENT EXAMINATION. ALL ENGLISH PREREQUISITES MUST BE FILLED WITH A GRADE OF "C" OR BETTER.

The student must score satisfactorily on the examination to be placed into ENG 101 (or have completed ENG 152 with a grade of "C" or better). The scores on the examination will help students determine their level of language proficiency and their chances of success in the courses at Lake Tahoe Community College. The examination will be administered at the beginning of each quarter. Test dates will be announced in each quarter's class schedule.

ENG 101 READING AND COMPOSITION*Lecture 5, Lab 0, Units 5*

This course stresses development of mature skills in writing, reading, and critical thinking with emphasis on expository and argumentative prose.

Transfers to CSU, UNR, UC

PREREQUISITE: ENG 152 with a grade of "C" or better or appropriate skills demonstrated through the English assessment process.

NOTE: Check quarterly class schedules for specialized English 101 course descriptions.

ENG 102 INTRODUCTION TO LITERATURE*Lecture 4, Lab 0, Units 4*

This course is an introduction to literature which places its emphasis on genre, such as short stories, poetry, and drama. Students will read fiction, drama, and poetry in order to develop skills in critical reading and writing. Writing assignments emphasize expository analysis of the reading material.

Transfers to CSU, UNR, UC

PREREQUISITE: ENG 101 with a grade of "C" or better or equivalent.

ENG 103 CRITICAL REASONING: WRITING THE RESEARCH PAPER*Lecture 5, Lab 0, Units 5*

This course is designed to develop critical thinking, reading, and writing skills beyond the level achieved in ENG 101. The course will focus on the development of logical reasoning and analytical and argumentative writing skills. The course will conclude with the writing of a substantial revised research paper to total a minimum of 8,000 words.

Transfers to CSU, UNR, UC

PREREQUISITE: ENG 101 with a grade of "C" or better or equivalent.

ENG 107 CROSS-CULTURAL LITERATURE*Lecture 4, Lab 0, Units 4*

This course focuses on immigrant, ethnic, and minority experiences in the United States, with two aims: first, to foster an awareness of the diverse forces at work in our society, and second, to create a sensitivity to the experiences of all Americans. This course will investigate and analyze what it means to live the American experience in an increasingly global community through the study of ethnically diverse short stories, short novels, poetry, and drama.

Transfers to CSU, UNR, UC

PREREQUISITE: Completion of ENG 152 with a grade of "C" or better or appropriate skills demonstrated through the English assessment process.

ADVISORY: ENG 101 or equivalent.

ENG 108 WOMEN IN LITERATURE*Lecture 4, Lab 0, Units 4*

This course examines literature by and about women from the Middle Ages to the present, with an emphasis on comparing social, literary, and mythic interpretations with what women themselves have written about their lives. Short stories, novels, poems, plays, and criticism are studied in terms of their literary elements and possible meanings.

Transfers to CSU, UNR, UC

PREREQUISITE: ENG 152 with a grade of "C" or better or appropriate skills demonstrated through the English assessment process.

ADVISORY: ENG 101 or equivalent.

ENG 113 INTRODUCTION TO SHAKESPEARE*Lecture 4, Lab 0, Units 4*

This course will introduce students to the poet and playwright William Shakespeare: his theater, life, and works. Students will examine representative comedies, tragedies, histories, romances, and sonnets. The course has as its main goal to demystify and make accessible some of the most funny, poignant, and exciting literature of all time.

Transfers to CSU, UNR, UC

PREREQUISITE: ENG 152 with a grade of "C" or better or appropriate skills demonstrated through the English assessment process.

ADVISORY: ENG 101 or equivalent.

ENG 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this designation published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

ENG 151R READING IMPROVEMENT*Lecture 5, Lab 0, Units 5*

This course emphasizes analyzing, synthesizing, and evaluating reading materials with a special focus on reading comprehension, vocabulary expansion, and study skills.

ADVISORY: Appropriate skills demonstrated through the English assessment process. Concurrent enrollment in English 151W is strongly recommended.

NOTE: Non-Degree Applicable course.

ENG 151W WRITING IMPROVEMENT*Lecture 5, Lab 0, Units 5*

This is a developmental writing course in written communication, emphasizing the fundamentals of English grammar, sentence structure, punctuation, and standard English usage. The focus of the course is on paragraph construction and introduction to the essay, emphasizing critical thinking, clear organization, effective development of substantial content, and mechanical exactness.

ADVISORY: Appropriate skills demonstrated through the English assessment process. Concurrent enrollment in ENG 151R is strongly recommended.

NOTE: Non-Degree Applicable course.

ENG 152 CRITICAL READING AND WRITING*Lecture 5, Lab 0, Units 5*

This course stresses the development of critical reading and writing skills. Emphasis is on the organization, development, and analysis of ideas through both reading and writing assignments.

PREREQUISITE: ENG 151W with a grade of "C" or better or appropriate skills demonstrated through the English assessment process. ENG 151R with a grade of "C" or better or appropriate skills demonstrated through the English assessment process.

NOTE: Check quarterly class schedules for specialized English 152 course descriptions.

ENG 156A GRAMMAR BRUSH UP I*Lecture 2, Lab 0, Units 2*

This course teaches foundational skills in grammar and punctuation. Upon completion of this course, students will have a basic understanding of English mechanics. Grammatical concerns will include parts of speech, punctuation, and proper sentence structure. Through group activities and practical applications, students will develop effective sentence-writing skills.

NOTE: Non-Degree Applicable course.

ENG 156B GRAMMAR BRUSH UP II*Lecture 2, Lab 0, Units 2*

This course focuses on an intense review and practice of grammar. After a review of parts of speech, punctuation, and sentence structure, students will learn different types of sentences and practice using these sentence forms in their own writing. Student writing will focus on the sentence to paragraph level.

NOTE: Non-Degree Applicable course.

ENG 160 ESL BRIDGE TO ENGLISH*Lecture 4, Lab 0, Units 4*

This course is specifically designed for the high-level ESL student who has completed the ESL sequence of coursework or the non-native speaker needing a transitional course before entering ENG 151. The course will focus on both reading and writing in order to increase English proficiency.

ADVISORY: Score of 230-235 on CASAS exam or successful completion of ESL 554 or equivalent. Students enrolling in ENG 160 should meet with a counselor prior to enrollment.

NOTE: Non-Degree Applicable course.

ENG 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical, or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this designation published in the schedule of classes for the quarter in which the course will be offered.

ENG 200 MASTERPIECES OF THE ANCIENT AND MEDIEVAL WORLDS*Lecture 4, Lab 0, Units 4*

This course examines the masterpieces of literature from the ancient Greeks to the beginning of the Renaissance. Such writers as Homer, Sophocles, Confucious, Ovid, Virgil, Kâlidâsa, Po, Dante, Shikibu, and Chaucer will be read to cultivate intellect, imagination, sensibility, and sensitivity.

Transfers to CSU, UNR, UC

PREREQUISITE: ENG 152 with a grade of "C" or better or appropriate skills as demonstrated through the English assessment process.

ADVISORY: ENG 101 or equivalent.

ENG 201 MASTERPIECES OF THE RENAISSANCE AND MODERN WORLD*Lecture 4, Lab 0, Units 4*

The course examines the masterpieces of literature from the Renaissance to the middle of the nineteenth century. Such authors as Petrarch, Machiavelli, Shakespeare, Cervantes, Popul Vuh, Xueqin, Racine, Swift, Bashô, Goethe, Wordsworth, and Dickinson will be read to cultivate intellect, imagination, sensibility, and sensitivity.

Transfers to CSU, UNR, UC

PREREQUISITE: ENG 152 with a grade of "C" or better or appropriate skills as demonstrated through the English assessment process.

ADVISORY: ENG 101 or equivalent.

ENG 202 MASTERPIECES OF THE MODERN WORLD*Lecture 4, Lab 0, Units 4*

This course examines the masterpieces of literature from the middle of the nineteenth century to the present. Such authors as Flaubert, Dostoevsky, Tolstoy, Chekhov, Yeats, Xun, Woolf, Kafka, Eliot, Rilke, Borges, Mahfouz, Nobuo, Brecht, and Achebe will be read to cultivate intellect, imagination, sensibility, and sensitivity.

Transfers CSU, UNR, UC

PREREQUISITE: ENG 152 with a grade of "C" or better or appropriate skills as demonstrated through the English assessment process.

ADVISORY: ENG 101 or equivalent.

ENG 205 INTRODUCTION TO POETRY*Lecture 4, Lab 0, Units 4*

This course introduces the study of poetry with an emphasis on reading, understanding, analyzing, and appreciating the genre.

Transfers to CSU, UNR, UC

PREREQUISITE: ENG 152 with a grade of "C" or better or appropriate skills as demonstrated through the assessment process.

ADVISORY: ENG 101 or equivalent.

ENG 206 THE SHORT STORY*Lecture 4, Lab 0, Units 4*

This course will focus on the development of critical reading, investigation, and analysis of the best of modern and classic short stories by both American and international writers such as Hemingway, Welty, Nabokov, O'Connor, and Munro. Students will have the opportunity to discover and study both famous and little known writers through the basic features which characterize the short fiction genre. Students will examine such themes as love, betrayal, death, conformity, and rebellion.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

ENG 207 INTRODUCTION TO CREATIVE WRITING*Lecture 4, Lab 0, Units 4*

This is a course designed for creative writing students who wish to explore poetry and fiction. The course includes a survey of methods and techniques practiced in the creation of poetry and fiction.

Transfers CSU, UNR

ADVISORY: ENG 101 or equivalent.

ENG 208A CREATIVE WRITING: INTRODUCTION TO THE ART OF FICTION*Lecture 4, Lab 0, Units 4*

This is a course designed for creative writing students who wish to concentrate their efforts in the writing of fiction. The course includes a survey of methods and techniques practiced in the creation of fiction.

Transfers CSU, UNR

ADVISORY: ENG 101 or equivalent.

ENG 209 CREATIVE WRITING: POETRY*Lecture 4, Lab 0, Units 4*

This course is designed for the student who wishes to concentrate on the writing of poetry. Emphasis will be on the study and analysis of selected poems coupled with assignments designed to help students experiment with the various techniques of the genre.

Transfers to CSU, UNR

ADVISORY: ENG 101 or equivalent.

ENG 211 ADVANCED COMPOSITION*Lecture 4, Lab 0, Units 4*

This course offers advanced instruction in composition with special emphasis on style, form, content, and examination of modern techniques of writing non-fiction prose, especially expository and argumentative writing.

Transfers to CSU, UNR, UC

PREREQUISITE: ENG 101 with a grade of "C" or better or equivalent.

ENG 212 ENGLISH LITERATURE I: FROM BEOWULF'S MONSTERS TO MILTON'S PARADISE

Lecture 4, Lab 0, Units 4

This course examines early English monsters and magic, from the legends of King Arthur to Milton's *Paradise Lost*, and other literary masterpieces. It covers selected works of major British writers to 1640, examining the history of literary conventions and backgrounds in religious thought, intellectual and social history, and related art forms by writers such as Chaucer, Spenser, Shakespeare, Donne, and Milton.

Transfers to CSU, UNR, UC

PREREQUISITE: ENG 152 with a grade of "C" or better or appropriate skills demonstrated through the English assessment process.

ADVISORY: ENG 101 or equivalent.

ENG 213 ENGLISH LITERATURE II: FROM SWIFT'S SATIRE TO THE PASSIONS OF THE ROMANTICS

Lecture 4, Lab 0, Units 4

This course will examine the subtleties of late seventeenth-century satire, the revolutionary literature of the Restoration, and the sublimity and passion of the Romantics. It will focus on selected works of major British writers from 1640-1832, covering the history of literary conventions and backgrounds in religious thought and intellectual and social history by writers such as Dryden, Pope, Swift, the Wordsworths, Coleridge, Shelley, Byron, and Keats.

Transfers to CSU, UNR, UC

PREREQUISITE: ENG 152 with a grade of "C" or better or appropriate skills demonstrated through the English assessment process.

ADVISORY: ENG 101 or equivalent.

ENG 214 ENGLISH LITERATURE III: VICTORIAN VALUES AND MODERN MASTERPIECES

Lecture 4, Lab 0, Units 4

This course will examine Victorian values and modern masterpieces by focusing on selected works of major British writers from 1832 to the present, covering the history of literary conventions and backgrounds in religious thought and intellectual and social history by writers such as Tennyson, Arnold, Browning, Joyce, and Eliot.

Transfers to CSU, UNR, UC

PREREQUISITE: ENG 152 with a grade of "C" or better or appropriate skills demonstrated through the English assessment process.

ADVISORY: ENG 101 or equivalent.

ENG 215 SURVEY OF AMERICAN LITERATURE I

Lecture 4, Lab 0, Units 4

This course examines the work of major literary figures from 1493 to 1800 in the genres of poetry and prose. Such writers as Columbus, De Vaca, Bradstreet, Edwards, Franklin, Jefferson, and Paine will be read to cultivate intellect and imagination.

Transfers to CSU, UNR, UC

PREREQUISITE: ENG 152 with a grade of "C" or better or appropriate skills demonstrated through the English assessment process.

ADVISORY: ENG 101 or equivalent.

ENG 216 SURVEY OF AMERICAN LITERATURE II

Lecture 4, Lab 0, Units 4

This course examines the work of major literary figures from 1800 to 1914 in the genres of poetry and prose. Such writers as Emerson, Thoreau, Fuller, Hawthorne, Melville, Dickinson, Clemens, and Poe will be read to cultivate intellect and imagination.

Transfers to CSU, UNR, UC

PREREQUISITE: ENG 152 with a grade of "C" or better or appropriate skills demonstrated through the English assessment process.

ADVISORY: ENG 101 or equivalent.

ENG 217 SURVEY OF AMERICAN LITERATURE III

Lecture 4, Lab 0, Units 4

This course examines the work of major literary figures from 1914-present in the genres of poetry, prose, and drama. Such writers as Cather, Anderson, Pound, Eliot, Faulkner, Welty, Bellow, Bishop, and Plath will be read to cultivate intellect and imagination.

Transfers to CSU, UNR, UC

PREREQUISITE: ENG 152 with a grade of "C" or better or appropriate skills demonstrated through the English assessment process.

ADVISORY: ENG 101 or equivalent.

ENG 218 LITERATURE INTO FILM

Lecture 4, Lab 0, Units 4

This course is an examination of how feature films are translated from literary works. It includes an analysis of the expectations and conventions used in literature and how those expectations and conventions are affected when they are translated into film. Critical analysis of various works and comparison/contrast of the different interpretations of these ideas will be stressed.

Transfers to UC, CSU, UNR

ADVISORY: ENG 101 or equivalent.

ENG 219A TOPICS IN LITERATURE: LIVING POETS

Lecture 2, Lab 0, Units 2

This course will focus on contemporary American poets. Students will read and discuss such authors as Mark Doty, Sharon Olds, Carolyn Forché, Mary Oliver, Li-Young Lee, and others. Authors will be taught in conjunction with the writers' series, so students will have the opportunity to attend a poetry reading of one or more of the authors studied.

Transfers to CSU, UNR, UC

PREREQUISITE: ENG 152 with a grade of "C" or better or appropriate skills demonstrated through the English assessment process.

ADVISORY: ENG 101 or equivalent.

ENG 219B TOPICS IN LITERATURE: THE BIBLE AS/IN LITERATURE

Lecture 2, Lab 0, Units 2

This course will focus on an analytical study of selected stories of the Bible with an emphasis on their literary qualities and influence. The goals of the course will be to help acquaint students with the central stories from this influential document of Western culture and to foster a literary appreciation for the complexity, beauty, and centrality of the writings that make up the Bible.

Transfers to CSU, UNR, UC

PREREQUISITE: ENG 152 with a grade of "C" or better or appropriate skills demonstrated through the English assessment process.

ADVISORY: ENG 101 or equivalent.

ENG 219C TOPICS IN LITERATURE: THE WORLD OF ROBINSON JEFFERS

Lecture 2, Lab 0, Units 2

This course is designed to introduce students to the works of a great poet, Robinson Jeffers. Students will explore the unique vision of Robinson Jeffers in terms of his focus on nature and humanity. Selected poems that represent the recurring symbols and themes will enable students to acquire a deep understanding of this great writer's poetic voice.

Transfers to CSU, UNR, UC

PREREQUISITE: ENG 152 with a grade of "C" or better or appropriate skills demonstrated through the English assessment process.

ADVISORY: ENG 101 or equivalent.

ENG 219D TOPICS IN LITERATURE: ERNEST HEMINGWAY, LIFE INTO ART

Lecture 2, Lab 0, Units 2

This course is designed to give the student an introduction to the complexity of Ernest Hemingway's work. Students will consider how he transformed his life experience into the art of fiction. Emphasis will be placed on defining his pioneering minimalist style. This course will focus on such predominant themes as initiation and the ethics of struggle, and how engagement with such values produces a life critics have termed the "code hero." This course will cover representative works of fiction as well as some memoir material.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

ENG 219E TOPICS IN LITERATURE: LITERATURE OF CARNIVAL

Lecture 2, Lab 0, Units 2

This course will focus on carnivalesque themes in literature from Brazil, Haiti, and Trinidad. Coursework will cover the cultural and historical roots of carnival in South America and the Caribbean, and explore how the works of Edwidge Danticat, Jorge Amado, and Earl Lovelace embody the freedom, abandon, joy, contradictions, and loss that create the spirit of carnival.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

ENG 219F TOPICS IN LITERATURE: VIRGINIA WOOLF AND DANGEROUS WORDS

Lecture 2, Lab 0, Units 2

This course will examine the work of one of the greatest modernist writers, Virginia Woolf. In order to introduce students to Woolf's life and work, the course will focus on the following: Woolf's experiments with style, her influence on modern literature, her reflections on England before and between the world wars, her struggles with mental illness, and her commentary on women's writing.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

ENG 219G TOPICS IN LITERATURE: ENGLISH ROMANTIC POETS: PASSION, NATURE, POETRY, AND THE SELF

Lecture 2, Lab 0, Units 2

This course will introduce students to the major English poets from the Romantic Period, approximately 1780-1830. Coursework will focus on the central Romantic poets—including Blake, Wordsworth, Coleridge, Shelley, Byron, and Keats—and their concerns with spiritual visions, "the spontaneous overflow of powerful feelings," the occult and supernatural, the sublime in Nature, memory, and the role of art and poetry in a world of revolutionary change. This course will also examine the role that women—including Mary Shelley, Ann Radcliffe, and Dorothy Wordsworth, among others—had in Romantic poetry as diarists, novelists, and poets.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

ENG 219H TOPICS IN LITERATURE: PARIS IN THE EARLY 1900'S, WRITERS IN EXILE

Lecture 2, Lab 0, Units 2

This course explores the literary artistry of authors writing in exile (whether political, creative, cultural, and/or self-imposed) in Paris in the early twentieth century. Readings will immerse students in the artistic community that emerged primarily between the world wars (including members of the "Lost Generation" of Americans, such as Ernest Hemingway and Gertrude Stein, and those from the United Kingdom who sought to explore feelings of alienation, like James Joyce and Samuel Beckett). This course will concern itself with the idea of exile and the ways the city of Paris helped some of these writers express artistic isolation and belonging.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

ENG 219J TOPICS IN LITERATURE: EDGAR ALLEN POE

Lecture 2, Lab 0, Units 2

This course will take a journey into the dark and terrifying world of the great American horror writer Edgar Allen Poe, exploring the Gothic themes of isolation and insanity, terror and suspense, betrayal and revenge in Poe's stories and poems.

Transfers to CSU, UNR, UC

PREREQUISITE: ENG 152 with a grade of "C" or better or equivalent or appropriate skills demonstrated through the assessment process.

ADVISORY: ENG 101 or equivalent.

ENG 219K TOPICS IN LITERATURE: THE LITERARY MEMOIR

Lecture 2, Lab 0, Units 2

In this course, students will read and discuss the literary memoir in order to explore the boundaries between fact and fiction, truth and lies, life and art. Authors may include Malcolm X, Sylvia Plath, Zora Neale Hurston, Tim O'Brien, Lauren Slater, Mary Karr, Luis Rodriguez, Maxine Hong Kingston, and Frank McCourt.

Transfers to CSU, UNR, UC

PREREQUISITE: ENG 152 with a grade of "C" or better or equivalent or appropriate skills demonstrated through the assessment process.

ADVISORY: ENG 101 or equivalent.

ENG 219L TOPICS IN LITERATURE: TRAVEL WRITING

Lecture 2, Lab 0, Units 2

This course explores the world of travel writing. Students will read, discuss, and analyze travel literature in order to understand the conventions of travel writing and learn how to write our own travel-based essays. Topics covered will include capturing sense of place, characters, and dialog; research and interviews; keeping a travel journal; and writing and selling the story.

Transfers to CSU, UNR

ADVISORY: ENG 101 or equivalent.

ENG 221 LITERATURE OF NATURE

Lecture 4, Lab 0, Units 4

This course examines the writings of the environmental movement and natural themes in literature. We will explore our relationship to nature and the role environmental literature plays in shaping cultural ideas and public policy. Fiction, non-fiction, and poetry will be studied, and major authors will include Gary Snyder, Terry Tempest Williams, Henry David Thoreau, Aldo Leopold, Barry Lopez, Leslie Marmon Silko, Edward Abbey, Rachel Carson, and John Muir.

Transfers to CSU, UNR, UC

PREREQUISITE: ENG 152 with a grade of "C" or better or equivalent or appropriate skills demonstrated through the assessment process.

ENG 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

ENG 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical, or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

NON-CREDIT ENGLISH

ENG 550 CAHSEE ENGLISH PREPARATION

Hours per week: 2

This is a preparation course for students studying for the English portion of the California High School Exit Exam (CAHSEE). It is especially geared toward students who have finished high school but have not yet passed the English portion of the CAHSEE. The course includes critical thinking, active reading strategies, reading comprehension and analysis, vocabulary development, and writing strategies, focused on organization, development, grammatical exactness, and revision.

ENGLISH AS A SECOND LANGUAGE

ESL 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

NOTE: Non-Degree Applicable course.

ESL 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

NOTE: Non-Degree Applicable course.

NON-CREDIT ESL

NON-CREDIT CERTIFICATE OF COMPLETION

A Certificate of Completion is offered in the field of Non-Credit English as A Second Language. For requirements, see page 91.

ESL 551 LOW BEGINNING ESL

Hours per week: 12

This is the first of a five course integrated-skill series, which emphasizes basic survival English with reinforcement of oral and written communication skills. Emphasis is also given to developing vocabulary and reading skills for the workplace. This course is designed for students who have almost no oral English language skills.

REPEATABILITY: May be repeated unlimited times.

ESL 552 HIGH BEGINNING ESL

Hours per week: 12

This course is the second in a five course integrated-skill series, for students with limited English skills. Through listening, speaking, reading and writing activities, the student will learn basic life skills and begin to function in spoken and written English. Special emphasis will be given to workplace English.

REPEATABILITY: May be repeated unlimited times.

ESL 553 LOW INTERMEDIATE ESL

Hours per week: 12

This course is the third of a five-course integrated-skill series. It is designed for students who have a basic understanding of oral and written English. The focus of this level is for the student to become more proficient with their oral, reading, and writing skills. Special emphasis will be given to workplace English. Essential grammatical structures will be introduced in context. The students at this level have a functional knowledge of English.

REPEATABILITY: May be repeated unlimited times.

ESL 554 HIGH INTERMEDIATE ESL

Hours per week: 12

This course is the fourth of a five-course integrated-skill series. Students at this level have an intermediate understanding of oral and written English. The focus of this level is for the students to become more proficient using more complex oral, reading, and writing skills. More essential grammatical structures will be introduced in context. Special emphasis will be given to workplace English. The students at this level have a functional knowledge of English.

REPEATABILITY: May be repeated unlimited times.

ESL 555 U.S. CITIZENSHIP

Hours per week: 4

This course provides an introduction to U.S. History, U.S. Government, American customs and institutions, and naturalization procedures. Course topics will include development of listening skills and English speaking proficiency. Special emphasis will be placed on understanding local, county, state, and federal government agencies. Students will be given the opportunity to become more active in community affairs and encouraged to participate in the governmental process.

ESL 556 ADVANCED ESL

Hours per week: 12

This course, the fifth of a five-course series, will provide students with continued fluency and communication skills in English. Focus will be on reading authentic materials on abstract topics, descriptive writing, short essays, and completion of more complex forms and applications.

REPEATABILITY: May be repeated unlimited times.

ESL 561 LOW BEGINNING ESL

Hours per week: 6

This course provides integrated skills which emphasize basic survival English with reinforcement of oral and written communication skills. Emphasis is also given to developing vocabulary and reading skills for the workplace. This course is designed for students who have minimal oral English language skills.

REPEATABILITY: May be repeated unlimited times.

ESL 562 HIGH BEGINNING ESL

Hours per week: 6

This course provides integrated skills for students with limited English skills. Through listening, speaking, reading and writing activities, the student will learn basic life skills and begin to utilize spoken and written English. Special emphasis will be given to workplace English.

REPEATABILITY: May be repeated unlimited times.

ESL 563 LOW INTERMEDIATE ESL

Hours per week: 6

This course is designed for students who have a basic understanding of oral and written English. The focus of this level is for the student to become more proficient with oral, reading, and writing skills. Special emphasis will be given to workplace English. Essential grammar structures will be introduced in context. The students at this level have a functional knowledge of English.

REPEATABILITY: May be repeated unlimited times.

ESL 564 HIGH INTERMEDIATE ESL

Hours per week: 6

Students at this level have an intermediate understanding of written and oral English. The focus of this level is for the students to become more proficient using complex oral, reading, and writing skills. Essential grammatical structures will be introduced in context. Special emphasis will be given to workplace English. The students at this level have a high intermediate proficiency level of English.

REPEATABILITY: May be repeated unlimited times.

ENVIRONMENTAL SCIENCE

EVS 101 ENVIRONMENTAL SCIENCE

Lecture 4, Lab 0, Units 4

This course is designed to introduce students to biological systems and associated chemical and physical processes and structures. Students will also explore human interactions with the environment. The course will include the following topics: basic ecology, population issues, energy and resource use and consequences, pollution and conservation issues.

Transfers to CSU, UNR, UC

EVS 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

EVS 132 OCCUPATIONAL WORK EXPERIENCE

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience is for students who are employed in jobs related to their educational or occupational goals. This program extends knowledge gained in the classroom to the workplace, helps students identify new and challenging objectives at work, and encourages professional growth and advancement.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

EVS 133 OCCUPATIONAL WORK EXPERIENCE – INTERNSHIP

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience Internship is supervised placement at a worksite related to the student's educational or occupational goals. The program will assist students in acquiring desirable work experience, attitudes, and awareness of career opportunities in their chosen field of study.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

EVS 141 ECOLOGY AND GEOLOGY OF THE NORTHERN SIERRA

Lecture 1.25, Lab 2, Units 2

This multidisciplinary, field-based course designed for the aspiring wilderness educator, will introduce students to the basic ecology and geology of the Northern Sierra Nevada. Topics covered will include plant identification, local ecosystem characteristics, regional landscape formation, rock identification, and environmental teaching techniques.

Transfers to CSU, UNR

EVS 191 SPECIAL TOPICS

Units 1-4

This course is designed for students in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

EVS 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

EVS 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

ETHNIC STUDIES

ETH 100 CURRENT LATINO ISSUES

Lecture 4, Lab 0, Units 4

This course is designed to expose students to the various current issues facing the Latino community in the United States, especially in California. Topics to be examined include, but are not limited to, public health policy, immigration, education, farmworkers, and other labor issues. Also to be introduced are the lobbying activities on behalf of the Latino community at the federal and state levels.

Transfers to CSU, UNR, UC

ADVISORY: ENG 152 or equivalent.

ETH 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

ETH 191 SPECIAL TOPICS

Units 1-4

This course is designed for students in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

ETH 201 MEXICAN-AMERICAN CULTURE

Lecture 4, Lab 0, Units 4

This course investigates the Indo-Hispano roots of Mexico and Mexican-Americans living in the United States. Particular emphasis is placed on the development of Mexican-American popular culture and its expression through music, radio, television, newspapers, literature, and festivities in urban and rural areas. Focus is placed on the surface culture, such as food and dance as well as elements of the deep culture, including religion and family customs.

Transfers to CSU, UNR, UC

ADVISORY: ENG 152 or equivalent.

ETH 202A MEXICAN-AMERICAN HISTORY: PRE-COLUMBIAN TO 1848

Lecture 4, Lab 0, Units 4

This course, the first of a three-part series, introduces the student to the major socio-historic and political events and tensions of the southwestern United States from the Mexican-American perspective. Events to be covered include the original indigenous inhabitants, Spanish conquest and colonization, such as the establishment of the mission system, independence from Spain, and the Mexican-American War of 1846-1848.

Transfers to CSU, UNR, UC

ADVISORY: ENG 152 or equivalent.

ETH 202B MEXICAN-AMERICAN HISTORY: 1848 TO 1960

Lecture 4, Lab 0, Units 4

This course, the second of a three-part series, covers the major socio-historic and political events and continuing tensions of the southwestern United States after the Mexican-American War of 1846-48 from the Mexican-American perspective. Events to be covered include life in the Southwest after the Mexican-American War, loss of property, the resistance movements, the Repatriation of the 1930's, and the phenomenon of the Zoot Suiters of the 1940's.

Transfers to CSU, UNR, UC

ADVISORY: ENG 152 or equivalent.

ETH 202C MEXICAN-AMERICAN HISTORY: 1960 TO PRESENT

Lecture 4, Lab 0, Units 4

This course, the third of a three-part series, covers the major socio-historic and political events and continuing tensions of the southwestern United States from the 1960's to the present from the Mexican-American perspective. Events to be covered include the emergence of political and educational opportunities for Mexican-Americans, the L.A. high school walkouts, César Chávez and the United Farmworkers Union, the struggle for a separate identity, and the advent of Mexican-American (Chicano) Studies.

Transfers to CSU, UNR, UC

ADVISORY: ENG 152 or equivalent.

ETH 203A HISTORY OF MEXICO: PRE-COLUMBIAN TO 1821

Lecture 4, Lab 0, Units 4

This course, the first of a three-part series, introduces the student to the major events in the history of Mexico from the first indigenous civilizations to the independence movement from Spain. Topics to be covered include the first inhabitants to establish themselves in Mexico, the development of indigenous religious beliefs, the rise of the Aztec civilization, the Spanish conquest, life in New Spain, and the move for independence from Spain.

Transfers to CSU, UNR, UC

ADVISORY: ENG 152 or equivalent.

ETH 203B HISTORY OF MEXICO: 1821 TO 1910

Lecture 4, Lab 0, Units 4

This course, the second of a three-part series, covers the major socio-historic and political events in the history of Mexico from the beginning of its independence from Spain to the advent of the Mexican Revolution. Topics to be covered include the founding of a Mexican empire, the first years of the Mexican Republic, the war with the U.S., Cinco de Mayo, Benito Juarez, and the dictatorship of Porfirio Diaz.

Transfers to CSU, UNR, UC

ADVISORY: ENG 152 or equivalent.

ETH 203C HISTORY OF MEXICO: 1910 TO PRESENT

Lecture 4, Lab 0, Units 4

This course, the third of a three-part series, covers the major socio-historic and political events in the history of Mexico from the Mexican Revolution to the present. Topics to be covered include events during the Mexican Revolution, rebuilding the nation, the muralist movement, establishing the system of one official political party, the Mexican Economic Miracle of the 50's and 60's, social strife and economic collapse, and triumph of an opposition party.

Transfers to CSU, UNR, UC

ADVISORY: ENG 152 or equivalent.

ETH 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

ETH 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

FIRE SCIENCE

A.A. DEGREE

An A.A. Degree is offered in the field of Fire Science. For major requirements, see page 66.

CERTIFICATE OF ACHIEVEMENT

A Certificate of Achievement is offered in the field of Fire Science. For requirements, see page 87.

THE FOLLOWING COURSES IN THIS SUBJECT AREA MAY BE CHALLENGED: FIR 101.

FIR 101 FIRE PROTECTION ORGANIZATION

Lecture 4 Lab 0, Units 4

(Formerly FIR 151)

This course provides an introduction to fire protection. Topics covered include career opportunities in fire protection and related fields, fire loss analysis, organization and function of public and private fire protection services, and laws and regulations affecting the fire service. Students will be introduced to fire service nomenclature, basic fire chemistry and physics, fire protection systems, and fire strategy and tactics.

Transfers to CSU

FIR 102 FUNDAMENTALS OF FIRE PREVENTION

Lecture 4 Lab 0, Units 4

(Formerly FIR 152)

This course provides fundamental information regarding the history and philosophy of fire prevention. Topics covered include the organization and operation of a fire prevention bureau, use of fire codes, identification and correction of fire hazards, and the relationship of fire prevention with fire safety education, detection and suppression systems.

Transfers to CSU

ADVISORY: Completion or concurrent enrollment in FIR 101.

FIR 103 FIRE PROTECTION EQUIPMENT AND SYSTEMS

Lecture 4 Lab 0, Units 4

(Formerly FIR 159)

This course provides information relating to the features of design and operation of fire detection and alarm systems. Topics covered include heat and smoke control systems, special protection and sprinkler systems, water supply for fire protection and portable fire extinguishers.

Transfers to CSU

ADVISORY: Completion or concurrent enrollment in FIR 101.

FIR 104 BUILDING CONSTRUCTION FOR FIRE PROTECTION

Lecture 4 Lab 0, Units 4

(Formerly FIR 154)

This course examines the components of building construction that relate to fire safety. The elements of construction and design of structures are shown to be key factors when inspecting buildings, preplanning fire operations, and operating at fires. Students will study the development and evolution of building and fire codes in relationship to past fires in residential, commercial, and industrial occupancies.

Transfers to CSU

ADVISORY: Completion or concurrent enrollment in FIR 101.

FIR 105 FIRE BEHAVIOR AND COMBUSTION

Lecture 4 Lab 0, Units 4
(Formerly FIR 160)

This course presents theory and fundamentals of how and why fires start and spread, and how they are controlled. Topics covered include an in-depth study of fire chemistry and physics, fire characteristics of materials, extinguishing agents, and fire control techniques.

Transfers to CSU

ADVISORY: Completion or concurrent enrollment in FIR 101. MAT 154 or 154AA with a grade of "C" or better or equivalent. One year of high school chemistry.

FIR 106 PRINCIPLES OF FIRE AND EMERGENCY SERVICES SAFETY AND SURVIVAL

Lecture 4 Lab 0, Units 4

This course introduces the basic principles and history related to the national firefighter life safety initiatives, focusing on the need for cultural and behavior change throughout the emergency services. Topics covered include the history of fire service culture; the national context of health and safety; training, equipment, and emergency response; organizational health and safety profile; risk management; and public education for fire prevention.

Transfers to CSU

ADVISORY: Completion or concurrent enrollment in FIR 101.

FIR 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

FIR 132 OCCUPATIONAL WORK EXPERIENCE

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience is for students who are employed in jobs related to their educational or occupational goals. This program extends knowledge gained in the classroom to the workplace, helps students identify new and challenging objectives at work, and encourages professional growth and advancement.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

FIR 133 OCCUPATIONAL WORK EXPERIENCE - INTERNSHIP

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience Internship is supervised placement at a worksite related to the student's educational or occupational goals. The program will assist students in acquiring desirable work experience, attitudes, and awareness of career opportunities in their chosen field of study.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

FIR 153 FIRE HYDRAULICS

Lecture 4, Lab 0, Units 4

Water is the most practical and commonly used agent for extinguishing fires. This course covers the properties of water and how water affects the decisions and actions on the fire ground. Other topics covered include understanding fire extinguishment theory as it relates to foam and water, calculating the friction loss in elevation and hose assemblies, and developing fire stream strategies and tactics on the fire ground in relation to fire hydraulics.

ADVISORY: MAT 152B or MAT 152BB with a grade of "C" or better or equivalent.

FIR 161A IN-SERVICE TRAINING FOR FIREFIGHTERS, MODULE A

Lecture 0, Lab 8.25, Units 2.75

This course is part one of a four-part sequence designed to update, improve and assess the knowledge, skills and abilities of fire service personnel. Topics covered include structure fires, emergency medical services, rescue, fire prevention, hazardous materials, and sexual harassment awareness and prevention training.

PREREQUISITE: Firefighter I certification through the California State Fire Marshal.

REPEATABILITY: May be repeated 2 times.

FIR 161B IN-SERVICE TRAINING FOR FIREFIGHTERS, MODULE B

Lecture 0, Lab 16.75, Units 5.5

This course is part two of a four-part sequence designed to update, improve and assess the knowledge, skills and abilities of fire service personnel. Topics covered include structure fires, emergency medical services, rescue, fire prevention, hazardous materials, and emergency scene safety.

PREREQUISITE: Firefighter I certification through the California State Fire Marshal.

REPEATABILITY: May be repeated 2 times.

FIR 161C IN-SERVICE TRAINING FOR FIREFIGHTERS, MODULE C

Lecture 0, Lab 25, Units 8.25

This course is part three of a four-part sequence designed to update, improve and assess the knowledge, skills and abilities of fire service personnel. Topics covered include structure fires, wildland fires, emergency medical services, rescue, fire prevention, hazardous materials, and prevention of back injuries.

PREREQUISITE: Firefighter I certification through the California State Fire Marshal.

REPEATABILITY: May be repeated 2 times.

FIR 161D IN-SERVICE TRAINING FOR FIREFIGHTERS, MODULE D

Lecture 0, Lab 33.25, Units 11

This course is part four of a four-part sequence designed to update, improve and assess the knowledge, skills and abilities of fire service personnel. Topics covered include structure fires, wildland fires, emergency medical services, rescue, fire prevention, hazardous materials, weapons of mass destruction, and driver/operator training.

PREREQUISITE: Firefighter I certification through the California State Fire Marshal.

REPEATABILITY: May be repeated 2 times.

FIR 167 WILDLAND FIRE SAFETY AND HAND CREW OPERATIONS (I-100, L-180, S-130, S-190)

Lecture 3.25, Lab .75, Units 3.5

This is a comprehensive course in the safety aspects of fighting wildland fires and the methods and procedures for hand crews, including instruction in specialized equipment, physical fitness, and fire behavior and suppression. Backfire, burnout procedures and line construction will also be covered. This course includes a field exercise and successful completion results in a certificate from the National Wildfire Coordinating Group (NWCG).

FIR 170A LAKE TAHOE BASIN FIRE ACADEMY, PART 1

Lecture 8.75, Lab 5.75, Units 10.75

This course is part one of a three-part sequence which culminates in the instructional requirement for Firefighter I certification through the California State Fire Marshal's office. Instruction includes fire organization and responsibility, safety, fire behavior, hose, nozzle and appliances, ground ladders, ropes, knots, and hitches, self-contained breathing apparatus, miscellaneous equipment and tools, portable fire extinguishers, and physical conditioning. This is a physically demanding course and the curriculum conforms to standards for certification by the California State Board of Fire Services.

ADVISORY: Students are advised that this is a physically demanding course. A health clearance is required.

FIR 170B LAKE TAHOE BASIN FIRE ACADEMY, PART 2

Lecture 11.5, Lab 3.5, Units 12.75

This course is part two of a three-part sequence which culminates in the instructional requirement for Firefighter I certification through the California State Fire Marshal's office. Instruction includes forcible entry, confined spaces, extrication theory and skills, interview procedures, fire protection system, Incident Command System, hazardous materials, terrorism, salvage, rapid intervention team/rescue, and live fire. This is a physically demanding course and the curriculum conforms to standards for certification by the California State Board of Fire Services.

PREREQUISITE: FIR 170A with a grade of "B" or better.

FIR 170C LAKE TAHOE BASIN FIRE ACADEMY, PART 3

Lecture 10, Lab 4.75, Units 11.5

This course is part three of a three-part sequence which culminates in the instructional requirement for Firefighter I certification through the California State Fire Marshal's office. Instruction includes wildland fire, burns, fire prevention, salvage, practical scenarios, and swift water rescue. This is a physically demanding course and the curriculum conforms to standards for certification by the California State Board of Fire Services.

PREREQUISITE: FIR 170B with a grade of "B" or better.

COREQUISITE: EMT-I certification.

ADVISORY: Physically demanding course.

FIR 171A FIRE OFFICER TRAINING MODULE: FIRE COMMAND 1A

Lecture 1, Lab 2.25, Units 1.75

This course provides instruction and simulation experience pertaining to the initial decision and action processes at a working fire. Topics include the role of the fire officer, fire behavior, fireground resources, operations, and management.

PREREQUISITE: I-200 certification through the National Wildfire Coordination Group.

FIR 171B FIRE OFFICER TRAINING MODULE: FIRE COMMAND 1B

Lecture 1, Lab 2.25, Units 1.75

This course provides information on tactics, strategies, and scene management for multi-casualty incidents, hazardous materials incidents, and wildland fires. Students have the opportunity to participate in hands-on emergency simulations.

PREREQUISITE: FIR 171A or equivalent (or California State Fire Marshal Command IA certification).

FIR 171C FIRE OFFICER TRAINING MODULE: FIRE COMMAND 1C

Lecture 1, Lab 2.25, Units 1.75

This course explores the role of the Company Officer in wildland/urban interface fire organization, safety, and survival. Topics covered include fire environment, incident command system, I-Zone operation principles, and I-Zone incident operations. This course is designed for firefighters, Company Officers, and Chief Officers with limited wildland experience.

PREREQUISITE: FIR 171B or equivalent (or California State Fire Marshal Command IB certification).

FIR 172A FIRE OFFICER TRAINING MODULE: TRAINING INSTRUCTOR 1A

Lecture 1, Lab 2.25, Units 1.75

This course provides the information and experience necessary to develop and deliver effective manipulative instructional materials pertaining to the fire service. Topics covered include course outlines, concepts of learning, behavioral objectives, using lesson plans, the psychology of learning, evaluation of effectiveness, and occupational analysis related to fire service instruction. This course is intended for Company Officers and personnel preparing for a Training Officer position.

FIR 172B FIRE OFFICER TRAINING MODULE: TRAINING INSTRUCTOR 1B

Lecture 1, Lab 2.25, Units 1.75

This course provides students with a more thorough presentation of instructional development and course delivery in the fire service. Topics covered include preparing course outlines, establishing levels of instruction, constructing behavioral objectives and lesson plans, instructional aid development, fundamentals of testing and measurements, test planning and evaluation techniques, and teaching tools related to the fire service. Student teaching demonstrations are required. This course is intended for Company Officers and personnel preparing for a Training Officer position.

PREREQUISITE: FIR 172A or equivalent (or California State Fire Marshal Instructor IA certification).

FIR 172C FIRE OFFICER TRAINING MODULE: TRAINING INSTRUCTOR 1C

Lecture 1, Lab 2.25, Units 1.75

This is the third of a three-course series designed to prepare fire service personnel as State Fire Marshal Registered Instructors or Training Officers. Topics covered include developing lesson plans, ancillary components, and tests in accordance with the latest concepts in career education. The course offers the opportunity to develop training classes, receive feedback, and finalize instructional materials. Students will be required to present two teaching demonstrations.

PREREQUISITE: FIR 172B or equivalent (or California State Fire Marshal Instructor IB certification).

FIR 173A FIRE OFFICER TRAINING MODULE: FIRE INVESTIGATION 1A

Lecture 1, Lab 2.25, Units 1.75

This course provides a basic overview of fire scene investigation. The course emphasizes investigation procedures, determination of the cause and origin of the fire, handling and preservation of evidence, documentation of the scene, and completion of reports. This course is intended for firefighters, fire investigators, and law enforcement officers assigned to fire investigation.

FIR 174A FIRE OFFICER TRAINING MODULE: MANAGEMENT 1

Lecture 1, Lab 2.25, Units 1.75

This course strengthens the fire service supervisor's ability to manage subordinates. Topics covered include foundational management concepts and practices, decision making, time management, leadership styles, personnel evaluations, and counseling guidelines. This course is intended for fire service Company Officers or firefighters preparing for the position of Company Officer.

FIR 175A FIRE OFFICER TRAINING MODULE: FIRE PREVENTION 1A

Lecture 1, Lab 2.25, Units 1.75

This course provides a broad, technical overview of fire prevention codes and ordinances, inspection practices, and key hazards. Additional topics include extinguishing systems, flammable and combustible liquids and gases, explosives, and fireworks. This course is intended for fire prevention, suppression, public education, and fire investigation personnel.

FIR 175B FIRE OFFICER TRAINING MODULE: FIRE PREVENTION 1B

Lecture 1, Lab 2.25, Units 1.75

This course provides fire prevention professionals with the base level of knowledge necessary to inspect fire protection systems and hazards. Topics covered include building construction and furnishings, occupant load and egress requirements, sprinkler systems, electrical devices, heating and cooking equipment, and detection and alarm systems. This course is intended for fire prevention, suppression, public education, and investigation personnel.

PREREQUISITE: FIR 175A or equivalent (or California State Fire Marshal Prevention 1A certification).

FIR 176 FIRE OFFICER TRAINING MODULE: INTERMEDIATE INCIDENT COMMAND SYSTEM (I-300)

Lecture 1, Lab 1, Units 1.25

This course presents the organizational elements within each section of the Incident Command System (ICS), staffing considerations, and reporting relationships. Additional topics include incident resource management, planning and organizing for incidents or events, and air operations within the Incident Command System. This course is intended for fire service personnel who are likely to assume a supervisory position on an expanding or Type 3 incident.

PREREQUISITE: Completion of a certified Basic Incident Command System course (national training curriculum).

FIR 180A SPECIALIZED TRAINING MODULE A: S-205 FIRE OPERATIONS IN THE URBAN INTERFACE

Lecture 2.5, Lab 0, Units 2.5

This course is designed to meet the training needs for initial attack incident commanders and company officers confronting wildland fire that threatens life and property. Topics covered include size-up, initial strategy and action plan, structure triage, tactics, action plan assessment, public relations and follow-up, and safety. This course is a National Wildfire Coordinating Group (NWCG) certified course.

PREREQUISITE: FIR 167 (I-100, L-180, S-130 AND S-190) or employing agency equivalent.

FIR 180B SPECIALIZED TRAINING MODULE B: S-270 BASIC AIR OPERATIONS

Lecture 1.25, Lab 0, Units 1.25

This course provides wildland fire trainees with an introduction to the uses of aircraft in fire suppression and related safety measures. This course is a National Wildfire Coordinating Group (NWCG) certified course.

PREREQUISITE: FIR 167 (I-100, L-180, S-130 AND S-190) or employing agency equivalent.

FIR 180C SPECIALIZED TRAINING MODULE C: ICS 100/200/300 - INCIDENT COMMAND SYSTEM

Lecture 3.25, Lab 0, Units 3.25

This course covers introductory, basic, and intermediate principles of Incident Command Systems (ICS). This course provides information about the ICS system enabling personnel to work in a supporting role at an incident, or to work as support from an off-site location. Topics include operation of the ICS, management of resources, duties of all positions, and the principles associated with ICS. This course is a National Wildfire Coordinating Group (NWCG) certified course.

FIR 180D SPECIALIZED TRAINING MODULE D: S-290 INTERMEDIATE WILDLAND FIRE BEHAVIOR

Lecture 3.25, Lab 0, Units 3.25

This National Wildlife Coordinating Group (NWCG) and California State Fire Marshal certified course is designed to meet the training requirements to work in the Incident Command System (ICS) operations section as a single resource boss. Topics covered include fuels, weather factors, topography, fire indicators and causes of extreme fire behavior conditions. This course is appropriate for prospective fire line supervisors in wildland fire behavior and safe fire management operations.

PREREQUISITE: FIR 167 (I-100, L-180, S-130 AND S-190) or employing agency equivalent, FIR 180C (ICS 100/200/300) or employing agency equivalent.

REPEATABILITY: May be repeated 5 times (as required for NWCG and State Fire Marshal recertification).

FIR 180F DRIVER/OPERATOR 1A: EMERGENCY VEHICLE OPERATIONS

Lecture 1, Lab 2.25, Units 1.75

This course is designed to enhance fire personnel driving skills and pumper operations and provide an overview of the laws and responsibilities of emergency vehicles. Topics include engine operations, air brake operations, pumper operations, Code 3 driving gauges, and panel operations. This course is required by many fire departments for promotion to Engineer/Operator.

PREREQUISITE: Valid Class B Driver's License or Fire Department equivalent.

FIR 180G DRIVER/OPERATOR 1B: PUMP OPERATIONS

Lecture 1, Lab 2.25, Units 1.75

This course is designed to provide the student with information and skills regarding pump techniques and operations, including basic inspection. Topics covered include a review of vehicle laws, driver responsibilities, emergency response procedures, apparatus and equipment maintenance procedures, the maneuvering of fire apparatus through controlled driving exercises and in normal traffic conditions, a review of hydraulic terms, water distribution systems, basic hydraulic principles, pump system, pump panel designs, types of pump operations, and fire ground hydraulics.

PREREQUISITE: Driver/Operator 1A certificate (California State Fire Marshal) and valid Class B Driver's license.

FIR 191 SPECIAL TOPICS

Units 1-4

This course is designed for students in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

FIR 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

FIR 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

FORESTRY

FOR 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

FOR 132 OCCUPATIONAL WORK EXPERIENCE

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience is for students who are employed in jobs related to their educational or occupational goals. This program extends knowledge gained in the classroom to the workplace, helps students identify new and challenging objectives at work, and encourages professional growth and advancement.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

FOR 133 OCCUPATIONAL WORK EXPERIENCE - INTERNSHIP

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience Internship is supervised placement at a worksite related to the student's educational or occupational goals. The program will assist students in acquiring desirable work experience, attitudes, and awareness of career opportunities in their chosen field of study.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

FOR 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

FOR 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

FOR 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

FRENCH

A.A. DEGREE

An A.A. Degree is offered in the field of Humanities. For major requirements, see page 66.

FRE 101 ELEMENTARY FRENCH I

Lecture 5, Lab 0, Units 5

This beginning course is an introduction to the speaking, reading, writing, and understanding of elementary French. Elementary grammatical structures as used in the context of oral communication will be introduced and studied, which will aid the student in developing effective, competent, and grammatically correct communication skills. This course contains a cultural component that will allow the student to develop an appreciation of the culture of French-speaking countries.

Transfers to CSU, UNR, UC

FRE 102 ELEMENTARY FRENCH II*Lecture 5, Lab 0, Units 5*

This course, a continuation of FRE 101, is designed to build elementary grammatical structures that focus on the speaking, reading, writing, and understanding of elementary French. Students will further build their communication skills through the introduction of new vocabulary and more complex grammatical structures, including the present and past tenses. In addition, students will gain an appreciation of culture of French-speaking countries.

Transfers to CSU, UNR, UC

PREREQUISITE: FRE 101 with a grade of "C" or better or equivalent.

FRE 103 ELEMENTARY FRENCH III*Lecture 5, Lab 0, Units 5*

This course, a continuation of FRE 102, is designed to build elementary grammatical structures that focus on the speaking, reading, writing, and understanding of elementary French. Students will attain higher levels of communication skills through the introduction of new vocabulary and more complex grammatical structures. Students will review present and past tenses, and will be introduced to the subjunctive mood, while developing an appreciation of culture of French-speaking countries.

Transfers to CSU, UNR, UC

PREREQUISITE: FRE 102 with a grade of "C" or better or equivalent.

FRE 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

FRE 141 CONVERSATIONAL FRENCH I*Lecture 3, Lab 0, Units 3*

This introductory level course is designed to assist students in acquiring practical beginning level conversational skills in French. Students will develop the ability to understand and speak everyday conversational French through the introduction of vocabulary, elementary grammatical structures, and idiomatic expressions. The basics of reading and writing will be introduced. Students will develop an appreciation of French culture.

Transfers to CSU

FRE 142 CONVERSATIONAL FRENCH II*Lecture 3, Lab 0, Units 3*

This course is a continuation of FRE 141. It is designed to assist students in building practical conversational skills in French. Students will broaden their ability to understand and speak everyday conversational French through the study of vocabulary, elementary grammatical structures, and idiomatic expressions. Ongoing basics of reading and writing will be developed. Students will also acquire an appreciation of French culture.

Transfers to CSU

ADVISORY: FRE 141 with a grade of "C" or better or equivalent.

FRE 143 CONVERSATIONAL FRENCH III*Lecture 3, Lab 0, Units 3*

This course is a continuation of FRE 142. It is designed to assist students in building practical conversational skills in French. Students will broaden their ability to understand and speak everyday conversational French through the study of vocabulary, elementary grammatical structures, and idiomatic expressions. Ongoing basics of reading and writing will be developed. Students will also acquire an appreciation of French culture.

Transfers to CSU

ADVISORY: FRE 142 with a grade of "C" or better or equivalent.

FRE 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

FRE 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

FRE 251 INTERMEDIATE CONVERSATIONAL FRENCH I*Lecture 3, Lab 0, Units 3*

The emphasis of this intermediate level conversational French course is to develop and build confidence in oral expression. Speaking proficiency will be developed by expanding vocabulary, increasing listening comprehension, refining grammar control and pronunciation, and practicing intensive conversations. Readings will focus on cultural issues. Students will also converse about contemporary issues and current events selected to stimulate critical thinking in French.

ADVISORY: FRE 103 or 143 with a grade of "C" or better or equivalent.

FRE 252 INTERMEDIATE CONVERSATIONAL FRENCH II*Lecture 3, Lab 0, Units 3*

This course is a continuation of FRE 251. The emphasis of this intermediate level conversational French course is to develop and build confidence in oral expression. Speaking proficiency will be developed by expanding vocabulary, increasing listening comprehension, refining grammar control and pronunciation, and practicing intensive conversations. Readings will focus on cultural issues. Students will also converse about contemporary issues and current events selected to stimulate critical thinking in French.

ADVISORY: FRE 251 with a grade of "C" or better or equivalent.

FRE 253 INTERMEDIATE CONVERSATIONAL FRENCH III*Lecture 3, Lab 0, Units 3*

This course is a continuation of FRE 252. The emphasis of this intermediate level conversational French course is to develop and build confidence in oral expression. Speaking proficiency will be developed by expanding vocabulary, increasing listening comprehension, refining grammar control and pronunciation, and practicing intensive conversations. Readings will focus on cultural issues. Students will also converse about contemporary issues and current events selected to stimulate critical thinking in French.

ADVISORY: FRE 252 with a grade of "C" or better or equivalent.

FRE 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

GENERAL STUDIES**GES 131 SPECIAL TOPICS***Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

GES 142 INTERPRETATION OF LEARNING STYLES AND COGNITIVE DEVELOPMENT*Lecture 1, Lab 0, Units 1*

This course is designed to provide strategies that will assist students with achieving academic success in college. Assessments administered will provide students with information about their learning styles, academic strengths and weaknesses, and determine eligibility for disability services.

Transfers to CSU, UNR

GES 180 DEVELOPMENTAL SKILLS - WRITING*Lecture 3, Lab 0, Units 3*

This course provides students with skills in capitalization, punctuation, spelling, sentence structure, and pre-writing and development of a paragraph, which are requisites for success in regular academic and vocational classes. This course is primarily designed for students with disabilities as well as for students who may benefit from course content being presented at a slower pace.

NOTE: Non-Degree Applicable course.

GES 182A JOB READINESS: PRE-EMPLOYMENT SKILLS*Lecture 2, Lab 0, Units 2*

This course is for students who require the knowledge of requisite employment skills. Included in this course are: formulating career goals, resume writing, assembling a job portfolio, using the Internet as a job search tool, and a brief overview of the Americans with Disabilities Act. This course is primarily designed for students with disabilities as well as for students who may benefit from course content being presented at a slower pace.

NOTE: Non-Degree Applicable course.

GES 182B JOB READINESS: JOB INTERVIEW, PLACEMENT, AND RETENTION*Lecture 2, Lab 0, Units 2*

This course is for students who require the knowledge of requisite employment skills. Included in this course are: methods for success in interviewing, self-advocacy on the job, accommodations in the workplace, job placement, and job retention. This course is primarily designed for students with disabilities as well as for students who may benefit from course content being presented at a slower pace.

ADVISORY: GES 182A or equivalent.

NOTE: Non-Degree Applicable course.

GES 184 DEVELOPMENTAL SKILLS - SPELLING*Lecture 3, Lab 0, Units 3*

This course provides for students to review spelling rules, study areas where frequent mistakes are made, look at the structure of word families, and develop tools for on-going study and improvement. This course is primarily designed for students with disabilities as well as for students who may benefit from course content being presented at a slower pace.

NOTE: Non-Degree Applicable course.

GES 185 DEVELOPMENTAL SKILLS - READING*Lecture 3, Lab 0, Units 3*

This course provides students with skills in decoding, vocabulary, reading comprehension, and using references which are requisites for success in regular academic and vocational courses. This course is primarily designed for students with disabilities as well as for students who may benefit from course content being presented at a slower pace.

NOTE: Non-Degree Applicable course.

GES 186 DEVELOPMENTAL SKILLS - MATH*Lecture 3, Lab 0, Units 3*

This course provides students with skills in whole number operations, fractions, decimals, percentages, and basic algebraic formulas, which are requisites for success in regular academic and vocational courses. This course is primarily designed for students with disabilities as well as for students who may benefit from course content being presented at a slower pace.

NOTE: Non-Degree Applicable course.

GES 188 DEVELOPMENTAL SKILLS - INSTRUCTIONAL SUPPORT*Lecture 0, Lab 2, Units 1*

This course provides instructional support for any course and addresses individual areas of weakness. Individual programs will be structured for each student by the Disability Resource Center staff. This course is primarily designed for students with disabilities as well as for students who may benefit from additional tutoring. Enrollment is open throughout the fifth week of each quarter.

NOTE: Non-Degree Applicable course.

GES 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

GES 193 DEVELOPMENTAL SKILLS - STUDY SKILLS*Lecture 2, Lab 0, Units 2*

This course focuses on fundamental principles of study skills. Students are provided with strategies to improve skills in setting goals, time management, critical thinking, memory, textbook reading, note taking, test taking strategies, and managing stress. This course is primarily designed for students with disabilities as well as for students who may benefit from course content being presented at a slower pace.

NOTE: Non-Degree Applicable course.

GES 196 DEVELOPMENTAL SKILLS - VOCABULARY

Lecture 3, Lab 0, Units 3

This course enhances the development of a reading vocabulary, as well as usable and practical vocabulary for everyday communication, which is requisite for success in regular academic and vocational courses. This course is primarily designed for students with disabilities as well as for students who may benefit from course content being presented at a slower pace.

NOTE: Non-Degree Applicable course.

GES 199A DEVELOPMENTAL SKILLS - INTRODUCTION TO BASIC WORD PROCESSING AND INTERNET USE

Lecture 1, Lab 0, Units 1

This basic computer course is for students who have little to no computer experience and may have special needs relative to the use of a computer word processing program or using the Web/Internet as a research tool. This course is primarily designed for students with disabilities as well as for students who may benefit from course content being presented at a slower pace.

NOTE: Non-Degree Applicable course.

GES 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

GES 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

NON-CREDIT GENERAL STUDIES

GES 551 INDEPENDENT LIVING SKILLS

Hours per Week: 3

This course is designed for students who have been identified as developmentally disabled. Students will be introduced to skills necessary for living independently. The students will learn skills needed to make decisions, budget, acquire housing, prepare for a vocation, access community resources, plan for proper nutrition, become educated consumers, and utilize appropriate social skills, which are requisite to vocational courses.

GEOGRAPHY

A.A. DEGREE

An A.A. Degree is offered in the field of Natural Science. For major requirements, see page 72.

GEG 101 PHYSICAL GEOGRAPHY

Lecture 4, Lab 3, Units 5

This course is an introduction to our physical environment, its natural features and their distribution and significance to humans. Primary emphasis will be on the atmospheric processes that affect the Earth's weather and climate, and the surface processes that shape the Earth's landscape.

Transfers to CSU, UNR, UC

GEG 102 HUMAN GEOGRAPHY

Lecture 4, Lab 0, Units 4

This course provides a systematic topical study of human activities and their influence upon the landscape. Principle topics will include a study of world population, migration, language, religion, agriculture, industrialization, urbanization, political units, and resource utilization.

Transfers to CSU, UNR, UC

GEG 103 WORLD REGIONAL GEOGRAPHY

Lecture 4, Lab 0, Units 4

This course is a systematic study of the world's regions, their origins, and the interface between the physical environment and human activities. Special emphasis will be placed on the physical environment, economic and political activities, resources, and the degree of social development.

Transfers to CSU, UNR, UC

GEG 105 CONSERVATION OF NATURAL RESOURCES

Lecture 4, Lab 0, Units 4

This course provides a perspective on the increasing pressures society places on the Earth's ecosystems. Areas of emphasis will include human impacts on flora, fauna, water and energy resources, and atmospheric processes. Students will also explore the concepts and decision-making processes associated with resource utilization, management, conservation, and preservation.

Transfers to CSU, UNR, UC

GEG 106 CALIFORNIA GEOGRAPHY

Lecture 4, Lab 0, Units 4

This course provides an overview of the geography of California and how natural processes have influenced its history, economics, and cultural development. Emphasis is on understanding the connections between the human, historical, social, physical, and cultural landscapes of the state. Historical geography will be studied, including historic boom and bust cycles, explosive population growth, and the reciprocal relationships of land and life.

Transfers to CSU, UC, UNR

GEG 107 WATER QUALITY MONITORING OF STREAMS AND LAKES

Lecture 1, Lab 2, Units 1.75

This course provides an introduction to watershed issues and policies at the federal, state, and local levels. Students will learn proper water sampling methods and techniques while monitoring Trout Creek near Lake Tahoe Community College. Students will also design and execute a sampling program to measure discharge, pH, conductivity, turbidity, temperature, dissolved oxygen, coliform bacteria, and other ecologic indicators.

Transfers to CSU, UNR

GEG 108 WATER RESOURCES

Lecture 4, Lab 0, Units 4

This course is an introduction to basic hydrologic principles including water cycling, climatic processes, water quality, groundwater, rivers, and other surface water resources. This course will also focus on the interactions between water, soil, and vegetation, and the processes that create and modify the surface of the earth. Watershed issues in California and the Tahoe Basin will be emphasized.

Transfers to CSU, UNR, UC

GEG 113 METEOROLOGY

Lecture 4, Lab 0, Units 4

This course is a descriptive study of basic weather processes and phenomena including air circulation, energy flow, and storm systems. California weather topics will be emphasized.

Transfers to CSU, UNR, UC

GEG 114 ECONOMIC GEOGRAPHY

Lecture 4, Lab 0, Units 4

This course is designed to acquaint students with basic concepts related to the advance, spread, and distribution of economic activity across the planet. This course examines issues facing the global community including population, gender, differences in economic development, geographic and political barriers, the environment, and the uneven distribution of global wealth.

Transfers to CSU, UNR, UC

GEG 115 EXTREME WEATHER AND CLIMATE CHANGE

Lecture 4, Lab 0, Units 4

This course will provide an introduction to the physical principles of severe and unusual weather and climate change: ice storms, blizzards, supercell thunderstorms, downbursts, lightning, tornadoes, hurricanes, and global climate change. This course will also investigate climate trends and patterns spanning the recent past and the future with emphasis on the natural processes that produce climate variations. The climate change implications for California and Lake Tahoe will also be highlighted.

Transfers to CSU, UNR

GEG 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

GEG 134 INTRODUCTION TO GEOGRAPHIC INFORMATION SYSTEMS

Lecture 3, Lab 1, Units 3.5

This interdisciplinary survey course is designed to explore how Geographic Information Systems (GIS) can be used as a tool within diverse academic disciplines. Students will learn to manipulate various forms of data to generate plots, maps, and computer displays of GIS spatial relationships. Environmental Systems Research Institute (ESRI) Arc View computer software will be used.

Transfers to CSU, UNR

ADVISORY: CAO 151 or basic computer skills highly recommended.

GEG 135 INTERMEDIATE GEOGRAPHIC INFORMATION SYSTEMS

Lecture 3, Lab 1, Units 3.5

This is an intermediate level course for students seeking to expand their understanding of Geographic Information Systems. The majority of the quarter will be spent working on GIS projects that will teach the students how to input spatial data into a GIS and how to work with that information. Each project will result in producing analysis and map graphics.

Transfers to CSU, UNR

ADVISORY: GEG 134 or equivalent.

GEG 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

GEG 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

GEG 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

GEOLOGY

A.A. DEGREE

An A.A. Degree is offered in the field of Natural Science. For major requirements, see page 72.

GEL 101 GEOLOGY OF CALIFORNIA

Lecture 4, Lab 0, Units 4

This course is a general introduction to the geological sciences, with emphasis on the geology of California. Topics covered will include the physiographic and tectonic provinces, natural resources, geologic history, and related geologic environmental problems of the state.

Transfers to CSU, UNR, UC

GEL 102 PHYSICAL GEOLOGY

Lecture 4, Lab 3, Units 5

This course is an introduction to our physical environment, its natural features, and their distribution and significance to humans. Primary emphasis will be on the tectonic and surface processes that shape the earth's landscape, and the minerals and rocks that form the earth.

Transfers to CSU, UNR, UC

GEL 103 HISTORY OF THE EARTH AND ITS LIFE

Lecture 4, Lab 3, Units 5

This course studies the development of the earth and its life through examination of the rock and fossil record. In addition, geologic processes, sedimentary rocks, and their fossils and structure will be studied while tracing the changes in the configuration of the earth.

Transfers CSU, UNR, UC

GEL 104 GEOLOGY OF THE TAHOE BASIN

Lecture 2, Lab 1, Units 2.25

This course is a study of the geologic processes that have shaped the Sierra Nevada and Lake Tahoe over time, including glaciation, volcanism, stream erosion, mountain building, and earthquakes. A variety of geologic formations will be visited during class-time field trips taken within the Tahoe basin.

Transfers to CSU, UNR

GEL 105 GEOLOGY OF THE DESOLATION WILDERNESS

Lecture 1, Lab 1, Units 1.25

This field course focuses on the geologic history of the Sierra Nevada, as seen from hiking trails of the Desolation Wilderness area. Emphasis will be on the geologic processes of glaciation, metamorphism, intrusion, and stream erosion.

Transfers to CSU, UNR

GEL 106 GEOLOGY OF DEATH VALLEY

Lecture 1, Lab 1, Units 1.25

This field course provides a general field experience in geology for students with little or no earth science background. Students will learn the basics of rock identification, landform analysis and identification, and interpretation of modern and ancient geologic events in Death Valley. Emphasis will be on the geologic processes of faulting, volcanism, stream development, and wind.

Transfers to CSU, UNR

GEL 107 GEOLOGY OF THE EASTERN SIERRA NEVADA

Lecture 1, Lab 1, Units 1.25

This course provides a general field experience in geology for students with little or no earth science background. Students will learn the basics of rock identification, landform analysis and identification, and interpretation of modern and ancient geologic events through field study of the Eastern Sierra Nevada. Field study will include Mono Lake, Long Valley caldera, White Mountains, faults, and past glaciation in the area.

Transfers to CSU, UNR

GEL 108 ENVIRONMENTAL GEOLOGY

Lecture 4 Lab 3, Units 5

This course is a study of the relationship between humans and their geologic environment. The course will examine how geologic processes and hazards influence human activities, and how human activities influence geologic hazards. Emphasis will be on earthquakes, volcanism, landslides, flooding, surface and groundwater, energy, ecosystems, climate change, and waste management. The lab will include interpretation of geologic hazards from maps, environmental analyses, and field trips to local areas of interest.

Transfers to CSU, UNR, UC

GEL 109 GEOLOGY OF THE LASSEN VOLCANIC AREA

Lecture 1, Lab 1, Units 1.25

This course focuses on the geology of the Lassen area, with emphasis on the volcanic history and deposits of the region as well as volcanic hazards.

Transfers to CSU, UNR

GEL 110 GEOLOGY OF THE NATIONAL PARKS AND MONUMENTS

Lecture 4, Lab 0, Units 4

This course introduces the basic concepts of geology in the context of the national parks and monuments of the United States. Topics will include rocks and minerals, volcanoes, mountain formation, shorelines, rivers, deserts, glaciers, caverns, fossils, earthquakes, and plate tectonics.

Transfers to CSU, UNR, UC

GEL 111 GEOLOGY OF YOSEMITE AND THE MOTHER LODGE

Lecture 1, Lab 1, Units 1.25

This course provides a general field experience in geology for students with little or no earth science background. This course focuses on the geology of Yosemite National Park and the Mother Lode, with emphasis on the tectonic and erosional history of the area as well as development of gold deposits.

Transfers to CSU, UNR

GEL 112 VOLCANIC AND TOPOGRAPHIC EVOLUTION OF THE KIRKWOOD/CARSON PASS AREA

Lecture .5, Lab .5, Units .75

This field course will examine some of the major geologic forces that shaped the Sierra Nevada crest in the Kirkwood/Carson Pass area: volcanic eruptions, erosion by rivers, and tectonic uplift of the Earth's surface.

Transfers to CSU, UNR

GEL 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

GEL 140 ROCKS, STARS, AND TREES IN MOUNTAIN REGIONS*Lecture 1, Lab .5, Units 1.25*

This multidisciplinary, field-based course will introduce students to the basic geology and ecology of mountain regions in California and also include an introductory astronomy session. The geology component of the course will feature interpretation of the modern and ancient geologic events that formed the region, covering both tectonic and sedimentary forces. The ecology component will address regional plant communities with a focus on trees and endemic plants. Content will also emphasize adaptations exhibited by plants to environmental factors. The astronomy component will cover seasonal constellations and planets, as well as other astronomical phenomena that are occurring during the course.

Transfers to CSU, UNR

GEL 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

GEL 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

GEL 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

GERMAN**A.A. DEGREE**

An A.A. Degree is offered in the field of Humanities. For major requirements, see page 66.

GER 101 ELEMENTARY GERMAN I*Lecture 5, Lab 0, Units 5*

This course is an introduction to the fundamentals of speaking, listening, reading, and writing in German. Elementary grammatical structures, as used in the context of oral communication, will be introduced. Basic readings about customs and cultures of Germany and German-speaking peoples are introduced.

Transfers to CSU, UNR, UC

GER 102 ELEMENTARY GERMAN II*Lecture 5, Lab 0, Units 5*

This course is a continuation of GER 101. Students will broaden their elementary level communication skills of speaking, listening, reading, and writing through the introduction of new vocabulary and more complex grammatical structures including the past, present, and future tenses. Students will continue to develop an appreciation of the culture of German-speaking peoples.

Transfers to CSU, UNR, UC

PREREQUISITE: GER 101 with a grade of "C" or better or equivalent.

GER 103 ELEMENTARY GERMAN III*Lecture 5, Lab 0, Units 5*

This course is a continuation of GER 102. It will build upon elementary grammatical structures that focus on the speaking, listening, reading, and writing of elementary German. Students will develop higher levels of communication skills through the introduction of new vocabulary and more complex grammatical structures. In addition, a broadened appreciation of the culture of German-speaking peoples will be attained through an introductory survey of German literature and classical music.

Transfers to CSU, UNR, UC

PREREQUISITE: GER 102 with a grade of "C" or better or equivalent.

GER 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

GER 141 CONVERSATIONAL GERMAN I*Lecture 3, Lab 0, Units 3*

This introductory course is designed to assist students in attaining practical beginning level conversational skills in German. Students will develop the ability to understand and speak everyday conversational German through the introduction of vocabulary, elementary grammatical structures, and idiomatic expressions. The basics of reading and writing will be introduced, and students will develop an appreciation of Germanic culture.

Transfers to CSU

GER 142 CONVERSATIONAL GERMAN II*Lecture 3, Lab 0, Units 3*

This course is a continuation of GER 141, and is designed to assist students in continuing to attain practical conversational skills in German. Students will build upon their language skills through the introduction of new vocabulary, as well as new elementary grammatical structures used in oral communication. Students will continue to progress with the basics of reading and writing in German and develop an appreciation of Germanic culture.

Transfers to CSU

ADVISORY: GER 141 with a grade of "C" or better or equivalent.**GER 143 CONVERSATIONAL GERMAN III***Lecture 3, Lab 0, Units 3*

This course is a continuation of GER 142, and is designed to assist students in continuing to attain practical conversational skills in German. Students will build upon their language skills through the introduction of new vocabulary, as well as new elementary grammatical structures used in oral communication. Students will continue to progress with the basics of reading and writing in German and develop an appreciation of Germanic culture.

Transfers to CSU

ADVISORY: GER 142 with a grade of "C" or better or equivalent.**GER 191 SPECIAL TOPICS***Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

GER 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

GER 251 INTERMEDIATE CONVERSATIONAL GERMAN I*Lecture 3, Lab 0, Units 3*

This intermediate level German conversational course is designed for students who have completed the Conversational German 141, 142, and 143 series (*formerly GER 151, 152, and 153*) or the equivalent. Students will continue to review grammatical concepts, vocabulary, and conversational skills at the intermediate level. The emphasis will remain on oral communication. Intermediate level reading, writing, and an appreciation of the German culture will continue to be developed.

ADVISORY: GER 143 (*formerly 153*) with a grade of "C" or better or equivalent.**GER 252 INTERMEDIATE CONVERSATIONAL GERMAN II***Lecture 3, Lab 0, Units 3*

This intermediate level German conversational course is designed for students who have completed the Conversational German 141, 142, and 143 series (*formerly GER 151, 152, and 153*) and Intermediate Conversational German 251, or the equivalent. Students will build upon intermediate level conversational skills and review previously studied grammatical concepts and vocabulary. The emphasis will remain on oral communication. Intermediate level reading, writing, and an appreciation of the German culture will continue to be developed.

ADVISORY: GER 251 with a grade of "C" or better or equivalent.**GER 253 INTERMEDIATE CONVERSATIONAL GERMAN III***Lecture 3, Lab 0, Units 3*

This intermediate level German conversational course is designed for students who have completed the Conversational German 141, 142, and 143 series (*formerly GER 151, 152, and 153*) and Intermediate Conversational German 252, or the equivalent. Students will build upon intermediate level conversational skills and review previously studied grammatical concepts and vocabulary. They will continue studying German verbs and cases. The emphasis will remain on oral communication. Intermediate level reading, writing, and an appreciation of the German culture will continue to be developed.

ADVISORY: GER 252 with a grade of "C" or better or equivalent.**GER 291 SPECIAL PROJECTS***Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

GREEN SUSTAINABLE EDUCATION**GSE 101 INTRODUCTION TO GREEN SUSTAINABLE EDUCATION***Lecture 2, Lab 1, Units 2.25*

This course is an overview of the natural resource issues we have around the world and the challenges, opportunities and solutions we have available to us to improve/"greenify" our homes, businesses, transportation, and lives.

Transfers to CSU, UNR

GSE 103 LAKE TAHOE ISSUES AND AGENCIES*Lecture 3, Lab 0, Units 3*

This course is for anyone interested in learning about key issues in the Lake Tahoe basin and getting involved in shaping the future of the community. Students will meet representatives of the main agencies and organizations to discuss their agency's mission, structure, and processes. Through a series of guest lectures and class discussion, students will learn about the environmental history and current issues confronting the Lake Tahoe basin and its community.

Transfers to CSU, UNR

GSE 105 INTRODUCTION TO GREEN BUSINESS*Lecture 3, Lab 1, Units 3.25*

In this course, students will learn the fundamentals and evolving best practices in green business and how to find and create green collar jobs which contribute to the new sustainable economy. Special attention will be given to local issues and resources to support sustainable business practices in the Lake Tahoe region.

Transfers to CSU, UNR

GSE 120 RESIDENTIAL AND SMALL BUSINESS ENERGY AUDITING

Lecture 3, Lab 2, Units 3.5

Learn how to save energy and water costs in your home and/or business. This course introduces the basic skills needed to conduct home and small business energy audits and high bill investigations. Course topics include: principles of energy, heat transfer, building codes, rating systems, old and new technologies, energy billing and history analysis, formulas and calculations, and economic analysis. Lecture, case studies, and field work will help students gain knowledge about appliances, building efficiency, lighting, space cooling and heating, water heating, and other energy-using items.

Transfers to CSU, UNR

GSE 126 INTRODUCTION TO SOLAR ENERGY: THERMAL, PHOTOVOLTAIC, PASSIVE DESIGN

Lecture 3, Lab .5, Units 3.25

This course is an overview of design elements for active solar energy systems and passive solar building designs. Topics include site assessment and optimization, structural considerations of buildings, building orientation, space requirements, solar heat collection, heat distribution, electrical characteristics of photovoltaic systems, thermal characteristics of solar thermal systems, and sizing both types of solar energy systems. Students will be introduced to the parameters used to design solar energy systems for residential and small commercial applications and design passively heated solar buildings in both cold and warm climates. This course includes several field trips to locations with active solar energy systems in use and to locations with buildings using passive solar energy design features.

Transfers to CSU, UNR

GSE 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

GSE 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

GSE 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

GSE 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

HEALTH

FOR COURSES IN THIS AREA, SEE ALLIED HEALTH ON PAGE 97.

HISTORY

A.A. DEGREE

An A.A. Degree is offered in the field of Social Science. For major requirements, see page 74.

HIS 101 HISTORY OF WESTERN CIVILIZATION I

Lecture 4, Lab 0, Units 4

This course is a survey of political, socio-cultural, economic and international developments from prehistoric until Roman times. The course includes Egyptian, Mesopotamian, Eastern Mediterranean and Greek influences.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 and 103 or equivalent.

HIS 102 HISTORY OF WESTERN CIVILIZATION II

Lecture 4, Lab 0, Units 4

This course is a survey of European political, economic, socio-cultural and international developments from Roman times to 1688. The course includes the history of Rome, the Medieval Period, the Renaissance, Reformation, Counter Reformation and the development of nation-states.

Transfers to CSU, UC, UNR

ADVISORY: ENG 101 and 103 or equivalent.

HIS 103 HISTORY OF WESTERN CIVILIZATION III

Lecture 4, Lab 0, Units 4

This course is a survey of European political, socio-cultural, economic and international developments from 1688 through World War II and its aftermath. The course topics include modern national, colonial, and industrial influences until the late twentieth century.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 and 103 or equivalent.

HIS 104 EARLY CALIFORNIA HISTORY

Lecture 4, Lab 0, Units 4

This course is a survey of the heritage and development of California from its Native American and Spanish Colonial beginnings to the acquisition of California by the United States in 1848.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 and 103 or equivalent.

HIS 105 MODERN CALIFORNIA HISTORY

Lecture 4, Lab 0, Units 4

This course is a survey of the history, heritage, and development of California from the Gold Rush in 1849 to the present day with emphasis on the economic, social, and political forces that shaped the modern state.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 and 103 or equivalent.

HIS 109 WOMEN IN AMERICAN HISTORY*Lecture 4, Lab 0, Units 4*

This course is a survey of the history of American women from Colonial times to the present, with emphasis on the role that women have played in the cultural, social, economic, and political development of the United States. Additional topics covered will include current issues and controversies, regional differences, and significant events in the historical development of the United States.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 and 103 or equivalent.

HIS 110 MINORITY AND MULTICULTURAL HISTORY OF THE UNITED STATES*Lecture 4, Lab 0, Units 4*

This course is an historical survey of ethnic, religious, and racial minorities in American history from Colonial times to the present with an emphasis on current issues and controversies, regional differences, significant events, racism, sexism, immigration, and oppression in the historical development of the United States. Concentration will be placed on, but not limited to African, Hispanic, Native, and Asian Americans.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 and 103 or equivalent.

HIS 111 HISTORY OF THE UNITED STATES FROM THE COLONIAL PERIOD THROUGH THE 18TH CENTURY*Lecture 4, Lab 0, Units 4*

This course covers the history of the United States from Colonial times through the Jacksonian era, with particular attention given to the Revolutionary period and the development of the United States Constitution. Principles of California state and local government will also be presented.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 and 103 or equivalent.

HIS 112 HISTORY OF THE UNITED STATES IN THE 19TH CENTURY*Lecture 4, Lab 0, Units 4*

This course covers the history of the United States during the 19th century with particular attention given to slavery, the Civil War, and the rise of industrialism.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 and 103 or equivalent.

HIS 113 HISTORY OF THE UNITED STATES IN THE 20TH CENTURY*Lecture 4, Lab 0, Units 4*

This course covers the history of the United States during the 20th century, with particular attention paid to the social, political, economic, and cultural forces that have shaped the modern state.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 and 103 or equivalent.

HIS 120 HISTORY OF LAKE TAHOE*Lecture 2, Lab 0, Units 2*

This course surveys the history of the Lake Tahoe area from its geologic formation and first inhabitants through its development from the 19th century to the present. Tourism and environmental concerns as well as economic growth and urbanization will be addressed.

Transfers to CSU, UNR

ADVISORY: ENG 101 or equivalent.

HIS 121 HISTORY OF YOSEMITE*Lecture 2, Lab 0, Units 2*

This course covers the history of Yosemite National Park - its past, present, and future. Emphasis will be given to the role of Yosemite in California and United States history including the Native American, ecological and environmental studies, and the history of the National Park System. The course includes several lectures and a field trip to Yosemite.

Transfers to CSU, UNR

HIS 122 HISTORY OF SAN FRANCISCO*Lecture 2, Lab 0, Units 2*

This course covers the history of San Francisco from its Native American beginnings to the present day. Emphasis will be placed on the role that San Francisco has played in the mainstream of California and the United States history and as a multicultural city. The course includes several lectures and a field trip to San Francisco.

Transfers to CSU, UNR

HIS 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

HIS 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

HIS 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

HIS 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

HOME ECONOMICS

HEC 101A CLOTHING CONSTRUCTION I

Lecture 1, Lab 2, Units 2

This course is designed to give students an introduction to sewing and clothing construction with emphasis on the theory and application of professional techniques. Instruction topics include, but are not limited to, selecting appropriate equipment, fitting and minor pattern alterations, how to read pattern and construct a garment of student's choice.

Transfers to CSU

HEC 101B CLOTHING CONSTRUCTION II

Lecture 1, Lab 2, Units 2

This course continues to introduce beginning and intermediate students to the basics of sewing; theory and concepts of clothing construction and fabric selection, using the sewing machine, understanding patterns, making fitting adjustments, cutting, marking, construction methods and techniques, and using tools and notions. Classes consist of lecture, demonstrations, and individualized instruction. Students will learn to construct an item of clothing.

Transfers to CSU

ADVISORY: HEC 101A or equivalent.

HEC 101C CLOTHING CONSTRUCTION III

Lecture 1, Lab 2, Units 2

This course continues to introduce intermediate students to the fundamentals of sewing; theory and concepts of clothing construction, using the sewing machine for more complex applications, understanding advanced patterns, making fitting adjustments, cutting, marking, construction methods and techniques, tools and notions, and completion of a fitted garment. Classes consist of lecture, demonstrations, and individualized instruction. Students will construct a fitted item of clothing.

Transfers to CSU

ADVISORY: HEC 101A and 101B or equivalent.

HEC 103 SEWING WITH KNITS

Lecture 1, Lab 2, Units 2

This course is designed to assist students with the fundamental concepts and theory of knitted fabrics and the abilities and skills needed to sew knitted fabrics. Topics include types of knits available and how to sew knit garments including dance and spandex-fitted athletic wear. Instruction includes woven pattern adaptations and copying ready-to-wear garments. Professional fitting and techniques are included.

Transfers to CSU

ADVISORY: HEC 101A or equivalent.

HEC 120 INTRODUCTION TO INTERIOR DESIGN

Lecture 3, Lab 0, Units 3

This course is designed as an overview of the history of interior design and the modern day interior design process. Through lectures and hands on assignments, students will learn some of the basic skills required of professional interior designers and develop vocabulary to help them communicate their needs as clients to an interior designer.

Transfers to CSU

HEC 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

HEC 181A SUPPLEMENT TO HEC 101A: CLOTHING CONSTRUCTION I

Lecture 0, Lab 1, Units .25

This supplemental course for HEC 101A allows for one additional hour of instructional lab time per week. This course provides students more time to practice skills in sewing at the end of the regular class period. It is to be taken in conjunction with HEC 101A.

COREQUISITE: Concurrent enrollment in HEC 101A.

NOTE: Non-Degree Applicable course.

HEC 181B SUPPLEMENT TO HEC 101B: CLOTHING CONSTRUCTION II

Lecture 0, Lab 1, Units .25

This supplemental course for HEC 101B allows for one additional hour of instructional lab time per week. This course provides students more time to practice skills in sewing at the end of the regular class period. It is to be taken in conjunction with HEC 101B.

COREQUISITE: Concurrent enrollment in HEC 101B.

NOTE: Non-Degree Applicable course.

HEC 181C SUPPLEMENT TO HEC 101C: CLOTHING CONSTRUCTION III

Lecture 0, Lab 1, Units .25

This supplemental course for HEC 101C allows for one additional hour of instructional lab time per week. This course provides students more time to practice skills in sewing at the end of the regular class period. It is to be taken in conjunction with HEC 101C.

COREQUISITE: Concurrent enrollment in HEC 101C.

NOTE: Non-Degree Applicable course.

HEC 183 SUPPLEMENT TO HEC 103: SEWING WITH KNITS

Lecture 0, Lab 1, Units .25

This supplemental course for HEC 103 allows for one additional hour of instructional lab time per week. This course provides students more time to practice skills in sewing at the end of the regular class period. It is to be taken in conjunction with HEC 103.

COREQUISITE: Concurrent enrollment in HEC 103.

NOTE: Non-Degree Applicable course.

HEC 185A SERGER TECHNIQUES I

Lecture .5, Lab 1, Units 1

This course will cover the basics of serger/overlock techniques including machine evaluations, basic and optional features, threading features, and trouble shooting. Students will focus on basic stitch and tension adjustments, differential feed, rolled edge seaming, flatlocking, and flat construction serging order.

ADVISORY: HEC 101A, 101B, 101C, or 103 or equivalent.

HEC 185B SERGER TECHNIQUES II*Lecture .5, Lab 1, Units 1*

This course will cover the theory and concepts of more advanced serger/overlock techniques including construction details such as collars, pockets, and ribbing applications. Students will work on decorative thread options, aerobic and swimwear applications, flatlocking garments, and home decorating.

ADVISORY: HEC 185A or equivalent.

HEC 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

HEC 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

HEC 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

HORTICULTURE**HOR 101 LANDSCAPE ARCHITECTURE***Lecture 3, Lab 1, Units 3.25*

This course is an introduction to landscape architecture with an emphasis on the Lake Tahoe basin. The student will learn the history of landscape architecture, design principles, drawing techniques, site analysis, irrigation concepts, construction and implementation methods, and how to develop a planting plan. Students will be required to use these fundamental ideas to create their own landscape plan.

Transfers to CSU, UNR, UC

HOR 108 PRINCIPLES AND PRACTICES OF LANDSCAPE HORTICULTURE*Lecture 2, Lab 1, Units 2.25*

This course provides an overview of the principles and practices of horticulture and includes such topics as botany, propagation, trees and shrubs, bulbs, organic gardening, perennials, roses, western native plants, water gardens, herb gardens, aesthetic pruning, and maintenance. There will be a special emphasis on hardy plants suitable for high altitude climates.

Transfers to CSU, UNR

HOR 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

HOR 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

HOR 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

HOR 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

HOTEL AND RESTAURANT MANAGEMENT**HRM 131 SPECIAL TOPICS***Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

HRM 132 OCCUPATIONAL WORK EXPERIENCE*Lecture 0, Lab 0, Units 1-6*

Occupational Work Experience is for students who are employed in jobs related to their educational or occupational goals. This program extends knowledge gained in the classroom to the workplace, helps students identify new and challenging objectives at work, and encourages professional growth and advancement.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

HRM 133 OCCUPATIONAL WORK EXPERIENCE - INTERNSHIP

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience Internship is supervised placement at a worksite related to the student's educational or occupational goals. The program will assist students in acquiring desirable work experience, attitudes, and awareness of career opportunities in their chosen field of study.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

HRM 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

HRM 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

HRM 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

HUMANITIES

A.A. DEGREE

An A.A. Degree is offered in the field of Humanities. For major requirements, see page 66.

HUM 101 ANCIENT WESTERN WORLD

Lecture 4, Lab 0, Units 4

This course is an interdisciplinary survey of the art, architecture, drama, music, literature, history, and philosophy in early Western civilizations. It will cover the Stone Age, Mesopotamia, Ancient Egypt, various Greek Cultures, and the Ancient Roman world. The course will culminate with a study of Judaism, the advent of Christianity, and Early Byzantine and Islamic cultures.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

HUM 102 THE MIDDLE AGES, RENAISSANCE, AND BAROQUE ERAS

Lecture 4, Lab 0, Units 4

This course is an interdisciplinary survey of the relationships between western literature, art, architecture, music, philosophy, history, and religion from the 8th century through the Renaissance and Baroque periods. Topics covered include medieval life and thought, the reign of Charlemagne, renaissance art and humanism, the Protestant and Catholic Reformations, and the Baroque style throughout Western Europe.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

HUM 103 THE MODERN WORLD

Lecture 4, Lab 0, Units 4

This course provides an interdisciplinary survey of the relationships between western literature, art, architecture, philosophy, history, religion, and music from the French Enlightenment through the end of the 20th century. Topics covered will include the American and French Revolutions, Neoclassicism, Romanticism, Realism, Impressionism, the World Wars, and early and late 20th century developments in literature and the arts.

Transfer CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

HUM 105 MYTHOLOGY

Lecture 4, Lab 0, Units 4

This course is an introduction to the basic Greco-Roman and Scandinavian-Teutonic mythological themes recurring in literature, music, and the arts. It includes the lives and loves of the gods and heroes, their origins, and their development into myths. This course also examines the continued influence of mythological motifs on customs, traditions, beliefs, and values.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 and ENG 103 or equivalent.

HUM 107A SPANISH LIFE AND CULTURE

Lecture 2, Lab 0, Units 2

This course will introduce students to the culture and customs of Spain. Topics include the history and geography of Spain, the Spanish Civil War, the Franco era, Spain's link with the European Union, Spain's art history and architecture, and cultural traditions in Spain. Students will participate in field trips and cultural activities in Spain as part of this course.

Transfers to CSU

HUM 107B BRITISH LIFE AND CULTURE

Lecture 2, Lab 0, Units 2

This course will introduce students to the culture and customs of Great Britain. Topics include the history of London, Parliament and politics, popular culture, British theater, and Britain and the European Union. Students will participate in field trips and cultural activities in London as part of this course.

Transfers to CSU

HUM 107C FRENCH LIFE AND CULTURE*Lecture 2, Lab 0, Units 2*

This course will introduce students to the culture and customs of France. Topics include the history and geography of France, French culture and customs, including France's link with the European Union. French art history, architecture, and cultural traditions in France will be introduced. Students will participate in field trips and cultural activities in France as part of this course.

Transfers to CSU

HUM 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

HUM 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

HUM 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

HUM 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

INTERDISCIPLINARY STUDIES

Courses under this discipline are no longer being taught.

ITALIAN

A.A. DEGREE

An A.A. Degree is offered in the field of Humanities. For major requirements, see page 66.

ITA 101 ELEMENTARY ITALIAN I*Lecture 5, Lab 0, Units 5*

This introductory course will build elementary grammatical structures that focus on the speaking, reading, writing, and understanding of elementary Italian. Students will build their communication skills through the introduction of vocabulary and grammatical structures, including the present tense of regular and irregular verbs. Students will also develop an appreciation for Italian culture.

Transfers to CSU, UNR, UC

ITA 102 ELEMENTARY ITALIAN II*Lecture 5, Lab 0, Units 5*

This course, a continuation of Italian 101, is designed to build elementary grammatical structures that focus on the speaking, reading, writing, and understanding of elementary Italian. Students will further build their communication skills through the introduction of new vocabulary and more complex grammatical structures and verb tenses. Students will develop an appreciation for Italian cultures.

Transfers to CSU, UNR, UC

PREREQUISITE: ITA 101 with a grade of "C" or better or equivalent.

ITA 103 ELEMENTARY ITALIAN III*Lecture 5, Lab 0, Units 5*

This course, a continuation of Italian 102, is designed to build elementary grammatical structures that focus on speaking, reading, writing, and comprehending elementary Italian. Students will further develop higher levels of communication skills through the introduction of new vocabulary, more complex grammatical structures, and verb tenses. An understanding and appreciation of Italian culture will be developed.

Transfers to CSU, UNR, UC

PREREQUISITE: ITA 102 with a grade of "C" or better or equivalent.

ITA 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

ITA 141 CONVERSATIONAL ITALIAN I*Lecture 3, Lab 0, Units 3*

This introductory level course is designed to assist students in acquiring practical beginning level conversational skills in Italian. Students will develop the ability to understand and speak everyday conversational Italian through the introduction of vocabulary, elementary grammatical structures, and idiomatic expressions. The basics of reading and writing will be introduced. Students will develop an appreciation of the Italian culture.

Transfers to CSU

ITA 142 CONVERSATIONAL ITALIAN II*Lecture 3, Lab 0, Units 3*

This course is a continuation of ITA 141. It is designed to assist students in building practical conversational skills in Italian. Students will broaden their ability to understand and speak everyday conversational Italian through the introduction of new vocabulary, elementary grammatical structures, and idiomatic expressions. Ongoing basics of reading and writing will be developed. Students will also acquire an appreciation for the Italian culture.

Transfers to CSU

ADVISORY: ITA 141 with a grade of "C" or better or equivalent.

ITA 143 CONVERSATIONAL ITALIAN III*Lecture 3, Lab 0, Units 3*

This course is a continuation of ITA 142. It is designed to assist students in building practical conversational skills in Italian. Students will broaden their ability to understand and speak everyday conversational Italian through the introduction of new vocabulary and more advanced grammatical structures at the elementary level used in oral communication. Elementary reading, writing, and an appreciation of Italian culture will continue to be developed.

Transfers to CSU

ADVISORY: ITA 142 with a grade of "C" or better or equivalent.

ITA 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

ITA 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

ITA 251 INTERMEDIATE CONVERSATIONAL ITALIAN I*Lecture 3, Lab 0, Units 3*

The emphasis of this intermediate level conversational Italian course is to develop and build confidence in oral expression. Speaking proficiency will be developed by expanding vocabulary, increasing listening comprehension, refining grammar control and pronunciation, and practicing intensive conversations. Readings will focus on cultural issues. Students will also converse about contemporary issues and current events selected to stimulate critical thinking in Italian.

ADVISORY: ITA 143 (*formerly 153*) with a grade of "C" or equivalent.

ITA 252 INTERMEDIATE CONVERSATIONAL ITALIAN II*Lecture 3, Lab 0, Units 3*

This course is a continuation of ITA 251. The emphasis of this intermediate level conversational Italian course is to develop and build confidence in oral expression. Speaking proficiency will be developed by expanding vocabulary, increasing listening comprehension, refining grammar control and pronunciation, and practicing intensive conversations. Readings will focus on cultural issues. Students will also converse about contemporary issues and current events selected to stimulate critical thinking in Italian.

ADVISORY: ITA 251 with a grade of "C" or equivalent.

ITA 253 INTERMEDIATE CONVERSATIONAL ITALIAN III*Lecture 3, Lab 0, Units 3*

This course is a continuation of ITA 252. The emphasis of this intermediate level conversational Italian course is to develop and build confidence in oral expression. Speaking proficiency will be developed by expanding vocabulary, increasing listening comprehension, refining grammar control and pronunciation, and practicing intensive conversations. Readings will focus on cultural issues. Students will also converse about contemporary issues and current events selected to stimulate critical thinking in Italian.

ADVISORY: ITA 252 with a grade of "C" or equivalent.

ITA 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

JAPANESE

A.A. DEGREE

An A.A. Degree is offered in the field of Humanities. For major requirements, see page 66.

JPN 101 ELEMENTARY JAPANESE I*Lecture 5, Lab 0, Units 5*

This beginning level Japanese course is designed to introduce students to the Japanese language, with a focus on building oral communication skills as well as listening and reading skills. The written language of Hiragana and an introduction to Katakana will also be studied. Emphasis will focus on proper grammatical usage at the beginning level. Cultural topics will be introduced, including the honorific characteristics of the Japanese language.

Transfers to CSU, UNR, UC

JPN 102 ELEMENTARY JAPANESE II*Lecture 5, Lab 0, Units 5*

This beginning level Japanese course is a continuation of JPN 101, and will further introduce students to the Japanese language with a focus on building oral communication skills as well as listening and reading skills. Students will continue to study and learn the written languages of Hiragana and Katakana, and be given an introduction to Kanji. Emphasis will focus on proper grammatical usage. Cultural topics, including the honorific characteristics of the Japanese language, will be studied.

Transfers to CSU, UNR, UC

PREREQUISITE: JPN 101 with a grade of "C" or better or equivalent.

JPN 103 ELEMENTARY JAPANESE III*Lecture 5, Lab 0, Units 5*

This beginning level Japanese course is a continuation of JPN 102, and will further introduce students to the Japanese language, with a focus on building oral communication skills, as well as listening and reading skills. Students will continue to study and learn the written languages of Hiragana, Katakana, and Kanji. Emphasis will focus on proper grammatical usage. Describing events, people, expressing feelings, and reasoning will be addressed. Cultural topics, including the continued study of honorific characteristics of the Japanese language, will be studied.

Transfers to CSU, UNR, UC

PREREQUISITE: JPN 102 with a grade of "C" or better or equivalent.

JPN 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

JPN 141 CONVERSATIONAL JAPANESE I*Lecture 3, Lab 0, Units 3*

This course is an introduction to the spoken language of Japanese with an emphasis on its linguistic and cultural characteristics. Students will develop the ability to understand and speak beginning level conversational Japanese through the introduction of vocabulary, elementary grammatical structures, and idiomatic expressions. Culture and history will be taught as they pertain to the spoken language. Students will be introduced to the Japanese reading and writing systems.

Transfers to CSU

JPN 142 CONVERSATIONAL JAPANESE II*Lecture 3, Lab 0, Units 3*

This course is a continuation of JPN 141. Students will build upon their communication skills as well as broaden their understanding of Japanese grammar. This course will further assist the students in reading, writing, and understanding the Japanese language as well as refining pronunciation and communication skills. Japanese culture and history will also be highlighted in this course.

Transfers to CSU

ADVISORY: JPN 141 with a grade of "C" or better or equivalent.

JPN 143 CONVERSATIONAL JAPANESE III*Lecture 3, Lab 0, Units 3*

This course is a continuation of JPN 142. Students will build upon their beginning level communication skills in the Japanese language by incorporating verb tenses with several types of linguistic registers and vocabulary. Students will study Hirakana and be introduced to Katakana - two different Japanese alphabet systems. Japanese culture and history will also be highlighted in this course.

Transfers to CSU

ADVISORY: JPN 142 with a grade of "C" or better or equivalent.

JPN 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

JPN 201 INTERMEDIATE JAPANESE I*Lecture 5, Lab 0, Units 5*

This course is designed to assist students in building intermediate level language skills in Japanese with emphasis on listening, speaking, reading, and writing. Students will incorporate previously learned language skills through review and application of more advanced structures. Oral communication skills at this level are designed to promote intermediate level communicative competencies and self-expression. Students will also gain an appreciation for Japanese culture.

Transfers to CSU, UNR, UC

PREREQUISITE: JPN 103 with a grade of "C" or better or equivalent.

JPN 202 INTERMEDIATE JAPANESE II*Lecture 5, Lab 0, Units 5*

This course is a continuation of JPN 201. This course is designed to assist students in building intermediate level language skills in Japanese with emphasis on listening, speaking, reading, and writing. Students will incorporate previously learned language skills through review and application of more advanced structures. Oral communication skills will be designed to promote intermediate level communicative competencies and self-expression. Students will also gain an appreciation for Japanese culture and literature.

Transfers to CSU, UNR, UC

PREREQUISITE: JPN 201 with a grade of "C" or better or equivalent.

JPN 203 INTERMEDIATE JAPANESE III*Lecture 5, Lab 0, Units 5*

As a continuation of JPN 202, this course is designed to assist students in building intermediate level language skills in Japanese with emphasis on listening, speaking, reading, and writing. Students will incorporate previous language skills through review and application of more advanced structures. Oral communication skills at this level are designed to promote intermediate level communicative competence and self-expression. Students will also gain an appreciation for the Japanese culture and literature.

Transfers to CSU, UNR, UC

PREREQUISITE: JPN 202 with a grade of "C" or better or equivalent.

JPN 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

JPN 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

LATIN

A.A. DEGREE

An A.A. Degree is offered in the field of Humanities. For major requirements, see page 66.

LAT 101 ELEMENTARY LATIN I

Lecture 5, Lab 0, Units 5

This course consists of the study and practice of the reading, writing, and understanding of the Latin language with emphasis given to grammatical forms and syntax, vocabulary derivatives in English and the romance languages, translation into English of significant works of Roman authors, and appreciation of ancient Roman culture.

Transfers to CSU, UNR, UC

LAT 102 ELEMENTARY LATIN II

Lecture 5, Lab, 0, Units 5

This course, a continuation of LAT 101, is a further study and practice in Latin grammatical forms and syntax, along with continued reading and translation of Roman authors, etymological study, and appreciation of Roman culture.

Transfers to CSU, UNR, UC

PREREQUISITE: LAT 101 with a grade of "C" or better or equivalent.

LAT 103 ELEMENTARY LATIN III

Lecture 5, Lab 0, Units 5

This course, a continuation of LAT 102, advances the study of Latin grammatical forms and syntax, as well as the reading and translation of Roman authors, etymological study and appreciation of Roman culture.

Transfers to CSU, UNR, UC

PREREQUISITE: LAT 102 with a grade of "C" or better or equivalent.

LAT 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

LAT 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

LAT 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

LAT 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

MATHEMATICS

A.A. DEGREE

An A.A. Degree is offered in the field of Mathematics. For major requirements, see page 70.

All prerequisite courses listed for mathematics courses require a grade of "C" or better for admission into the pertinent course.

THE FOLLOWING COURSES IN THIS SUBJECT AREA MAY BE CHALLENGED: ALL COURSE LISTINGS EXCEPT MAT 187A, MAT 187AA AND MAT 187AB.

MAT 102 SURVEY OF MATHEMATICAL IDEAS

Lecture 4, Lab 0, Units 4

This course provides a survey of a variety of branches of mathematics including inductive and deductive reasoning, probability, statistics, the mathematics of finance, exponential growth and decay, and an introduction to trigonometric functions.

Transfers to CSU, UNR, UC

PREREQUISITE: MAT 154A or 154AA with a grade of "C" or better or equivalent or appropriate skills demonstrated through the math assessment process.

ADVISORY: MAT 188 or equivalent.

MAT 103A COLLEGE ALGEBRA (PART I)

Lecture 4, Lab 0, Units 4

This course provides an in-depth coverage of functions: polynomial and rational functions, their graphs and finding solutions, and zeros of polynomial functions. Special emphasis will be placed on applications problems and the use of calculators.

Transfers to CSU, UNR, UC (unit limit)

PREREQUISITE: MAT 154A or 154AA with a grade of "C" or better or equivalent or appropriate skills demonstrated through the math assessment.

COREQUISITE: MAT 153 or equivalent or appropriate skills demonstrated through the math assessment process. Prior completion of MAT 153 with a grade of "C" or better also satisfies this corequisite.

MAT 103B COLLEGE ALGEBRA (PART II)

Lecture 4, Lab 0, Units 4

This course covers the properties of logarithms and exponentials, conic sections, systems of equations and their solution with Gaussian Elimination, a brief introduction into linear programming, sequences, series, permutations, and combinations.

Transfers to CSU, UNR, UC (unit limit)

PREREQUISITE: MAT 153 and either 154A or 154AA with a grade of "C" or better or equivalent or appropriate skills demonstrated through the math assessment process.

MAT 104 COLLEGE TRIGONOMETRY

Lecture 4, Lab 0, Units 4

This course is the study of trigonometric functions of real numbers and angles, their graphs and properties; functions of multiple angles, identities, reduction formulas, radian measure; inverse trigonometric functions; solution of triangles, polar coordinates, parametric equations; and complex numbers.

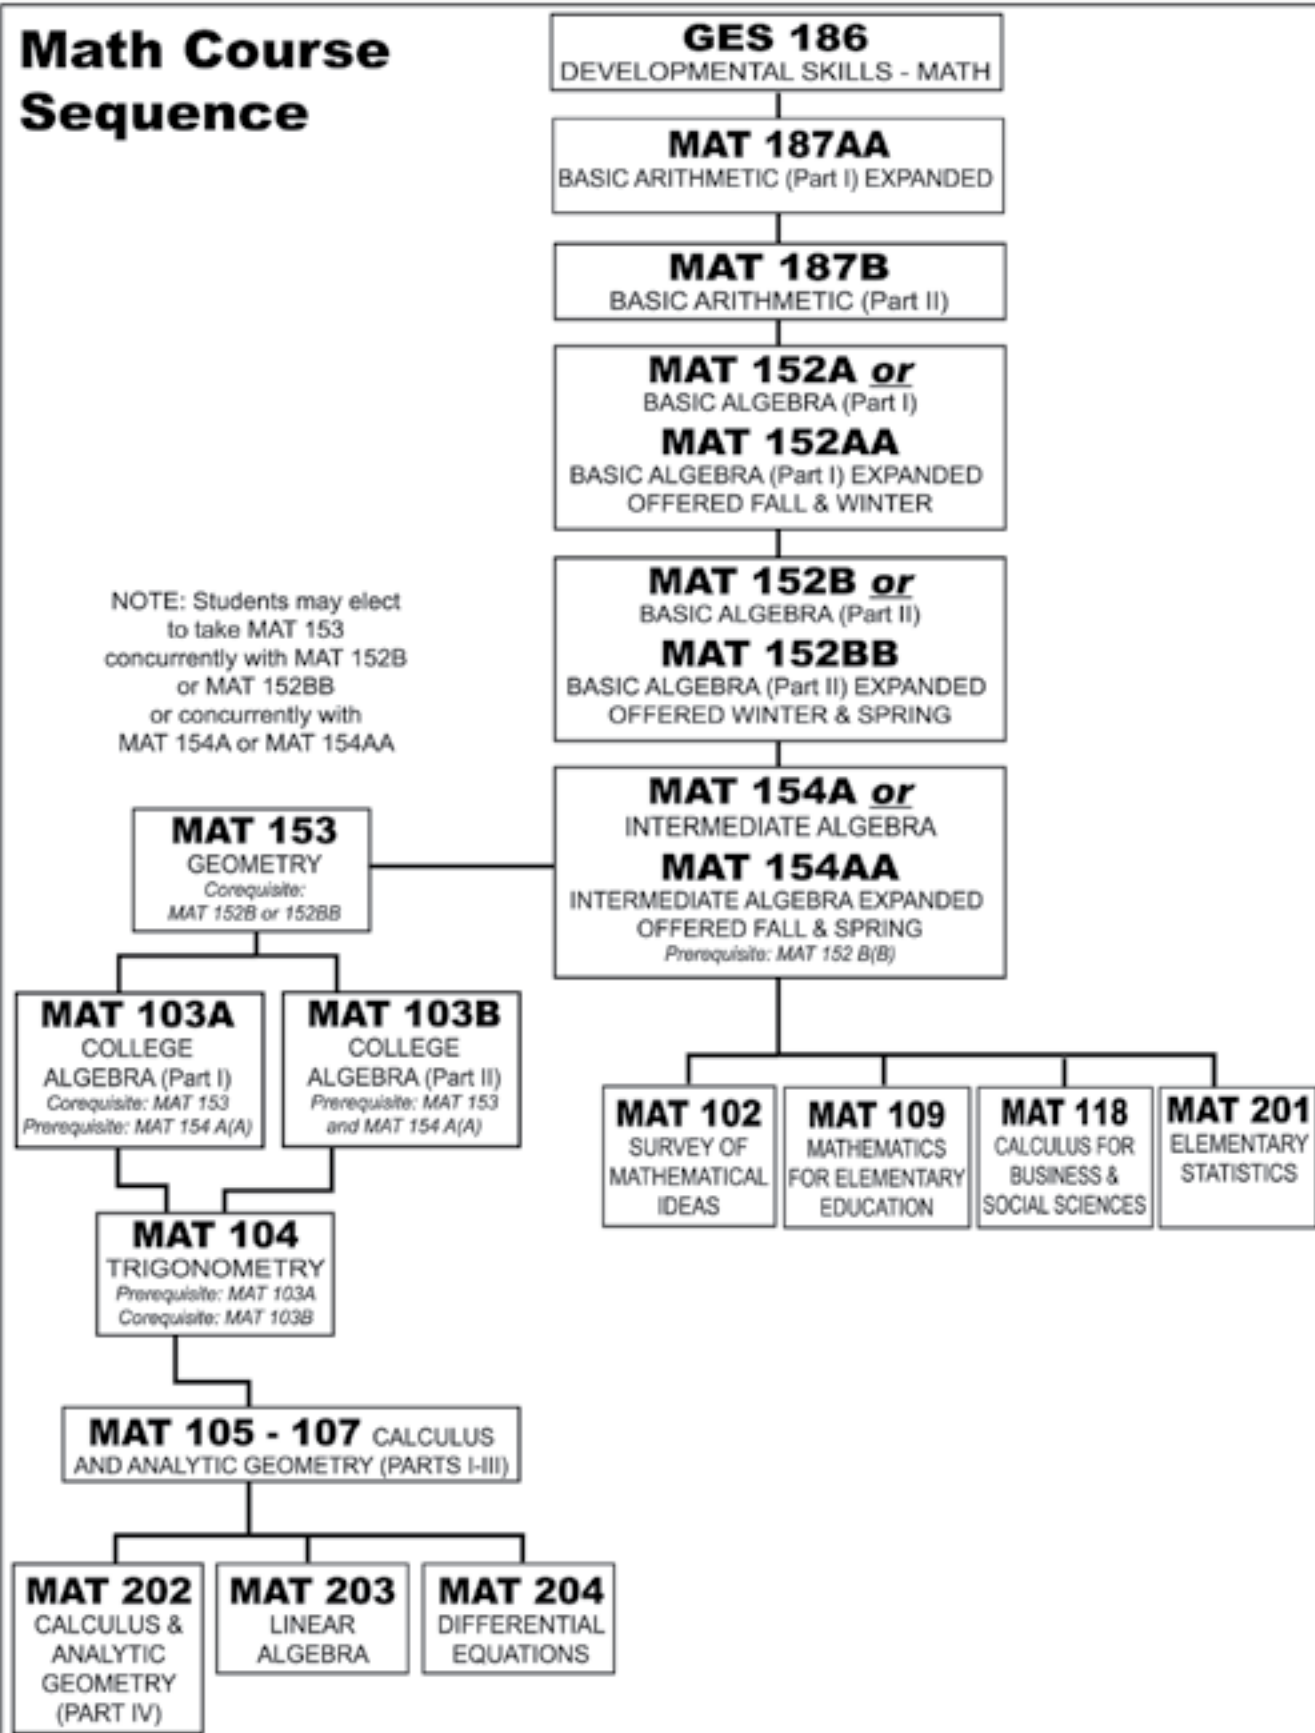

Transfers to CSU, UNR

PREREQUISITE: MAT 103A with a grade of "C" or better or equivalent or appropriate skills demonstrated through the math assessment process.

COREQUISITE: MAT 103B or equivalent or appropriate skills demonstrated through the math assessment process. Prior completion of MAT 103B with a grade of "C" or better also satisfies this corequisite.

Math Course Sequence

NOTE: Students may elect to take MAT 153 concurrently with MAT 152B or MAT 152BB or concurrently with MAT 154A or MAT 154AA

MAT 105 CALCULUS AND ANALYTIC GEOMETRY (PART I)

Lecture 5, Lab 0, Units 5

This course deals with elements of analytical geometry, limit theory, continuity of the derivative and its applications, the antiderivative, the definite integral, the fundamental theorem of calculus, properties of the integral, and area.

Transfers to CSU, UNR, UC (course limit)

PREREQUISITE: MAT 103B with a grade of "C" or better or equivalent or appropriate skills demonstrated through the math assessment process. MAT 104 with a grade of "C" or better or equivalent or appropriate skills demonstrated through the math assessment process.

MAT 106 CALCULUS AND ANALYTIC GEOMETRY (PART II)

Lecture 5, Lab 0, Units 5

This course is a continuation of MAT 105. Applications of the integral, techniques of integration, exponential and logarithmic functions, hyperbolic functions, and inverse trigonometric functions will be studied.

Transfers to CSU, UNR, UC (course limit)

PREREQUISITE: MAT 105 with a grade of "C" or better or equivalent.

MAT 107 CALCULUS AND ANALYTIC GEOMETRY (PART III)

Lecture 5, Lab 0, Units 5

This course is a continuation of MAT 106. It focuses on sequences and series, Taylor polynomials, polar coordinates, and differentiation and integration of multivariate functions.

Transfers to CSU, UNR, UC (course limit)

PREREQUISITE: MAT 106 with a grade of "C" or better or equivalent.

MAT 109 MATHEMATICS FOR ELEMENTARY EDUCATION

Lecture 5, Lab 0, Units 5

This course is designed for prospective elementary and middle school teachers. The course is an introduction to the discipline of mathematics pertaining to logical, quantitative, and spatial reasoning in the abstraction, modeling, and problem solving of real-world situations. The main topics in the course include the origins of mathematics, mathematical reasoning and problem solving strategies, theory of sets, integers and integral number theory, rational numbers and proportion, real numbers and decimal notation, and measurement. Throughout the course, students will experience the learning of mathematics in a way that models how they can create an active learning environment for their future students.

Transfers to CSU, UNR

PREREQUISITE: MAT 154A or 154AA with a grade of "C" or better or equivalent or appropriate skills demonstrated through the math assessment process.

MAT 118 CALCULUS FOR BUSINESS AND SOCIAL SCIENCES

Lecture 5, Lab 0, Units 5

This is a calculus course for students who intend on majoring in business or social science, or for students who have a general interest in calculus and its applications. Topics covered include functions, limits, differentiation, integration, and partial derivatives.

Transfers to CSU, UC, UNR

PREREQUISITE: MAT 154A or 154AA with a grade of "C" or better or equivalent or appropriate skills demonstrated through the math assessment process

MAT 119 TOPICS IN APPLIED MATHEMATICS

Lecture .5, Lab 0, Units .5

This course is a survey of applications of mathematics presented by instructors associated with the annual California Mathematics Council Community College (CMC³) Recreational Mathematics Conference. Students will learn applications from statistics, geometry, algebra, calculus, and cultural mathematics.

Transfers to CSU, UNR

ADVISORY: MAT 154A or 154AA or equivalent.

MAT 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

Transfers to CSU

MAT 152A BASIC ALGEBRA (PART I)

Lecture 4, Lab 0, Units 4

This course is designed as an introduction to algebra. Topics covered include the four basic operations with positive and negative numbers and with polynomials, solving and graphing linear equations, an introduction to functions and sets, and properties of integral exponents.

PREREQUISITE: MAT 187B with a grade of "C" or better or equivalent or appropriate skills demonstrated through the math assessment process.

MAT 152AA BASIC ALGEBRA (PART I): EXPANDED

Lecture 5, Lab 0, Units 5

This course contains the same content as MAT 152A, but is designed for students who need extra time to master the material. Topics covered include the four basic operations with positive and negative numbers and with polynomials, solving and graphing linear equations, an introduction to functions and sets, and properties of integral exponents.

PREREQUISITE: MAT 187B with a grade of "C" or better or equivalent, or appropriate skills demonstrated through the math assessment process.

MAT 152B BASIC ALGEBRA (PART II)

Lecture 4, Lab 0, Units 4

This course is a continuation of MAT 152A or MAT 152AA. The material covered includes factoring, operations, and equations with rational expressions, linear equations and inequalities with absolute values, solving systems of linear equations and inequalities, operations with exponents and radicals, solving radical equations, and solving quadratic equations.

PREREQUISITE: MAT 152A or MAT 152AA with a grade of "C" or better or equivalent or appropriate skills demonstrated through the math assessment process.

MAT 152BB BASIC ALGEBRA (PART II): EXPANDED

Lecture 5, Lab 0, Units 5

This course contains the same content as MAT 152B, but is designed for students who need extra time to master the material. This course is a continuation of MAT 152A or MAT 152AA. The topics covered include factoring, operations, and equations with rational expressions, linear equations and inequalities with absolute values, solving systems of linear equations and inequalities, operations with exponents and radicals, solving radical equations, and solving quadratic equations.

PREREQUISITE: MAT 152A or MAT 152AA with a grade of "C" or better or equivalent, or appropriate skills demonstrated through the math assessment process.

MAT 153 EUCLIDEAN GEOMETRY*Lecture 4, Lab 0, Units 4*

This is a formal course in geometry covering the basics of lines, planes, angles, triangles, and congruence. The method of deductive reasoning will be stressed. Additional topics will include parallel lines, the Pythagorean Theorem, and similarity.

COREQUISITE: MAT 152B or 152BB or equivalent or appropriate skills demonstrated through the math assessment process. Prior completion of MAT 152B or 152BB with a grade of "C" or better also satisfies this corequisite.

MAT 154A INTERMEDIATE ALGEBRA*Lecture 4, Lab 0, Units 4*

This course is a continuation of MAT 152B or MAT 152BB and covers algebraic tools commonly used in business, science, and math. Students will learn to solve applications with quadratic equations and systems of quadratic equations. Students will be introduced to the definition of a function and its inverse, exponential and logarithmic functions, sequences and series, and conic sections.

PREREQUISITE: MAT 152B or MAT 152BB with a grade of "C" or better or equivalent or appropriate skills demonstrated through the math assessment process.

MAT 154AA INTERMEDIATE ALGEBRA: EXPANDED*Lecture 5, Lab 0, Units 5*

This is an expanded version of MAT 154A with an additional hour of instruction of each week. It is specifically designed for students who are nervous about and/or find math difficult. Students will learn to solve applications with quadratic equations and systems of quadratic equations. Students will be introduced to the definition of a function and its inverse, exponential and logarithmic functions, sequences and series, and conic sections.

PREREQUISITE: MAT 152B or 152BB with a grade of "C" or better or equivalent or appropriate skills demonstrated through the math assessment process.

MAT 155A CALCULATOR ANALYSIS*Lecture .25, Lab 0, Units .25*

This course is an introduction to using the TI 89 calculator to analyze functions. Students will learn how to use the calculator to do matrix operations, algebraic operations, enter and manipulate data, and perform other miscellaneous operations.

MAT 155G CALCULATOR GRAPHICS*Lecture .25, Lab 0, Units .25*

This course is an introduction to using the TI 89 calculator to graph functions and relations. Students will learn how to use the calculator to graph functions in Cartesian coordinates, polar coordinates, and parametric equations.

MAT 157 MATHEMATICS AND GAMBLING*Lecture .25, Lab 0, Units .25*

This course is an overview of some of the mathematics behind gambling. Students will learn how to calculate some of the odds of Roulette, Keno, Craps, Black Jack, and other casino games. Betting strategies, card counting, and casino earnings will be explained.

ADVISORY: Beginning Algebra (MAT 152A and 152B) or equivalent.

NOTE: Non-Degree Applicable course.

MAT 157P APPLIED MATHEMATICS: STATISTICS OF POKER*Lecture .25, Lab 0, Units .25*

This course is an overview of some of the mathematics and statistics behind poker. Students will learn how to calculate the probabilities of several scenarios in poker. They will also investigate how game theory can be used to understand bluffing strategies. Calculations will be made for several varieties of poker.

ADVISORY: MAT 152A or equivalent.

MAT 158 MATH REVIEW*Lecture 2, Lab 0, Units 2*

This course includes a brief review of arithmetic, and/or a condensed review of basic algebra, and/or a condensed review of intermediate algebra. Students should have earned a "C" or better in Basic Arithmetic, Basic Algebra, and/or Intermediate Algebra in either high school or college.

ADVISORY: Grade of "C" or better in Basic Arithmetic, Basic Algebra, and/or Intermediate Algebra in either high school or college.

MAT 183 SUPPLEMENT FOR MAT 152A OR MAT 152AA (BASIC ALGEBRA PART I)*Lecture 1, Lab 0, Units 1*

This course can be taken in conjunction with any section of MAT 152A or MAT 152AA. This course allows for one additional hour each week of instructional time and is specifically designed for students who desire additional assistance with beginning Algebra (Part I).

COREQUISITE: Co-enrollment in MAT 152A or MAT 152AA.

NOTE: Non-Degree Applicable course.

MAT 184 SUPPLEMENT FOR MAT 152B (BASIC ALGEBRA PART II)*Lecture 1, Lab 0, Units 1*

This course is taken in conjunction with any section of MAT 152B or MAT 152BB sections. This course allows for one additional hour each week of instructional time and is specifically designed for students who are nervous about math and/or find math difficult to master and for students who need additional instruction in study skills.

COREQUISITE: Students must take concurrently with a section of MAT 152B or MAT 152BB.

NOTE: Non-Degree Applicable course.

MAT 185 SUPPLEMENT FOR MAT 154A (INTERMEDIATE ALGEBRA)*Lecture 1, Lab 0, Units 1*

This course is taken in conjunction with any section of MAT 154A or MAT 154AA. This course allows for one additional hour each week of instructional time and is specifically designed for students who are nervous about math and/or find math difficult to master and for students who need additional instruction in study skills.

COREQUISITE: Students must take concurrently with a section of MAT 154A or MAT 154AA.

NOTE: Non-Degree Applicable course.

MAT 187A BASIC ARITHMETIC (PART I)*Lecture 2, Lab 0, Units 2*

This course covers general areas of arithmetic which include whole numbers, fractions, and an introduction to decimals.

ADVISORY: Appropriate skills demonstrated through the math assessment process.

NOTE: Non-Degree Applicable course.

MAT 187AA BASIC ARITHMETIC (PART I): EXPANDED

Lecture 2.5, Lab 0, Units 2.5

This basic arithmetic course covers general areas of arithmetic which include whole numbers, fractions, and an introduction to decimals. Included is an additional study skills/counseling component to assist students in being successful in this course as well as future math courses.

ADVISORY: Appropriate skills demonstrated through the math assessment process.

NOTE: Non-Degree Applicable course.

MAT 187B BASIC ARITHMETIC (PART II)

Lecture 2, Lab 0, Units 2

This course covers general areas of arithmetic which include decimals, percents, and an introduction to algebra.

PREREQUISITE: MAT 187A or MAT 187AA with a grade of "C" or better or equivalent or appropriate skills demonstrated through the math assessment process.

NOTE: Non-Degree Applicable course.

MAT 188 SUPPLEMENT TO MAT 102: A SURVEY OF MATHEMATICAL IDEAS

Lecture 1, Lab 0, Units 1

This optional course is a supplement to MAT 102: A Survey of Mathematical Ideas. This course allows for one hour of additional instructional time per week and is specifically designed for students who are nervous about math and/or find math difficult to master. This time will be used to answer more questions, have additional review, and clarify new concepts.

COREQUISITE: MAT 102.

NOTE: Non-Degree Applicable course.

MAT 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

MAT 201 ELEMENTARY STATISTICS

Lecture 5, Lab 0, Units 5

This course covers elements of probability, frequency distributions, graphs and measures of central tendency. Functions of random variables, probability distributions, sampling, hypothesis testing, confidence intervals, regression analysis and analysis of variance (ANOVA) will also be covered.

Transfers to CSU, UNR, UC

PREREQUISITE: MAT 154A or 154AA with a grade of "C" or better or equivalent or appropriate skills demonstrated through the math assessment process.

MAT 202 CALCULUS AND ANALYTIC GEOMETRY (PART IV)

Lecture 5, Lab 0, Units 5

This course covers the calculus of several variables including partial differentiation, applications of partial derivatives, vector fields, multiple integration, and vector analysis.

Transfers to CSU, UNR, UC

PREREQUISITE: MAT 107 with a grade of "C" or better or equivalent.

MAT 203 LINEAR ALGEBRA

Lecture 5, Lab 0, Units 5

This course covers linear equations, matrices, determinants, vector spaces, linear transformations, eigenvalues, eigenvectors, and their applications to linear programming, differential equations, graph theory, game theory, and linear economic models.

Transfers to CSU, UNR, UC

PREREQUISITE: MAT 107 with a grade of "C" or better or equivalent.

MAT 204 DIFFERENTIAL EQUATIONS

Lecture 5, Lab 0, Units 5

This course covers techniques of solving ordinary differential equations. Topics include finite difference methods, exact, separable, linear, and Bernoulli equations, integrating factors, the method of undetermined coefficients, variation of parameters, Laplace transforms, series solutions, systems of differential equations, and applications.

Transfers to CSU, UNR, UC

PREREQUISITE: MAT 107 with a grade of "C" or better or equivalent.

MAT 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

MAT 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

NON-CREDIT MATH

MAT 550 CAHSEE MATH PREPARATION

Hours per week: 2

This course is a preparation course for students studying for the mathematics portion of the California High School Exit Exam (CAHSEE). It is especially geared toward students who have finished high school but have not yet passed the mathematics portion of the CAHSEE. The course includes test taking strategies, geometry and measurement, statistics, beginning algebra, mathematical reasoning, and number sense.

MEDICAL OFFICE ASSISTANT

A.A. DEGREE

An A.A. Degree is offered in the field of Medical Office Assistant (Administrative and Clinical). For major requirements, see page 71.

CERTIFICATE OF ACHIEVEMENT

A Certificate of Achievement is offered in the field of Medical Office Assistant (Administrative and Clinical). For requirements, see page 88.

MOA 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

Transfers to CSU

MOA 132 OCCUPATIONAL WORK EXPERIENCE

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience is for students who are employed in jobs related to their educational or occupational goals. This program extends knowledge gained in the classroom to the workplace, helps students identify new and challenging objectives at work, and encourages professional growth and advancement.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

MOA 133 OCCUPATIONAL WORK EXPERIENCE - INTERNSHIP

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience Internship is supervised placement at a worksite related to the student's educational or occupational goals. The program will assist students in acquiring desirable work experience, attitudes, and awareness of career opportunities in their chosen field of study.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

MOA 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

MOA 228 CLINICAL TECHNIQUES I

Lecture 2, Lab 2, Units 2.75

This course presents the basic clinical procedures essential to the back-office medical setting in a format designed to achieve professional competency in clinical skills. Topics covered include general patient assessment and care, taking and charting of medical history and vital signs, examination preparation, medical asepsis and infection control, methods for promoting tissue healing, eye and ear assessment procedures, and Occupational Safety and Health Administration (OSHA) standards and regulations.

Transfers to CSU

ADVISORY: MOA 238 or equivalent.

MOA 229 CLINICAL TECHNIQUES II

Lecture 2, Lab 2, Units 2.75

This course is a continuation of MOA 228 - Clinical Techniques I with greater emphasis placed on specialty and diagnostic procedures in a medical office setting. Topics covered include laboratory techniques, patient preparation, pharmacology and administration of medications, assisting with minor office surgery, and proper handling and care of equipment and specimens.

Transfers to CSU

ADVISORY: MOA 228 or equivalent.

MOA 230 CLINICAL TECHNIQUES III

Lecture 2, Lab 2, Units 2.75

This course is a continuation of Clinical Techniques II. Students will study procedures related to medical office microbiology, electrocardiology, radiology and diagnostic imaging, pediatric and gynecological examinations, prenatal care, colon procedures, and important aspects of emergency procedures.

Transfers to CSU

ADVISORY: MOA 229 or equivalent.

MOA 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

MOA 235 INTRODUCTION TO ADMINISTRATIVE MEDICAL ASSISTING

Lecture 3, Lab 0, Units 3

This course provides an overview of front office medical assisting. Emphasis is placed on records management, telephone and reception skills, scheduling, medical insurance, HIPAA, and medical legal issues. Ethics and the history of medicine will also be explored. Completion of this course will provide students with the fundamental skills necessary to work in the medical front office.

Transfers to CSU

MOA 236 BASIC PRINCIPLES OF MEDICAL CODING

Lecture 4, Lab 0, Units 4

This is an introductory course in the basic principles of coding diseases, medical, surgical and diagnostic services, and National Level II codes using the International Classification of Disease (ICD-9), Current Procedural Terminology (CPT) and HCPCS volumes. This course presents essential knowledge for medical office insurance billing.

Transfers to CSU

ADVISORY: MOA 238 or equivalent.

MOA 237 MEDICAL INSURANCE BILLING*Lecture 3, Lab 0, Units 3*

This is an introductory course in the basic procedures of filing, tracing, and processing insurance claims with emphasis on Medicare, Medi-Cal, Workers Compensation, and group claims. Students will use Current Procedural Terminology (CPT) and International Classification of Diseases (ICD) coding books.

Transfers to CSU

ADVISORY: MOA 236 or equivalent.**MOA 238 BEGINNING MEDICAL TERMINOLOGY***Lecture 4, Lab 0, Units 4*

This is a foundation course for students interested in allied health and medical fields. This course builds a solid base for understanding the language of medicine. Students will be oriented to the basic structure of medical terms and their components, with an emphasis on analysis, meaning, spelling, and pronunciation. This course highlights the integumentary, skeletal, muscular, digestive, cardiovascular, blood and lymphatic, and respiratory systems.

Transfers to CSU, UNR

MOA 240 ADVANCED MEDICAL TERMINOLOGY*Lecture 4, Lab 0, Units 4*

This course is a continuation of MOA 238 and offers a more thorough presentation of medical terminology within a health care setting. Topics include advanced word roots, combining forms, prefixes, suffixes, spelling, and pronunciation. This course highlights the urinary, endocrine, nervous, sensory, and reproductive systems. Advanced subjects include radiology, nuclear medicine, and mental health.

Transfers to CSU, UNR

ADVISORY: MOA 238 (or equivalent) with a grade of "C" or better.**MOA 291 SPECIAL PROJECTS***Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

MUSIC

A.A. DEGREE

An A.A. Degree is offered in the field of Visual and Performing Arts. For major requirements, see page 77.

THE FOLLOWING COURSES IN THIS SUBJECT AREA MAY BE CHALLENGED: MUS 111, 112.

MUS 101 MUSIC LISTENING AND APPRECIATION*Lecture 4, Lab 0, Units 4*

This course gives a comprehensive overview of the elements and styles of music from 1600 to the present. Study will focus on guided listening to compositions by selected composers. Emphasis will be placed on the understanding of various types of instrumental and vocal music including the symphony, concerto, sonata, vocal genres, classical twentieth-century music, and jazz styles.

Transfers to CSU, UNR, UC

MUS 102 SURVEY OF MUSIC I*Lecture 4, Lab 0, Units 4*

This is a survey course of classical music from its beginning through the Renaissance, Baroque, and Classical periods. Emphasis will be on developing familiarity with a wide variety of styles and compositions including works by Vivaldi, Bach and Handel. Classical concertos, sonatas, and symphonies by Haydn, Mozart, and Beethoven will also be included.

Transfers to CSU, UNR, UC

MUS 103 SURVEY OF MUSIC II*Lecture 4, Lab 0, Units 4*

This is a survey course of classical music from the time of Mozart and Beethoven through the present. Romantic period repertoire and style will include compositions by various composers, including Chopin, Schubert, Schumann, Verdi, Wagner, Puccini, Tchaikovsky, Brahms, and many others. Students will also study composers and musical styles from the Twentieth Century.

Transfers to CSU, UNR, UC

MUS 104A/THE 104A HISTORY OF MUSICAL THEATRE*Lecture 4, Lab 0, Units 4*

This course will cover the historical evolution of musical theatre forms in America. Students will examine the ideas, practices, and contributions of the musical's most influential creative artists, and analyze the major elements of a musical show.

Transfers to CSU, UNR, UC

MUS 104B HISTORY OF ROCK MUSIC*Lecture 4, Lab 0, Units 4*

This course is a survey of Rock Music from its origins in the 1950s to the middle 1990s. Topics will include genres and styles of rock music, rock music's influence on popular culture, as well as influential artists, writers, and groups.

Transfers to CSU, UNR, UC

MUS 104C MUSIC OF THE WORLD*Lecture 4, Lab 0, Units 4*

Students will explore music from diverse cultures throughout the world, including the Caribbean, the Americas, Africa, Asia, and Europe. This course will examine the historical and cultural context as well as the role and function of various types of music.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.**MUS 104D MUSIC OF LATIN AMERICA***Lecture 4, Lab 0, Units 4*

In this course, students will learn about the indigenous dance, folk music, and popular music of Latin countries with an examination of modern and historical Latin music styles while discovering "Who's Who" among Latin performers. The course will include related representational performing groups and independent artists of Latin countries, as well as discuss instrumentation and cultural uses of Latin music in society.

Transfers to CSU, UNR

ADVISORY: ENG 101 or equivalent.

MUS 104E THE BEATLES*Lecture 4, Lab 0, Units 4*

This is an in-depth examination of the lives, music, careers, social and musical influences of George Harrison, John Lennon, Paul McCartney and Ringo Starr as The Beatles. The course will begin from the group's origin through the present day. This course will include study of music structure, lyrics, instrumentation, and recording techniques of selected compositions.

Transfers to CSU, UNR

ADVISORY: ENG 101 or equivalent.

MUS 104F HISTORY OF JAZZ*Lecture 4, Lab 0, Units 4*

This course explores the history of jazz from its origins to current artists and styles. The course will examine the development of jazz performance, instrumentation and stylistic changes from its roots in ragtime, and growth through Dixieland Jazz, the Big Band era, Bebop, Afro-Cuban Jazz, fusion and smooth jazz. From Louis "Satchmo" Armstrong to "Cannonball" Adderley and Frank Zappa, this course will survey the composers and performers in jazz styles and genres.

Transfers to CSU, UNR

ADVISORY: ENG 101 or equivalent

MUS 111 BASIC MUSIC THEORY I*Lecture 4, Lab 2, Units 4.75*

Students will learn basic pitch and rhythmic notation, major scale theory, circle of fifths, and principles of basic chord construction. Theory skills will be applied practically through application to piano, voice, and rhythm instruments. Beginning ear-training skills, including both simple time and diatonic intervals, will be stressed. This course is recommended for all students in performance courses; for students in piano, voice, and guitar courses; for Early Childhood Education majors; and for Fine Arts majors with an emphasis in music.

Transfers to CSU, UNR, UC

MUS 112 BASIC MUSIC THEORY II*Lecture 4, Lab 2, Units 4.75*

This course is a continuation of MUS 111. Students will study major and minor key signatures and scales, interval structures as they relate to chords and scales, all types of simple and complex triads, seventh chords, and chord inversion. Emphasis will also be placed on developing sight-singing and recognition of diatonic intervals, sight-singing and ear-training, including melodic and rhythmic dictation skills in simple and compound time with subdivided beats, and in major and minor scale systems.

Transfers to CSU, UNR, UC

ADVISORY: MUS 111 or equivalent.

MUS 113 BASIC MUSIC THEORY III*Lecture 4, Lab 2, Units 4.75*

This course is a continuation of MUS 112. Students will review complex triads, as well as dominant, major, minor, and diminished seventh chords, and the harmonic function of chords within a major or minor key. Students will harmonize a melody, learn to write 4-part harmonizations with correct voice-leading techniques, and identify chord structures through numerical analysis. Other topics include the use of modes, pentatonic and blues scales, and techniques of constructing a melody based on repetition, contrast, form, and design. Ear-training exercises will cover melodic and rhythmic dictation in simple and complex meters including subdivision of the beat. Harmonic dictation exercises will cover recognition of major and minor triads and seventh chords within a key.

Transfers to CSU, UC, UNR

ADVISORY: MUS 112 or equivalent.

MUS 118A BEGINNING MIDI APPLICATIONS*Lecture 1, Lab 3, Units 2*

This course provides students with practical applications of computer-based music compositional practices using musical instrument digital interfaces (MIDI). Emphasis will be placed on theoretical knowledge and hands-on experience in the areas of music production, publishing, performing, structure, and orchestration using MIDI sequencing, notation, or looping software.

Transfers to CSU, UNR

ADVISORY: MUS 111, 133A or equivalent.

REPEATABILITY: May be repeated 5 times.

MUS 123 BEGINNING VOICE*Lecture 1, Lab 3, Units 2*

This course is a beginning level course in the fundamentals of classical singing technique including posture, breathing, open throat, forward placement, and diction. Opportunities for performance with evaluation of sound vocal practice are provided. Repertoire will consist primarily of folk songs, musical theater, and art songs.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

MUS 124 INTERMEDIATE VOICE*Lecture 1, Lab 3, Units 2*

This course focuses on intermediate level course instruction in the fundamentals of classical singing technique, including posture, breathing, principles of tone production, and correct diction. More intensive performance experience is provided. Musical theatre and popular styles techniques will be introduced as well.

Transfers to CSU, UNR, UC

ADVISORY: MUS 123 or equivalent.

REPEATABILITY: May be repeated 5 times.

MUS 125A BEGINNING VOICE: BROADWAY AND POPULAR MUSIC*Lecture 1, Lab 3, Units 2*

This course focuses on beginning level course instruction in Broadway and Pop singing styles, including correct breathing technique, mouth and larynx position, vowel modulation, vocal placement, and tone production. Class periods will be divided between preparing and rehearsing solo pieces, duets and trios, and large ensemble numbers. Elementary staging or choreography may be introduced. The course culminates with a public performance by the students in the Duke Theatre.

Transfers to CSU, UNR, UC

ADVISORY: MUS 123 or equivalent.

REPEATABILITY: May be repeated 5 times.

MUS 125B INTERMEDIATE VOICE: BROADWAY AND POPULAR MUSIC*Lecture 1, Lab 3, Units 2*

This course focuses on intermediate level class instruction in Broadway and Pop singing styles, including correct breathing technique, mouth and larynx position, vowel modulation, vocal placement, and tone production. Class periods will be divided between preparing and rehearsing solo pieces, duets and trios, and large ensemble numbers. The course culminates with a public performance by the students in the Duke Theatre.

Transfers to CSU, UNR, UC

ADVISORY: MUS 125A or equivalent.

REPEATABILITY: May be repeated 5 times.

MUS 126A WEST AFRICAN DRUMMING RHYTHMS I

Lecture .5, Lab 1.5, Units 1

This course is for drummers wanting to explore West African rhythms on the djembe drum. Exercises in hand placement techniques will assist in execution of different tones and textures on the djembe. Additional exercises in reading music notation in combination with oral translation of these rhythms will help facilitate development of rhythms ranging from 3 to 6 part form. Junjun and bell parts will be introduced as well as concepts for playing solos.

Transfers to CSU, UNR, UC

ADVISORY: MUS 181 or equivalent.

REPEATABILITY: May be repeated 5 times.

MUS 126B WEST AFRICAN DRUMMING RHYTHMS II

Lecture .5, Lab 1.5, Units 1

This course will explore West African rhythms. Emphasis will be placed on ensemble playing, soloing, as well as detailed study of jun jun and bell parts. Exercises in hand placement techniques will assist in execution of different tones and textures on the djembe. Further development of reading music notation in combination with oral translation of these rhythms will help facilitate development of rhythms ranging from 3 to 6 part form.

Transfers to CSU, UNR, UC

ADVISORY: MUS 181 or equivalent.

REPEATABILITY: May be repeated 5 times.

MUS 126C WEST AFRICAN DRUMMING RHYTHMS III

Lecture .5, Lab 1.5, Units 1

This course will explore West African rhythms. Emphasis will be placed on ensemble playing, soloing, as well as detailed study of jun jun and bell parts. Exercises in hand placement techniques will assist in execution of different tones and textures on the djembe. Further development of reading music notation in combination with oral translation of these rhythms will help facilitate development of rhythms ranging from 3 to 6 part form.

Transfers to CSU, UNR, UC

ADVISORY: MUS 181 or equivalent.

REPEATABILITY: May be repeated 5 times.

MUS 126D BEGINNING CONGA

Lecture .5, Lab 1.5, Units 1

In this course, students will learn the basic fundamentals for playing congas. Hand placement techniques will be introduced along with rhythmic exercises and beginning Latin rhythms.

Transfers to CSU, UNR, UC

ADVISORY: MUS 181 or equivalent.

REPEATABILITY: May be repeated 5 times.

MUS 126E INTERMEDIATE CONGA

Lecture .5, Lab 1.5, Units 1

In this course, students will continue to improve upon the basic fundamentals for playing congas. Intermediate level hand placement techniques will be introduced along with the Afro-Cuban rhythms: tumbao, calypso, and conga.

Transfers to CSU, UNR, UC

ADVISORY: MUS 126D or equivalent.

REPEATABILITY: May be repeated 5 times.

MUS 126F BEGINNING DUNNUN DRUMS

Lecture .5, Lab 1.5, Units 1

In this course, students will learn the basic fundamentals for playing the West African dunnuns: kenkeni, sangban, and dunnunba. These drums form the foundation of the West African drum ensemble. Basic stick techniques and independence exercises will be introduced while presenting traditional West African rhythms.

Transfers to CSU, UNR

ADVISORY: MUS 181 or equivalent.

REPEATABILITY: May be repeated 5 times

MUS 127A BEGINNING JAZZ IMPROVISATION

Lecture .5, Lab 1.5, Units 1

This course is designed for the beginning level musician with an interest in jazz improvisation. Students will learn basic jazz melodic, rhythmic, and harmonic constructions and their applications to improvisation.

Transfers to CSU, UNR, UC

ADVISORY: MUS 112 or 132 and have a basic understanding of general music theory. Students should be able to demonstrate facility with F, Bb, and Eb major scales on their instrument.

REPEATABILITY: May be repeated 5 times.

MUS 127B INTERMEDIATE JAZZ IMPROVISATION

Lecture .5, Lab 1.5, Units 1

This course is for the intermediate level musician with an interest in improving their jazz improvisational skills and focuses on understanding the relationship between the V7-I and the ii7-V7-I chord progressions.

Transfers to CSU, UNR, UC

ADVISORY: MUS 127A or equivalent and be competent in performing the blues in Bb major.

REPEATABILITY: May be repeated 5 times.

MUS 128A BEGINNING ELECTRIC BASS

Lecture 1, Lab 1, Units 1.25

This course introduces students to the basic fundamentals of playing the electric bass. Proper playing position and technique will be emphasized along bass lines for various musical styles.

Transfers to CSU, UNR

REPEATABILITY: May be repeated 5 times.

MUS 128B INTERMEDIATE ELECTRIC BASS

Lecture 1, Lab 1, Units 1.25

This course expands upon the basics of playing the electric bass, and helps students achieve intermediate level competencies by improving their rhythm, technique, speed, and musical expressiveness. Playing and creating bass lines for blues, rock, and jazz styles will be emphasized, along with exercises for targeting skill improvement.

Transfers to CSU, UNR

ADVISORY: MUS 128A or equivalent.

REPEATABILITY: May be repeated 5 times.

MUS 130A BEGINNING DRUMSET

Lecture .5, Lab 1.5, Units 1

This course is designed for beginning students of drumset playing. The course will cover basic rudimental stick control exercises and introductions to the following styles of rhythms on the drumset: Rock, Funk, Country, Swing and Shuffle.

Transfers to CSU, UNR, UC

ADVISORY: MUS 111 or equivalent.

REPEATABILITY: May be repeated 5 times.

MUS 130B INTERMEDIATE DRUMSET*Lecture .5, Lab 1.5, Units 1*

This course is designed for students of intermediate level drumset playing. Students will learn more advanced rudimental stick control exercises and more complex rhythms in the following styles: Afro-Cuban, Rhythm and Blues, Rock and Roll, Swing, and Shuffle.

Transfers to CSU, UNR, UC

ADVISORY: MUS 130A or equivalent.

REPEATABILITY: May be repeated 5 times.

MUS 130C ADVANCED DRUMSET*Lecture .5, Lab 1.5, Units 1*

This course is designed for students of advanced level drumset playing. Students will learn more advanced rudimental stick control exercises, more advanced hand-foot coordination exercises, and further applications into the following styles: Afro-Cuban, Rhythm and Blues, Rock and Roll, Swing, and Shuffle.

Transfers to CSU, UNR, UC

ADVISORY: MUS 130B or equivalent.

REPEATABILITY: May be repeated 5 times.

MUS 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

Transfers to CSU

MUS 133A BEGINNING KEYBOARD SKILLS I*Lecture 2, Lab 2, Units 2.75*

Students will learn the fundamentals of reading music and beginning chord theory as it applies to piano, organ, or synthesizer. Keyboard skills will include playing chord patterns, intervals, and developing basic hand technique. No previous musical experience is required.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

MUS 133B BEGINNING KEYBOARD SKILLS II*Lecture 2, Lab 2, Units 2.75*

Students will continue to learn the fundamentals of reading music and chord theory as it applies to piano, organ, or synthesizer. Keyboard skills will include playing pieces in a wide variety of styles that emphasize chording, sight-reading, and improving two-hand coordination.

Transfers to CSU, UNR, UC

ADVISORY: MUS 133A or equivalent.

REPEATABILITY: May be repeated 5 times.

MUS 133C BEGINNING KEYBOARD SKILLS III*Lecture 2, Lab 2, Units 2.75*

Students will continue to learn the fundamentals of reading music, chord theory, and key signatures as it applies to the piano, organ, or synthesizer. Keyboard skills will include playing pieces in a wide variety of styles that emphasize chording, sight-reading, and improving two-hand coordination.

Transfers to CSU, UNR, UC

ADVISORY: MUS 133B or equivalent.

REPEATABILITY: May be repeated 5 times.

MUS 134A INTERMEDIATE KEYBOARD SKILLS I*Lecture 2, Lab 2, Units 2.75*

This course provides an opportunity to develop or renew keyboard skills using classical and popular styles of music for piano, organ, or synthesizer. Instruction is at an intermediate level and emphasizes technique, two-hand coordination, interpretation, ear-training, and chord theory.

Transfers to CSU, UNR, UC

ADVISORY: MUS 133C or equivalent.

REPEATABILITY: May be repeated 5 times.

MUS 134B INTERMEDIATE KEYBOARD SKILLS II*Lecture 2, Lab 2, Units 2.75*

This course provides an opportunity to continue developing keyboard skills using classical and popular styles of music for piano, organ, or synthesizer. Instruction is at an intermediate level and emphasizes technique, two-hand coordination, interpretation, ear-training, and chord theory.

Transfers to CSU, UNR, UC

ADVISORY: MUS 134A or equivalent.

REPEATABILITY: May be repeated 5 times.

MUS 134D INTERMEDIATE JAZZ PIANO*Lecture .5, Lab 1.5, Units 1*

This intermediate-level course will emphasize learning the harmonic, melodic, and rhythmic vocabulary of the established jazz styles. The course will focus on the modern interpretation of jazz chords and teach students how to become independent musicians using individual styles of incorporating jazz music.

Transfers to CSU, UNR

PREREQUISITE: MUS 133C, MUS 127B, or equivalent.

REPEATABILITY: May be repeated 5 times.

MUS 135 BEGINNING GUITAR*Lecture 1.5, Labs 1.5, Units 2*

In this course, students will study basic guitar techniques. Emphasis will be on music fundamentals as they pertain to basic guitar skills and the reading of music. Key signatures, rhythm and meter will be covered.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

MUS 136 INTERMEDIATE GUITAR*Lecture 1.5, Lab 1.5, Units 2*

In this course, students will study popular and classical techniques and styles to prepare them for more extensive performance in both solo and ensemble settings. Basic music theory concepts will be expanded to include additional major and minor chords and scales. Students will also be introduced to jazz and blues chords and scales.

Transfers to CSU, UNR, UC

ADVISORY: MUS 135 or equivalent.

REPEATABILITY: May be repeated 5 times.

MUS 137 ADVANCED GUITAR*Lecture 1.5, Lab 1.5, Units 2*

This course will be an in-depth study of popular and classic guitar styles with an emphasis on performance in both solo and ensemble settings. Students will also work to improve their fretboard knowledge and musical theory as it pertains to chords and scales in guitar music.

Transfers to CSU, UNR, UC

ADVISORY: MUS 136 or equivalent.

REPEATABILITY: May be repeated 5 times.

MUS 141A COLLEGE CHORUS*Lecture 1, Lab 3, Units 2*

This course provides an opportunity for students to develop vocal skills within a choral group. Instruction will emphasize correct vocal production, singing technique, and principles of choral diction. Repertoire will vary each quarter. The selection of materials or type of material to be rehearsed will be listed in the class schedule description. Participation in a public performance is required.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

MUS 141B COLLEGE CHORUS*Lecture 1, Lab 2, Units 1.75*

This course provides an opportunity for students to develop vocal skills within a choral group. Instruction will emphasize correct vocal production, singing technique, and principles of choral diction. Repertoire will vary each quarter. The selection of materials or type of material to be rehearsed will be listed in the class schedule description and will be incorporated into a public concert the following quarter.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

MUS 141C COLLEGE CHORUS*Lecture 1, Lab 1.5, Units 1.5*

This course provides an opportunity for students to develop vocal skills within a choral group. Instruction will emphasize correct vocal production, singing technique, and principles of choral diction. Repertoire will vary each quarter. The selection of materials or type of material to be rehearsed will be listed in the class schedule description. Participation in a public performance is required.

Transfers to CSU, UNR, UC

ADVISORY: MUS 141B.

REPEATABILITY: May be repeated 5 times.

MUS 147 POPS CHOIR*Lecture 0, Lab 4, Units 1.25*

This course will emphasize ensemble vocal performance using repertoire from popular, Broadway, jazz, and other contemporary musical styles. Elementary choreography and staging may be introduced. Students will be required to participate in scheduled public performances.

Transfers to CSU, UNR, UC

ADVISORY: MUS 111 and 123 or equivalent.

REPEATABILITY: May be repeated 5 times.

MUS 149 RENAISSANCE MUSIC ENSEMBLE*Lecture 0, Lab 3, Units 1*

In this course, students will rehearse music for participation in a public performance at the Renaissance Faire, Christmas concert, or other community venue. Renaissance or Baroque music enthusiasts who play recorder, percussion, strings, or sing are encouraged to join the class.

Transfers to CSU, UNR, UC

ADVISORY: MUS 111 or 123, or equivalent.

REPEATABILITY: May be repeated 5 times.

MUS 181 BEGINNING HAND DRUMMING AND PERCUSSION*Lecture .5, Lab 1.5, Units 1*

This course offers group and individual drumming instruction in an eclectic, multi-cultural, tribal style. The class will work on developing a fundamental sense of time and integrating skills into a rhythmic drum circle. A brief history of drums and drumming from various cultures will be covered. Small groups within the class will construct their own performance pieces. No previous experience is required.

REPEATABILITY: May be repeated 5 times.

NOTE: MUS 181, 182, and 183 may be taken for a combined total of 6 times.

MUS 182 INTERMEDIATE HAND DRUMMING AND PERCUSSION*Lecture .5, Lab 1.5, Units 1*

This course builds on the fundamentals covered in the beginning class and offers group and individual instruction in an eclectic, multi-cultural, tribal style. Precise emphasis may change from class to class as students work on both traditional and non-traditional polyrhythms in a drum circle. Focus may vary from rhythms of the West African djembe, to the Middle Eastern doumbek, the Native American Taos drum, the Latin American conga, and others. Some history of drums and drumming will be covered. The relationship of drumming and chanting and/or dancing will be explored.

ADVISORY: MUS 181 or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: MUS 181, 182, and 183 may be taken for a combined total of 6 times.

MUS 183 HAND DRUMMING AND PERCUSSION FOR PERFORMANCE*Lecture .5, Lab 2.5, Units 1.25*

This course is for drummers and percussionists who wish to work in a collaborative setting with other performing artists and dancers to create pieces for public presentation. Performance pieces will be based on the theme of the collaborative arts performance and may include West African, Middle Eastern, Indian, and Latin American percussion styles and rhythms. The relationship of drumming to dance and chanting also will be explored more extensively.

ADVISORY: MUS 181 or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: MUS 181, 182, and 183 may be taken for a combined total of 6 times.

MUS 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under the cover title published in the schedule of classes for the quarter in which the course will be offered.

MUS 201 MUSIC THEATRE PRODUCTION I (PRINCIPALS)*Lecture 1, Lab 3, Units 2*

This course is required for soloists in college operettas and musicals offered through the Theatre or Music Departments. Intense training in solo vocal techniques is provided. Music literature studied will be specific to the individual production work chosen. [Principals may also concurrently enroll in MUS 202: Music Theatre Production II (Chorus)].

Transfers to CSU, UNR, UC

PREREQUISITE: Audition.

REPEATABILITY: May be repeated 5 times.

MUS 202 MUSIC THEATRE PRODUCTION II (CHORUS)*Lecture 0, Lab 4, Units 1.25*

This course features preparation and performance of a staged work from the music theatre or operetta repertoire. Rehearsal time will include intense training in correct choral and vocal techniques and in stage skills. An audition is required before enrollment.

Transfers to CSU, UNR, UC

PREREQUISITE: Audition.

REPEATABILITY: May be repeated 5 times.

MUS 203 MUSIC THEATRE PRODUCTION III (INSTRUMENTAL)

Lecture 0, Lab 3, Units 1

This workshop is designed to familiarize students with the principles and techniques involved in the preparation and production of a dramatic musical performance. Specific instruction will be given in the rehearsal techniques required of the production orchestra. An audition is required prior to registration in the class.

Transfers to CSU, UNR, UC

PREREQUISITE: Audition.

REPEATABILITY: May be repeated 5 times.

MUS 209 LIVE OPERETTA

Lecture 1, Lab 0, Units 1

This course will prepare students for attending a specific operetta performance. An operetta is a musical drama with spoken dialog. Students will study the plot, listen to and analyze the musical performance and be exposed to the components that constitute operetta. Background about the era, the composer, and the story and history of the specific work will be included.

Transfers to CSU, UNR

REPEATABILITY: May be repeated 5 times.

MUS 210 LIVE OPERA

Lecture 1.5, Lab .5, Units 1.75

This course will prepare the student for attending a specific opera performance. Students will study the plot, listen to music highlights, and compare the live performance with recorded performances. Lectures will include information about the historical era, the composer, and the history of the specific work.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated up to 5 times

MUS 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

MUS 246 INSTRUMENTAL CHAMBER ENSEMBLE

Lecture 0, Lab 3, Units 1

In this course, students will study and perform classical music scores for small ensembles on traditional orchestral instruments. Each person will be assigned to one or more groups, from duets and trios to chamber-sized groups. Repertoire will consist of music employing one player per part.

Transfers to CSU, UNR, UC

ADVISORY: Ability to play a classical orchestral instrument, piano, recorder.

REPEATABILITY: May be repeated 5 times.

MUS 247 MUSIC ENSEMBLE WORKSHOP

Lecture .5, Lab 1.5, Units 1

This instrumental ensemble workshop will focus on developing the ability to play in chamber groups. Students will study and analyze various types of music literature in classical, jazz, and popular styles.

A final concert may be given.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

MUS 248 ROCK MUSIC ENSEMBLE

Lecture 1, Lab 3, Units 2

This course will provide students with the opportunity to play in one or more small musical groups, such as duets, trios, or quartets. The course will explore popular music, rock, funk, hiphop, and/or jazz styles. Guitarists, bassists, keyboard players, drummers, and vocalists are encouraged to enhance their musical skills through participation in this course. A final concert may be given.

Transfers to CSU, UNR, UC

ADVISORY: MUS 247 or equivalent.

REPEATABILITY: May be repeated 5 times.

MUS 248L ENSEMBLE LAB

Lecture 0, Lab .75, Units .25

This course is an optional lab component for MUS 247 or MUS 248. It will enhance student performance in those classes by providing more rehearsal time with the instructor and other students. The course will explore popular music, rock, funk, and/or hip hop styles.

Transfers to CSU, UNR

REPEATABILITY: May be repeated 5 times.

MUS 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

PHILOSOPHY

A.A. DEGREE

An A.A. Degree is offered in the field of Humanities. For major requirements, see page 66.

PHI 101 INTRODUCTION TO PHILOSOPHY

Lecture 4, Lab 0, Units 4

This course is an introduction to the basic methods and strategies of philosophical inquiry. The course will introduce Plato's Republic, Descartes' Meditations, and Hume's Enquiries. The course will also present important philosophical concepts, such as the basic philosophical ideas of existence, creation of self, use of government, the nature of reality, human nature, and life and death.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

PHI 103A HISTORY OF WESTERN PHILOSOPHY - EARLY

Lecture 4, Lab 0, Units 4

This course surveys the history of Western philosophy from the Classical era through the Medieval period. Philosophers from the pre-Socratics, to Socrates, Plato, Aristotle, Augustine, and Aquinas will be analyzed and evaluated.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

PHI 103B HISTORY OF WESTERN PHILOSOPHY - MODERN*Lecture 4, Lab 0, Units 4*

This course surveys the history of Western philosophy from the 17th through the 20th centuries. Philosophers from Descartes, Hobbes, Spinoza, Hume, Kant, Hegel, Marx, Nietzsche, Wittgenstein, to Sartre will be analyzed and evaluated.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

PHI 104 CRITICAL THINKING*Lecture 4, Lab 0, Units 4*

This course examines the methods and principles used for distinguishing cogent reasoning from faulty reasoning. Topics include deductive and inductive reasoning, common fallacies, language, and impediments to cogent reasoning. Emphasis will be on developing abilities to analyze, construct, and evaluate arguments that are relevant to everyday life experiences, politics, economics, society, advertising, the media, and important current affairs.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

PHI 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

Transfers to CSU

PHI 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

PHI 205 CONTEMPORARY MORAL ISSUES*Lecture 4, Lab 0, Units 4*

This course is an examination of various moral theories and their application to current social issues. Topics will include racial and sexual discrimination, abortion, pollution, population control, sexual morality, genetic engineering, animal rights, and freedom in society.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

PHI 210 EXISTENTIALISM*Lecture 4, Lab 0, Units 4*

This course is an introduction to existential themes in philosophy and literature with an emphasis on the epistemological, metaphysical, ethical, social, and aesthetic problems of the 20th century. Selective readings range from Kierkegaard to Nietzsche, Sartre, and Camus.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

PHI 218 PHILOSOPHY OF RELIGION*Lecture 4, Lab 0, Units 4*

This course provides an introduction to the philosophical inquiry into the nature of God, humanity, and society. The religious claims concerning God, good and evil, and immortality will be explored by surveying the broad range of arguments and rebuttals put forth throughout history, with special attention to problems posed by the modern world.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101.

PHI 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

PHI 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

PHOTOGRAPHY

CERTIFICATE OF ACHIEVEMENT

A Certificate of Achievement is offered in the field of Photography. For course requirements, see page 89.

All photography classes have been placed under Art. Refer to page 101.

PHYSICAL EDUCATION

A.A. DEGREE

An A.A. Degree is offered in the field of Physical Education and Health. For major requirements and area of concentration, see page 73.

PED 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

Transfers to CSU

PED 145A PHYSICAL FITNESS CONDITIONING FOR OLDER ADULTS*Lecture 0, Lab 2, Units .75*

The older adult student, in consultation with the instructor, will develop and practice a comprehensive physical conditioning program. This activity regimen will include exercises designed to promote strength, endurance, flexibility, and ease of daily function.

Transfers to CSU, UNR, UC (unit limit)

PREREQUISITE: Medical Release.

REPEATABILITY: May be repeated 5 times.

NOTE: PED 145A, 145B, 145C, 145D, 145E, 145SA, 145SB, 145SC may be taken for a combined total of 6 times.

PED 145B PHYSICAL FITNESS CONDITIONING FOR OLDER ADULTS

Lecture 0, Lab 3, Units 1

The older adult student, in consultation with the instructor, will develop and practice a comprehensive physical conditioning program. This activity regimen will include exercises designed to promote strength, endurance, flexibility, and ease of daily function.

Transfers to CSU, UNR, UC (unit limit)

PREREQUISITE: Medical Release.

REPEATABILITY: May be repeated 5 times.

NOTE: PED 145A, 145B, 145C, 145D, 145E, 145SA, 145SB, 145SC may be taken for a combined total of 6 times.

PED 145C PHYSICAL FITNESS CONDITIONING FOR OLDER ADULTS

Lecture 0, Lab 4, Units 1.25

The older adult student, in consultation with the instructor, will develop and practice a comprehensive physical conditioning program. This activity regimen will include exercises designed to promote strength, endurance, flexibility, and ease of daily function.

Transfers to CSU, UNR, UC (unit limit)

PREREQUISITE: Medical Release.

REPEATABILITY: May be repeated 5 times.

NOTE: PED 145A, 145B, 145C, 145D, 145E, 145SA, 145SB, 145SC may be taken for a combined total of 6 times.

PED 145D PHYSICAL FITNESS CONDITIONING FOR OLDER ADULTS

Lecture 0, Lab 5, Units 1.75

The older adult student, in consultation with the instructor, will develop and practice a comprehensive physical conditioning program. This activity regimen will include exercises designed to promote strength, endurance, flexibility, and ease of daily function.

Transfers to CSU, UNR, UC (unit limit)

PREREQUISITE: Medical Release.

REPEATABILITY: May be repeated 5 times.

NOTE: PED 145A, 145B, 145C, 145D, 145E, 145SA, 145SB, 145SC may be taken for a combined total of 6 times.

PED 145E PHYSICAL FITNESS CONDITIONING FOR OLDER ADULTS

Lecture 0, Lab 6, Units 2

The older adult student, in consultation with the instructor, will develop and practice a comprehensive physical conditioning program. This activity regimen will include exercises designed to promote strength, endurance, flexibility, and ease of daily function.

Transfers to CSU, UNR, UC (unit limit)

PREREQUISITE: Medical Release.

REPEATABILITY: May be repeated 5 times.

NOTE: PED 145A, 145B, 145C, 145D, 145E, 145SA, 145SB, 145SC may be taken for a combined total of 6 times.

PED 145SA PHYSICAL FITNESS CONDITIONING FOR OLDER ADULTS

Lecture 0, Lab 1, Units .25

In this course, the older adult student will develop and practice a comprehensive physical conditioning program in consultation with the instructor. This activity regimen will include exercises designed to promote strength, endurance, flexibility, and ease of daily function.

Transfers to CSU, UNR, UC (unit limit)

PREREQUISITE: Medical Release.

REPEATABILITY: May be repeated 5 times.

NOTE: PED 145A, 145B, 145C, 145D, 145E, 145SA, 145SB, 145SC may be taken for a combined total of 6 times.

PED 145SB PHYSICAL FITNESS CONDITIONING FOR OLDER ADULTS

Lecture 0, Lab 1.5, Units .5

In this course, the older adult student will develop and practice a comprehensive physical conditioning program in consultation with the instructor. This activity regimen will include exercises designed to promote strength, endurance, flexibility, and ease of daily function.

Transfers to CSU, UNR, UC (unit limit)

PREREQUISITE: Medical Release.

REPEATABILITY: May be repeated 5 times.

NOTE: PED 145A, 145B, 145C, 145D, 145E, 145SA, 145SB, 145SC may be taken for a combined total of 6 times.

PED 145SC PHYSICAL FITNESS CONDITIONING FOR OLDER ADULTS

Lecture 0, Lab 2.5, Units .75

In this course, the older adult student will develop and practice a comprehensive physical conditioning program in consultation with the instructor. This activity regimen will include exercises designed to promote strength, endurance, flexibility, and ease of daily function.

Transfers to CSU, UNR, UC (unit limit)

PREREQUISITE: Medical Release.

REPEATABILITY: May be repeated 5 times.

NOTE: PED 145A, 145B, 145C, 145D, 145E, 145SA, 145SB, 145SC may be taken for a combined total of 6 times.

PED 146A PHYSICAL FITNESS CONDITIONING

Lecture 0, Lab 2, Units .75

In consultation with an instructor, students will develop and practice a comprehensive fitness program. Strength, cardiovascular endurance, and flexibility exercise will be tailored to students' goals.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PED 146A, 146B, 146C, 146D, 146E, 146SA, 146SB, 146SC may be taken for a combined total of 6 times.

PED 146B PHYSICAL FITNESS CONDITIONING

Lecture 0, Lab 3, Units 1

In consultation with an instructor, students will develop and practice a comprehensive fitness program. Strength, cardiovascular endurance, and flexibility exercise will be tailored to students' goals.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PED 146A, 146B, 146C, 146D, 146E, 146SA, 146SB, 146SC may be taken for a combined total of 6 times.

PED 146C PHYSICAL FITNESS CONDITIONING

Lecture 0, Lab 4, Units 1.25

In consultation with an instructor, students will develop and practice a comprehensive fitness program. Strength, cardiovascular endurance, and flexibility exercise will be tailored to students' goals.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PED 146A, 146B, 146C, 146D, 146E, 146SA, 146SB, 146SC may be taken for a combined total of 6 times.

PED 146D PHYSICAL FITNESS CONDITIONING

Lecture 0, Lab 5, Units 1.75

In consultation with an instructor, students will develop and practice a comprehensive fitness program. Strength, cardiovascular endurance, and flexibility exercise will be tailored to students' goals.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PED 146A, 146B, 146C, 146D, 146E, 146SA, 146SB, 146SC may be taken for a combined total of 6 times.

PED 146E PHYSICAL FITNESS CONDITIONING*Lecture 0, Lab 6, Units 2*

In consultation with an instructor, students will develop and practice a comprehensive fitness program. Strength, cardiovascular endurance, and flexibility exercise will be tailored to students' goals.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PED 146A, 146B, 146C, 146D, 146E, 146SA, 146SB, 146SC may be taken for a combined total of 6 times.

PED 146SA PHYSICAL FITNESS CONDITIONING*Lecture 0, Lab 1, Units .25*

In this course, students will develop and practice a comprehensive fitness program in consultation with an instructor. Strength, cardiovascular endurance, and flexibility exercise will be tailored to students' goals.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PED 146A, 146B, 146C, 146D, 146E, 146SA, 146SB, 146SC may be taken for a combined total of 6 times.

PED 146SB PHYSICAL FITNESS CONDITIONING*Lecture 0, Lab 1.5, Units .5*

In this course, students will develop and practice a comprehensive fitness program in consultation with an instructor. Strength, cardiovascular endurance, and flexibility exercise will be tailored to students' goals.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PED 146A, 146B, 146C, 146D, 146E, 146SA, 146SB, 146SC may be taken for a combined total of 6 times.

PED 146SC PHYSICAL FITNESS CONDITIONING*Lecture 0, Lab 2.5, Units .75*

In this course, students will develop and practice a comprehensive fitness program in consultation with an instructor. Strength, cardiovascular endurance, and flexibility exercise will be tailored to students' goals.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PED 146A, 146B, 146C, 146D, 146E, 146SA, 146SB, 146SC may be taken for a combined total of 6 times.

PED 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

PED 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

PED 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

**PHYSICAL EDUCATION
FITNESS****PEF 100A INTRODUCTION TO PRECISION CYCLING***Lecture 1, Lab 1, Units 1.25*

This course is designed to improve fitness and endurance through participation in a regular indoor cycling/spinning activity. Students will utilize the latest in indoor cycling equipment and be precision fit to their bike for comfort and injury prevention. This program will closely follow the patterns of outdoor cycling including hill climbing, interval training, and speed work. Participants will improve their muscle endurance, strength, and cardiovascular fitness.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 100A, 100D, 100F may be taken for a combined total of 6 times.

**PEF 100B WEIGHT TRAINING AND
CARDIOVASCULAR ENDURANCE***Lecture .5, Lab 1.5, Units 1*

This course is designed to improve students' strength, endurance, and flexibility as well as cardiovascular fitness. Students will use various resistance equipment to improve their physical strength and learn how muscle strength and endurance relate to cycling. Students will determine their own range of motion based upon anatomical, biomechanical, physiological, and neurological limitations. Students will learn correct form and techniques while resistance training for optimal results. Hypertrophic factors from resistance training as they relate to cycling will be discussed. The student can expect overall muscle and aerobic conditioning.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

**PEF 100C CORE TRAINING AND
CARDIOVASCULAR FITNESS***Lecture 1, Lab 2, Units 1.75*

This course is designed to improve students' cardiorespiratory fitness as well as improve core stabilization. Students will discover how ball training provides an effective means for challenging and maximizing their athletic potential. Students will develop the stabilizing muscles that are critical in posture and performance as they relate to daily function and cycling. Students will learn safe and effective exercises to challenge postural stabilization and core strength while training the upper and lower body. Balance awareness and proprioception training will be introduced. Half of the class time will be devoted to cardiorespiratory training, learning to use the core musculature in cycling. Core stabilization, postural and kinesthetic awareness, and proprioception awareness will be introduced while cycling on the bike.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

PEF 100D INDOOR CYCLING*Lecture .5, Lab .5, Units .75*

This course is designed to improve students' fitness and endurance by participating in a regular indoor cycling/spinning activity. Students will utilize the latest in indoor cycling equipment and be precision fit to their bike for comfort and injury prevention. This program will closely follow the patterns of outdoor cycling including hill climbing, interval training, and speed work. Participants will improve their muscle endurance, strength, and cardiovascular fitness.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 100A, 100D, 100F may be taken for a combined total of 6 times.

PEF 100E PRECISION HEART-RATE TRAINING*Lecture .5, Lab 1.5, Units 1*

This course will teach students how to incorporate aerobic training, threshold training, and anaerobic interval training safely during a cycling workout. Students will use a heart-rate monitor to safely monitor their own heart-rate and improve their cardiovascular performance. Students will learn the five heart-rate zones and apply different heart-rate formulas to calculate their ideal cycling workouts. Students are required to have a heart-rate monitor.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

PEF 100F THE RIDE*Lecture 1, Lab 2, Units 1.75*

This course simulates an outdoor cycling experience and will focus on endurance and strength. Certain classes will be set aside for cross training. This course will help students train for century or outdoor fun rides. Heart rate monitors during class are strongly recommended.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 100A or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 100A, 100D, 100F may be taken for a combined total of 6 times.

PEF 100G CARDIOFITNESS, FLEXIBILITY, AND STRESS REDUCTION TECHNIQUES*Lecture 1, Lab 2, Units 1.75*

This course is for students who want an intense cardiofitness workout, utilizing indoor bicycles in combination with flexibility training and visualization techniques. Students will balance their heart-healthy workout with injury-preventing stretching, breathing, and visualization techniques.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

PEF 101A BODY BLAST*Lecture .5, Lab 1.5, Units 1*

This course is designed for all fitness levels and focuses on toning and strengthening the muscles while improving endurance and cardiovascular fitness. Students use light weights, bands and steps to boost metabolism and improve fat-burning ability.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

PEF 101B CARDIOVASCULAR BODY SCULPTING*Lecture 1, Lab 2, Units 1.75*

This course is designed for students of all fitness levels who desire an aggressive workout combining aerobic conditioning and specific weight resistance training. The course will target the development and toning of the major muscle groups, while building cardiovascular endurance. Students will improve their cardiovascular fitness, flexibility, coordination, and muscle strength as well as shape their bodies through the use of weights and participation in aerobic activity. Included in the course will be nutritional and other health related concepts.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

PEF 101C WOMEN ON WEIGHTS (WOW)*Lecture .5, Lab 1.5, Units 1*

This course is a group personal training approach to working out with a variety of resistance equipment. Students will learn to complement their aerobic workouts by applying resistance, nutritional practices, flexibility, and postural training while boosting their metabolism.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

PEF 101D UPPER BODY AND CARDIOVASCULAR TONING*Lecture 1, Lab 1, Units 1.25*

This course is designed for individuals of any fitness level who want to strengthen and condition the targeted area of the upper body. In addition to conditioning the cardiovascular system and burning systemic fat, overall flexibility will be improved. The exercises utilized will include aerobic, weights, resistance training as well as stretches, Pilates, and yoga. Proper stretches and practices will be assessed.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

PEF 101E LOWER BODY TONING AND STRENGTHENING*Lecture .5, Lab 1.5, Units 1*

This course is designed for the individual at any fitness level who desires to tone/strengthen/stretch the lower body (especially abdominals and gluteals). The successful student will see marked improvement in muscle strength and tone of target areas, as well as increased range of motion and flexibility.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

PEF 101F INTERVAL TRAINING*Lecture 1, Lab 2, Units 1.75*

This course provides an intensive cardiovascular workout, combined with strength training and stretching. It utilizes the principles of interval training and emphasizes improving fitness through precision of training and participation in a regular interval program.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times

PEF 101G STRENGTH TRAINING WITH THERABALLS AND EXERTUBES*Lecture .5, Lab 1.5, Units 1*

This course is designed to increase strength, flexibility, and coordination utilizing theraballs, exertubes, and other resistance equipment. Emphasis will be on core abdominal strength.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

PEF 101H BALANCE AND STABILITY EXERCISE (B.A.S.E.)*Lecture 1, Lab 2, Units 1.75*

This course is designed to increase students' balance, core strength, flexibility, and coordination utilizing theraballs, exertubes, and other resistance equipment. Students will focus on the three postural sensory systems: visual, somatosensory, and vestibular. Students will strengthen the musculature important in maintaining balance as well as develop a strong core.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

PEF 101J POWER, SPEED, AND AGILITY TRAINING*Lecture 1, Lab 2, Units 1.75*

In this activity course, students will perform a variety of progressively challenging power, speed, agility, and jumping exercises. Core strength and balance exercises will also be performed to promote athletic performance. Those preparing for competition in sports such as basketball, football, soccer, skiing, snowboarding, volleyball, baseball, hockey, and others are welcome as is anyone interested in improving speed, agility, power, and jumping ability.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: Students should be able to sprint and jump. They should also be able to jog 1/2 mile in under 6 minutes.

REPEATABILITY: May be repeated 5 times.

PEF 102A AEROBIC DANCE: LOW-IMPACT*Lecture 1, Lab 3, Units 2*

This course is designed for students who desire to improve their cardiovascular fitness, flexibility, coordination, and muscular strength through participation in low-impact aerobic activity. The course is appropriate for persons who have injuries or conditions which limit or prevent high-impact activity.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 102A and 102B may be taken for a combined total of 6 times.

PEF 102B AEROBIC DANCE: HIGH-IMPACT*Lecture 1, Lab 3, Units 2*

This course is a regular exercise program to promote cardiovascular fitness, muscle tone, and flexibility. Topics will include the roles of nutrition, stretching, posture, stress management, and physical changes during exercise in maintaining general fitness.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 102A and 102B may be taken for a combined total of 6 times.

PEF 102C STEP AEROBICS*Lecture 1, Lab 3, Units 2*

This course is a regular exercise program to promote cardiovascular fitness, muscle tone, and flexibility through the use of step aerobics. Special elevated platforms are utilized to maximize cardiovascular function with greatly reduced injury potential. Students will understand the roles of nutrition, stretching, posture, stress management, and physical changes during exercise in maintaining fitness.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

PEF 102D WORLD RHYTHMS*Lecture 1, Lab 2, Units 1.75*

This course is designed for students seeking a cardiovascular workout to increase endurance while studying the cultural diversity of world rhythms. Students will learn rhythm steps and techniques derived from traditional world beat movements found in cultural and ethnic music and dance.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

PEF 102E HEART RHYTHMS*Lecture 1, Lab 3, Units 2*

Heart Rhythms is an alternative fitness course which combines the movement, balance and energy of a dance class with the strength, stamina, flexibility and heart rate appropriate level workout of an exercise class. Movements will focus on developing core strength and stamina while monitoring heart rates to determine ideal work levels. The student will experience dance and movement as a path to strength, stamina, health, flexibility, and a mind/body connection to enhance fitness levels. Special focus will be on steps, alignment, balance, and heart rate, set to world, alternative and rock music.

Transfers to CSU, UNR

REPEATABILITY: May be repeated 5 times.

PEF 103A BOOT CAMP*Lecture .5, Lab 1, Units .75*

This course is an intensive, results-oriented conditioning program that combines high-powered cardiovascular moves, interval training, weight training and weight work with sports and military drills. Each session trains the entire body, head to toe, and helps the student develop functional conditioning in an outdoor environment.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

PEF 104A BOX AEROBICS*Lecture 1, Lab 2, Units 1.75*

This course provides an intensive cardiovascular workout, combined with strength training and stretching. It utilizes the principles and moves that boxers train with, in a less combative format. The course will also emphasize the fitness progressions and precision training traditionally utilized by boxers.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

PEF 104B ULTRA KICKBOXING*Lecture 1, Lab 2, Units 1.75*

This course combines the punches of boxing and the kicks of martial arts into a non-contact aerobic workout. The first half of the class is aerobic with various combinations. The second half of class uses heavy bags to strengthen muscles. Students will learn proper execution of many techniques while toning muscles.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 104B, 104C, 104D, 104E may be taken for a combined total of 6 times.

PEF 104C POWERKICKBOX*Lecture .5, Lab 1.5, Units 1*

This course combines the punches of boxing and the kicks of martial arts with the use of heavy bags to tone and strengthen muscles. Students learn various combinations used by kickboxers. Emphasis is on correct technique and physical fitness. Gloves and handwraps are required.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 104B, 104C, 104D, 104E may be taken for a combined total of 6 times.

PEF 104D HARD "CORE" KICKBOXING*Lecture 1, Lab 2, Units 1.75*

This course is designed to improve students' cardiovascular fitness as well as focus on improving core muscle strength. The first part of the course will consist of a fast paced cardio kickboxing workout using heavy bags. The second part of the course will focus on strengthening the torso, abs, gluteus, and quadriceps for overall core stability and strength.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 104B, 104C, 104D, 104E may be taken for a combined total of 6 times.

PEF 104E POWERSTRIKE CIRCUIT*Lecture .5, Lab 1.5, Units 1*

This fast-paced course combines the punches of boxing and the kicks of martial arts into a non-contact aerobic workout using heavy bags. Students will move around the classroom from one station to the next individually or with one partner and perform a different kickboxing combination at each station. This course is designed for the student who is able to work individually, focusing on his or her own technique and intensity. Gloves and wraps are required.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 104B, 104C, or 104D or equivalent

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 104B, 104C, 104D, 104E may be taken for a combined total of 6 times.

PEF 104F CIRCUIT TRAINING*Lecture .5, Lab 1.5, Units 1*

This course provides an instructor led, structured physical conditioning program specifically designed for cardiovascular and strength training.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

PEF 105A FITNESS FOR LIFE (ADULT WELLNESS)*Lecture 1, Lab 3.5, Units 2.25*

This course provides an instructor-led, structured, physical conditioning program specifically designed for the older adult. Emphasis is on flexibility, range of motion movement exercises, upper and lower body strengthening, and cardiovascular wellness. Individualized instructional programming is utilized.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: If certain medical conditions exist, a physician's note may be required.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 105A and 105B may be repeated for a combined total of 6 times.

PEF 105B FITNESS FOR LIFE (ADULT WELLNESS)*Lecture 1, Lab 2, Units 1.75*

This course provides an instructor-led, structured, physical conditioning program specifically designed for the older adult. Emphasis is on flexibility, range of motion movement exercises, upper and lower body strengthening, and cardiovascular wellness. Individualized instructional programming is utilized.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: If certain medical conditions exist, a physician's note may be required.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 105A and 105B may be repeated for a combined total of 6 times.

PEF 110A ALPINE SKIING: BEGINNING*Lecture .25, Lab 1.75, Units .75*

This course is designed for first time skiers as well as individuals who have just started to ski. Students will learn fundamental techniques such as turning, stopping, and speed control through systematic, step-by-step instruction and critique.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 110A, 110B, 110C, and 110D may be taken for a combined total of 6 times.

PEF 110B ALPINE SKIING: INTERMEDIATE*Lecture .25, Lab 1.75, Units .75*

This course is designed for the intermediate skier who possesses the ability to turn and brake effectively on green and blue terrain. Basic skills and techniques are reviewed and more advanced techniques will be introduced such as turn carving and body angulation. Skiing various terrain and conditions will also be introduced.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 110A or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 110A, 110B, 110C, and 110D may be taken for a combined total of 6 times.

PEF 110C ALPINE SKIING: ADVANCED*Lecture .25, Lab 1.75, Units .75*

This course is specifically designed for the experienced/advanced skier who possesses the ability to ski steeper black diamond terrain, link shorter turns, and ski bumps and powder. Students will begin to perfect skills in steeps, bumps, and powder conditions.

Transfers to CSU, UNR, UC (unit limit)

PREREQUISITE: PEF 110B or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 110A, 110B, 110C, and 110D may be taken for a combined total of 6 times.

PEF 110D ALPINE SKIING: MOGUL*Lecture .25, Lab 1.75, Units .75*

This course is for advanced skiers to specifically focus on their techniques and skills as it relates to skiing in the bumps.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 110B, 110C, or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 110A, 110B, 110C, and 110D may be taken for a combined total of 6 times.

PEF 110E SNOWBOARDING: BEGINNING*Lecture .25, Lab 1.75, Units .75*

This course is designed for the beginning snowboarder. Students will learn fundamental techniques such as ski lift loading and unloading, turning, balancing, stopping, and speed control through systematic, step-by-step instruction and critique.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 110E and 110F may be taken for a combined total of 6 times.

PEF 110F SNOWBOARDING: INTERMEDIATE*Lecture .25, Lab 1.75, Units .75*

This course is designed to provide the experienced snowboarder with intermediate and advanced techniques of snowboarding. Topics to be covered include turns, balance skills, mogul negotiating, steep terrain and powder boarding.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 110E or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 110E and 110F may be taken for a combined total of 6 times.

PEF 111A WALKING FOR FITNESS*Lecture .25, Lab 1.25, Units .75*

This course will enable students at all fitness levels to improve their energy levels, health, and well-being through participation in a consistent gradually progressive walking program.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

PEF 111B JOGGING: BEGINNING*Lecture .5, Lab 1, Units .75*

This course is designed to help students understand and improve cardiovascular endurance for health and fitness. Topics include training techniques, physiological principles, equipment selection, running form, goal setting, injury prevention and nutrition.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 111B and 111C may be taken for a combined total of 6 times.

PEF 111C JOGGING: INTERMEDIATE*Lecture .5, Lab 1, Units .75*

This course is designed to improve the cardiovascular fitness, motivation, and running skills of the experienced jogger. Topics include physiological principles, training techniques, goal setting, injury prevention, nutrition, and and psychological skills training. Fitness testing will also be introduced.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 111B or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 111B and 111C may be taken for a combined total of 6 times.

PEF 112A BEGINNING BOWLING*Lecture .5, Lab 1.5, Units 1*

This course is designed to teach the fundamentals of bowling technique: timing, arm swing, follow-through, and release. Instruction will also include rules and terminology, scoring, and equipment needs.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 112A and 112B may be taken for a combined total of 6 times.

PEF 112B INTERMEDIATE BOWLING*Lecture .5, Lab 1.5, Units 1*

This course provides students with a review of the fundamentals of bowling technique and introduces more advanced technical skills, strike and spare systems, and lane and line strategy.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 112A or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 112A and 112B may be taken for a combined total of 6 times.

PEF 113A MULTILEVEL SWIMMING FOR FITNESS*Lecture 1, Lab 3, Units 2*

This course is designed for swimmers of all levels who want to gain or improve their skills through participation in a regular aquatic program.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated up to 5 times.

NOTE: PEF 113A, 113B, 113C, 113D, and 113F may be taken for a combined total of 6 times.

PEF 113B MASTERS SWIMMING*Lecture 1, Lab 2, Units 1.75*

This course is for experienced swimmers who want to improve their technique, strength, and endurance. Students should be able to perform the breaststroke, back crawl, butterfly, and front crawl. Class sessions will typically consist of instructor-directed swimming workouts that include all four strokes. An assessment of swimming ability to ensure minimum skills for participation will be conducted at the first pool session.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 113A or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 113A, 113B, 113C, 113D, and 113F may be taken for a combined total of 6 times.

PEF 113C MASTERS SWIM*Lecture .5, Lab 1.5, Units 1*

This course is designed for experienced swimmers desiring to improve their technique, strength, and endurance. Course content will include an introduction to competitive swimming conditioning for both open-water and pool. Class sessions will typically consist of instructor-directed swimming workouts that include all four strokes.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 113A or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 113A, 113B, 113C, 113D, and 113F may be taken for a combined total of 6 times.

PEF 113D ADVANCED SWIMMING*Lecture 1.5, Lab 3, Units 2.5*

This course is for experienced swimmers who want to improve their technique, strength, and endurance. Students should be able to perform the breaststroke, back crawl, butterfly, and front crawl. Class sessions will typically consist of instructor-directed swimming workouts that include all four strokes. An assessment of swimming ability to ensure minimum skills for participation will be conducted at the first pool session.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 113A, 113B, 113C, or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 113A, 113B, 113C, 113D, and 113F may be taken for a combined total of 6 times.

PEF 113F DISTANCE SWIMMING FOR OPEN WATER AND THE TRIATHLETE*Lecture .75, Lab 1.5, Units 1.25*

This course is for experienced swimmers who want to improve their technique, strength, and endurance. Class sessions will typically consist of instructor-directed swimming workouts that include distance swimming. Emphasis will be on freestyle and open water swimming.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 113A or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 113A, 113B, 113C, 113D, and 113F may be taken for a combined total of 6 times.

PEF 113G AQUAROBICS*Lecture .5, Lab 1.5, Units 1*

This course is designed to enable the student to receive an effective cardiovascular, strength, and flexibility workout with minimal stress to the joints. All exercise is done in the pool without putting the head under water. No swimming experience is necessary.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

PEF 114C RENAISSANCE FENCING*Lecture 1, Lab 2, Units 1.75*

This course will explore the Renaissance origins of modern fencing. Students will learn to participate in elementary sword-fighting bouts. This course is suitable for all ability levels.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

PEF 115A GOLF: BEGINNING*Lecture .5, Lab 1.5, Units 1*

This course addresses the basic fundamental techniques needed to play golf. These techniques include putting, chipping, pitching, and full swing. Additional topics include rules of the game and playing etiquette.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 115A, 115B and 115D may be taken for a combined total of 6 times.

PEF 115B GOLF: INTERMEDIATE*Lecture .5 Lab 1.5, Units 1*

This course reviews and builds upon the basic fundamentals skills (putting, chipping, pitching, full swing) of golf with an emphasis on consistency and repeatability. Additional emphasis will be placed on the utilization of different clubs, club selection, course management, and video analysis.

Transfers to CSU, UNR, UC (unit limit).

ADVISORY: PEF 115A or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 115A, 115B and 115D may be taken for a combined total of 6 times.

PEF 115D INDOOR GOLF*Lecture 1, Lab 2, Units 1.75*

This course addresses the fundamental techniques necessary to participate in the activity of golf. Topics include putting, chipping, pitching, full swing, rules, etiquette, course management, and video analysis.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 115A, 115B and 115D may be taken for a combined total of 6 times.

PEF 115G DISC GOLF*Lecture .25, Lab .75, Units .5*

This course provides students with the fundamental knowledge and skills to play a golf-like game with a disc. Emphasis will be placed on disc selection, grips, throws, and course management.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

PEF 116A TENNIS: BEGINNING*Lecture .5, Lab 1.5, Units 1*

This course is designed to teach the fundamentals of tennis: serving, ground strokes, volley, and smash. Instruction on rules, equipment, grip, positioning, and shotmaking will also be introduced.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 116A, 116B, 116C may be taken for a combined total of 6 times.

PEF 116B TENNIS: INTERMEDIATE*Lecture .5, Lab 1.5, Units 1*

This course addresses the fundamentals of tennis and adds additional skill sets for volleys, net play, and lobs. Further attention is given to the finer points of ground strokes and strategy as it relates to competitive play, both in singles and doubles.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 116A or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 116A, 116B, 116C may be taken for a combined total of 6 times.

PEF 116C TENNIS: ADVANCED*Lecture .5, Lab 1.5, Units 1*

This course provides the experienced player with advanced techniques in the mastery of the fundamental skills using a more competitive setting. A greater emphasis in tactics and strategy will be addressed for both the singles and doubles game.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 116B or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 116A, 116B, 116C may be taken for a combined total of 6 times.

PEF 117A MOUNTAIN BIKING: BEGINNING*Lecture .75, Lab 1.25, Units 1.25*

This course focuses on the fundamentals of mountain bike riding and handling techniques and skills. Basic bike maintenance, on-the-road repairs, and travel safety will also be covered.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 117A and 117B may be taken for a combined total of 6 times.

PEF 117B MOUNTAIN BIKING: INTERMEDIATE*Lecture .75, Lab 1.25, Units 1.25*

This course focuses on the more challenging aspects of off-road riding, including riding styles, techniques, and skills needed for difficult terrain. Basic bike maintenance, on-the-road repairs, and travel safety will also be covered.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 117A or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 117A and 117B may be taken for a combined total of 6 times.

PEF 117C ROAD CYCLING*Lecture .5, Lab 1.5, Units 1*

This course is designed to develop students' cycling skills while learning to ride on the road. Students will develop self-discipline and increased fitness while learning the skills to become a good road cyclist. Students will learn the three qualities necessary for success on the road bike: speed, power, and endurance. The course will cover proper cycling etiquette with other cyclists as well as motorists, how to ride in a pace-line, proper nutrition before, during, and after cycling, how to fix a flat tire, heart-rate zones, proper hydration, hill climbing, cornering, descending techniques, as well as breathing and pacing techniques. Students must provide their own road bike.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: Must be able to ride 20 miles comfortably on a road bike.

REPEATABILITY: May be repeated 5 times.

PEF 118A BADMINTON: BEGINNING*Lecture 1, Lab 2, Units 1.75*

This course covers the basic skills of badminton. Instruction on rules, equipment, grip, positioning, and shotmaking will be included. Serves, clears, drives, smashes, and drop shots will be introduced and practiced.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 118A and 118B may be taken for a combined total of 6 times.

PEF 118B BADMINTON: INTERMEDIATE*Lecture 1, Lab 2, Units 1.75*

This course reviews the basic skills of badminton before proceeding to more advanced play, drills, and tactics. In addition to singles and doubles play, drills to enhance a variety of shotmaking skills will be included. Advanced game strategy and techniques will be introduced.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 118A or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 118A and 118B may be taken for a combined total of 6 times.

PEF 119A TABLE TENNIS: BEGINNING*Lecture 1, Lab 2, Units 1.75*

This course covers the basic skills of table tennis. Instruction on rules, equipment, grip, positioning, and shot making will be included.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 119A, 119B, 119C may be taken for a combined total of 6 times.

PEF 119B TABLE TENNIS: INTERMEDIATE*Lecture 1, Lab 2, Units 1.75*

This course reviews the basic skills of table tennis for singles and doubles play. Intermediate game strategy, tactics, and techniques will be covered.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 119A or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 119A, 119B, 119C may be taken for a combined total of 6 times.

PEF 119C TABLE TENNIS: COMPETITIVE*Lecture .5, Lab 1.5, Units 1*

This course is designed for table tennis players to enhance their skills. Analysis and application of serves, returns, spins, and other advanced offensive and defensive tactics will be covered.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 119B or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 119A, 119B, 119C may be taken for a combined total of 6 times.

PEF 130A BASKETBALL: BEGINNING*Lecture 1, Lab 2, Units 1.75*

This course covers the fundamental techniques of basketball including beginning level shooting, passing, dribbling, defense, and rebounding. Basic rules and strategies are also introduced.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 130A, 130B, 130C may be taken for a combined total of 6 times.

PEF 130B BASKETBALL: INTERMEDIATE*Lecture 1, Lab 2, Units 1.75*

This course covers techniques of basketball including intermediate level shooting, passing, dribbling, defense, and rebounding.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 130A or equivalent.

REPEATABILITY: May be repeated up to 5 times.

NOTE: PEF 130A, 130B, 130C may be taken for a combined total of 6 times.

PEF 130C BASKETBALL: COMPETITIVE*Lecture .5, Lab 1.5, Units 1*

This course is designed for experienced basketball players to enhance their skills primarily through game play. Advanced instructional drills and strategies are also included.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: Completion of PEF 130B or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 130A, 130B, 130C may be taken for a combined total of 6 times.

PEF 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

Transfers to CSU

PEF 135A INDOOR SOCCER*Lecture 1, Lab 2, Units 1.75*

This course is designed to acquaint students with the basic skills, rules, and techniques required of indoor soccer. Instruction covering fundamental ball skills and techniques, ball movement, and defensive and offensive principles will be included. All levels of ability are welcome.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 135A, 135B, 135E may be taken for a combined total of 6 times.

PEF 135B INDOOR SOCCER*Lecture .25, Lab .75, Units .5*

This course is designed to acquaint students with the basic skills, rules, and techniques required of indoor soccer. Instruction covering fundamental ball skills and techniques, ball movement, and defensive and offensive principles will be included. All levels of ability are welcome.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 135A, 135B, 135E may be taken for a combined total of 6 times.

PEF 135C OUTDOOR SOCCER*Lecture .5, Lab 1.5, Units 1*

This course reviews the skills, rules, techniques, and strategies associated with outdoor soccer. Instruction will cover field skills, goalkeeper skills, field dimensions, penalty situations, player positioning, tactics, and strategy specific to the outdoor game. All levels of ability are welcome.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 135C, 135D may be taken for a combined total of 6 times.

PEF 135D OUTDOOR SOCCER*Lecture .25, Lab .75, Units .5*

This course reviews the skills, rules, techniques, and strategies associated with outdoor soccer. Instruction will cover field skills, goalkeeper skills, field dimensions, penalty situations, player positioning, tactics, and strategy specific to the outdoor game. All levels of ability are welcome.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 135C, 135D may be taken for a combined total of 6 times.

PEF 135E INDOOR SOCCER: COMPETITIVE*Lecture .5, Lab 1.5, Units 1*

This course is designed for experienced soccer players to enhance their skills and abilities in advanced soccer techniques and indoor game strategies. Analysis and application of triangulation, player supporting runs, individual and team defensive strategies, and offensive movement will be covered.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: Completion of one soccer course or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 135A, 135B, 135E may be taken for a combined total of 6 times.

PEF 136A VOLLEYBALL: BEGINNING*Lecture .5, Lab 1.5, Units 1*

This course covers the basic skills of volleyball. Instruction will include passing, setting, hitting, serving, and positioning.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 136A, 136B, 136C, 136D, 136E and 136F may be taken for a combined total of 6 times.

PEF 136B VOLLEYBALL: INTERMEDIATE*Lecture 1, Lab 2, Units 1.75*

This course is designed to instruct students in more advanced technical skills of hitting, serving, passing, and setting. There will be additional emphasis on defensive and offensive tactics and strategy as it applies to positioning and plays.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 136A or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 136A, 136B, 136C, 136D, 136E and 136F may be taken for a combined total of 6 times.

PEF 136C VOLLEYBALL: COMPETITIVE*Lecture .5, Lab 1.5, Units 1*

This course is designed for experienced volleyball players to enhance their skills and abilities in advanced volleyball techniques and game strategies. Analysis and application of offensive and defensive team positioning, passing, and setting will be covered.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: Completion of one volleyball course or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 136A, 136B, 136C, 136D, 136E and 136F may be taken for a combined total of 6 times.

PEF 136D TEAM SPORTS VOLLEYBALL*Lecture 0, Lab 3, Units 1*

This course provides students with the opportunity to participate in volleyball league competition on either 6-person or 4-person co-ed teams.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 136A or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 136A, 136B, 136C, 136D, 136E and 136F may be taken for a combined total of 6 times.

PEF 136E SAND VOLLEYBALL: COMPETITIVE*Lecture .5, Lab 1.5, Units 1*

This course is designed for experienced volleyball players to enhance their skills and abilities in advanced sand volleyball techniques and game strategies. Analysis and application of team positioning, play passing and setting, and offensive and defensive sets will be covered.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 136A, 136B, 136C or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 136A, 136B, 136C, 136D, 136E and 136F may be taken for a combined total of 6 times.

PEF 136F SPORTS VOLLEYBALL: LEAGUE*Lecture 0, Lab 1, Units .25*

This course provides students with the opportunity to participate in volleyball league competition on either 6-person or 4-person co-ed teams.

Transfers to CSU, UNR

ADVISORY: PEF 136A or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 136A, 136B, 136C, 136D, 136E and 136F may be taken for a combined total of 6 times.

PEF 137A ICE SKATING: BEGINNING*Lecture .25, Lab .75, Units .5*

Designed for beginning students, this course will teach the fundamentals of skating. Students will learn a brief history of skating and essential skating techniques. Students will learn the basic skills through skating drills, movements, and exercises. (Students must provide their own skates or they may rent skates at the ice rink.)

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 137A and 137B may be taken for a combined total of 6 times.

PEF 137B ICE SKATING: INTERMEDIATE*Lecture .25, Lab .75, Units .5*

This course is designed for intermediate skating students. Students will learn intermediate skating skills through a variety of movement and body exercises. Emphasis will be placed on skills utilized in figure skating. Such topics will include steps, spins, jumps, turns and footwork, and freestyle moves.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 137A or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 137A and 137B may be taken for a combined total of 6 times.

PEF 137C ICE HOCKEY: BEGINNING*Lecture .5, Lab 1.5, Units 1*

Designed for beginning hockey students, this course will teach the fundamentals of the game. Instruction in these fundamental skills will be provided through skating, puck control, and shooting drills. Additional instruction includes information on history, rules, tactics, and the importance of good sportsmanship. Students must provide their own helmet, hockey stick, and skates.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 137A or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 137C, 137D and 137E may be taken for a combined total of 6 times.

PEF 137D ICE HOCKEY: INTERMEDIATE*Lecture .5, Lab 1.5, Units 1*

This course reviews the basic fundamental skills of ice hockey before proceeding with more advanced play and tactics to enhance the students' skills and abilities. This would include: skating with speed and control, stick and puck control, goalkeeping skills, offensive and defensive techniques, and positioning.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 137C or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 137C, 137D and 137E may be taken for a combined total of 6 times.

PEF 137E ICE HOCKEY: COMPETITIVE TEAM*Lecture .5, Lab 1.5, Units 1*

This course prepares students for competition in organized hockey games to be played at the city's Ice Arena.

Transfers to CSU, UNR

ADVISORY: PEF 137C or 137D or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 137C, 137D and 137E may be taken for a combined total of 6 times.

PEF 140A BEGINNING YOGA*Lecture 1, Lab 1, Units 1.25*

This course introduces the student to the science and practice of Hatha Yoga. Emphasis will be on posture training and exercises designed to achieve strength, flexibility, and proper body alignment. Additional topics to be covered include meditation, breathing and relaxation techniques for reduction of stress and tension. Special focus will be placed on methods to incorporate these tools into all areas of daily life.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 140A, 140B, 140C may be taken for a combined total of 6 times.

PEF 140B INTERMEDIATE YOGA*Lecture 1 Lab 1, Units 1.25*

The student will have the opportunity to further their knowledge and learn the techniques of Hatha Yoga. Additional postures and exercises designed to achieve strength, flexibility, and proper body alignment will be presented as well as advanced meditation, breathing, and relaxation techniques for reduction of stress and tension. Special focus will be placed on methods to incorporate these tools into all areas of daily life.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 140A or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 140A, 140B, 140C may be taken for a combined total of 6 times.

PEF 140C ASTANGA YOGA*Lecture 2, Lab 2, Units 2.75*

This course introduces the student to the science and practice of the Astanga Primary Series of Yoga. Emphasis will be placed on practicing the postures (asanas) correctly, along with breathing techniques specific to this style of Yoga. Sanskrit as well as English asana names will be presented. The course is designed to help the student increase strength, stamina, flexibility, and balance while developing the ability to stay calm in challenging or potentially stressful situations. The course will explore the philosophy of the traditional eight limbs of Astanga Yoga and how they might be applied to a modern, Western lifestyle.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 140A, 140B, or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 140A, 140B, 140C may be taken for a combined total of 6 times.

PEF 141A BEGINNING T'AI CHI CH'UAN*Lecture 1, Lab 1, Units 1.25*

This course is an introduction to the study and practice of the "Yang Style" form of T'ai Chi Ch'uan. Discussion will include history and philosophical principles. Practice will involve Chi Kung exercises and the first of three sections of the Yang long form.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 141A and 141B may be taken for a combined total of 6 times.

PEF 141B INTERMEDIATE T'AI CHI CH'UAN*Lecture 1, Lab 1, Units 1.25*

This course is a continued study and practice of the Yang style form of T'ai Chi Ch'uan. It will include Chi Kung and the first two sections of the long form.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: PEF 141A or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: PEF 141A and 141B may be taken for a combined total of 6 times.

PEF 142A THE FELDENKRAIS METHOD: AWARENESS THROUGH MOVEMENT*Lecture 1, Lab 1, Units 1.5*

This course provides the skills necessary to improve coordination, balance, agility and range of motion through lessons in movement. Emphasis is on developing efficient movement through awareness of the interaction between the muscular-skeletal and nervous systems. The universal application of this method serves to refine sensory-motor skills required in the performing arts, athletics, and in daily activities.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

PEF 143B STRETCHING AND RELAXATION TECHNIQUES*Lecture 1, Lab 2, Units 1.75*

This course is designed for students who want to learn about, practice, and improve their flexibility and stress management skills by participating in guided stretching and relaxation programs.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

PEF 143C BREATH AND MEDITATION*Lecture 1, Lab 1, Units 1.25*

This course introduces students to breath and meditation which will include yoga breathing techniques and yoga postures. Instruction will cover exploring students' breathing patterns and how to deepen their breath, thus helping to calm the body, mind, and emotions which prepares students for meditation practice.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: Yoga experience is helpful but not required.

REPEATABILITY: May be repeated 5 times.

PEF 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

PEF 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

PEF 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

NON-CREDIT PHYSICAL EDUCATION**PEF 550 FITNESS FOR LIFE (ADULT WELLNESS)**

Hours per Week: 4.5

This course provides an instructor-led, structured, physical conditioning program specifically designed for the older adult. Emphasis is on flexibility, range of motion movement exercises, upper and lower body strengthening, and cardiovascular wellness. Individualized instructional programming is utilized.

PHYSICAL EDUCATION HEALTH

A.A. DEGREE

An A.A. Degree is offered in the field of Physical Education and Health. For major requirements, see page 73.

PEH 100 PERSONAL HEALTH AND WELLNESS

Lecture 4, Lab 0, Units 4

This course will introduce students to the scope of current personal health issues and practices. Emphasis will be placed on a personal health analysis and proactive behavior to improve and enhance one's lifestyle practices and experiences. Students will explore the interdependence dynamics of current health issues and practices that utilize the balance of mind, body, and spirit. Various aspects of wellness will be discussed including stress management, weight control, nutrition, fitness, healthy relationships, human sexuality, positive lifestyle habits, and strategies to avoid disease.

Transfers to CSU, UNR, UC

PEH 101 NUTRITION

Lecture 4, Lab 0, Units 4

This course is an introduction to the fundamentals of nutrition. The course includes the study of nutrients and nutritional needs, and their roles in the creation and enhancement of good health.

Transfers to CSU, UNR, UC

PEH 102 NUTRITION FOR FITNESS AND SPORT

Lecture 4, Lab 0, Units 4

This course covers the science of sports nutrition. Topics such as carbohydrate, protein and fat needs for optimal athletic performance and physique change are discussed. Hydration and nutrition strategies for before, during and after physical activity are covered. An understanding of nutritional principles and an analysis of current research, as applied to personal practices, will allow students to plan strategies for improving their own fitness and sports performance.

Transfers to CSU, UNR

PEH 104/PSY 106 HUMAN SEXUALITY

Lecture 4, Lab 0, Units 4

This course is an examination of the physical, social and psychological aspects of human sexuality. Topics covered will include an historical look at how our present attitudes have evolved, the "sexual revolution" of the 60's, and our current problems associated with sexually transmitted diseases, as well as the future of male and female relationships.

Transfers to CSU, UNR, UC

PEH 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

Transfers to CSU

PEH 143A STRESS REDUCTION AND MEDITATION TECHNIQUES

Lecture 1, Lab 1, Units 1.25

This course will present a variety of techniques for stress reduction and relaxation. These will include study and practice of various cultural traditions. The latest scientific findings in health enhancement will be explored.

Transfers to CSU, UNR

PEH 150A INTRODUCTION TO MASSAGE TECHNIQUES

Lecture 1, Lab 1, Units 1.25

This course will provide theory and practical experience in massage therapy methods, procedures, and contraindications. Topics will include types of massage and their usage, physiological and psychological effects of massage, anatomy and physiology, trigger points, and massage strokes and their sequence.

PEH 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

PEH 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

PEH 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

PHYSICAL EDUCATION THEORY

A.A. DEGREE

An A.A. Degree is offered in the field of Physical Education and Health. For major requirements, see page 73.

PET 100 INTRODUCTION TO EXERCISE SCIENCE

Lecture 4, Lab 0, Units 4

This course introduces students to exercise physiology and its relationship to health, fitness, and performance. Other areas introduced include motor learning, biomechanics, and exercise psychology.

Transfers to CSU, UNR, UC

PET 101 EXERCISE PROGRAM DESIGN

Lecture 2, Lab 0, Units 2

In this course, the science of exercise program design will be discussed. Physiological adaptations to endurance, resistance, and flexibility training will be introduced as will exercise prescription and teaching cues for fitness instruction.

Transfers to CSU, UNR

PET 102 CARE AND PREVENTION OF ATHLETIC INJURIES

Lecture 2, Lab 0, Units 2

This course provides an overview of the skeletal and muscular anatomy and kinesiological principles of movement. The class also introduces the mechanisms, signs and symptoms, evaluation, treatment modalities, and prevention activities of sports injuries.

Transfers to CSU, UNR

PET 103 FITNESS ASSESSMENT

Lecture 2, Lab 0, Units 2

This course is designed for the fitness specialist or enthusiast who is interested in basic fitness tests to evaluate muscle strength and endurance, flexibility, cardiovascular endurance, and body composition. Testing standards, protocols, and principles for designing exercise programs will be included.

Transfers to CSU, UNR

PET 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

Transfers to CSU

PET 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

PET 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

PET 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

PHYSICAL SCIENCE

A.A. DEGREE

An A.A. Degree is offered in the field of Natural Science. For major requirements, see page 72.

PHS 111 ASTRONOMY

Lecture 4, Lab 0, Units 4

This course presents a broad view of astronomy and its importance to humanity, without complex mathematics. Topics include our planetary system, stars and stellar evolution, galaxies, and cosmology (the Big Bang and possible fate of the universe). Telescope viewing of the night sky will be included.

Transfers to CSU, UNR, UC

PHS 114A NATURAL HISTORY OF LAKE TAHOE

Lecture 1.5, Lab 0, Units 1.5

This course is designed for students who wish to explore the natural features of Lake Tahoe and the factors influencing its future. The unique geology, climate, plants, animals, habitats, management issues, and human impact of the Lake Tahoe basin will be emphasized.

Transfers to CSU, UNR

PHS 114B NATURAL HISTORY AND CONSERVATION OF LAKE TAHOE

Lecture 1.5, Lab 0, Units 1.5

This course is designed for students who wish to continue their study of the natural history of Lake Tahoe by gaining an understanding of human impacts on Tahoe's natural environment, and factors involved in restoration and conservation. Students will visit sites where restoration projects have been implemented and where current research is being conducted.

Transfers to CSU, UNR

ADVISORY: Students are encouraged to take PHS 114A or equivalent.

PHS 116 OCEANOGRAPHY

Lecture 4, Lab 0, Units 4

This course is an introduction to the marine environment. Students will explore the physical and biological characteristics of the world's oceans. Areas of emphasis will include ocean basin geology, waves and tides, ocean circulation, coastal features and processes, marine ecology, ocean flora and fauna, and human/environmental pressures.

Transfers to CSU, UNR

PHS 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

Transfers to CSU

PHS 140 STARS, ROCKS, AND TREES OF DESERT REGIONS*Lecture 1, Lab .5, Units 1.25*

This field-based course will introduce students to many facets of observational astronomy. In addition, the basic geology and ecology of arid regions in California and the Great Basin will be explored. The astronomy component of this course will concentrate on identification of asterisms and will also feature telescope viewing of planets, nebulae, binary stars and galaxies. The geology component of the course will feature interpretation of the modern and ancient geologic events that formed these regions, covering both tectonic and sedimentary forces. The ecology component will address the regional plant communities with a focus on the endemic plants of an area, especially trees. Content will focus on adaptations to environmental features exhibited by plants.

Transfers to CSU, UNR

PHS 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

PHS 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

PHS 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

PHYSICS**A.A. DEGREE**

An A.A. Degree is offered in the field of Natural Science. For major requirements, see page 72.

PHY 104 GENERAL PHYSICS I*Lecture 4, Lab 3, Units 5*

This course is the first in a sequence that satisfies the lower-division physics requirement for a major in pre-medicine or the biological sciences. This course is a study of mechanics. Topics will include descriptions of motion (kinematics), causes of motion (kinetics), momentum and energy conservation, and rotational motion.

Transfers to CSU, UNR, UC (course limit)

PREREQUISITE: MAT 154A or MAT 154AA with a grade of "C" or better or equivalent or appropriate skills demonstrated through the math assessment process.

ADVISORY: MAT 104 or equivalent.

PHY 105 GENERAL PHYSICS II*Lecture 4, Lab 3, Units 5*

This course is the second in a sequence that satisfies the lower division physics requirement for a major in pre-medicine or the biological sciences. Topics to be covered include solids, fluids, temperature, heat, kinetic theory, thermodynamics, and wave phenomena such as vibrations, sound, and light

Transfers to CSU, UNR, UC (course limit)

PREREQUISITE: PHY 104 with a grade of "C" or better or equivalent.

PHY 106 GENERAL PHYSICS III*Lecture 4, Lab 3, Units 5*

This course is the third in a sequence that satisfies the lower-division physics requirement for a major in pre-medicine or the biological sciences. This course is a study of electricity, magnetism, electromagnetic waves, and introductory modern physics. Lecture and lab topics include electric charges, forces, fields, voltage, circuits, magnetism, electromagnetic induction, EM waves, relativity and quantum physics.

Transfers to CSU, UNR, UC (course limit)

PREREQUISITE: PHY 105 with a grade of "C" or better or equivalent.

PHY 107 GENERAL PHYSICS (CALCULUS) – MECHANICS*Lecture 4, Lab 3, Units 5*

This course is the first in a series that satisfies the lower-division physics requirement for a major in physics, physical science, chemistry, geology, or engineering. The course covers mechanics with the use of calculus. Topics include linear motion, Newton's laws, energy and momentum, conservation laws, and rotational motion.

Transfers to CSU, UNR, UC (course limit)

PREREQUISITE: MAT 105 with a grade of "C" or better or equivalent or appropriate skills demonstrated through the math assessment process.

COREQUISITE: MAT 106 or equivalent or appropriate skills demonstrated through the math assessment process. Prior completion of MAT 106 with a grade of "C" also satisfies this corequisite.

PHY 108 GENERAL PHYSICS (CALCULUS) - WAVES, THERMODYNAMICS, AND LIGHT

Lecture 4, Lab 3, Units 5

This course is the second in a sequence which satisfies the lower division physics requirement for a major in physics, physical science, chemistry, geology, or engineering. Topics include solids and fluids, thermodynamics, and wave phenomena such as vibrations, sound, and light.

Transfers to CSU, UNR, UC (course limit)

PREREQUISITE: MAT 106 and PHY 107 with a grade of "C" or better or equivalent.

COREQUISITE: MAT 107.

PHY 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

Transfers to CSU

PHY 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credit will vary from quarter to quarter and will be published in the schedule of classes for the quarter in which the course will be offered.

PHY 207 GENERAL PHYSICS (CALCULUS) - ELECTRICITY AND MAGNETISM

Lecture 4, Lab 3, Units 5

This course is the third in a sequence which satisfies the lower-division physics requirement for a major in physics, physical science, chemistry, geology, or engineering. Topics include electric fields and forces, Gauss's law, electric potential, Capacitance, resistance, AC and DC circuits, magnetic fields and forces, electromagnetic induction, electromagnetic waves.

Transfers to CSU, UNR, UC (course limit)

PREREQUISITE: PHY 108 or equivalent with a grade of "C" or better. MAT 107 or equivalent with a grade of "C" or better or appropriate skills demonstrated through the math assessment process.

COREQUISITE: MAT 202 or equivalent or appropriate skills demonstrated through the math assessment process. Prior completion of MAT 202 with a grade of "C" also satisfies this corequisite.

PHY 208 GENERAL PHYSICS (CALCULUS) - MODERN PHYSICS

Lecture 4, Lab 3, Units 5

This course is the fourth in a sequence which satisfies the lower-division physics requirement for a major in physics, physical science, chemistry, geology, or engineering. Topics include relativity, quantum mechanics, atomic, nuclear, and particle physics.

Transfers to CSU, UNR, UC (course limit)

PREREQUISITE: PHY 207 or equivalent with a grade of "C" or better. MAT 107 or equivalent or appropriate skills demonstrated through the math assessment process.

PHY 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

PHY 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

POLISH

PLS 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

Transfers to CSU

PLS 151 CONVERSATIONAL POLISH I

Lecture 3, Lab 0, Units 3

This introductory level course is designed to assist students in attaining practical beginning level conversational skills in Polish. Students will develop the ability to understand and speak everyday conversational Polish through the introduction of vocabulary, elementary grammatical structures, and idiomatic expressions. The basics of reading and writing will be introduced. Students will also acquire an appreciation for Polish culture.

PLS 152 CONVERSATIONAL POLISH II

Lecture 3, Lab 0, Units 3

This course is a continuation of PLS 151. It is designed to assist students in building practical conversational skills in Polish. Students will broaden their ability to understand and speak everyday conversational Polish through the introduction of new vocabulary and elementary grammatical structures used in oral communication. Ongoing basics of reading and writing will be developed. Students will also acquire an appreciation for the Polish culture.

ADVISORY: PLS 151 with a grade of "C" or better or equivalent.

PLS 153 CONVERSATIONAL POLISH III

Lecture 3, Lab 0, Units 3

This course is a continuation of PLS 152 and is designed to assist students in building practical conversational skills in Polish. Students will broaden their ability to understand and speak everyday conversational Polish through the introduction of new vocabulary and more advanced grammatical structures at the elementary level in oral communication. Ongoing basics of reading and writing will be developed. Students will also acquire an appreciation for the Polish culture.

ADVISORY: PLS 152 with a grade of "C" or better or equivalent.

PLS 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

PLS 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

PLS 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

POLITICAL SCIENCE**A.A. DEGREE**

An A.A. Degree is offered in the field of Social Science. For major requirements, see page 74.

POL 101 UNITED STATES GOVERNMENT*Lecture 4, Lab 0, Units 4*

This course is a study of the formation and development of the United States national government, the Constitution, the national government's organization, function and powers. Particular attention is given to the study of United States political thought and philosophy. Emphasis will be given to California state and local government as examples of Federalism.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 and 103.

POL 107 POLITICAL THEORY*Lecture 4, Lab 0, Units 4*

This course is an in-depth study of the major political theories and ideologies from the late 18th century to the present. The course includes an examination of nationalism, democracy, liberalism, socialism, Marxism, communism, fascism, Islamic fundamentalism, and terrorism.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 and 103 or equivalent.

POL 122 CALIFORNIA STATE CAPITOL – SACRAMENTO*Lecture 1.5, Lab 0, Units 1.5*

This course is a survey of the California legislature, executive, and judicial process with special emphasis given to current California state and local issues. The course will consist of several lectures and a field trip to Sacramento.

Transfers to CSU, UNR

POL 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under the cover title published in the schedule of classes for the quarter in which the course will be offered.

Transfers to CSU

POL 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

POL 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

POL 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

PORTUGUESE**POR 131 SPECIAL TOPICS***Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

Transfers to CSU

POR 141 CONVERSATIONAL PORTUGUESE I*Lecture 3, Lab 0, Units 3*

This introductory level course is designed to assist students in attaining practical beginning level conversational skills in Portuguese. Students will develop the ability to understand and speak everyday conversational Portuguese through the introduction of vocabulary, elementary grammatical structures, and idiomatic expressions. The basics of reading and writing will be introduced. Students will also acquire an appreciation for cultures of Portuguese-speaking countries.

Transfers to CSU

POR 142 CONVERSATIONAL PORTUGUESE II*Lecture 3, Lab 0, Units 3*

This course is a continuation of POR 141. It is designed to assist students in building practical conversational skills in Portuguese. Students will broaden their ability to understand and speak everyday conversational Portuguese through the introduction of vocabulary, elementary grammatical structures, and idiomatic expressions. The basics of reading and writing will be developed. Students will also acquire an appreciation for cultures of Portuguese-speaking countries.

Transfers to CSU

ADVISORY: POR 141 with a grade of "C" or better or equivalent.

POR 143 CONVERSATIONAL PORTUGUESE III*Lecture 3, Lab 0, Units 3*

This course is a continuation of POR 142. It is designed to assist students in acquiring practical conversational skills in Portuguese in everyday situations. Students will develop more complex language abilities through the introduction of new vocabulary and more advanced grammatical structures. The emphasis will remain on oral communication. Elementary reading, writing, and an appreciation of Portuguese-speaking cultures will be developed.

Transfers to CSU

ADVISORY: POR 142 with a grade of "C" or better or equivalent.

POR 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

POR 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

POR 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

PSYCHOLOGY**A.A. DEGREE**

An A.A. Degree is offered in the fields of Psychology and Social Science. For major requirements, see pages 73 and 74.

THE FOLLOWING COURSES IN THIS SUBJECT AREA MAY BE CHALLENGED: PSY 101, 102, 103.

PSY 101 GENERAL PSYCHOLOGY*Lecture 4, Lab 0, Units 4*

This course is an introduction to the theories and methodological approaches in psychology. The subject matter will include such topics as learning, memory, sensation, perception, cognition, social behavior, personality, motivation, emotion, human development, abnormal behavior, and the physiological bases of behavior.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

PSY 102/ECE 102 CHILD AND ADOLESCENT DEVELOPMENT*Lecture 4, Lab 0, Lab 4*

This course is an introduction to the theoretical concepts and methodological approaches in child and adolescent development. Developmental processes through maturation and learning will be examined. Different theoretical perspectives (biological, cognitive, social, behavioral, emotional, and evolutionary) will be explored, and relevant research discussed. This course is cross-listed with ECE 102.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

PSY 103 ADULT DEVELOPMENT*Lecture 4, Lab 0, Units 4*

This course completes the psychology series on human development which started with Child and Adolescent Development. The course covers the developmental sequence from young adulthood to late adulthood. These stages of adult development will be studied from physical, social, emotional, and cognitive perspectives. The course will also include issues of death and bereavement.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 and PSY 101 or equivalent.

PSY 104 SOCIAL PSYCHOLOGY*Lecture 4, Lab 0, Units 4*

This course is an introduction to the theories and methodological approaches in social psychology. The course will examine how people think about, influence, and interact with others. The topics covered in class will include person perception, attitude formation and change, interpersonal attraction, persuasion and influence, prejudice and stereotyping, aggression, and prosocial behavior.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 and PSY 101 or equivalent.

PSY 106/PEH 104 HUMAN SEXUALITY*Lecture 4, Lab 0, Units 4*

This course is an examination of the physical, social and psychological aspects of human sexuality. Topics covered will include an historical look at how our present attitudes have evolved, the "sexual revolution" of the 60's, and our current problems associated with sexually transmitted diseases, as well as the future of male and female relationships.

Transfers to CSU, UNR, UC

PSY 107 THEORIES OF PERSONALITY*Lecture 4, Lab 0, Units 4*

This course is an introduction to the study of personality in the field of psychology. The course will provide an overview of the major personality theories, beginning with psychoanalytical, biological, and continuing on to more recent approaches from humanistic, social learning and cognitive. This course will also provide an introduction to contemporary personality research methods, including the development of measures of personality and their use in assessment.

Transfers to CSU, UNR, UC

ADVISORY: PSY 101 and ENG 101 or equivalent.

PSY 108 HEALTH PSYCHOLOGY*Lecture 4, Lab 0, Units 4*

This course is an introduction to the research, theoretical concepts, and methodological approaches in health psychology. The course will include such topics as health behavior and primary prevention, stress and coping, patient in the treatment setting, and management of chronic and terminal illness. The relationships between emotional, behavioral, and cognitive factors regarding one's well-being will also be explored.

Transfers to CSU, UNR

ADVISORY: PSY 101 or equivalent.

PSY 111 PSYCHOLOGY OF PERSONAL GROWTH*Lecture 4, Lab 0, Units 4*

This course is designed to facilitate insight into the self and to assist students in exploring and maximizing personal potential. Through personal growth exercises, lecture, and small group interactions, it focuses on various theories of personality and approaches to mental health in an effort to help students develop self-awareness, personal goals, interpersonal communication skills, and to evolve a unified approach to the psychology of living.

Transfers to CSU, UNR

ADVISORY: PSY 101 and ENG 101 or equivalent.

PSY 113 PSYCHOLOGY OF HUMAN RELATIONS*Lecture 4, Lab 0, Units 4*

This course is designed to introduce students to theoretical perspectives and conceptual issues pertaining to interpersonal relationships. The course will include such topics as relationship processes, relationship goals, friendships, interpersonal attraction, love, social power, jealousy, and conflict.

Transfers to CSU, UNR

ADVISORY: PSY 101 and ENG 101 or equivalent.

PSY 114/SOC 114 GENDER*Lecture 4, Lab 0, Units 4*

This course will focus on the social construction of gender relations and gender identity in society. Specific attention will be given to social inequalities related to gender, such as sexism and sexual harassment, to major theoretical and political perspectives on gender, including feminist theory, to sexuality, to masculinity and men's movements, and to transgender issues. Focus will also be given to gender construction in contemporary popular culture.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

PSY 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

Transfers to CSU

PSY 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

PSY 202 ABNORMAL PSYCHOLOGY*Lecture 4, Lab 0, Units 4*

This course is an introduction to the scientific study of mental illness and mental disorder. The course will cover such topics as diagnosis, causes, treatments, biological and cultural influences, and social consequences of various mental illnesses.

Transfers to CSU, UNR, UC

ADVISORY: PSY 101 and ENG 101 or equivalent.

PSY 210 INTRODUCTION TO PHYSIOLOGICAL PSYCHOLOGY*Lecture 4, Lab 0, Units 4*

This introductory course examines the contemporary research and theory dealing with the relationship between the brain and psychological factors. The course will cover such topics as neuronal activity, the effects of drugs, the nervous system, hormones and sexual behavior, the effects of brain damage, emotional behaviors and stress, and brain chemical imbalances in individuals who suffer from mood disorders and schizophrenia.

Transfers to CSU, UNR, UC

ADVISORY: PSY 101 and ENG 101.

PSY 211 RESEARCH METHODS AND DESIGN*Lecture 4, Lab 3, Units 5*

This course introduces students to research methodologies in the social and behavioral sciences. Students will examine design and implementation issues of both experimental and non-experimental research, descriptive and inferential statistical analysis, hypothesis testing, ethical considerations when conducting research.

Transfers to CSU, UNR, UC

PREREQUISITE: MAT 201 with a grade of "C" or better or equivalent.

ADVISORY: PSY 101 and ENG 101 or equivalent.

PSY 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

PSY 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

REAL ESTATE

THE FOLLOWING COURSES IN THIS SUBJECT AREA MAY BE CHALLENGED: RES 151, 155.

RES 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

Transfers to CSU

RES 132 OCCUPATIONAL WORK EXPERIENCE

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience is for students who are employed in jobs related to their educational or occupational goals. This program extends knowledge gained in the classroom to the workplace, helps students identify new and challenging objectives at work, and encourages professional growth and advancement.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

RES 133 OCCUPATIONAL WORK EXPERIENCE - INTERNSHIP

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience Internship is supervised placement at a worksite related to the student's educational or occupational goals. The program will assist students in acquiring desirable work experience, attitudes, and awareness of career opportunities in their chosen field of study.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

RES 151 CALIFORNIA REAL ESTATE PRINCIPLES

Lecture 4, Lab 0, Units 4

This is a fundamental real estate course covering the basic laws and principles of California real estate. The course provides the understanding, background, and terminology necessary for advanced study in specialized courses. Enrollment in this course is required by the California Department of Real Estate prior to taking the real estate salesperson's examination.

RES 152 LEGAL ASPECTS OF REAL ESTATE

Lecture 4, Lab 0, Units 4

This course provides fundamental knowledge of California real estate law, including rights associated with property ownership and management, agency, contracts, and application to real estate transfer, conveyance, probate proceedings, trust deeds, and foreclosure, as well as recent legislation governing real estate.

ADVISORY: RES 151 with a grade of "C" or better or equivalent.

RES 153 REAL ESTATE APPRAISAL

Lecture 4, Lab 0, Units 4

This course will study the appraisal of both residential and commercial properties, methods and techniques for determination of loan, market and insurance values. Methods of valuation, appraisal report and code of ethics will also be covered.

ADVISORY: RES 151 with a grade of "C" or better or equivalent.

RES 154 REAL ESTATE FINANCE

Lecture 4, Lab 0, Units 4

This course examines real estate financing and interactions with lending institutions. Topics include the money market, interest rates, and the various loan programs, including conventional and government backed loans. Emphasis will be on the loan process from application, approval, funding and the close of escrow. This course will address the loan process from the perspective of both the lender and the borrower. Successful course completion applies toward the California Department of Real Estate's educational requirements for the broker's examination.

ADVISORY: RES 151 with a grade of "C" or better or equivalent.

RES 155 REAL ESTATE PRACTICE

Lecture 4, Lab 0, Units 4

This course is a comprehensive presentation of the tools and techniques of operating a real estate business. Topics include the daily activities of brokers and salespeople, exchanges, listings, advertising, financing, specialized brokerage, property management, professional and public relations, and ethics.

ADVISORY: RES 151 with a grade of "C" or better or equivalent.

RES 160 CALIFORNIA PROPERTY MANAGEMENT

Lecture 4, Lab 0, Units 4

This course is designed to provide the basic knowledge required to function as a real property manager under California Real Estate law. The rights and responsibilities of tenants, landlords, and property managers will be emphasized.

ADVISORY: RES 151 with a grade of "C" or better or equivalent.

RES 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical, or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

RES 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

RES 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

RELIGION

A.A. DEGREE

An A.A. Degree is offered in the field of Humanities. For major requirements, see page 66.

REL 101 OLD TESTAMENT

Lecture 4, Lab 0, Units 4

This course presents a scholarly introduction to the ancient stories of the Tanakh, including Yahweh's covenant, Abraham's sacrifice, and Moses' Ten Commandments. Progressing historically, students read the political exploits of Kings David and Solomon, followed by the poetry and prophecy of Isaiah, Hoshiah, and Jeremiah. This course offers a view of ancient culture, understanding of the basis for a wide range of Jewish and Christian theologies, and eternal truths of human life.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

REL 102 NEW TESTAMENT

Lecture 4, Lab 0, Units 4

This course is a scholarly introduction to the study of New Testament literature in its historical and cultural setting. Topics covered include the culture of the ancient Greco-Roman world, the Jewish roots of the Jesus movement, the literary relationship of the four Gospels, the historical Jesus, the evolution of early Christianity, and the diverse theologies represented in the letters of Paul and other canonical and non-canonical writings.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

REL 103 WORLD RELIGIONS

Lecture 4, Lab 0, Units 4

This course is an intensive analysis of religions as cultural systems. The origin, history, and interpretation of religious ideas in the major religions of the Eastern and Western worlds will be discussed, emphasizing the contributions each has made to the cultural development of humankind. Hinduism, Buddhism, Confucianism, Taoism, Judaism, Christianity, and Islam will be studied.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

REL 104 INTRODUCTION TO RELIGIOUS STUDIES

Lecture 4, Lab 0, Units 4

This course is an introductory study of religion with an emphasis on the origins and functions of religion, religious experience, and religious and theological modes of expression. Methods and theories will be drawn from the disciplines of anthropology, philosophy, psychology, sociology, and theology. Course content will be drawn from Eastern and Western traditions, ancient, medieval, and modern times.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

REL 105 EASTERN RELIGIOUS TRADITIONS

Lecture 4, Lab 0, Units 4

This course is a survey of the religious traditions of India, China, and Japan - Hinduism, Jainism, Buddhism, Sikhism, Taoism, Confucianism, and Shinto. Topics include an examination of the history, sacred texts, rituals, theological concepts, philosophical schools, and geographical developments of these religions. Emphasis will be placed on understanding the religious experience of believers.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

REL 106 THE GODDESS

Lecture 2, Lab 0, Units 2

This course is an examination of the concept of the divine feminine, examining the images, symbols and myths of the goddess in selected societies. Students will explore the evidence of goddess worship in ancient and modern religions, and analyze the role of the goddess in popular culture and counter-cultural movements.

Transfers to CSU, UNR

ADVISORY: ENG 101 or equivalent.

REL 107 THE PRINCIPLE TEACHINGS OF BUDDHISM

Lecture 4, Lab 0, Units 4

This course will present the principle teachings and philosophies of Buddhism. Students will examine concepts such as "The Three Principle Paths," "Higher Knowledge" (Abhidharmakosha), meditation, karma, and role of the Dalai Lama. Students will also gain an understanding of how Buddhism compares and contrasts with the other major religions of the world.

Transfers to CSU, UNR

REL 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

Transfers to CSU

REL 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

REL 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

REL 291 SPECIAL PROJECTS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

RUSSIAN

RUS 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

Transfers to CSU

RUS 141 CONVERSATIONAL RUSSIAN I

Lecture 3, Lab 0, Units 3

This introductory course is designed to give students beginning level conversational skills in Russian with an emphasis on everyday practical vocabulary and idiomatic expressions. Elementary grammatical structures will also be introduced. Students will learn to read and write using the Russian (Cyrillic) alphabet, and will become acquainted with the life and customs of Russia and other countries of the former Soviet Union.

Transfers to CSU

RUS 142 CONVERSATIONAL RUSSIAN II

Lecture 3, Lab 0, Units 3

This course is a continuation of RUS 141. This elementary level course is designed to give students beginning level conversational skills in Russian with an emphasis on everyday practical vocabulary and idiomatic expressions. Elementary grammatical structures will also be introduced. Students will learn to read and write using the Russian (Cyrillic) alphabet, and will become acquainted with the life and customs of Russia and other countries of the former Soviet Union.

Transfers to CSU

ADVISORY: RUS 141 with a grade of "C" or better or equivalent.

RUS 143 CONVERSATIONAL RUSSIAN III

Lecture 3, Lab 0, Units 3

This course is a continuation of RUS 142. This elementary level course is designed to give students beginning level conversational skills in Russian with an emphasis on everyday practical vocabulary idiomatic expressions and more intermediate level verb conjugations. Elementary grammatical structures will also be introduced. Students will learn to read and write using the Russian (Cyrillic) alphabet, and will become acquainted with the life and customs of Russia and other countries of the former Soviet Union.

Transfers to CSU

ADVISORY: RUS 142 with a grade of "C" or better or equivalent.

RUS 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

RUS 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

RUS 291 SPECIAL PROJECTS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

SIGN LANGUAGE

SNL 101 SIGN LANGUAGE: AMERICAN SIGN LANGUAGE - ELEMENTARY I

Lecture 5, Lab 0, Units 5

This course provides a basic foundation for acquiring a visual gestural language, fingerspelling, American Sign Language (ASL) vocabulary, and grammatical structure. Beginning communication skills are taught with an emphasis on comprehension. Basic cultural aspects of Deafness and historical and linguistic elements of sign language will be introduced. This course is taught primarily in American Sign Language.

Transfers to CSU, UNR, UC

SNL 102 SIGN LANGUAGE: AMERICAN SIGN LANGUAGE - ELEMENTARY II

Lecture 5, Lab 0, Units 5

This course is a continuation of SNL 101 focusing on communication competency with elementary skills targeted in the following language functions: American Sign Language (ASL) vocabulary, syntax and grammatical structure, and fingerspelling. Continued study of Deaf culture and the linguistics of American Sign Language will be provided. This course is taught primarily in American Sign Language.

Transfers to CSU, UNR, UC

PREREQUISITE: SNL 101 with a grade of "C" or better or equivalent.

SNL 103 SIGN LANGUAGE: AMERICAN SIGN LANGUAGE - ELEMENTARY III

Lecture 5, Lab 0, Units 5

This course is a continuation of SNL 102 focusing on greater communication competency and grammatical structural accuracy. This course emphasizes a wider variety of elementary American Sign Language (ASL) vocabulary, fingerspelling, syntax, lexicon, and Deaf cultural awareness.

Transfers to CSU, UNR, UC

PREREQUISITE: SNL 102 with a grade of "C" or better or equivalent.

SNL 106 FINGERSPELLING I

Lecture 1.5, Lab 0, Units 1.5

This course introduces students to the American Manual Alphabet (Fingerspelling) and provides introductory knowledge, techniques, and skills development in receptive and expressive fingerspelling. It focuses on providing hands-on experiences in class to improve student's basic skills. This course is strongly recommended for those interested in the field of interpreting educational or other professional fields which work with Deaf people.

Transfers to CSU, UNR

ADVISORY: SNL 101 or equivalent.

SNL 108 AMERICAN DEAF CULTURE I*Lecture 4, Lab 0, Units 4*

This course is an introduction to the culture, values, and daily life of Deaf people in North America as reflected in language, literature, art, history, political and social events, and daily life. The goal of this course is to reduce the gap between layman's perception of Deaf people and Deaf people's perception of themselves. Discussion and topics aim to seek appreciation for the unique issues of being Deaf in a hearing world and the trends of Deaf culture. Students studying in the following fields would benefit from this comprehensive, investigative class: interpreting for the Deaf, Deaf Studies, education, anthropology, audiology, speech-language pathology, medicine, mental health services, and any service-oriented field. This course is conducted in simultaneous communication (American Sign Language (ASL) with voice translation). Knowledge of ASL is not necessary for this course.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

SNL 120A CONVERSATIONAL AMERICAN SIGN LANGUAGE I*Lecture 3, Lab 0, Units 3*

This course is designed to provide basic conversational skills in American Sign Language (ASL), the language used by most Deaf people in the United States. Emphasis will be placed on basic ASL structure and self-expression. This course is strongly recommended for prospective teachers, interpreters, and other professionals working with Deaf people. Students should have basic skills in ASL.

Transfers to CSU

PREREQUISITE: SNL 101 or equivalent.

SNL 120B CONVERSATIONAL AMERICAN SIGN LANGUAGE II*Lecture 1.5, Lab 0, Units 1.5*

This course offers a progression in acquiring conversational skills on a wide variety of topics in American Sign Language (ASL), the language used by most Deaf people in the United States. ASL grammar and expression will be reinforced as part of the conversational process.

Transfers to CSU

PREREQUISITE: SNL 101 or equivalent.

SNL 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

Transfers to CSU

SNL 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

SNL 201 SIGN LANGUAGE: AMERICAN SIGN LANGUAGE - INTERMEDIATE I*Lecture 5, Lab 0, Units 5*

This course provides continued instructional activities for students who wish to become competent in communication with Deaf people. There will be a broader scope in signing techniques and skills with an intermediate study of ASL vocabulary, fingerspelling, syntax, lexicon, sentence structure, conversational skills, and thought processes. Further study in aspects of Deaf culture will be included.

Transfers to CSU, UNR, UC

PREREQUISITE: SNL 103 with a grade of "C" or better or equivalent.

SNL 202 SIGN LANGUAGE: AMERICAN SIGN LANGUAGE - INTERMEDIATE II*Lecture 5, Lab 0, Units 5*

This course emphasizes intermediate expressive and receptive non-verbal communication skills between signers who have preliminary American Sign Language syntactical and lexical skills. Students will generate and compile previously learned signs, studying handshape characteristics, palm orientation, location and movement with new signs and ASL sentence structure being introduced as a focus for classroom instruction. This course will provide an understanding of Deaf cultural processes by identifying behaviors from activities and interactions in the Deaf community.

Transfers to CSU, UNR, UC

PREREQUISITE: SNL 201 with a grade of "C" or better or equivalent.

SNL 203 SIGN LANGUAGE: AMERICAN SIGN LANGUAGE - INTERMEDIATE III*Lecture 5, Lab 0, Units 5*

This course provides extensive activities on sign language expressions. Activities include the utilization of ASL and the correct translation of English glosses, expressions, and idioms. There will be a focus on reinforcing previously learned grammatical markers, handshapes, and ASL vocabulary. This course emphasizes intermediate fluency, continued study of ASL handshapes, movement and orientation of signs, fingerspelling, syntax, lexicon, and Deaf cultural awareness.

Transfers to CSU, UNR, UC

PREREQUISITE: SNL 202 with a grade of "C" or better or equivalent.

SNL 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

SNL 291 SPECIAL PROJECTS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

SOCIOLOGY

A.A. DEGREE

An A.A. Degree is offered in the field of Sociology. For major requirements, see page 74.

SOC 101 INTRODUCTION TO SOCIOLOGY

Lecture 4, Lab 0, Units 4

This course is an introduction to the basic principles of sociological inquiry. It includes analysis of social structures and social behavior, including socialization, social institutions, race, class, gender, deviance and social change. As well, students will be exposed to the basic theoretical and methodological approaches of the discipline.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

SOC 102 MARRIAGE, FAMILIES, AND INTIMATE RELATIONSHIPS

Lecture 4, Lab 0, Units 4

This course is a study of the family as a social unit and institution, with emphasis on the various forms and functions of the family, as well as the family as a social problem. Cross-cultural families and non-traditional family forms, such as the gay and lesbian family and single-parent form, will be compared with more traditional forms like the nuclear family. Additional emphasis will be placed on patterns of dating and the variety of intimate relationships in society

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

SOC 103 SOCIAL PROBLEMS

Lecture 4, Lab 0, Units 4

Sociological perspectives will be used to understand social problems in the United States and selected world societies. The course will focus on social institutions and the problems and inequalities they produce, including racism, sexism, poverty, crime, violence, crimes against the environment, and elite deviance.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

SOC 104 DEVIANCE

Lecture 4, Lab 0, Units 4

An examination of the social construction of deviance with emphasis on theoretical perspectives explaining how people become or are labeled as deviant. Topics studied will include crime, substance abuse, mental illness, sexuality, cognitive deviance, and elite deviance.

Transfers to CSU, UNR

ADVISORY: ENG 101 or equivalent.

SOC 106 CRIME AND SOCIETY

Lecture 4, Lab 0, Units 4

This course is an introduction to the study of crime as a social problem and a social construction. Topics such as violent crime, victimology, corrections, law enforcement, white collar crime, and social policies towards crime will be analyzed in the context of major criminological and sociological theories and approaches.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

SOC 107 RACE AND ETHNIC RELATIONS

Lecture 4, Lab 0, Units 4

This course is a survey of the racial and ethnic structure of the United States with attention on the socio-cultural histories and circumstances of racial and ethnic groups. Emphasis will be given to the politics of race and ethnicity including the problems associated with racism, prejudice, cultural misunderstanding and stereotyping, as well as associated social policy and legislation.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

SOC 109 WOMEN, OUR VOICED JOURNEYS

Lecture 4, Lab 0, Units 4

This course will introduce students to the disciplines of women's studies and women's transitional rites of passage, including childhood, menarche, menopause, and elderhood. Students will study the phenomena of age and aging and explore traditional and contemporary women's issues as expressed in literature and the media. Women and their unique journey will be studied through the use of discourse, reflection, analysis, literature, and critiques.

Transfers to CSU, UNR

ADVISORY: ENG 101 or equivalent.

SOC 114/ PSY 114 GENDER

Lecture 4, Lab 0, Units 4

This course will focus on the social construction of gender relations and gender identity in society. Specific attention will be given to social inequalities related to gender, such as sexism and sexual harassment, to major theoretical and political perspectives on gender, including feminist theory, to sexuality, to masculinity and men's movements, and to transgender issues. Focus will also be given to gender construction in contemporary popular culture.

Transfers to CSU, UNR, UC

ADVISORY: ENG 101 or equivalent.

SOC 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of student for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

Transfers to CSU

SOC 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

SOC 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

SOC 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

SPANISH

A.A. DEGREE

An A.A. Degree is offered in the fields of Spanish and Humanities. For major requirements, see pages 66 and 75.

CERTIFICATE OF ACHIEVEMENT

A Certificate of Achievement is offered in the field of Spanish. For requirements, see page 89.

THE FOLLOWING COURSES IN THIS SUBJECT AREA MAY BE CHALLENGED: SPA 101, 102, 103, 201, 202, and 203.

SPA 101 ELEMENTARY SPANISH I

Lecture 5, Lab 0, Units 5

This beginning course is an introduction to the speaking, reading, writing, and understanding of elementary Spanish. Elementary grammatical structures as used in the context of oral communication will be introduced and studied, which will aid the student in developing effective, competent, and grammatically correct communication skills. This course contains a cultural component that will allow the student to develop an appreciation of the culture of Spanish-speaking countries.

Transfers to CSU, UNR, UC

SPA 102 ELEMENTARY SPANISH II

Lecture 5, Lab 0, Units 5

This course, a continuation of SPA 101, is designed to continue building elementary grammatical structures that focus on the speaking, reading, writing, and understanding of elementary Spanish. Students will continue to build their communication skills through the introduction of new vocabulary and more complex grammatical structures, including the present and past tenses. Students will continue to develop an appreciation of the culture of Spanish-speaking countries.

Transfers to CSU, UNR, UC

PREREQUISITE: SPA 101 with a grade of "C" or better or equivalent.

SPA 103 ELEMENTARY SPANISH III

Lecture 5, Lab 0, Units 5

This course, a continuation of SPA 102, is designed to continue building elementary grammatical structures that focus on the speaking, reading, writing, and understanding of elementary Spanish. Students will continue to attain higher levels of communication skills through the introduction of new vocabulary and more complex grammatical structures. Students will review present and past tenses, and will be introduced to the subjunctive. Students will continue to develop an appreciation of culture of Spanish-speaking countries.

Transfers to CSU, UNR, UC

PREREQUISITE: SPA 102 with a grade of "C" or better or equivalent.

SPA 105 INTERMEDIATE SPANISH ORAL PROFICIENCY

Lecture 3, Lab 0, Units 3

The emphasis of this course is to develop communication skills and to build confidence in oral expression by accurately incorporating grammatical structures and vocabulary at the intermediate level. Speaking proficiency will be developed by expanding vocabulary, increasing listening comprehension, refining grammar control and pronunciation, and through intensive conversational practice. Readings and written exercises from the text, magazines, and newspapers will focus on cultural issues from prehistoric to modern times. Students will also study contemporary issues and current events selected to stimulate critical thinking in Spanish.

Transfers to CSU

PREREQUISITE: SPA 103 with a grade of "C" or better or equivalent.

SPA 110 HISPANIC CIVILIZATION AND CULTURE

Lecture 4, Lab 0, Units 4

This course is an interdisciplinary study of Latin America focusing on the history, culture, and civilizations of Spanish-speaking countries. Students will study Pre-Colombian civilizations, the Spanish conquest, independence, and revolution in order to build a foundation to understand modern-day Latin American society.

Transfers to CSU, UNR, UC

SPA 120A A CULTURAL OVERVIEW OF MEXICO

Lecture 3, Lab 0, Units 3

This course will introduce students to the culture and customs of Mexico. Emphasis will be on developing an understanding of the relationship between history, geography, and culture. Topics include history, pre-Columbian cultures, art, and cultural traditions of Mexico. Students will gain an appreciation of the roles that pre-Columbian civilizations have played in Mexico's heritage.

Transfers to CSU, UNR

SPA 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

SPA 141 CONVERSATIONAL SPANISH I

Lecture 3, Lab 0, Units 3

This introductory level course is designed to assist students in acquiring practical elementary-low level conversational skills in Spanish. Students will develop the ability to understand and speak everyday conversational Spanish through the introduction of vocabulary, elementary grammatical structures, and idiomatic expressions. The basics of reading and writing will be introduced. Students will also acquire an appreciation for cultures of Spanish-speaking countries.

Transfers to CSU

SPA 142 CONVERSATIONAL SPANISH II

Lecture 3, Lab 0, Units 3

This course is a continuation of SPA 141. It is designed to assist students in acquiring practical conversational skills in Spanish. Students will develop the ability to understand and speak everyday conversational Spanish through the introduction of vocabulary, elementary grammatical structures, and idiomatic expressions. The basics of reading and writing will be presented. Students will also acquire an appreciation for cultures of Spanish-speaking countries.

Transfers to CSU

ADVISORY: SPA 141 with a grade of "C" or better or equivalent.

SPA 143 CONVERSATIONAL SPANISH III*Lecture 3, Lab 0, Units 3*

This course is a continuation of SPA 142. It is designed to assist students in acquiring practical conversational skills in Spanish in everyday situations. Students will develop more complex language abilities through the introduction of new vocabulary and more advanced grammatical structures. The emphasis will remain on oral communication. Elementary reading, writing, and an appreciation of Spanish-speaking cultures will be developed.

Transfers to CSU

ADVISORY: SPA 142 with a grade of "C" or better or equivalent.

SPA 155 BI-CULTURAL CONVERSATION*Lecture 4, Lab 0, Units 4*

This conversational course will offer intermediate level Spanish students the opportunity to speak, practice, and build Spanish oral skills with native Spanish speakers in a small group setting. The students will use a wide range of vocabulary from greetings and expressions of courtesy to "topical" vocabulary such as shopping, employment, and foods. Students will be required to speak Spanish during the class and help their Spanish-speaking partner practice English.

ADVISORY: SPA 102 or SPA 142 with a grade of "C" or better or equivalent.

SPA 157A CONVERSATION EXPANDED EXPERIENCE - LOW BEGINNING*Lecture 1, Lab 0, Units 1*

This course is designed to complement vocabulary and concepts presented in elementary Spanish grammar classes and to assist students in acquiring practical elementary conversational skills in Spanish.

SPA 157B CONVERSATION EXPANDED EXPERIENCE - BEGINNING*Lecture 1, Lab 0, Units 1*

This course is designed to complement vocabulary and concepts presented in elementary Spanish grammar classes and to assist students in acquiring practical elementary conversational skills in Spanish.

ADVISORY: SPA 101 or equivalent.

SPA 157C CONVERSATION EXPANDED EXPERIENCE - HIGH BEGINNING*Lecture 1, Lab 0, Units 1*

This course is designed to complement vocabulary and concepts presented in elementary Spanish grammar classes and to assist students in acquiring practical elementary conversational skills in Spanish.

ADVISORY: SPA 102 or equivalent.

SPA 157D CONVERSATION EXPANDED EXPERIENCE - LOW INTERMEDIATE*Lecture 1, Lab 0, Units 1*

This course is designed to complement vocabulary and concepts presented in intermediate Spanish grammar classes and to assist students in acquiring practical intermediate conversational skills in Spanish.

ADVISORY: SPA 103 or equivalent.

SPA 157E CONVERSATION EXPANDED EXPERIENCE - INTERMEDIATE*Lecture 1, Lab 0, Units 1*

This course is designed to complement vocabulary and concepts presented in intermediate Spanish grammar classes and to assist students in acquiring practical intermediate conversational skills in Spanish.

ADVISORY: SPA 201 or equivalent.

SPA 157F CONVERSATION EXPANDED EXPERIENCE - HIGH INTERMEDIATE*Lecture 1, Lab 0, Units 1*

This course is designed to complement vocabulary and concepts presented in intermediate Spanish grammar classes and to assist students in acquiring practical intermediate conversational skills in Spanish.

ADVISORY: SPA 202 or equivalent.

SPA 157G CONVERSATION EXPANDED EXPERIENCE - LOW ADVANCED*Lecture 1, Lab 0, Units 1*

This course is designed to complement vocabulary and concepts presented in intermediate Spanish grammar classes and to assist students in acquiring practical advanced conversational skills in Spanish.

ADVISORY: SPA 203 or equivalent.

SPA 157H CONVERSATION EXPANDED EXPERIENCE - ADVANCED*Lecture 1, Lab 0, Units 1*

This course is designed to complement vocabulary and concepts presented in intermediate Spanish grammar classes and to assist students in acquiring practical advanced conversational skills in Spanish.

ADVISORY: SPA 210 or equivalent.

SPA 157J CONVERSATION EXPANDED EXPERIENCE - HIGH ADVANCED*Lecture 1, Lab 0, Units 1*

This course is designed to complement vocabulary and concepts presented in advanced Spanish grammar classes and to assist students in acquiring practical advanced conversational skills in Spanish.

ADVISORY: SPA 211 or equivalent.

SPA 170A ELEMENTARY SPANISH FOR THE PROFESSIONS I*Lecture .5-3, Lab 0, Units .5-3*

This elementary Spanish course is designed to provide practical essentials of conversing in Spanish for persons in law enforcement, fire science, business and finance, social services, the hospitality industry, and other professions. The emphasis of this course is on acquiring elementary level communication skills for the worksite. It will introduce specific vocabulary for the profession as well as provide elementary level grammar concepts. Students will study cultural and behavioral attitudes appropriate for relating to persons of Spanish-speaking cultural heritage.

SPA 170B ELEMENTARY SPANISH FOR THE PROFESSIONS II*Lecture .5-3, Lab 0, Units .5-3*

This elementary Spanish course is a continuation of SPA 170A, and is designed to provide practical essentials of conversing in Spanish for persons in law enforcement, fire science, business and finance, social services, the hospitality industry, and other professions. The emphasis of this course is on acquiring elementary level communication skills for the worksite. It will introduce specific vocabulary for the profession as well as provide elementary level grammar concepts. Students will study cultural and behavioral attitudes appropriate for relating to persons of Spanish-speaking cultural heritage.

ADVISORY: SPA 170A with a grade of "C" or better or equivalent.

SPA 170C ELEMENTARY SPANISH FOR THE PROFESSIONS III

Lecture .5-3, Lab 0, Units .5-3

This elementary Spanish course is a continuation of SPA 170B, and is designed to provide practical essentials of conversing in Spanish for persons in law enforcement, fire science, business and finance, social services, the hospitality industry, and other professions. The emphasis of this course is on acquiring elementary level communication skills for the worksite. It will introduce specific vocabulary for the profession as well as provide elementary level grammar concepts. Students will study cultural and behavioral attitudes appropriate for relating to persons of Spanish-speaking cultural heritage.

ADVISORY: SPA 170B with a grade of "C" or better or equivalent.

SPA 171A INTERMEDIATE SPANISH FOR THE PROFESSIONS I

Lecture .5-3, Lab 0, Units .5-3

This intermediate Spanish course is designed to provide practical essentials of conversing in Spanish for persons in law enforcement, fire science, business and finance, social services, the hospitality industry, and other professions. The emphasis of this course is on acquiring low-intermediate level communication skills for the worksite. It will introduce specific vocabulary for the profession as well as provide low-intermediate level grammar concepts. Students will study cultural and behavioral attitudes appropriate for relating to persons of Spanish-speaking cultural heritage.

ADVISORY: SPA 103, SPA 143 (formerly 153), or SPA 170C with a grade of "C" or better or equivalent.

SPA 171B INTERMEDIATE SPANISH FOR THE PROFESSIONS II

Lecture .5-3, Lab 0, Units .5-3

This intermediate Spanish course is a continuation of SPA 171A, and is designed to provide practical essentials of conversing in Spanish for persons in law enforcement, fire science, business and finance, social services, the hospitality industry, and other professions. The emphasis of this course is on acquiring mid-intermediate level proficiency using communication skills for the worksite. It will introduce specific vocabulary for the profession as well as provide mid-intermediate level grammar concepts. Students will study cultural and behavioral attitudes appropriate for relating to persons of Spanish-speaking cultural heritage.

ADVISORY: SPA 103, SPA 143 (formerly 153), or SPA 171A with a grade of "C" or better or equivalent.

SPA 171C INTERMEDIATE SPANISH FOR THE PROFESSIONS III

Lecture .5-3, Lab 0, Units .5-3

This intermediate Spanish course is a continuation of SPA 171B, and is designed to provide practical essentials of conversing in Spanish for persons in law enforcement, fire science, business and finance, social services, the hospitality industry, and other professions. The emphasis of this course is on acquiring high-intermediate level proficiency using communication skills for the worksite. It will introduce specific vocabulary for the profession as well as provide high-intermediate level grammar concepts. Students will study cultural and behavioral attitudes appropriate for relating to persons of Spanish-speaking cultural heritage.

ADVISORY: SPA 171B with a grade of "C" or better or equivalent.

SPA 172A ADVANCED SPANISH FOR THE PROFESSIONS I

Lecture .5-3, Lab 0, Units .5-3

This low-advanced level Spanish course is designed to provide practical essentials of conversing in Spanish for persons in law enforcement, fire science, business and finance, social services, the hospitality industry, and other professions. The emphasis of this course is on acquiring low-advanced level communication skills for the worksite. It will review and expand specific vocabulary for the profession, as well as provide low-advanced level grammar concepts. Students will study cultural and behavioral attitudes appropriate for relating to persons of Spanish-speaking cultural heritage.

ADVISORY: SPA 203 with a grade of "C" or better or equivalent or SPA 171C with a grade of "C" or better or equivalent.

SPA 172B ADVANCED SPANISH FOR THE PROFESSIONS II

Lecture .5-3, Lab 0, Units .5-3

This mid-advanced level Spanish course is a continuation of SPA 172A, and is designed to provide practical essentials of conversing in Spanish for persons in law enforcement, fire science, business and finance, social services, the hospitality industry, and other professions. The emphasis of this course is on acquiring mid-advanced level communication skills for the worksite. It will review and expand specific vocabulary for the profession as well as provide mid-advanced level grammar concepts. Students will study cultural and behavioral attitudes appropriate for relating to persons of Spanish-speaking cultural heritage.

ADVISORY: SPA 172A with a grade of "C" or better or equivalent.

SPA 172C ADVANCED SPANISH FOR THE PROFESSIONS III

Lecture .5-3, Lab 0, Units .5-3

This high-advanced level Spanish course is a continuation of SPA 172B, and is designed to provide practical essentials of conversing in Spanish for persons in law enforcement, fire science, business and finance, social services, the hospitality industry, and other professions. The emphasis of this course is on acquiring high-advanced level communication skills for the worksite. It will review and expand specific vocabulary for the profession as well as provide high-advanced level grammar concepts. Students will study cultural and behavioral attitudes appropriate for relating to persons of Spanish-speaking cultural heritage.

ADVISORY: SPA 172B with a grade of "C" or better or equivalent.

SPA 180A SPANISH FOR THE MEDICAL/DENTAL PROFESSION I

Lecture 2, Lab 0, Units 2

This introductory level course is designed to build elementary level oral communication skills in Spanish for those associated with the medical and dental professions. Physicians, dentists, chiropractors, nurses, and professionals in the medical field will find this course helpful, especially for patient intake interaction at the beginning level.

SPA 180B SPANISH FOR THE MEDICAL/DENTAL PROFESSION II

Lecture 2, Lab 0, Units 2

A continuation of SPA 180A, this course is designed to further develop the elementary level oral communication skills in Spanish for those associated with the medical and dental professions. Physicians, dentists, chiropractors, nurses, and professionals in the medical field will find this course helpful, especially for patient intake purposes and detailed patient interaction at the beginning level.

ADVISORY: SPA 180A with a grade of "C" or better or equivalent.

SPA 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

SPA 193A SPANISH FOR THE TEACHING PROFESSION I*Lecture 2, Lab 0, Units 2*

This beginning level course is designed to assist students who are either already in the field of education or have an interest in pursuing a career in education. Students will develop communication skills in Spanish for classroom situations. Increasing the student's ability to understand and speak classroom Spanish through the introduction of vocabulary and elementary grammatical structures will be emphasized. The study of Spanish-speaking cultures, especially as it applies to the public educational setting, will enhance the understanding and appreciation of the Spanish language and culture.

NOTE: SPA 193A and SPA 193B may be repeated for a combined total of 12 units.

SPA 193B SPANISH FOR THE TEACHING PROFESSION II*Lecture 2, Lab 0, Units 2*

A continuation of SPA 193A, this beginning level course is designed to assist students who are either already in the field of education or have an interest in pursuing a career in education. Students will continue to develop communication skills in Spanish for classroom situations. Increasing the student's ability to understand and speak classroom Spanish through the introduction of additional vocabulary and elementary grammatical structures will be emphasized. The study of Spanish-speaking cultures, especially as it applies to the public educational setting, will enhance the understanding and appreciation of the Spanish language and culture.

ADVISORY: SPA 193A with a grade of "C" or better or equivalent.

NOTE: SPA 193A and SPA 193B may be repeated for a combined total of 12 units.

SPA 201 INTERMEDIATE SPANISH*Lecture 5, Lab 0, Units 5*

This intermediate level course will assist students in developing intermediate level speaking, listening, reading, and writing skills while exposing them to Spanish-speaking people and cultures. Oral communication activities at this level are designed to promote intermediate level communicative competence and self-expression.

Transfers to CSU, UNR, UC

PREREQUISITE: SPA 103 with a grade of "C" or better or equivalent.

SPA 202 INTERMEDIATE SPANISH*Lecture 5, Lab 0, Units 5*

This is a continuation of SPA 201, and further introduces more complex grammatical structures and vocabulary, which aids in the development of intermediate communication skills in speaking, listening, reading, and writing. An appreciation and understanding of Spanish-speaking cultures continues through the introduction and study of Spanish literature.

Transfers to CSU, UNR, UC

PREREQUISITE: SPA 201 with a grade of "C" or better or equivalent.

SPA 203 INTERMEDIATE SPANISH*Lecture 5, Lab 0, Units 5*

This course is a continuation of SPA 202. Emphasis is placed on learning complex grammatical structures, as well as on a wide variety of communication tasks that are used in speaking, writing, reading, and listening. Emphasis is also placed on the study of Spanish literature, which is used to enhance the student's linguistic ability, and to draw them into a greater cultural understanding of the people whose language they are learning.

Transfers to CSU, UNR, UC

PREREQUISITE: SPA 202 with a grade of "C" or better or equivalent.

SPA 210 ADVANCED SPANISH GRAMMAR AND COMPOSITION I*Lecture 5, Lab 0, Units 5*

This advanced level course emphasizes the proper use of Spanish grammar. Students will improve their ability to write clear paragraphs and compositions. Focus is on the use of Spanish verb tenses. Oral communication is at the intermediate to advanced levels. An appreciation of Spanish-speaking cultures is presented by means of readings, presentations, literature, and composition themes. The course is conducted primarily in Spanish.

Transfers to CSU, UNR, UC

PREREQUISITE: SPA 203 with a grade of "C" or better or equivalent.

SPA 211 ADVANCED SPANISH GRAMMAR AND COMPOSITION II*Lecture 5, Lab 0, Units 5*

This course is a continuation of SPA 210. It continues to emphasize the proper use of Spanish grammar with oral communication at the intermediate to advanced levels. Students will improve their ability to write clear paragraphs and compositions. An appreciation of Spanish-speaking cultures is presented by means of readings, presentations, literature, and composition themes. The course is conducted primarily in Spanish.

Transfers to CSU, UNR, UC

PREREQUISITE: SPA 210 with a grade of "C" or better or equivalent.

SPA 212 INTRODUCTION TO SPANISH LITERATURE*Lecture 5, Lab 0, Units 5*

This course is an introduction to literary concepts, terminology, and theory. Included will be reading and discussion of prose, poetry and drama selected to familiarize the student with literary genres, and Spanish and Spanish-American literature. The course is conducted primarily in Spanish.

Transfers to CSU, UNR, UC

PREREQUISITE: SPA 203, 210, or 211 with a grade of "C" or better or equivalent.

SPA 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

SPA 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

INTENSIVE SPANISH SUMMER INSTITUTE

SPA 121A ISSI: LOW BEGINNING*Lecture 2.5, Lab 0, Units 2.5*

This course is for students with no previous knowledge of Spanish. It is intensive language instruction with an emphasis on developing basic communication skills in Spanish. This course will introduce students to the present tense fundamentals of verb conjugation, basic sentence structure, greetings, expressions of courtesy, and other useful vocabulary.

Transfers to CSU

SPA 121B ISSI: BEGINNING*Lecture 2.5, Lab 0, Units 2.5*

This course is for students who have completed SPA 121A: Low Beginning, or have had a brief introduction to Spanish. It is intensive language instruction with an emphasis on developing basic communication skills in Spanish. It will review the present tense fundamentals of verb conjugation and vocabulary. It will introduce conjunctions and basic prepositions for combining sentences. Cultural information, new expressions, new vocabulary, as well as focus on the alphabet will be introduced. Pronunciation differences between English and Spanish, including stress and written accent marks will be identified. In addition, increased focus will be made on questioning skills and interrogatives.

Transfers to CSU

ADVISORY: SPA 121A with a grade of "P" or equivalent.

SPA 121D ISSI: HIGH BEGINNING*Lecture 2.5, Lab 0, Units 2.5*

This course is for students who have been introduced to the present tense. It will provide a thorough and extensive review of the present tense only, practice of -AR, -ER, and -IR verbs, a review of "ser" and "estar," "tener + que + infinitive verb," and "ir + a + infinitive verb," and the introduction of stem-changing verbs.

Transfers to CSU

ADVISORY: SPA 121B with a grade of "P" or equivalent.

SPA 122A ISSI: LOW INTERMEDIATE*Lecture 2.5, Lab 0, Units 2.5*

This course is for students who have a working knowledge of the present tense. It will include a review of the present tense including stem-changing verbs, review of the future expression using "ir + a + infinitive verb," review of the present progressive tense with "estar + gerund," an introduction of reflexive verbs and pronouns, and the introduction of the imperfect tense. There will be an emphasis on vocabulary development, communication strategies, and oral proficiency. This course is conducted almost entirely in Spanish.

Transfers to CSU

ADVISORY: SPA 121D with a grade of "P" or equivalent.

SPA 122B ISSI: INTERMEDIATE*Lecture 2.5, Lab 0, Units 2.5*

This course is for students who have had one year of college Spanish or the equivalent. Topics include review of reflexive verbs and reflexive pronouns, and present progressive tense. New uses of the preterite and imperfect tenses, comparison of preterite and imperfect tenses, adverbs, adjectives, and suffix patterns will be introduced. New vocabulary development and communication strategies will be emphasized.

Transfers to CSU

ADVISORY: SPA 122A with a grade of "P" or equivalent or one year of college-level Spanish.

SPA 122D ISSI: HIGH INTERMEDIATE*Lecture 2.5, Lab 0, Units 2.5*

This course is for students with one to two years of Spanish at the college level, or the equivalent. Students should have a command of the present tense and a working knowledge of the past and future tenses. This course will quickly review the present tense, and introduce and expand the uses of the subjunctive mood and formal commands. Vocabulary development and communication strategies will be emphasized. This course is conducted almost entirely in Spanish.

Transfers to CSU

ADVISORY: SPA 122B with a grade of "P" or one year of college-level Spanish or equivalent.

SPA 123A ISSI: LOW ADVANCED*Lecture 2.5, Lab 0, Units 2.5*

This course is for students with a minimum of two to three years of college-level Spanish, or the equivalent. Students should have a working knowledge and command of most tenses. This course will contrast the uses of the preterite and imperfect tenses, expand the uses of the present subjunctive mood, and refine usage of vocabulary using idiomatic expressions, slang, and difficult grammatical principles. This course is conducted almost entirely in Spanish.

Transfers to CSU

ADVISORY: SPA 122D with a grade of "P" or two years of college-level Spanish or equivalent.

SPA 123B ISSI: ADVANCED*Lecture 2.5, Lab 0, Units 2.5*

This course is for students with a minimum of two to three years of college level Spanish, or the equivalent. It will review difficult areas of the preterite, imperfect tenses, and present subjunctive mood. It will introduce more complex uses of the subjunctive mood, new vocabulary, and related expressions to expand the communicative strategies of the student. Advanced use of vocabulary and intricate grammatical structures will be taught through literature. This course is conducted almost entirely in Spanish.

Transfers to CSU

ADVISORY: SPA 123A with a grade of "P" or equivalent or two to three years of college-level Spanish.

SPA 123D ISSI: HIGH ADVANCED*Lecture 2.5, Lab 0, Units 2.5*

This course is for students with a minimum of three years of college-level Spanish, or the equivalent. This course will quickly contrast the preterite and imperfect tenses, quickly review the uses of the present subjunctive mood, introduce the imperfect subjunctive mood and its uses, and introduce the conditional tense and its uses. Grammatical structures and vocabulary will be highlighted through literary selections, business terminology, and street slang. This course is conducted in Spanish.

Transfers to CSU

ADVISORY: SPA 123B with a grade of "P" or three years of college-level Spanish or equivalent.

SPA 124 ISSI: LOW SUPERIOR*Lecture 2.5, Lab 0, Units 2.5*

This course is for students with a minimum of three years of college-level Spanish or the equivalent. Vocabulary enrichment will be highlighted through idioms, proverbs, synonyms, and antonyms. Topics include: review of the past subjunctive mood and conditional tense, the pronoun "se," introduction of the perfect subjunctive, complex sentences and new literary vocabulary, recognition of the different accents of the Spanish-speaking world and how to improve one's own Spanish accent.

Transfers to CSU

ADVISORY: SPA 123D with a grade of "P" or three years of college-level Spanish or the equivalent.

SPA 124A ISSI: SUPERIOR*Lecture 2.5, Lab 0, Units 2.5*

This is a course designed for students who have completed an advanced course of Spanish. It will focus on oral and listening skills as students debate, explain, describe, and question in Spanish. Contemporary and controversial subjects will be presented through periodical articles and literary selections. Crucial grammatical structures related to course materials will be reviewed. This course is conducted in Spanish.

Transfers to CSU

ADVISORY: SPA 124 with a grade of "P" or three years of college-level Spanish or equivalent.

SPA 125A ISSI: LOW BEGINNING MEDICAL SPANISH CORE CLASS*Lecture 2.5, Lab 0, Units 2.5*

This course provides a complete and realistic experience of medical Spanish taught by bilingual medical personnel. Basic and vital grammar for effective communication with your Spanish-speaking patient will be covered. Related vocabulary, paired with medical cultural differences and myths, will provide the student with necessary knowledge and practice to successfully communicate with their Spanish-speaking patient. Continuing education units are approved for the California Board of Registered Nursing, CEP 959, for 25 contact hours

Transfers to CSU

SPA 154A ISSI: REINFORCING GRAMMATICAL CONCEPTS AND STRUCTURES - LEVEL 1*Lecture .25, Lab 0, Units .25*

Students will examine the oddities of the present tense in Spanish. Students will review stem-changing verbs and "major" irregular verbs such as: "ser," "estar," "ir + a + infinitive verb" and "tener + que + infinitive verb." Variations of the translations of the present tense will be discussed as well as the present progressive tense. This course is strongly recommended for beginning and intermediate students who need to brush up on these beginning level "power" verbs and expressions.

SPA 154B ISSI: REINFORCING GRAMMATICAL CONCEPTS AND STRUCTURES - LEVEL 2*Lecture .25, Lab 0, Units .25*

The differences between the two main past tenses will be the focus of this course. Students will compare and contrast the uses and conjugations of the preterite tense and the imperfect tense. The present subjunctive mood will also be highlighted. Intermediate and advanced level students will benefit from this grammar course.

SPA 154C ISSI: COMMUNICATIVE CONVERSATIONAL SPANISH VOCABULARY - BEGINNING LEVEL*Lecture .5, Lab 0, Units .5*

This communicative conversational Spanish vocabulary and grammar course will equip students with the necessary tools to communicate at the beginning level in Spanish. Common idiomatic expressions will be introduced, as well as resting phrases to assist students with communication tools needed to converse at the beginning level. A variety of vocabulary topics will be introduced that are common conversational topics necessary for the beginning student.

SPA 154E ISSI: SIMULTANEOUS BILINGUAL TRANSLATION TECHNIQUES - HIGH INTERMEDIATE TO SUPERIOR LEVEL*Lecture .5, Lab 0, Units .5*

Learn to recognize and solve key translation problems and miscommunication problems. Slang, jargon, noun strings, false cognates, and Spanish idioms will be discussed in order to assist students with a better understanding of the art of simultaneous translation techniques. This course is a must for advanced level language learners to help them sound more like native speakers of Spanish.

SPA 154F ISSI: SPANISH SLANG, JARGON, AND STREET LANGUAGE*Lecture .25, Lab 0, Units .25*

Learn the literal and figurative meanings of words that are at the heart of so many colorful expressions of Spanish slang, jargon, and street Spanish. This course will offer insights into the roots of Spanish-speaking cultures. In addition, it will be especially useful for teachers, community service workers, law enforcement, and health services personnel. This course is presented in English and Spanish.

SPA 154G ISSI: USING TRADITIONAL AND CONTEMPORARY LATINO MUSIC AS A LANGUAGE ACQUISITION TOOL*Lecture .25, Lab 0, Units .25*

This course will prepare teachers and other students to easily incorporate traditional and contemporary Latino music into their lesson plans and daily lives. Methods of introducing nouns, verb tenses, adjectives, and culture will highlight this course. These language acquisition techniques and resources are applicable to both the teaching of English and Spanish as a second language. This course is presented in English and Spanish.

SPA 154J ISSI: MAGIC, SUPERSTITION, AND CULTURAL TRADITIONS OF LATIN AMERICA*Lecture .25, Lab 0, Units .25*

Explore the world of magic, superstition and cultural traditions of Latin America. Investigate white magic, famous miraculous cures and the concept of the Hand of God, and learn about the protection against the Evil Eye. Various cultural beliefs and attitudes will also be presented such as the magic of the moon, the ritual of healing with sacred mushrooms, and shaman wisdom. Vocabulary associated with alternative medicine and customs will be introduced. This course is presented in English and Spanish.

SPA 154K ISSI: AN OVERVIEW OF LATINO DANCE

Lecture .25, Lab 0, Units .25

This contemporary Latino dance course will introduce the student to the culturally rich and diverse dance steps and music which incorporate the use of the salsa and merengue. Cultural information and musical history will also be provided. Students will also be introduced to the top musical groups currently associated with Latino dance. Dance and music vocabulary in Spanish, as well as appropriate verbs, will be introduced and used. Students will increase vocabulary and listening comprehension in Spanish. Presented in English and Spanish.

SPA 154L ISSI: ARTS AND CRAFTS FOR THE BILINGUAL/MULTICULTURAL CLASSROOM

Lecture .25, Lab 0, Units .25

This course will give students hands-on craft experience making several different traditional crafts of Spanish-speaking cultures, as well as cultural background information and basic Spanish vocabulary. Students will receive the expertise they need to reproduce these crafts with their classroom. Presented in English and Spanish.

SPA 154M ISSI: REINFORCING GRAMMATICAL CONCEPTS AND STRUCTURES - LOW BEGINNING

Lecture .5, Lab 0, Units .5

This course is for students with no prior knowledge of Spanish. It will methodically provide an in-depth look at Spanish verb conjugation.

SPA 154N ISSI: AN OVERVIEW OF AFRO-CUBAN DANCE

Lecture .25, Lab 0, Units .25

This course introduces the student to culturally rich and diverse dance steps and music, which will incorporate the use of Afro-Cuban dance. Cultural information and musical history will also be provided. Students will also be introduced to the top musical groups currently associated with Afro-Cuban dance. Dance and music vocabulary in Spanish, as well as appropriate verbs, will be introduced and used. Students will increase vocabulary and listening comprehension in Spanish. This course is presented in English and Spanish.

SPA 154P ISSI: CONVERSATIONAL SCENARIOS I: HIGH BEGINNING AND LOW INTERMEDIATE

Lecture .25, Lab 0, Units .25

This course is designed to focus on real life scenarios while building and enhancing Spanish conversational skills. Students will converse with partners, small groups, and the entire class. Students will also acquire an appreciation for cultures of Spanish-speaking countries. This course is led by a fluent Spanish-speaking instructor and native Spanish-speaking assistants.

ADVISORY: SPA 121B or 156AA with a grade of "P" or equivalent.

SPA 154Q ISSI: CONVERSATIONAL SCENARIOS II: INTERMEDIATE AND HIGH INTERMEDIATE

Lecture .25, Lab 0, Units .25

This course is designed to focus on real life scenarios while building and enhancing Spanish conversational skills. Students will converse with partners, small groups, and the entire class. Students will also acquire an appreciation for cultures of Spanish-speaking countries. This course is led by a fluent Spanish-speaking instructor and native Spanish-speaking assistants.

ADVISORY: SPA 122A or 156C with a grade of "P" or equivalent.

SPA 156A ISSI: SMALL GROUP CONVERSATION - LOW BEGINNING

Lecture .5, Lab 0, Units .5

This course introduces students to communication strategies used while building their oral proficiency skills with a native Spanish speaker. The course will include practice with structures and vocabulary presented in grammar courses. Students will develop the ability to understand and implement conversational Spanish through the use of vocabulary and idiomatic expressions.

SPA 156AA ISSI: SMALL GROUP CONVERSATION - BEGINNING

Lecture .5, Lab 0, Units .5

This course introduces students to communication strategies used while building their oral proficiency skills with a native Spanish speaker. The course will include practice with structures and vocabulary presented in grammar courses. Students will develop the ability to understand and implement conversational Spanish through the use of vocabulary and idiomatic expressions.

ADVISORY: SPA 156A with a grade of "P" or equivalent.

SPA 156B ISSI: SMALL GROUP CONVERSATION - HIGH BEGINNING

Lecture .5, Lab 0, Units .5

This course introduces students to communication strategies used while building their oral proficiency skills with a native Spanish speaker. The course will include practice with structures and vocabulary presented in grammar courses. Students will develop the ability to understand and implement conversational Spanish through the use of vocabulary and idiomatic expressions.

ADVISORY: SPA 156AA with a grade of "P" or equivalent.

SPA 156C ISSI: SMALL GROUP CONVERSATION - LOW INTERMEDIATE

Lecture .5, Lab 0, Units .5

This course introduces students to communication strategies used while building their oral proficiency skills with a native Spanish speaker. The course will include practice with structures and vocabulary presented in grammar courses. Students will develop the ability to understand and implement conversational Spanish through the use of vocabulary and idiomatic expressions.

ADVISORY: SPA 156B with a grade of "P" or equivalent.

SPA 156CC ISSI: SMALL GROUP CONVERSATION - INTERMEDIATE

Lecture .5, Lab 0, Units .5

This course introduces students to communication strategies used while building their oral proficiency skills with a native Spanish speaker. The course will include practice with structures and vocabulary presented in grammar courses. Students will develop the ability to understand and implement conversational Spanish through the use of vocabulary and idiomatic expressions.

ADVISORY: SPA 156C with a grade of "P" or equivalent.

SPA 156D ISSI: SMALL GROUP CONVERSATION - HIGH INTERMEDIATE*Lecture .5, Lab 0, Units .5*

This course introduces students to communication strategies used while building their oral proficiency skills with a native Spanish speaker. The course will include practice with structures and vocabulary presented in grammar courses. Students will develop the ability to understand and implement conversational Spanish through the use of vocabulary and idiomatic expressions.

ADVISORY: SPA 156CC with a grade of "P" or equivalent.

SPA 156E ISSI: SMALL GROUP CONVERSATION - LOW ADVANCED*Lecture .5, Lab 0, Units .5*

This course introduces students to communication strategies used while building their oral proficiency skills with a native Spanish speaker. The course will include practice with structures and vocabulary presented in grammar courses. Students will develop the ability to understand and implement conversational Spanish through the use of vocabulary and idiomatic expressions.

ADVISORY: SPA 156D with a grade of "P" or equivalent.

SPA 156EE ISSI: SMALL GROUP CONVERSATION - ADVANCED*Lecture .5, Lab 0, Units .5*

This course introduces students to communication strategies used while building their oral proficiency skills with a native Spanish speaker. The course will include practice with structures and vocabulary presented in grammar courses. Students will develop the ability to understand and implement conversational Spanish through the use of vocabulary and idiomatic expressions.

ADVISORY: SPA 156E with a grade of "P" or equivalent.

SPA 156F ISSI: SMALL GROUP CONVERSATION - HIGH ADVANCED*Lecture .5, Lab 0, Units .5*

This course introduces students to communication strategies used while building their oral proficiency skills with a native Spanish speaker. The course will include practice with structures and vocabulary presented in grammar courses. Students will develop the ability to understand and implement conversational Spanish through the use of vocabulary and idiomatic expressions.

ADVISORY: SPA 156EE with a grade of "P" or equivalent.

SPA 156FF ISSI: SMALL GROUP CONVERSATION - LOW SUPERIOR*Lecture .5, Lab 0, Units .5*

This course introduces students to communication strategies used while building their oral proficiency skills with a native Spanish speaker. The course will include practice with structures and vocabulary presented in grammar courses. Students will develop the ability to understand and implement conversational Spanish through the use of vocabulary and idiomatic expressions.

ADVISORY: SPA 156F with a grade of "P" or equivalent.

SPA 156G ISSI: SMALL GROUP CONVERSATION - SUPERIOR*Lecture .5, Lab 0, Units .5*

This course introduces students to communication strategies used while building their oral proficiency skills with a native Spanish speaker. The course will include practice with structures and vocabulary presented in grammar courses. Students will develop the ability to understand and implement conversational Spanish through the use of vocabulary and idiomatic expressions.

ADVISORY: SPA 156FF with a grade of "P" or equivalent.

SPA 156GG ISSI: SMALL GROUP CONVERSATION - HIGH SUPERIOR*Lecture .5, Lab 0, Units .5*

This course introduces students to communication strategies used while building their oral proficiency skills with a native Spanish speaker. The course will include practice with structures and vocabulary presented in grammar courses. Students will develop the ability to understand and implement conversational Spanish through the use of vocabulary and idiomatic expressions.

ADVISORY: SPA 156G with a grade of "P" or equivalent.

SPA 160A ISSI: INTRODUCTION TO CALL (COMPUTER-ASSISTED LANGUAGE LEARNING) - LOW BEGINNING*Lecture .5, Lab 0, Units .5*

This course is an introduction and an exploration of Spanish language and culture web sites. Focus will be on ways to incorporate web sites and web site activities to reinforce concepts related to vocabulary, structures, skills, and cultural information presented in grammar courses.

SPA 160AA ISSI: INTRODUCTION TO CALL (COMPUTER-ASSISTED LANGUAGE LEARNING) - BEGINNING*Lecture .5, Lab 0, Units .5*

This course is an introduction and an exploration of Spanish language and culture web sites. Focus will be on ways to incorporate web sites and web site activities to reinforce concepts related to vocabulary, structures, skills, and culture presented in grammar courses.

ADVISORY: SPA 160A with a grade of "P" or equivalent.

SPA 160B ISSI: INTRODUCTION TO CALL (COMPUTER-ASSISTED LANGUAGE LEARNING) - HIGH BEGINNING*Lecture .5, Lab 0, Units .5*

This course is an introduction and an exploration of Spanish language and culture web sites. Focus will be on ways to incorporate web sites and web site activities to reinforce concepts related to vocabulary, structures, skills, and culture presented in grammar courses.

ADVISORY: SPA 160AA with a grade of "P" or equivalent.

SPA 160C ISSI: INTRODUCTION TO CALL (COMPUTER-ASSISTED LANGUAGE LEARNING) - LOW INTERMEDIATE*Lecture .5, Lab 0, Units .5*

This course is an introduction and an exploration of Spanish language and culture web sites. Focus will be on ways to incorporate web sites and web site activities to reinforce concepts related to vocabulary, structures, skills, and culture presented in grammar courses.

ADVISORY: SPA 160B with a grade of "P" or equivalent.

SPA 160CC ISSI: INTRODUCTION TO CALL (COMPUTER-ASSISTED LANGUAGE LEARNING) - INTERMEDIATE

Lecture .5, Lab 0, Units .5

This course is an introduction and an exploration of Spanish language and culture web sites. Focus will be on ways to incorporate web sites and web site activities to reinforce concepts related to vocabulary, structures, skills, and culture presented in grammar courses.

ADVISORY: SPA 160C with a grade of "P" or equivalent.

SPA 160D ISSI: INTRODUCTION TO CALL (COMPUTER-ASSISTED LANGUAGE LEARNING) - HIGH INTERMEDIATE

Lecture .5, Lab 0, Units .5

This course is an introduction and an exploration of Spanish language and culture web sites. Focus will be on ways to incorporate web sites and web site activities to reinforce concepts related to vocabulary, structures, skills, and culture presented in grammar courses.

ADVISORY: SPA 160CC with a grade of "P" or equivalent.

SPA 160E ISSI: INTRODUCTION TO CALL (COMPUTER-ASSISTED LANGUAGE LEARNING) - LOW ADVANCED

Lecture .5, Lab 0, Units .5

This course is an introduction and an exploration of Spanish language and culture web sites. Focus will be on ways to incorporate web sites and web site activities to reinforce concepts related to vocabulary, structures, skills, and culture presented in grammar courses.

ADVISORY: SPA 160D with a grade of "P" or equivalent.

SPA 160EE ISSI: INTRODUCTION TO CALL (COMPUTER-ASSISTED LANGUAGE LEARNING) - ADVANCED

Lecture .5, Lab 0, Units .5

This course is an introduction and an exploration of Spanish language and culture web sites. Focus will be on ways to incorporate web sites and web site activities to reinforce concepts related to vocabulary, structures, skills, and culture presented in grammar courses.

ADVISORY: SPA 160E with a grade of "P" or equivalent.

SPA 160F ISSI: INTRODUCTION TO CALL (COMPUTER-ASSISTED LANGUAGE LEARNING) - HIGH ADVANCED

Lecture .5, Lab 0, Units .5

This course is an introduction and an exploration of Spanish language and culture web sites. Focus will be on ways to incorporate web sites and web site activities to reinforce concepts related to vocabulary, structures, skills, and culture presented in grammar courses.

ADVISORY: SPA 160EE with a grade of "P" or equivalent.

SPA 160FF ISSI: INTRODUCTION TO CALL (COMPUTER-ASSISTED LANGUAGE LEARNING) - LOW SUPERIOR

Lecture .5, Lab 0, Units .5

This course is an introduction and an exploration of Spanish language and culture web sites. Focus will be on ways to incorporate web sites and web site activities to reinforce concepts related to vocabulary, structures, skills, and culture presented in grammar courses.

ADVISORY: SPA 160F with a grade of "P" or equivalent.

SPA 160G ISSI: INTRODUCTION TO CALL (COMPUTER-ASSISTED LANGUAGE LEARNING) - SUPERIOR

Lecture .5, Lab 0, Units .5

This course is an introduction and an exploration of Spanish language and culture web sites. Focus will be on ways to incorporate web sites and web site activities to reinforce concepts related to vocabulary, structures, skills, and culture presented in grammar courses.

ADVISORY: SPA 160FF with a grade of "P" or equivalent.

SPA 160GG ISSI: INTRODUCTION TO CALL (COMPUTER-ASSISTED LANGUAGE LEARNING) - HIGH SUPERIOR

Lecture .5, Lab 0, Units .5

This course is an introduction and an exploration of Spanish language and culture web sites. Focus will be on ways to incorporate web sites and web site activities to reinforce concepts related to vocabulary, structures, skills, and culture presented in grammar courses.

ADVISORY: SPA 160G with a grade of "P" or equivalent.

SPA 160H ISSI: MULTI-LEVEL CALL (COMPUTER-ASSISTED LANGUAGE LEARNING - PC)

Lecture .5, Lab 0, Units .5

This course is an introduction to Spanish language and culture web sites that are appropriate for diverse levels of language learning. Focus will be on ways to use Spanish language web sites to reinforce vocabulary, structures, and skills presented in grammar courses. Students will be taught how to use settings in word processing and how to search the Internet for informative and helpful web sites.

SPA 181A ISSI: SPANISH FOR THE MEDICAL PROFESSION: LOW BEGINNING TO INTERMEDIATE

Lecture .5, Lab 0, Units .5

This is a low beginning to intermediate level course designed to build survival level oral communication skills for those associated with the medical profession. Spanish pronunciation and basic grammar will be introduced. Health-related vocabulary and terminology, as well as cultural differences associated with health-care, will be covered. This course is conducted in English. Continuing education units are approved for the California Board of Registered Nursing, CEP 959, for five contact hours.

SPA 181D ISSI: SPANISH FOR THE MEDICAL PROFESSION: HIGH INTERMEDIATE TO HIGH SUPERIOR

Lecture .5, Lab 0, Units .5

This is a high intermediate to high superior level course designed to improve oral communication skills for those associated with the medical profession. Vocabulary and terminology will cover information gathering for medical assessment, giving instructions for first aid and taking prescriptions, poisoning/drug use, and shock. This course is conducted almost entirely in Spanish. Grammatical explanations will be minimal. Continuing education units are approved for the California Board of Registered Nursing, CEP 959, for five contact hours.

ADVISORY: Recommend one year of college-level Spanish or equivalent.

SPA 182 ISSI: COMPARATIVE GRAMMAR: LOW BEGINNING*Lecture .5, Lab 0, Units .5*

This course is for the true low beginning Spanish student who has never been exposed to the language. Through interactive student-centered discussions and lecture, students will learn the basics of the Spanish language. Elementary grammatical structures and vocabulary will be introduced. This course will aid the student's development of an appreciation for the culture of Spanish-speaking countries.

SPA 183A ISSI: BREAKING OUT OF BEGINNER'S SPANISH*Lecture .5, Lab 0, Units .5*

This course is for the student who has knowledge of spoken Spanish and is ready to work on sounding more like a native speaker of Spanish. Transition words and phrases will be introduced to help the student towards that end. The course is recommended for students who have had at least one year of college-level Spanish.

ADVISORY: Recommend one year of college-level Spanish or equivalent.

SPA 184A ISSI: COMPARATIVE GRAMMAR: BEGINNING TO INTERMEDIATE*Lecture .5, Lab 0, Units .5*

This low beginning to intermediate level grammar course will focus on the versatility of the present tense and develop the student's oral communication skills by expanding their understanding and usage of this tense.

SPA 185A ISSI: COMPARATIVE GRAMMAR: HIGH INTERMEDIATE TO SUPERIOR*Lecture .5, Lab 0, Units .5*

This course will compare and contrast high intermediate to superior level grammar structures, which are problematic to students of Spanish. Conceptual and structural difficulties of "ser" and "estar," "por" and "para," preterite and imperfect verb tenses, pronouns, and syntax will be explained. This course is conducted almost entirely in Spanish.

ADVISORY: SPA 184A with a grade of "P" or equivalent. Recommend one year of college-level Spanish or equivalent.

SPA 186A ISSI: COMPARATIVE GRAMMAR: THE SUBJUNCTIVE MOOD FOR HIGH INTERMEDIATE TO LOW ADVANCED LEVELS*Lecture .5, Lab 0, Units .5*

This course will focus on the Spanish and English subjunctive mood usage, misuse of the subjunctive, and structures that mandate the subjunctive mood in Spanish at the high intermediate to low advanced levels.

ADVISORY: Recommend one year of college-level Spanish or equivalent.

SPA 186B ISSI: COMPARATIVE GRAMMAR: THE SUBJUNCTIVE MOOD FOR ADVANCED TO HIGH ADVANCED LEVELS*Lecture .5, Lab 0, Units .5*

This course will focus on the Spanish and English subjunctive mood usage, misuse of the subjunctive, and structures that mandate the subjunctive mood in Spanish at the advanced and high advanced levels.

ADVISORY: Recommend one to two years of college-level Spanish or equivalent.

SPA 195A ISSI: SPANISH FOR THE TEACHING PROFESSION: LOW BEGINNING TO INTERMEDIATE*Lecture .5, Lab 0, Units .5*

This course is an introduction to classroom vocabulary for the teaching profession. Objects and activities associated with the classroom will be introduced and practiced. Low beginning to intermediate level grammatical explanations of the Spanish structures will be introduced. This course is presented in English and Spanish.

SPA 195D ISSI: SPANISH FOR THE TEACHING PROFESSION: HIGH INTERMEDIATE TO HIGH SUPERIOR*Lecture .5, Lab 0, Units .5*

This high intermediate to high superior level course provides students with classroom vocabulary and grammatical structures for the teaching profession. Specific units of study will include vocabulary necessary to teaching mathematics, language arts, natural sciences, and social sciences in Spanish. Practical correspondence with a student's family will also be highlighted. This course is conducted almost entirely in Spanish.

ADVISORY: Recommend one year of college-level Spanish or equivalent.

SPA 199A ISSI: SPANISH COMMUNICATIVE INTERACTIVE CONVERSATION COURSE (SCICC) THE DIFFICULT TRIP: BEGINNING LEVELS*Lecture .25, Lab 0, Units .25*

This interactive conversational Spanish course will provide opportunity for the student to apply the present and present progressive tenses while incorporating the use of elementary level vocabulary. Students will fully participate in conversations expressing facts and narration about current activities in authentic, simulated cultural settings. Students will create with the Spanish language, use interrogatives and infinitives, and use vocabulary and verb forms in both the "usted" and "tú" forms of verbs.

ADVISORY: SPA 121A, B, or D or concurrent enrollment in SPA 121A, B, or D, or equivalent.

SPA 199D ISSI: SPANISH COMMUNICATIVE INTERACTIVE CONVERSATION COURSE (SCICC) THE DIFFICULT TRIP: INTERMEDIATE LEVELS*Lecture .25, Lab 0, Units .25*

This interactive conversational Spanish course will provide opportunity for the student to apply the present, present progressive, preterite, imperfect, and future tenses and subjunctive mood, while incorporating the use of vocabulary and idiomatic expressions. Students will fully participate in conversations expressing facts and narration about current and past activities in authentic, simulated cultural settings. Students will create with the Spanish language, use interrogatives and infinitives, and provide explanations and hypothesize using vocabulary and verb forms in both the "usted" and the "tú" forms of verbs.

ADVISORY: SPA 121D, 122A, B or D, or SPA 199A or concurrent enrollment in SPA 122A, B, or D, or SPA 199A or equivalent.

SPA 199H ISSI: SPANISH COMMUNICATIVE INTERACTIVE CONVERSATION COURSE (SCICC) THE DIFFICULT TRIP: ADVANCED LEVELS

Lecture .25, Lab 0, Units .25

This interactive conversational Spanish course will provide opportunity for the student to apply the present, present progressive, preterite, imperfect, future, and imperative tenses and the subjunctive mood, while incorporating the use of vocabulary and idiomatic expressions. Students will fully participate in conversations expressing facts and narration about current, past, and future activities in authentic, simulated cultural settings. Students will create with the Spanish language, use interrogatives and infinitives, and provide explanations and hypothesize using vocabulary and verb forms in both the "usted" and the "tú" forms of verbs.

ADVISORY: SPA 122D, 123A, 123B or 123D, or SPA 199D or concurrent enrollment in SPA 123A, 123B, or 123D, or SPA 199D or equivalent.

SPEECH

SPE 101 PUBLIC SPEAKING

Lecture 4, Lab 0, Units 4

This course offers instruction on the principles of effective extemporaneous speaking, as well as practice in preparation and delivery of speeches for different occasions. The course includes preparation and presentation of speeches for various occasions with emphasis placed on developing, organizing, and stating ideas.

Transfers to CSU, UNR, UC

ADVISORY: ENG 152 or equivalent.

SPE 102 INTERCULTURAL COMMUNICATIONS

Lecture 4, Lab 0, Units 4

This course will expose students to the dynamics of intercultural communications. Lectures and discussion will include the topics of culture, co-cultures, and multiculturalism. Emphasis will be placed on self-awareness, cultural perspectives, verbal and non-verbal traditions, and mindfulness. In addition, students will be exposed to strategies that increase intercultural communication competence.

Transfers to CSU, UNR, UC

ADVISORY: ENG 152 or equivalent.

SPE 104 SPEECH COMMUNICATION

Lecture 4, Lab 0, Units 4

This course is an introduction to speech communication, including learning to listen effectively, non-verbal communication, interpersonal communication, small group discussion, and speaking to an audience. Emphasis will be placed on building self-confidence and developing the student's ability to communicate with others.

Transfer CSU, UNR, UC

ADVISORY: ENG 152 or equivalent.

SPE 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

SPE 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

SPE 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

SPE 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

THEATRE ARTS

A.A. DEGREE

An A.A. Degree is offered in the field of Visual and Performing Arts. For major requirements see page 78.

THE 101 INTRODUCTION TO THEATRE

Lecture 4, Lab 0, Units 4

This course is an introduction to theatre as both an art form and social forum. The course will develop interest and understanding in theatre arts including the general nature of theatrical presentations, elements of dramatic structure, and distinctive and collaborative contributions of the actor, director, designers, technicians, and audience in theatrical presentations. Fundamental acting concepts and skills will be introduced.

Transfers to CSU, UNR, UC

THE 104A/MUS 104A HISTORY OF MUSICAL THEATRE

Lecture 4, Lab 0, Units 4

This course will cover the historical evolution of musical theatre forms in America. Students will examine the ideas, practices and contributions of the musical's most influential creative artists, and analyze the major elements of a musical show.

Transfers to CSU, UNR, UC

THE 105 INTRODUCTION TO ACTING

Lecture 4, Lab 0, Units 4

This course is designed to present the fundamentals of the acting process to students with little or no acting experience. Focus will be on participation as students learn, hands-on, the process all actors go through in approaching a role. Students will also be introduced to methods for approaching dramatic text and an historical perspective of the actor's process.

Transfers to CSU, UNR, UC

THE 106A FUNDAMENTALS OF ACTING: VOICE/ DIALECTS

Lecture 4, Lab 0, Units 4

This course will present principles of voice and speech for stage performance including breathing, relaxation, resonance, enunciation, articulation, projection, expressiveness, and vocal characterization. Also included will be an overview of stage dialects using the International Phonetic Alphabet (IPA). This course will enhance anyone's vocal ability whether serious acting student or nonperformer.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 2 times.

THE 106B FUNDAMENTALS OF ACTING: MOVEMENT

Lecture 4, Lab 0, Units 4

This course will stress developing the body as an expressive instrument; acquiring flexibility, relaxation, control, and creative expression that will serve as a base for the fundamentals of acting. Topics will include mask work, stage combat, and period movement. This course will benefit all students whether experienced or not in theatrical movement techniques.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 2 times.

THE 106C FUNDAMENTALS OF ACTING: STYLES

Lecture 4, Lab 0, Units 4

This course is designed to combine elements of voice, movement, and characterization in performance of different acting styles. Styles covered may include Greek, Elizabethan (Shakespeare), Restoration, Victorian, Commedia, and melodrama. Study will be through improvisation and performance of scenes.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 2 times.

THE 107 ACTOR'S WORKSHOP

Lecture 4, Lab 0, Units 4

This course is designed to explore and apply the principles of acting, movement, voice, and scene interpretation to the study of character using scenes or monologues. Emphasis is placed on the acting process and stage presence, culminating in a class performance. This course is recommended for actors with previous acting experience.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

THE 108 IMPROVISATIONAL THEATRE

Lecture 4, Lab 0, Units 4

Through participation in theatre games, students will learn to improvise a story, character and setting. Through pantomime as well as vocal techniques, students will create original works of Improvisational Theatre. This course is recommended for actors of all levels as well as anyone interested in the creative process.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 2 times.

THE 109 CHILDREN'S THEATRE

Lecture 3, Lab 3, Units 4

This course is the rehearsal and performance of a theatrical production designed to play for children. The play will be rehearsed in class then taken to local elementary schools for performances. Topics will include issues and techniques unique to performing for children. No performance experience is necessary to participate.

Transfers to CSU, UNR

REPEATABILITY: May be repeated 5 times.

THE 110 A STUDY OF LIVE THEATRE

Lecture .5, Lab 1.5, Units 1

This course will provide students with the opportunity to participate in a field trip to attend professional quality theatre. Emphasis will be placed on developing an awareness of the artistry, scope, and impact of live theatre. The course will include lectures and a field trip to attend theatrical performances.

Transfers to CSU, UNR

REPEATABILITY: May be repeated 5 times.

THE 111A A STUDY OF FILM: AMERICAN FILM

Lecture .5, Lab 1.5, Units 1

This course is designed to provide a variety of topics related to American film study which reflect student interest and current trends in film studies. The course is also designed to increase and enhance the student's critical judgment of film through the designed topics. Specific topics and film titles will be described in the class schedule.

Transfers to CSU, UNR

THE 111B A STUDY OF FILM: FOREIGN FILM

Lecture .5, Lab 1.5, Units 1

This course is designed to provide a variety of topics related to foreign film study which reflect student interest and current trends in film studies. The course is also designed to increase and enhance the student's critical judgment of film through the designed topics. Specific topics and film titles will be described in the class schedule.

Transfers to CSU, UNR

THE 111C A STUDY OF FILM: COMEDY FILM

Lecture .5, Lab 1.5, Units 1

This course is designed to provide a variety of topics related to comedy film study which reflect student interest and current trends in film studies. The course is also designed to increase and enhance the student's critical judgment of film through the designed topics. Specific topics and film titles will be described in the class schedule.

Transfers to CSU, UNR

THE 111D A STUDY OF FILM: DRAMA FILM

Lecture .5, Lab 1.5, Units 1

This course is designed to provide a variety of topics related to drama film study which reflect student interest and current trends in film studies. The course is also designed to increase and enhance the student's critical judgment of film through the designed topics. Specific topics and film titles will be described in the class schedule.

Transfers to CSU, UNR

THE 111E A STUDY OF FILM: ACTION FILM

Lecture .5, Lab 1.5, Units 1

This course is designed to provide a variety of topics related to action film study which reflect student interest and current trends in film studies. The course is also designed to increase and enhance the student's critical judgment of film through the designed topics. Specific topics and film titles will be described in the class schedule.

Transfers to CSU, UNR

THE 111F A STUDY OF FILM: HORROR FILM*Lecture .5, Lab 1.5, Units 1*

This course is designed to provide a variety of topics related to horror film study which reflect student interest and current trends in film studies. The course is also designed to increase and enhance the student's critical judgment of film through the designed topics. Specific topics and film titles will be described in the class schedule.

Transfers to CSU, UNR

THE 111G A STUDY OF FILM: ROMANCE FILM*Lecture .5, Lab 1.5, Units 1*

This course is designed to provide a variety of topics related to romance film study which reflect student interest and current trends in film studies. The course is also designed to increase and enhance the student's critical judgment of film through the designed topics. Specific topics and film titles will be described in the class schedule.

Transfers to CSU, UNR

THE 111H A STUDY OF FILM: WAR ON FILM*Lecture .5, Lab 1.5, Units 1*

This course is designed to provide a variety of topics related to the subject of war on film which reflect student interest and current trends in film studies. The course is also designed to increase and enhance the student's critical judgment of film through the designed topics. Specific topics and film titles will be described in the class schedule.

Transfers to CSU, UNR

THE 111J A STUDY OF FILM: WESTERN FILM*Lecture .5, Lab 1.5, Units 1*

This course is designed to provide a variety of topics related to Western film study which reflect student interest and current trends in film studies. The course is also designed to increase and enhance the student's critical judgment of film through the designed topics. Specific topics and film titles will be described in the class schedule.

Transfers to CSU, UNR

THE 111K A STUDY OF FILM: MUSICAL FILM*Lecture .5, Lab 1.5, Units 1*

This course is designed to provide a variety of topics related to musical film study which reflect student interest and current trends in film studies. The course is also designed to increase and enhance the student's critical judgment of film through the designed topics. Specific topics and film titles will be described in the class schedule.

Transfers to CSU, UNR

THE 111L A STUDY OF FILM: FILM NOIR*Lecture .5, Lab 1.5, Units 1*

This course is designed to provide a variety of topics related to film noir study which reflect student interest and current trends in film studies. The course is also designed to increase and enhance the student's critical judgment of film through the designed topics. Specific topics and film titles will be described in the class schedule.

Transfers to CSU, UNR

THE 111M A STUDY OF FILM: FILM GENRE*Lecture .5, Lab 1.5, Units 1*

This course is designed to provide a variety of topics related to film genre study which reflect student interest and current trends in film studies. The course is also designed to increase and enhance the student's critical judgment of film through the designed topics. Specific topics and film titles will be described in the class schedule.

Transfers to CSU, UNR

THE 111N A STUDY OF FILM: DIRECTOR(S) FILM*Lecture .5, Lab 1.5, Units 1*

This course is designed to provide a variety of topics related to director(s) film study which reflect student interest and current trends in film studies. The course is also designed to increase and enhance the student's critical judgment of film through the designed topics. Specific topics and film titles will be described in the class schedule.

Transfers to CSU, UNR

THE 111P A STUDY OF FILM: SOCIAL ISSUES*Lecture .5, Lab 1.5, Units 1*

This course is designed to provide a variety of film topics related to social issues which reflect student interest and current trends in film studies. The course is also designed to increase and enhance the student's critical judgment of film through the designed topics. Specific topics and film titles will be described in the class schedule.

Transfers to CSU, UNR

THE 111Q A STUDY OF FILM: CULTURAL TOPICS*Lecture .5, Lab 1.5, Units 1*

This course is designed to provide a variety of film topics related to cultural topics which reflect student interest and current trends in film studies. The course is also designed to increase and enhance the student's critical judgment of film through the designed topics. Specific topics and film titles will be described in the class schedule.

Transfers to CSU, UNR

THE 111R A STUDY OF FILM: SILENT FILM*Lecture .5, Lab 1.5, Units 1*

This course is designed to provide a variety of topics related to silent film study which reflect student interest and current trends in film studies. The course is also designed to increase and enhance the student's critical judgment of film through the designed topics. Specific topics and film titles will be described in the class schedule.

Transfers to CSU, UNR

THE 111S A STUDY OF FILM: SHORT FILM*Lecture .5, Lab 1.5, Units 1*

This course is designed to provide a variety of topics related to short film study which reflect student interest and current trends in film studies. The course is also designed to increase and enhance the student's critical judgment of film through the designed topics. Specific topics and film titles will be described in the class schedule.

Transfers to CSU, UNR

THE 111T A STUDY OF FILM: SCIENCE FICTION AND FANTASY FILM*Lecture .5, Lab 1.5, Units 1*

This course is designed to provide a variety of topics related to science fiction and fantasy film study which reflect student interest and current trends in film studies. The course is also designed to increase and enhance the student's critical judgment of film through the designed topics. Specific topics and film titles will be described in the class schedule.

Transfers to CSU, UNR

THE 111U A STUDY OF FILM: FILM STUDIO(S)*Lecture .5, Lab 1.5, Units 1*

This course is designed to provide a variety of topics related to film studio(s) study which reflect student interest and current trends in film studies. The course is also designed to increase and enhance the student's critical judgment of film through the designed topics. Specific topics and film titles will be described in the class schedule.

Transfers to CSU, UNR

THE 112A HISTORY OF FILM: BEGINNINGS TO 1945*Lecture 4, Lab 0, Units 4*

This course is an historical survey of the technical and artistic development of the film industry from 1865 to 1945. Emphasis will be placed on analyzing the film industry and looking at film as a reflection of world, social, economic, and political developments. Students will discuss and analyze each film viewed.

Transfers to CSU, UNR, UC

THE 112B HISTORY OF FILM: 1945 TO 1965*Lecture 4, Lab 0, Units 4*

This course is an historical survey of the technical and artistic development of the film industry from 1945 to 1965. Emphasis will be placed on analyzing the film industry and looking at film as a reflection of world, social, economic, and political developments. Students will discuss and analyze each film viewed.

Transfers to CSU, UNR, UC

THE 112C HISTORY OF FILM: 1965 TO PRESENT*Lecture 4, Lab 0, Units 4*

This course is an historical survey of the technical and artistic development of the film industry from 1965 to the present. Emphasis will be placed on analyzing the film industry and looking at film as a reflection of world, social, economic, and political developments. Students will discuss and analyze each film viewed.

Transfers to CSU, UNR, UC

THE 114 INTRODUCTION TO SCREENWRITING*Lecture 4, Lab 0, Units 4*

This screenplay writing course explores the fundamentals of writing for film and television. Students will develop a full-length screenplay that focuses on strong dialogue, description, character, and story structure.

Transfers to CSU, UNR

THE 118 THEATRICAL DESIGN*Lecture 4, Lab 0, Units 4*

This course will focus on how to use set, lighting, sound, and costume elements to realize an artistic design concept, with the primary focus on set design. This course will also examine how theatrical design has changed throughout history, and how it has been affected by new multimedia technology. Students will create their own designs both by interpreting a director's production concept, as well as developing their own design concepts from script readings.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 3 times.

THE 122 COLLABORATIVE WORKSHOP*Lecture 1, Lab 3, Units 2*

This course will allow students interested in directing, acting, and playwriting to work together in creating an original play through the collaborative process. Actors will be paired with a playwright and director to become a collaborative group. The number of groups and numbers of actors in each group will be determined by the size of the class and the number of people interested in writing or directing.

Transfers to CSU, UC

REPEATABILITY: May be repeated 5 times.

THE 126 MUSICAL THEATRE TECHNIQUES*Lecture 2, Lab 3, Units 3*

This course is designed to introduce participants to various aspects of musical theatre techniques. Through demonstration and active participation students will either focus on acting, dancing, singing, or auditioning techniques. The topic of each class will be announced in the schedule. Experienced performers can strengthen their skills and newcomers can learn new techniques.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

THE 127 LIVE SOUND: MIXING, RECORDING, EDITING*Lecture 3, Lab 2, Units 3.75*

This course is designed for the beginning/intermediate live sound engineer. The course will focus on the mixing of instrumental and vocal sound in live performances as well as the recording and playback of theatrical sound effects. The recording and editing of music and sound effects and the real-time mixing of live sound will be done in both analog and digital formats.

Transfers to CSU, UNR

THE 128ABCD PRODUCTION TECHNIQUES*Lecture 0-1, Lab 3-9, Units 1-4***Module A: 0-3-1****Module B: 1-3-2****Module C: 1-6-3****Module D: 1-9-4**

This course emphasizes rehearsal techniques for public performance. The focus of this course is on acting, scene design, lighting, sound, costuming, and production. Students will enroll in 1-4 units depending on the size of the role or assignment. This course culminates in the production and performance of a theatre play. Auditions and interviews are required before registration.

Transfers to CSU, UNR, UC

PREREQUISITE: Audition/interview.

REPEATABILITY: May be repeated 5 times.

THE 129 STAGECRAFT*Lecture 3, Lab 3, Units 4*

This course teaches the student the basics of technical theatre including stagecraft, lighting, and sound. The course has a hands-on approach to basic stagehand practices so that the student will become proficient in general backstage work with an emphasis on safety. Students will be working with power tools, lighting, and sound equipment.

Transfers to CSU, UNR, UC

REPEATABILITY: May be repeated 5 times.

THE 130 STAGE LIGHTING*Lecture 3, Lab 3 Units 4*

This course covers the use and function of the many stage lighting instruments in common usage today. Students will develop hands-on skills in the hanging, rigging, and focusing of lighting instruments. The course will introduce the operation and programming of lighting control boards, basic electrical theory, and beginning stage lighting design.

Transfers to CSU, UNR, UC

THE 131 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

THE 132 OCCUPATIONAL WORK EXPERIENCE*Lecture 0, Lab 0, Units 1-6*

Occupational Work Experience is for students who are employed in jobs related to their educational or occupational goals. This program extends knowledge gained in the classroom to the workplace, helps students identify new and challenging objectives at work, and encourages professional growth and advancement.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

THE 133 OCCUPATIONAL WORK EXPERIENCE - INTERNSHIP*Lecture 0, Lab 0, Units 1-6*

Occupational Work Experience Internship is supervised placement at a worksite related to the student's educational or occupational goals. The program will assist students in acquiring desirable work experience, attitudes, and awareness of career opportunities in their chosen field of study.

Transfers to CSU

COREQUISITE: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to a total of twenty-four (24) units, six units maximum per quarter.

THE 191 SPECIAL TOPICS*Units 1-4*

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

THE 208 ADVANCED IMPROVISATION*Lecture 1, Lab 3, Units 2*

Through participation in structured improvisation formats, students will improve techniques to improvise a story, character and setting, focusing on improvisational performance. This course is recommended for actors with some experience in both acting and improvisation.

Transfers to CSU, UNR, UC

ADVISORY: THE 108 or equivalent.

REPEATABILITY: May be repeated 5 times.

THE 228ABCD ADVANCED PRODUCTION TECHNIQUES*Lecture 0-1, Lab 3-9, Units 1-4***Module A: 0-3-1****Module B: 1-3-2****Module C: 1-6-3****Module D: 1-9-4**

This course emphasizes rehearsal techniques for students who have substantial production experience and wish to continue upgrading their skills in acting, scene design, lighting, sound, costuming, and production. Students will enroll in 1-4 units depending on size of role or assignment. This course culminates in the production and performance of a play. Auditions and interviews are required before registration.

Transfers to CSU, UNR, UC

PREREQUISITE: Audition/interview.

REPEATABILITY: May be repeated 5 times.

THE 231 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

THE 291 SPECIAL PROJECTS*Units 1-4*

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

WILDERNESS EDUCATION**A.A. DEGREE**

An A.A. Degree is offered in the field of Wilderness Education. For major requirements and areas of concentration, see page 79.

CERTIFICATE OF ACHIEVEMENT

A Certificate of Achievement is offered in the field of Wilderness Education. For requirements and areas of concentration, see page 91.

WLD 100 FOUNDATIONS OF RECREATION LAND MANAGEMENT*Lecture 3, Lab 0, Units 3*

This course will expose students to the principles of land management with specific focus on the complexities of managing recreation in the Tahoe basin. Students will meet representatives of the main land management agencies and organizations to discuss their agency's/ organization's mission, structure, and processes as it revolves around recreation. Through a series of guest lectures, class discussions, and group projects, students will learn about the processes that shape recreation planning, policy, management, challenges, trends, opportunities, and demands in the Lake Tahoe basin.

Transfers to CSU, UNR

WLD 101 ORIGINS AND DIRECTIONS OF WILDERNESS EDUCATION

Lecture 2, Lab 0, Units 2

This course is an introduction to the foundations, origins, settings and experiential learning associated with wilderness education. Special attention is focused on the philosophical, historical, psychological, ethical, and social foundations of wilderness education. Similarities and differences to such fields as outdoor education, recreation, environmental sciences, and experiential education will be investigated.

Transfers to CSU, UNR

WLD 104 FUNDAMENTALS OF OUTDOOR LEADERSHIP

Lecture 2, Lab 2, Units 2.75

In this course students will learn and practice outdoor leadership. Topics include LNT (Leave-No-Trace) practices, map and compass, wilderness first aid, and leadership strategies. Activities include peak ascents, wilderness skills, expeditionary learning, environmental stewardship, and service projects. This course will include a backcountry experience. Instruction will be both classroom and field-based.

Transfers to CSU, UNR, UC

WLD 106A WILDERNESS MEDICAL ASSOCIATES (WMA) WILDERNESS FIRST RESPONDER

Lecture 3, Lab 3, Units 4

This course provides a Wilderness First Responder (WFR) certification through Wilderness Medical Associates (WMA) for those students who meet all course criteria. WMA is the definitive medical training certifying body for all outdoor leaders and enthusiasts. In this course, students will learn to handle medical emergencies when help is miles away and dialing 911 is not an option. Through classroom lectures, field instruction, and role playing scenarios, students will learn to be prepared for emergency situations that involve prolonged patient care, severe environments, and improvised equipment. A CPR (cardiopulmonary resuscitation) certification is also included with this course.

Transfers to CSU

REPEATABILITY: May be repeated 1 time.

WLD 106B WILDERNESS MEDICAL ASSOCIATES (WMA) OPEN RECERTIFICATION (CHALLENGE)

Lecture 2 Lab 0, Units 2

This course is a recertification course open to graduates of all wilderness medical training courses of 64 hours or longer with a current certification. Upon successful completion of this course, the student will receive Wilderness Medical Associates WFR (Wilderness First Responder), Anaphylaxis and BLS (Basic Life Support)-level CPR (cardiopulmonary resuscitation) certifications. WEMT (Wilderness Emergency Medical Technician) graduates with a current EMT-B or Paramedic certificate may also recertify the wilderness portion of their WEMT.

Transfers to CSU

PREREQUISITES: WLD 107B, WLD 106A, or 64 hours of continual training from any wilderness medicine training program (cumulative training hours from different courses are not eligible). Training must have been completed within three years of this course.

REPEATABILITY: May be repeated 5 times.

WLD 107A WILDERNESS FIRST AID

Lecture 1.5, Lab 1.5, Units 2

This course is designed for back country skiers, guides, forest service personnel, climbers, ski patrollers, and outdoor enthusiasts. Emphasis will be placed on learning procedures involving preventative medicine, evacuation, environmental resources, altitude related problems, and emergency first aid in the wilderness. Current Wilderness First Responders (WFR) may recertify in this class. NOTE: An American Heart Association (AHA) healthcare provider CPR certification is available in this course.

Transfers to CSU

REPEATABILITY: May be repeated 5 times.

WLD 107B WILDERNESS FIRST RESPONDER

Lecture 3, Lab 3, Units 4

This course provides outdoor leaders, instructors, guides, and backcountry enthusiasts with the knowledge and skills to render medical care for outdoor and wilderness emergencies. Emphasis will be placed on emergency situations that involve prolonged patient care, severe environments, and improvised equipment. Both an LTCC Wilderness First Responder (WFR) and an American Heart Association (AHA) CPR certification are included in this course.

Transfers to CSU

REPEATABILITY: May be repeated 1 time.

WLD 107F WILDERNESS FIRST AID: BASICS

Lecture .75, Lab 0, Units .75

This course provides forest service personnel and outdoor enthusiasts with an awareness of the basic knowledge and skills needed to render medical care for wilderness emergencies. Topics covered will include patient assessment, preventive medicine, traumatic disorders, non-traumatic diseases, environmental injuries, and evacuation techniques. Students will have the opportunity to practice their wilderness first aid skills through simulated emergency scenarios.

Transfers to CSU

WLD 112A MAP AND COMPASS

Lecture .5, Lab .25, Units .5

This course provides a thorough introduction to the use of the map and compass for navigation in the Sierra Nevada and similar regions. The majority of the learning will occur through field practice in the use of compass and map interpretation.

Transfers to CSU, UNR

WLD 112B LAND NAVIGATION

Lecture 2, Lab 1, Units 2.25

This is a comprehensive course on the use of map, compass, and altimeter in the wilderness environment. The course includes information on low visibility navigation, triangulation, and orienteering techniques. An overnight field trip is included as part of the course.

Transfers to CSU, UNR

WLD 112C MAP, COMPASS, AND GPS

Lecture 1, Lab 2, Units 1.75

This is a comprehensive course on the use of the map, compass, and Global Positioning System (GPS) for navigation in the Sierra Nevada and similar regions. Learning will occur through both classroom and field sessions. Successful students will finish the class with command of the most common and reliable tools for wilderness land navigation.

Transfers to CSU, UNR

WLD 114B ULTRALIGHT BACKPACKING*Lecture 1.25, Lab 1, Units 1.5*

This course will introduce students to the elements of ultralight backpacking. Topics covered include food selection and requirements, equipment selection and use, backpacking methods, topographic map use, Leave-No-Trace (LNT) principles, and gear inventions.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

WLD 115 WILDERNESS SURVIVAL*Lecture 2, Lab 1, Units 2.25*

Students will learn how to travel in the wilderness and cope with wilderness emergencies. Topics covered will include survival, land navigation, dangerous animals, cold injury, shelter and clothing, and wilderness travel with an emphasis on self-reliance and environmental awareness. An overnight field trip is included.

Transfers to CSU, UNR, UC (unit limit)

WLD 117A MOUNTAINEERING*Lecture 1, Lab 2, Units 1.75*

This field-based course is designed to provide students with the necessary skills to travel safely in the mountains. Students will learn basic mountaineering principles, including Leave-No-Trace (LNT) principles, off-trail travel, basic snow and rock travel including technical systems, route finding, and safety considerations.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: WLD 117A and 117B may be taken for a combined total of 6 times.

WLD 117B INTERMEDIATE MOUNTAINEERING*Lecture 2, Lab 2, Units 2.75*

This field-based course is designed to provide students with necessary, advanced information to travel safely in wilderness areas. Topics include mountaineering techniques, cross country backpacking, rock climbing skills, glacier travel techniques, peak ascents, and glissading. Much of the instruction occurs during a field expedition. Instruction will be both classroom and field-based.

Transfers to CSU, UNR

ADVISORY: WLD 117A or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: WLD 117A and 117B may be taken for a combined total of 6 times.

WLD 118A ROCK CLIMBING: BEGINNING*Lecture .75, Lab .75, Units 1*

This course is designed for those students interested in learning an in-depth introduction to rock climbing. Students will spend the majority of the class climbing in the field. Topics include: rope systems, safety gear, knots, belaying techniques, call signals, climbing techniques, footwork, balance, flexibility, and rappelling.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: WLD 118A, 118B, 118C, and 118D may be taken for a combined total of 6 times.

WLD 118B ROCK CLIMBING: INTERMEDIATE*Lecture .75, Lab .75, Units 1*

This course is designed for those students who already possess basic skills related to rock climbing and wish to advance those skills. The course curriculum will focus on the construction and use of climbing anchors, the use of protection, knots and hitches, and more advanced climbing techniques.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: WLD 118A or equivalent skills.

REPEATABILITY: May be repeated 5 times.

NOTE: WLD 118A, 118B, 118C, and 118D may be taken for a combined total of 6 times.

WLD 118C INTRODUCTION TO LEAD CLIMBING*Lecture .75, Lab .75, Units 1*

This course is designed for those students who wish to learn the basics of lead climbing. Topics include placing protection, protection strategies, down climbing, and anchor requirements. Acquire these skills with the safety of a top rope belay in an instructional setting.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: WLD 118A, 118B, 118D, or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: WLD 118A, 118B, 118C, and 118D may be taken for a combined total of 6 times.

WLD 118D SELF-RESCUE FOR CLIMBERS*Lecture .75, Lab .75, Units 1*

This course is designed for those climbers who wish to be self-reliant and learn the rescue skills necessary to be safe in the vertical world. Topics include: escaping belays, ascending and descending fixed ropes, and assisting injured climbing partners.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: WLD 118A, 118B, 118C, or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: WLD 118A, 118B, 118C, and 118D may be taken for a combined total of 6 times.

WLD 121 SNOWSHOEING*Lecture 1, Lab 1, Units 1.25*

This course is designed for those students interested in improving both their winter hiking fitness and their technical skills related to snowshoeing. Students will spend the majority of the class snowshoeing in the field at various locations in Tahoe. Topics include: proper equipment, technique, snowshoeing areas, safety measures, and winter Leave-No-Trace (LNT) principles.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

WLD 122A CROSS COUNTRY SKIING*Lecture 1, Lab 1, Units 1.25*

This course provides the student with the fundamental and intermediate skills necessary for enjoying and participating in cross country skiing. Students will spend the majority of the class cross country skiing in the field. Topics include: equipment selection and use, technique, safety concerns, local areas, and winter Leave-No-Trace (LNT) principles.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: WLD 122A, 122C and 122D may be taken for a combined total of 6 times.

WLD 122C NORDIC SKATE SKIING: BEGINNING*Lecture .75, Lab .75, Units 1*

This course is designed for the beginner Nordic skate skier. This course will teach students the fundamental skills for skate skiing. Students will learn basic skating and poling techniques, hill climbing and descending techniques, and ski base preparation and waxing techniques.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

ADVISORY: WLD 122A or equivalent. Prior cross country or alpine skiing experience is advised.

NOTE: WLD 122A, 122C and 122D may be taken for a combined total of 6 times.

WLD 122D NORDIC SKATE SKIING: INTERMEDIATE

Lecture .75, Lab .75, Units 1

This course is designed for the intermediate Nordic skate skier. This course will review the basic fundamentals of skate skiing, i.e., skating and poling techniques, hill climbing and descending techniques, and ski base preparation and waxing techniques for both. In addition, this course will focus on climbing and descending techniques and the appropriate poling techniques.

Transfers to CSU, UNR

REPEATABILITY: May be repeated 5 times.

ADVISORY: WLD 122A, WLD 122C or equivalent. Prior Nordic skate skiing experience is advised.

NOTE: WLD 122A, 122C and 122D may be taken for a combined total of 6 times.

WLD 124A TELEMAR SKIING

Lecture .75, Lab 1, Units 1

This course will utilize a local ski resort to teach telemark skiing techniques. This course can accommodate a wide range of skiing abilities and will cover everything from the basic wedge turn to more advanced telemark techniques. Students will need to provide their own equipment.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: WLD 124A and 124B may be taken for a combined total of 6 times.

WLD 124B TELEMAR SKIING: ADVANCED

Lecture 1, Lab 1, Units 1.25

This course is designed for the advanced telemark skier. Advanced skiing techniques will be introduced in order to ski a variety of terrain and snow conditions. Students must be able to consistently link controlled turns on intermediate to advanced terrain. This course will utilize a local ski resort. Students are required to supply their own equipment.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: WLD 124A or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: WLD 124A and 124B may be taken for a combined total of 6 times.

WLD 125A BACKCOUNTRY SKIING

Lecture 1, Lab 1, Units 1.25

This course is designed for the experienced telemark or alpine skier to learn how to enter into the winter backcountry environment safely. Topics include: avalanche recognition and avoidance, route selection, proper equipment selection and use, prevention of cold weather injuries and emergencies, emergency shelters, avalanche transceiver practice, and winter Leave-No-Trace (LNT) principles.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: WLD 128B, 128R, or equivalent. Students must be able to consistently link controlled turns on a variety of terrain.

REPEATABILITY: May be repeated 5 times.

NOTE: WLD 125A, 126A and 126C may be taken for a combined total of 6 times.

WLD 126A BACKCOUNTRY SNOWBOARDING

Lecture 1, Lab 1, Units 1.25

This course is designed for the experienced snowboarder who would like to learn how to enter into the backcountry environment safely. Topics include: avalanche recognition and avoidance, route selection, proper equipment selection and use, snowshoes vs. splitboards, prevention of cold weather injuries and emergencies, emergency shelters, avalanche transceiver practice, and winter Leave-No-Trace (LNT) principles.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: WLD 128B, 128R, or equivalent. Students must be able to consistently link controlled turns on a variety of terrain.

REPEATABILITY: May be repeated 5 times.

NOTE: WLD 125A, 126A and 126C may be taken for a combined total of 6 times.

WLD 126C MULTI-DAY SKI/SNOWBOARD TOURING

Lecture 2, Lab 2, Units 2.75

This course is for the snowboarder or skier who wants to learn how to access remote peaks in the wilderness. Students will plan and execute a multi-day tour in a backcountry environment. Topics include: itinerary, food packing, gear choices, snow camping, Leave-No-Trace (LNT) practices, snowpack analysis and terrain choice, rescue scenarios, evacuation techniques, group dynamics, and peak skiing/snowboarding.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: WLD 125A 126A, 128B, or equivalent. Previous backcountry skiing/snowboarding experience is highly recommended. Students must be able to carry a 40 lb. pack and link controlled turns on a variety of terrain.

REPEATABILITY: May be repeated 5 times.

NOTE: WLD 125A, 126A and 126C may be taken for a combined total of 6 times.

WLD 127A WINTER SURVIVAL

Lecture 2, Lab 1, Units 2.25

Students will learn aspects of traveling in the winter environment. Topics covered will include equipment selection and use, snow and avalanche avoidance and survival, shelter construction, safety and weather considerations, route finding, Leave-No-Trace (LNT) ethics, and search and rescue techniques. This course teaches self-reliance and environmental awareness.

Transfers to CSU, UNR

WLD 128B AIARE LEVEL 1 AVALANCHE

Lecture 1.25, Lab .75, Units 1.5

This course provides a Level 1 Avalanche Certificate through the American Institute for Avalanche Research and Education (AIARE). With both classroom and field instruction, students will be provided lessons and exercises that are practically oriented, useful, and applicable in the basic understanding of avalanches. The course describes a framework for decision making and risk management in avalanche terrain.

Transfers to CSU, UNR

ADVISORY: Students should be competent backcountry skiers/snowboarders, i.e., have the ability to travel in the winter environment using the appropriate gear.

REPEATABILITY: May be repeated 2 times.

WLD 128C AIARE LEVEL 2 AVALANCHE

Lecture 2.25, Lab 1, Units 2.50

This course provides a Level 2 Avalanche Certificate through the American Institute for Avalanche Research and Education (AIARE). The Level 2 course is a program that provides backcountry leaders the opportunity to advance their knowledge and decision making skills. This course also builds from the introductory avalanche hazard management model introduced in the Level 1 course and adds to it the evaluation of factors critical to stability evaluation. Students must have the ability to travel in avalanche terrain.

Transfers to CSU, UNR

PREREQUISITE: Current AIARE Level 1 avalanche certification or equivalent. Students will be required to present copies of their Level 1 certification at the first class session. Any student without proof of a Level 1 certification will be dropped from the class.

ADVISORY: Students should be competent backcountry skiers/snowboarders, i.e., have the ability to travel in the winter environment using the appropriate gear. Students should provide their own shovel, transceiver, probe, and snow-study kit.

REPEATABILITY: May be repeated 1 time.

WLD 128R AVALANCHE AVOIDANCE AND RESCUE

Lecture .5, Lab .25, Units .5

This course is designed for the winter backcountry traveler who wishes to learn or review the basics of avalanche danger evaluation and practice the basics of avalanche rescue techniques. Topics include: avalanche types and characteristics, decision making framework, search and rescue, transceiver practice, and backcountry travel techniques.

Transfers to CSU, UNR

WLD 131 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in areas of special interest. Topics and credit will vary from quarter to quarter and will be included under this cover title published in the schedule for the quarter in which the course will be offered.

Transfers to CSU

WLD 133 OCCUPATIONAL WORK EXPERIENCE-INTERNSHIP

Lecture 0, Lab 0, Units 1-6

Occupational Work Experience Internship is supervised placement at a worksite related to the student's educational or occupational goals. The program will assist students in acquiring desirable work experience, attitudes, and awareness of career opportunities in their chosen field of study.

Transfers to CSU

PREREQUISITE(S): All of the following:

WLD 101 or equivalent.

WLD 104 or equivalent.

WLD 107B or equivalent.

COREQUISITES: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated up to 24 units.

WLD 134 FACILITATION OF EXPERIENTIAL/ADVENTURE BASED LEARNING

Lecture .5, Lab 1.5, Units 1

This is an introductory course designed for individuals to develop awareness and practice skills in facilitation of adventure based/experiential learning. Each class builds on the experiences and learning of the previous sessions, using games, initiatives, and low and high ropes course elements. This course is a combination of classroom and challenge course experiences with emphasis on facilitation skills.

Transfers to CSU, UNR, UC (unit limit)

WLD 137A MOUNTAIN PEAK HIKING

Lecture .25, Lab .5, Units .5

The Mountain Peak Hiking series of courses is designed for the outdoor enthusiast who has always wished to hike one of Tahoe's famous peaks, i.e., Mt. Tallac, Pyramid Peak, Freel Peak, etc. Students will be introduced to all the elements of hiking a large peak, including equipment selection and use, food selection and requirements, hiking methods, topographic map use, and Leave-No-Trace (LNT) ethics.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: It is highly recommended that students are in appropriate physical condition to spend the entire day hiking at elevation.

REPEATABILITY: May be repeated 5 times.

WLD 137B HIKING/WILDERNESS WALKING

Lecture .5, Lab .75, Units .75

This course is designed for those students interested in improving both their hiking fitness and their technical skills related to wilderness walking. Topics covered include Leave-No-Trace (LNT) ethics, equipment selection and use, food selection and requirements, hiking methods, pacing, and endurance.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

WLD 137C WILDFLOWER HIKES

Lecture 1, Lab 2 Units 1.75

This course will introduce students to the diversity of flowers found in the Tahoe Basin through a concentrated series of six day hikes at many of the best trails in the local area. Students will develop their technical hiking skills and be able to identify the groups of flowers, plants, and trees that make up the various ecosystems that surround Lake Tahoe. In addition to basic identification skills, students will learn how plants have evolved various survival and reproductive skills to survive and thrive in this environment. Other topics include: Leave-No-Trace principles (LNT), wildflower hiking strategies, and equipment selection and use. The ultimate objective of this course is to implement specific hiking techniques that help the individual to foster an ongoing appreciation of the beauty and complexity of wildflowers.

Transfers to CSU, UNR

ADVISORY: Students should be in the appropriate physical fitness to hike up to six miles with elevation gains of 1500 ft.

REPEATABILITY: May be repeated 5 times

WLD 140A WHITEWATER RAFTING: BEGINNING

Lecture 1.25, Lab 1, Units 1.5

This course is designed for students interested in learning an in-depth introduction to whitewater rafting. Students will spend the majority of the class on an overnight rafting trip on the East Fork of the Carson River. Topics include: safe river travel, river equipment, hydrology, geomorphology, reading water, paddle skills, guide skills, and river stewardship.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: WLD 140A, 140B, 140C, and 140F may be taken for a combined total of 6 times.

WLD 140B WHITEWATER RAFTING: INTERMEDIATE

Lecture 1.25 Lab 1, Units 1.5

This course is designed for those students who already possess basic skills related to whitewater rafting. Students will spend the majority of the course on an overnight rafting on one of the Sierra's Class III-IV rivers. Course content includes group organization, multi-day river trip planning, paddle strokes, advanced boat maneuvers, guide commands, giving a safety talk, safety and rescue techniques, and fundamental hydrology.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: WLD 140A, 140F, or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: WLD 140A, 140B, 140C, and 140F may be taken for a combined total of 6 times.

WLD 140C WHITEWATER GUIDE SCHOOL*Lecture 1 Lab 6, Units 3*

This course is an intensive field training to prepare students to be commercial river guides. Course topics include: raft navigation, boat rigging, camp set up, equipment maintenance, safety talks, paddle talks, interpretative skills, swimming skills, and throw bag practice.

Transfers to CSU

ADVISORY: Students should be both physically and mentally prepared to spend multiple days on the river. Preparation may include a wet suit or a dry suit. Students should be good swimmers and comfortable in the water.

REPEATABILITY: May be repeated 5 times.

NOTE: WLD 140A, 140B, 140C, and 140F may be taken for a combined total of 6 times.

WLD 140F WHITEWATER RAFTING: BASICS*Lecture .25 Lab .5, Units .5*

This course is designed for the outdoor enthusiast who wishes to learn or review the basics of whitewater rafting. Students will spend the majority of the course whitewater rafting. The course familiarizes students with the following: safe river travel, river equipment, hydrology, paddle techniques, and river stewardship.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: WLD 140A, 140B, 140C, and 140F may be taken for a combined total of 6 times.

WLD 143A FLY FISHING: BEGINNING*Lecture 1 Lab .75, Units 1.25*

This course is designed for those interested in learning an in-depth introduction to fly fishing. Students will be introduced to fly fishing equipment, fly casting, stream and lake entomology, trout behavior, surface and subsurface fishing techniques, knot tying and rigging, reading water, water ecology, catch and release techniques, and fishing local waters.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: WLD 143A and 143F may be taken for a combined total of 6 times.

WLD 143F FLY FISHING: BASICS*Lecture .25 Lab .5, Units .5*

This course is designed for the outdoor enthusiast who wishes to learn or review the basics of fly fishing. Topics include: equipment selection, fly casting, fly fishing knots, reading water, fishing techniques, trout behavior, and local waters.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: WLD 143A and 143F may be taken for a combined total of 6 times.

WLD 146A SEA KAYAKING: BEGINNING*Lecture .75, Lab .75, Units 1*

This course is designed for students interested in learning an in-depth introduction to sea kayaking. Students will spend the majority of the class kayaking on Lake Tahoe. Topics include: equipment use, paddling strokes, rescues, boating safety, a brief overview of navigation, and water stewardship.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: WLD 146A, 146B, 146E, and 146F may be taken for a combined total of 6 times.

WLD 146B SEA KAYAKING: CAMPING*Lecture .75, Lab 1, Units 1*

This course is designed for students who already possess basic skills related to sea kayaking and want to expand their experience into overnight sea kayaking trips. Students will spend the majority of the course on a two-day paddling trip with an overnight camping trip. The course curriculum will focus on necessary kayak camping equipment, navigation, trip planning, boating safety, and environmental stewardship.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: WLD 146A, 146E, or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: WLD 146A, 146B, 146E, and 146F may be taken for a combined total of 6 times.

WLD 146E KAYAKING LAKE TAHOE'S WATER TRAIL*Lecture .5, Lab .5, Units .75*

This course is designed for those individuals wanting to increase their kayaking experience and knowledge while exploring Lake Tahoe's Water Trail. Topics include history of the area, environmental ethics, and tips on long distance paddling skills. Students must have a familiarity and proficiency with both paddling strokes and rescue scenarios.

Transfers to CSU, UNR, UC (unit limit)

ADVISORY: WLD 146A, 146B, 146E, or equivalent.

REPEATABILITY: May be repeated 5 times.

NOTE: WLD 146A, 146B, 146E, and 146F may be taken for a combined total of 6 times.

WLD 146F SEA KAYAKING: INTRODUCTION TO BASICS*Lecture .25, Lab .5, Units .5*

This course is designed to provide an overview of basic sea kayaking skills. It is appropriate for both beginning students interested in learning sea kayaking basics and experienced kayakers wishing to fine-tune or review basic strokes and rescue techniques. Topics include: familiarization with basic equipment, introduction/review of basic paddling skills, rescue techniques, and boating safety. Students will spend the majority of the course on Lake Tahoe.

Transfers to CSU, UNR, UC (unit limit)

REPEATABILITY: May be repeated 5 times.

NOTE: WLD 146A, 146B, 146E, and 146F may be taken for a combined total of 6 times.

WLD 165A SUNSET HIKE: LNT (LEAVE-NO-TRACE)*Lecture .25, Lab .25, Units .25*

The Sunset Hike series of courses is designed for the outdoor enthusiast who wishes to learn various technical skills. This particular Sunset Hike focuses not only on hiking techniques, but also on LNT (Leave-No-Trace) principles. Principles include: planning, preparation, route and site selection, waste disposal, and other ways of minimizing the human impact on the backcountry environment.

WLD 165B SUNSET HIKE: MAP AND COMPASS*Lecture .25, Lab .25, Units .25*

The Sunset Hike series of courses is designed for the outdoor enthusiast who wishes to learn various technical skills. This particular Sunset Hike focuses not only on hiking techniques, but also on orienteering skills using topographic maps and compasses. Students will learn to read a map and understand the signs and symbols, shades and coloring, contour lines, and declination.

WLD 165C SUNSET HIKE: BACKCOUNTRY FOODS

Lecture .25, Lab .25, Units .25

The Sunset Hike series of courses is designed for the outdoor enthusiast who wishes to learn various technical skills. This particular Sunset Hike focuses not only on hiking techniques, but also on backcountry cuisine. Topics include: nutrition, packability, caloric intake, proper portioning, and tastefulness of backcountry foods. Students will have the opportunity to create and share their favorite trail snacks.

WLD 165D SUNSET HIKE: WOMEN'S TOPICS IN WILDERNESS EDUCATION

Lecture .25, Lab .25, Units .25

The Sunset Hike series of courses is designed for the outdoor enthusiast who wishes to learn various technical skills. The emphasis of this particular Sunset Hike will be not only on hiking techniques, but also on the issues relative to women as they engage in backcountry activities. The course focuses on women's unique history with the wilderness, their physiology, their learning styles, and their group behaviors that enable them to either struggle or succeed in the backcountry environment.

WLD 191 SPECIAL TOPICS

Units 1-4

This course is designed to meet the needs of students for studies in occupational, technical or college preparatory areas of special interest. Topics and credits will vary from quarter to quarter and will be included under this cover title published in the schedule of classes for the quarter in which the course will be offered.

WLD 231 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

Transfers to CSU

WLD 291 SPECIAL PROJECTS

Units 1-4

This course is designed for students wishing to pursue a specific topic of study in occupational, technical or college preparatory areas. Emphasis is placed on individualized instruction and student project planning. The student must arrange for project and credit approval by the instructor prior to registering for this course.

WORK EXPERIENCE

WKX 101 GENERAL WORK EXPERIENCE

Lecture 0, Lab 0, Units 1-5

General Work Experience is supervised employment or volunteer work intended to assist students in acquiring desirable work experience, attitudes, and career awareness through employment training in occupational fields. The work experience need not be related to the student's educational goals and may be used to explore and clarify academic and career options. May be repeated for a total of nine (9) units.

Transfers to CSU

COREQUISITES: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated for a total of 9 units.

OCCUPATIONAL WORK EXPERIENCE COURSES:

See course descriptions under these specific areas: BSN, CAO, CIS, COM, CNT, COU, CRJ, CUL, ECE, EDU, EVS, FIR, FOR, HEA, HRM, MOA, RES, and THE.

WKX 102 GENERAL WORK EXPERIENCE – INTERNSHIP

Lecture 0, Lab 0, Units 1-5

General Work Experience-Internship is supervised placement intended to assist students in acquiring desirable work experience, attitudes, and career awareness through employment training in occupational fields. The internship need not be related to the student's educational goals and may be used to explore and clarify academic and career options. May be repeated for a total of nine (9) units.

Transfers to CSU

COREQUISITES: Students must be available to work or volunteer 4 to 40 hours per week for an approved business and must have an application on file each quarter enrolled.

REPEATABILITY: May be repeated for a total of 9 units.

OCCUPATIONAL INTERNSHIP COURSES:

See course descriptions under these specific areas: BSN, CAO, CIS, COM, CNT, COU, CRJ, CUL, ECE, EDU, EVS, FIR, FOR, HEA, HRM, MOA, RES, THE, and WLD.

Staff, Faculty and Administrators

Welcome You to LTCC

CLASSIFIED STAFF

Bill Abiko	Computer Support Specialist	Kurt Munger	Theatre/Production Technician
Karen Allen	Operations Assistant - Child Development Center	Diana Nelson	Art Studio Technician
Lucas Babson	Computer Technician	Paul Neves	Facilities and Maintenance Technician
Virgilio Ballesteros	Custodian	Julia Nold	Infant/Toddler Teacher - Child Development Center
Ken Blach	Alternate Media Specialist, Disability Resource Center	Mark Norton	Accountant
Julie Booth	Administrative Assistant to the Dean of Student Services	Ramiro Oropeza	Weekend Custodian
Gayle Bradshaw	Admissions and Records Specialist	Georgillis Ortega	Admissions and Records Technician II
Frances Brady	Administrative Assistant to the Vice President of Business Services	Karen Owens	Admissions and Records Technician II
Craig Brinkman	Project Manager, Systems Integration	Bob Peart	Reprographics Technician
Jennifer Bronken	Tahoe Parents Nursery School Coordinator	Renee Pegues	Administrative Assistant to the Dean
Diana Brown	Preschool Teacher - Child Development Center	Teresa Peshon	Human Resources Assistant
Gary Brusco	Groundskeeper/Custodian	Kellie Prigian	Accounting Assistant
David Burba	Computer Programmer/Analyst	Christina Proctor	Public Information Officer
Kathie Byran-French	Technician - Maintenance & Operations	Guy Przytakoski	Custodian
Julie Cathie	Financial Aid Director	America Ramirez	Financial Aid Technician
Lisa Corthell	CalWORKS/Financial Aid Program Assistant	Arturo Rangel	ESL Program Technician (Bilingual)
Drusilla Cunningham	Admissions & Records Document Imaging Technician	Reyna Reger	Admissions and Records Technician I (Bilingual)
Martin Currie	Computer Programmer/Analyst	Jamie Rhone	Office Assistant - Vocational Programs
Ron Eames	Groundskeeper/Custodian	Vernice Rianda	Bookstore Clerk
Tom Finn	Director of Maintenance and Operations	Francis Rider	Art Studio Technician
Rori Giannini	Bookstore Assistant	Donald Rives	Custodian
Craig Grasteit	Facilities & Maintenance Technician	Cindy Lu Robinson	Cook - Child Development Center
Jose Gutierrez	Groundskeeper/Custodian	Bob Roseblade	Purchasing Technician
Richard Gutierrez	Custodian	Ricki Rozga	Schedule Production Assistant
Melonie Guttry	Executive Director, Foundation	Denise Russell	Bookstore Manager
Avril Harcourt	Accounting Assistant	Marc Sabella	Director of Fiscal Services
Jaymi Hardy	Administrative Assistant to the Vice President of Academic Affairs and Student Services	Shawna Sarver	Lead Teacher, Child Development Center
Cynthia Hertzog	Payroll Technician	Jonathan Schank	Library Assistant II
Ryan Hunter	Computer Systems Technician	LueAnn Schmidt	DRC Assistant
Ginger Janssen	Graphic Arts Specialist	Brenda Seals	Custodian - Child Development Center
Cheri Jones	Director of Admissions and Records	Marla Sharp	Program Technician - Physical Education
Sandi Jorgensen	Administrative Assistant to the Dean of Instruction	Mia Smyrski	Admissions & Records Technician I
Davin Kangas	Custodian	Michelle Sower	Director, Child Development Center
Bill King	Director of Computer Services	Jen Spina	International Education Program Coordinator
Pat Leonard-Heffner	Media Specialist	Katherine Strain	Laboratory Specialist - Science
Diane Lewis	Library Assistant I	Lisa Strauss	Child Development Center - Teacher
Terry Livesay	Office Assistant - Instruction	Janice Tait	Program Technician - World Languages
Danny Masellones	Human Resources Technician	Carl Taylor	Custodian
Aaron McVean	Director of Institutional Research and Planning	Lori Thorne	Administrative Assistant to the Superintendent/President
Erika Mendoza	Office Assistant - Student Services Bilingual Spanish	Jim Turegano	Custodian
Carol Merkle	Program Technician - Learning Support Complex/Computer Technology Wing	Cynthia Tyndall	Schedule Production Specialist
Peggy Meyer	Library Assistant II	Rose Valero	Library Clerk
Kirby Moulton	Computer Systems Technician	Juan Veneros	Accounting Assistant
		Susan Walter	Director of Human Resources
		Kathy White	Office Assistant, Superintendent/President's Office
		Theodora Yelle	Infant/Toddler Teacher - Child Development Center
		Aileen Yure	Tahoe Parents Nursery School Coordinator

Abbreviations & Terms

In reading college catalogs, schedules of classes, and other printed materials, it will help to be familiar with the following abbreviations and terms:

AA	Associate in Arts Degree (2-year college degree)	Articulation Agreement	Formal course agreements between schools which guarantee course equivalency credit.
A&R	Admissions and Records Office		
BA	Bachelor of Arts Degree (4-year college degree)	Audit	Students may audit certain courses after they have taken the course for credit and exhausted the repeat possibilities.
BOGFW	Board of Governor's Fee Waiver		
BS	Bachelor of Science Degree (4-year college degree)	BOGFW	A program that waives the enrollment and certain service fees for students who qualify.
CDC	Child Development Center		
CSU	California State University	Certification	A process in which the community college verifies that the student transferring to any of the CSU or UC campuses has completed the general education requirements.
DRC	Disability Resource Center		
EOP&S	Extended Opportunity Programs and Services	Challenge Exam	A test, typically the comprehensive final exam, students may take for certain designated courses in order to earn credit by examination.
ESL	English as a Second Language		
FAFSA	Free Application for Federal Student Aid	Corequisite	A course students are required to complete simultaneously (or prior) to enrollment in another course.
FFELP	Federal Family Educational Loan Program		
GE	General Education	Credit	Also known as "unit." Measure of credit/unit earned for a course as determined by course hours, quantity of work in the course, type of instruction, and successful course completion.
GPA	Grade Point Average		
IGETC	Intersegmental General Education Transfer Curriculum	Ed Plan	A document generated by a student and LTCC counselor that identifies the student's educational goal and the plan for achieving that goal.
LTCC	Lake Tahoe Community College		
MSC	Math Success Center	Electives	Courses that are not required subjects, but are taken by the student, out of personal interest, for unit credit.
SUCCESS	Scheduling Using Counseling and Comprehensive Evaluation for Student Success	Finals	Exams administered at the end of the term to measure comprehension of course material.
TAA	Transfer Admissions Agreement		
TBA	To Be Announced	Freshman	A student who has completed less than 45 quarter units or 30 semester units.
TLC	Tutoring and Learning Center		
UC	University of California	Full-time Student	A student registered in a minimum of 12 quarter units per regular term or 6 quarter units during the summer session.
UNR	University of Nevada Reno		
Academic Probation	Status of a student who has attempted at least 12 quarter units and earned a cumulative GPA below 2.0.	General Education	Courses that all students must complete to obtain a degree. Most are prescribed by state law.
Academic Renewal	A policy that allows a student who meets specific criteria to have disregarded a portion of previous LTCC substandard college work which is not reflective of the student's demonstrated ability.		
Accreditation	A system of voluntary, non-governmental self-regulation whereby an institution evaluates itself in accordance with standards of good practice and accepts the obligation to undergo periodic evaluation through self study and professional peer review. LTCC is accredited by the Western Association of Schools and Colleges recognized by the Council for Higher Education Accreditation and the US Department of Education.		
Advisories	Recommended preparation which students are advised but not required to meet before or in conjunction with enrollment in a course or educational program.		

Good Neighbor Policy	A prescribed means by which Nevada residents may attend LTCC at a reduced out-of-state rate per unit.	Registration	Official process of enrolling in course and paying the required fees.
Highest Honors	Honors at graduation bestowed on students with a cumulative LTCC grade point average of 4.0.	Resident	For California Community College fee purposes, a resident is one who has established both physical presence and intent to make California his/her permanent home for one year and one day prior to the first day of the term for which he/she wishes to attend.
Honors	Honors at graduation bestowed on students with a cumulative LTCC grade point average of not less than 3.65 or more than 3.99.	Semester	The academic year from September to June is typically divided into two 18 week terms. Students receive grades at the end of each semester.
Incomplete Grade	"I" symbol on the student record indicating incomplete academic work because of an unforeseeable emergency and/or justifiable reasons at the end of the term. Students must petition the instructor in order to receive this notation.	Sophomore	A student who has completed between 45 and 89 quarter units or 30-59 semester units.
Internship	Internships offer students with identified majors an opportunity to work closely with experts in their field of interest. Students gain first-hand knowledge of the field and develop skills and experience which enhance their future employability.	Staff	Notation in the quarterly schedule of classes indicating that a specific faculty member has not been identified for the course at the time of publication.
Lower Division	Freshman or Sophomore level course work.	Transcript	A copy of a student's academic record at a specific high school or college.
Major	A group of required courses in a designated field of study.	Transfer Courses	Classes which are accepted for credit at four-year colleges toward a Bachelor's degree. The course descriptions in this catalog specify whether a course is transferable to UC, CSU and UNR.
Matriculation	A process which brings LTCC and a student into an agreement for the purpose of realizing the student's educational objectives.	Transfer Admission Agreement	Guaranteed admission agreements with participating universities for eligible students.
Non-degree Applicable	Certain courses which do not count towards the 90-unit requirement for an A.A. Degree at LTCC.	Undergraduate	College freshman, sophomore, junior or senior.
Pass/No Pass	A grading option for certain designated courses.	Unit	Amount of credit given to a course. (See also "credit".)
Prerequisite	Requirement students must meet prior to enrolling in a particular course.	Upper Division	Junior and senior level course work at a four-year college or university.
Prerequisite Appeal	A process to petition the requirements students must complete prior to enrolling in a particular course.	WebReg	Online registration system used by students to register for classes, pay fees, check grades, and view unofficial transcripts.
Probation	Warning status that the proper academic or progress standard is not being met.	Withdrawal	Process by which the student officially drops any course in a term. Failure to officially drop a course can result in a grade of "F" or "N/P".
Progress Probation	Status of a student who has attempted at least 18 units and earned 50% or more "W's, I's, or NP's."	Work Experience	College credit can be earned by students who are currently employed. This program encourages participants to identify new and challenging objectives on the job which can result in improved relationships at work, increased visibility, and better work habits.
Quarter	The academic year from September to June is divided into three 12 week terms. Students receive grades at the end of each quarter.
