

CDPH Guidance for the Use of Face Coverings 2021 LTCC Commencement

This guidance took effect on June 15, 2021

The COVID-19 vaccines are effective in preventing infection, disease, and spread. Unvaccinated persons are more likely to get infected and spread the virus which is transmitted through the air and concentrates indoors. About 15% of California's population remains without the option for vaccination (children under 12 years old are not yet eligible) and risk for COVID-19 exposure and infection will remain until we reach full community immunity.

Masks are not required for fully vaccinated individuals*

*In settings where masks are required only for unvaccinated individuals, businesses, venue operators or hosts may choose to:

- Provide information to all patrons, guests and attendees regarding vaccination requirements and allow vaccinated individuals to self-attest that they are in compliance prior to entry.

**Masks are strongly
encouraged/recommended for
unvaccinated people****

***The District is not responsible for the transmission of any communicable disease, including COVID-19.*
